

The Best New Cars Make The Best Used Cars

*The car may not be new,
but the reputation never wears out.*

Over 1.5 million people agree. The best part of Toyota Certified Used Vehicles is the Toyota part.

A Toyota Certified Used Vehicle is, first and foremost, a Toyota. So you're starting out with a used car that has the same quality and dependability that Toyotas are famous for when they're new. That's why over 1.5 million people have purchased Toyota Certified Used Vehicles!¹ But we work hard to earn that kind of loyalty. Every certified Toyota is backed by a 7-year/100,000-mile limited powertrain warranty.² And every certified Toyota must also pass a rigorous 160-point quality assurance inspection by factory-trained technicians – something only Toyota can do. Yes, there are plenty of certified used vehicles out there, but they don't have Toyota's reputation for quality to live up to. Get the complete story of Toyota Certified Used Vehicles.
