xA MODEL YEAR 2006 SCION.COM

fine tuned

no haggle, no hassle

Scion's "Pure Price" Experience

Build your Scion

Log onto Scion.com and go to Build Your Scion. Choose your model, transmission and color. Check out the extensive standard features. Pick your favorites from the accessories.

Save your masterpiece

Save your configuration on scion.com, or print out a personalized e-brochure, or e-mail it to the dealer of choice, or fill out an online credit application.

What to expect from your Scion dealer

Scion delivers a "pure price" purchase experience whereby all products and services offered by dealers are menu priced based on current market conditions.

From your vehicle to accessories to the finance rate, it's a "what you see is what you get" sales approach. It's simple, straightforward and most important, respectful of your time.

Experience it for yourself and if you have any questions or comments, visit us at Scion.com for a live chat with one of our Scion Customer Experience representatives.

Scion's Pure Price purchase experience means no haggle, no hassle. The price you pay for all products and services offered equals the dealership's posted and advertised price. Price menus are clearly posted in the dealership showroom for all products and services.

Interior

The **xA** *gives you more.*

Though it carries the lowest base price of any Scion, the xA comes loaded with Standard Features, all at no extra charge.

On the inside, you get a 160 watt maximum output Pioneer CD audio system with six speakers and a mini-jack for amplifying your MP3 player. You also get power windows, locks, and mirrors, air conditioning, tilt steering, front bucket seats, and even a handy first aid kit.

On the outside, halogen headlamps and anti-lock brakes (ABS) help keep you safe while a chrome exhaust tip adds the exclamation point.

To learn even more of the xA's Standard Features, refer to the chart on page 5.

YOU HAVE HIGH STANDARDS? SO DO WE.

Air conditioning? A thumping six-speaker sound system? Power windows, mirrors, and door locks? Anti-lock brakes? What other companies call options, we call Standard Features. That means they come standard on every Scion.

INTERIOR/CONVENIENCE FEATURES	xA	xB	tC

(j) tC includes four-wheel disc brakes

*The Scion drivers and front passengers airbags and drivers knee airbag are Supplemental Restraint Systems (SRS). The drivers, front passengers and drivers-knee airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceeds the design threshold level. In all other accidents, the airbags will not deploy. To decrease the risk of injury from a deploying airbag, always wear your seatbelt, sit upright in the middle of the seat, and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of a deploying airbag SRS may cause serious injury or death. Please see your Owners Manual for further instructions. **Scion Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further instructions. *** Scion's Tire Pressure Monitor alerts driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the Monitor. See your Owner's Manual for details. Standard equipment, options, accessories, and other information is subject to change.

S = Standard, N/A = Not Available, A = Available

Scion is a marque of Toyota Motor Sales, U.S.A., Inc. 00430-mag07-06

Accessory Introduction

Your car says something about you. Tell it what to say.

In the interest of suiting your Scion to your personality and tastes, we offer a multitude of accessories. And not just average stuff like floor mats and trunk organizers. Think more along the lines of strut bars, and subwoofers, components that will compete with what you'll find in any aftermarket shop. And our accessories won't void your factory warranty; in fact, they're all covered under the Scion warranty.

That's the good news. The better news is that you buy each Scion accessory separately. That means no overstuffed and overpriced "factory packages" chock full of features you never even asked for. Instead, you pick and choose every single add-on you want. You want 7-spoke wheels, that's all, nothing else? As you wish.

All of the extras you choose can be installed by your dealer before you even purchase your Scion (except the TRD Supercharger). Just go to Scion.com and configure your car, send the info to your nearest dealer, and your Scion will be customized and delivered exactly per your specifications. Or if you want to keep it stock for now and add accessories later, that's fine, too.

Personalization is optional. It's up to you. Your car says something about you, and no one should put words in your mouth.

*Required monthly subscription sold separately. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States. **The Scion driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in certain types of (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceeds the design threshold level. The side airbags and side curtain airbags are designed to inflate in certain types of severe side-impact collisions. In all other accidents, the airbags will not inflate. To decrease the risk of injury from a deploying airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not use rearward facing child seats in any front passenger seat. The force of a deploying airbag SRS may cause serious injury or death. Please see your Owner's Manual for further instructions. ***TRD USA, Inc. (Toyota Racing Development), an aftermarket performance parts company, markets a line of parts through some Scion dealers. These aftermarket parts are not Genuine Scion parts, and cannot be utilized for Scion warranty replacement. TRD parts are warranted by TRD, not Scion. See the TRD warranty for details. Note that certain aftermarket equipment may not be street legal in all states and may impact your vehicle's performance or safety. Standard equipment, options, accessories, and other information is subject to change.

Sport Muffler

TRD *Accessories*

From the racetrack to the street, Toyota Racing Development (TRD) develops performance aftermarket parts for Toyota vehicles. TRD has stepped it up by developing a comprehensive line of accessories, made especially for Scion. When you're ready to take your Scion's performance to the next level, TRD will help get you going -

fast.

Toyota Racing Development (TRD) Accessories*

TRD item	xA	xB	tC	Description
High-Performance Air Filter	•	•	•	High-performance reusable air filter design can help provide greater and smoother air flow and can help reduce turbulence and increase combustion efficiency. The filter body's 100% polyurethane construction can promote longer life even in the most extreme conditions.
Lowering Spring Set	•	•	•	Lower xA 20mm, xB 30mm, and tC 28mm (Front), 33mm (Rear). Springs are finished in Pearl White.
Performance Shock Set	•	•	•	Direct replacement for the OE front struts and rear shocks. The revised valving provides a more compliant ride with the TRD Lowering Springs.
High-Performance Oil Filter	•	•	•	Features a heavy gauge steel mounting plate that can reduce flexing under high-RPM conditions.
Performance Clutch Assembly	•	•	•	With increased strength and clamping force, a Performance Clutch provides quicker engagement and faster shifts during aggressive acceleration.
Quickshifter	•	•	•	Shortens throws on manual transmission.
TRD Radiator Cap	N/A	N/A	•	Direct replacement for the standard tC radiator cap and handles pressures of 1.1 kg/cm2.
Sport Muffler	•	•	•	Stainless Steel with wide diameter tip.
Leather Shift Knob	•	•	•	Leather Trimmed.
Sequential Shift Light Kit	•	•	•	Racing style high intensity indicator notes optimal shift points, with record/playback function.
Strut Tie Bar	•	•	•	Rigidly links the top mounting points of the two front MacPherson strut towers.
Supercharger**	N/A	N/A	•	Supercharger develops higher engine output by forcing increased airflow to the cylinders.

*TRD USA, Inc (Toyota Racing Development), an aftermarket performance parts company, markets a line of parts through some Scion dealers. These aftermarket parts are not Genuine Scion parts, and cannot be utilized for Scion warranty replacement. TRD parts are warranted by TRD, not Scion. See the TRD warranty for details. Note that certain aftermarket equipment may not be street legal in all states and may impact your vehicle's performance or safety.

**The tC Supercharger System is to be sold only as a dealer installed or over the counter option, after retail sale of the vehicle. The Supercharger may not be sold to the customer at the same time as the new vehicle and may not be financed together with the new vehicle.

Scion Audio

Scions were designed with music in mind.

To maximize your listening experience, each Scion comes equipped with a Pioneer AM/FM/CD sound system that pumps 160 watts (max power output) through six speakers (including two tweeters). The powerful Pioneer head unit also plays WMA and MP3 CDs and offers MP3 file text display. The proprietary Scion Sound Processing (SSP) and Digital Sound Processing (DSP) Sound Equalization will bring your music alive. And should you want to go beyond FM and get Sirius or XM, the stereo comes with Satellite Radio Control capability.*

*Required monthly subscription sold separately. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States.

iPod Compatible Pioneer Audio System Upgrade

Scion is proud to bring the iPod experience to the car, with a Pioneer AM/FM/CD head unit with iPod control now available as an accessory upgrade for all 2006 Scions. These are the first cars in their class to integrate track, artist and album information from the iPod into a one-line display on the head unit's screen—making your stereo an extension of your iPod. Connectivity is achieved by simply plugging in your iPod via a connector cable. The result is outstanding sound quality through the car's stereo system, while continuously charging your iPod. You control your music through the head unit, or through buttons conveniently located on the steering wheel. The MSRP for this accessory upgrade is only \$260, which includes installation.

iPod Connection (iPod not included)

Upgrade Features:

- iPod Connection
- Charges any iPod with a dock connector
- Up to 160 Watts of power (max power output)
- Built-In DSP Sound Equalization
- Scion Sound Processing (SSP)
- Automatic Sound Levelizer (ASL)
- SRT function
- Customized Welcome Screen
- Steering Wheel Control Capable
- Multi Selector
- MP3/WMA Compressed Audio Playback
- MP3 File Text Capability
- Satellite Radio Control (Satellite Radio Tuner Optional)
- Mini-Audio Jack AUX Input
- 10 Color Change LCD Display

Easter Eggs

The Pioneer head unit features a few Easter eggs, or hidden special features, that you can access through the "Secret Mode." To access the "Secret Mode," do the following.

1. With the head unit on, turn the key from the ACC position to the off position.
2. Press and hold MUTE button, and turn the key to ACC. A horizontal line in the LCD display will start flashing.
3. Within 15 seconds use any of the sequences below to customize your head unit's display. Repeat the sequence to return to the original screen.

"WhatMovesYou"

Press and hold "Mute" and "6" simultaneously while turning ACC off.

"Self ExpreScion"

Press and hold "Mute" and "5" simultaneously while turning ACC off.

"サイオン" ("Scion" in Japanese)

From CD track number 2, Press and hold "Mute" and "3" simultaneously and turn ACC off.

Custom Setting

Please refer to your owners manual for custom screen settings

Scion Sound Processing (SSP)

In every Scion, each speaker is tuned to match the specifications of the Scion Sound Processor. With SSP, you can give your music a different sound and feel at the touch of a button.

SSP features three settings:

- SSP Neutral: Keeps the music in the background, with balanced bass and treble.
- SSP Hear: Enhances the highs and lows.
- SSP Feel: Gives your system a workout.

Scion Sound Processing

Available Satellite Radio Antenna (shown on tC)

Satellite Radio

Are you tired of the same old FM radio stations, with the same songs every hour, endless commercial breaks, bad reception, and puritanical censorship policies? Step up to satellite radio. Satellite offers a huge variety of channels, commercial-free and uncensored, and you'll never go out of signal range.

The standard upgraded Pioneer sound system features Satellite Radio Control capability, good to go when you accessorize with the optional satellite radio tuner and antenna. And Scion now offers both of the most popular satellite radio services in the country: **XM** and **Sirius**.

With two powerful satellites ("Rock" and "Roll") orbiting 22,000 miles up, America's most popular satellite radio service gives you the power to choose what you want to hear—wherever you might find yourself. XM* features over 150 digital channels—100% commercial-free music, over 30 channels of news, sports, talk and entertainment, and the deepest playlist in the industry with access to over 2 million titles.

And to keep your Scion out of a jam, the XM Instant Traffic and Weather channels provide constant, continuous, real-time updates on conditions in 21 major metropolitan areas across the United States—24 hours a day, seven days a week.

SIRIUS* delivers digital quality from three satellites in constant orbit over the lower 48 states. For the price of one CD each month, SIRIUS offers over 120 channels of music, sports, and entertainment. Roll with the ups and downs of play-by-play coverage of the NFL, NBA, and NHL. Get uncensored hip hop on the Shade 45 channel, where Marshall bites his thumb at the FCC. Pose with the Faction channel, with hosts Kelly Slater, Tony Hawk, and Bam Margera. Or embark a long, strange tangent with Bill Walton as he waxes poetic. Whatever your trip might be, SIRIUS has you covered, from the left coast to right, from Howard Stern all the way to the Fox News Channel.

*Required monthly subscription sold separately. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States.

10" VSE Bazoooka Subwoofer (tC)

8" Bazoooka Subwoofer (xA/xB)

Bazoooka Subwoofer

When you're ready to test the low-end theory, look no further than Bazoooka Mobile Audio. Scion proudly offers two types of amplified Bazoooka subwoofers, both with dual voice coils and 100 watts of power. In the xA and xB, the legendary 8" Bazoooka tube fits conveniently into the cargo space.

For the tC, Bazoooka created a specially designed enclosure that hugs the contours of the right rear cargo wall. The 10" woofer definitely gets down, providing thunderous lows without sacrificing storage space.
