Universal Media Interface

Four Products in one.

Universal Media Interface

The Universal Media Interface (UMI) from Mercedes-Benz allows the standard radio (Audio 20 CD) in the new C-Class to be upgraded to an innovative and multifunctional navigation and entertainment center. In addition to the advantages of 3D GPS map navigation, and included lifetime traffic, the Universal Media Interface allows the user to play back their favorite songs from a range of portable devices via the audio interface in the glove compartment. A whole range of sources—one solution: the UMI gets your music moving. It is operated using the controller on the center console.

► Map Navigation²

Delays. Detours. Traffic. Construction. Avoid the unnecessary stress of stop-and-go with the state-of-the-art technology in the Universal Media Interface (UMI) from Mercedes-Benz. The UMI offers cutting-edge 3D map navigation to help you get to your destination without worry, hassles or wait.

► Lifetime Traffic Assistance³

To make your drive even more enjoyable, UMI offers a lifetime real-time route assistance available 24 hours a day, 7 days a week. No additional cost.

► iPod® & iPhone® Integration⁴

Seamless integration shines with this one. Connect your iPhone or iPod and settle in to its familiar menu structure with the music you love. All music functions are accessed through the central controller.

Phone functionality of the iPhone is not supported

► USB Interface

Listen to your favorite MP3 playlists by simply connecting any USB-based MP3 player or USB stick to the audio interface in the glovebox. Audio controls are easily accessed via the Audio CD menu.

► AUX Interface⁵

To us, nothing is truly forgotten – including the timelessness of classic favorites. Bring the past into the present by connecting your cassette or media player to the AUX-IN port on the audio interface.

► Wireless Audio Streaming⁶

Make the most of your mobile phone wherever you go. Simply activate your Bluetooth connection, turn the key and feel the freedom of bringing your world of music and rhythm with you on the road. Select your MP3 songs using the central controller.

² UMI map data represents the 48 contiguous United States and Canada. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. Map update incl. Alaska, Hawaii, Puerto Rico and Virgin Islands expected in fall 2009.

³ Traffic Information is not available in all areas.

⁴ iPod and iPhone are registered products of Apple Computer. All iPod and iPhone devices are sold separately. UMI supports USB charging (e.g. iPhone 3G).

⁵ Control of devices connected via AUX-In port (non iPod/USB) is limited to volume control.

⁶ Audio streaming and mobile phone functions cannot be used simultaneously. UMI and audio device must first be paired before use. Required Bluetooth profile is not supported by all phones.

Mercedes-Benz COMAND Navigation Map Update⁷

The world is changing every day.

18/19

▶ The Mercedes-Benz COMAND Navigation System is a factory-installed in dash console that combines Global Positioning System (GPS) technology with detailed electronic maps to allow you to plan trips, navigate detours, and help prevent you from getting lost. (Vehicle location is determined by the GPS system.)

The system covers more than 6.2 million miles of navigable roads in the 48 contiguous United States, plus Hawaii and Canada.

The Navigation System also offers 1.7 million Points Of Interest in 40 categories including ATMs, hospitals, hotels, airports, museums and more.

Navigation Map Update⁷

Your Mercedes-Benz COMAND Navigation System relies upon a detailed electronic map to guide you to your destinations and help you find the services and attractions that you need and want in your daily life.

But things are constantly changing out there. Roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigation data is updated every year. That is why Mercedes-Benz makes new, updated navigation data available to ensure that you always have the most current available navigation information.

⁷ COMAND Navigation system data includes the United States, Canada, Puerto Rico, Hawaii and Virgin Islands. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place.
