O5 MR2 SPYDER

MR2 Spyder shown in Absolutely Red with available Black-leather trim

05 MODEL GRADES

Here's a roll of tickets to one of the best rides going. The 2005 MR2 Spyder has a mid-mounted engine for exceptional balance and an outstanding *power-to-weight ratio* for cornering and acceleration that rivals the roller coaster. Available limited-slip differential and sequential manual transmission let you wring the most fun out of every curve. So fire it up, and keep your arms and legs inside the vehicle.

MR2 Spyder shown in Phantom Gray Pearl with available Red-leather trim and 6-speed sequential manual transmission

05 INTERIORS

Your sitting heart rate just went up. When you're at the wheel of the MR2 Spyder, explosive reactions aren't confined to the engine. An available 6-speed sequential manual transmission is one reason you're feeling so energized. This race-derived feature provides all the thrills of a manual transmission without the inconvenience of a clutch pedal. And then there's the MR2 Spyder's perfectly balanced mid-engine layout: no back seat, no back-seat drivers. And the drilled aluminum sport pedals. The available Black-leather-trimmed seats. The black-on-white gauges...there are other ways to elevate your heart rate. But none that are this exhilarating.

6-speed sequential manual transmission tachometer.
