Some people find it hard to believe that a driving holiday can provide thrills. We beg to differ. With the Porsche Travel Club, you can relax while enjoying exhilarating experiences in a number of attractive travel destinations and on every mile in between. We provide everything from preparing fascinating itineraries along winding roads – or, if you prefer, off road – to carefully selecting exclusive hotels and restaurants. All of our tours have one thing in common: plenty of driving pleasure.

We also offer customised packages for corporate clients: our holidays are the ideal way to motivate your employees or show your appreciation to customers. We can adapt the itinerary to create just the right package to meet your individual requirements.

## About us

The services provided by the Porsche Travel Club differ significantly from the usual type of tours available. After all, we believe that what you are travelling in can be just as important as delightful destinations and interesting itineraries. All of our tours are complete packages, which means we take responsibility for all organisational aspects from accommodation in first-rate

hotels to dining in exquisite restaurants.

To ensure that you don't get lost along the way, you travel with the group and we provide you with a roadbook prior to departure showing the exact route and all the important features of the itinerary. Whichever package you choose, you will also be accompanied by experienced guides.

All of our itineraries can be customised to suit your individual requirements. We also offer a host of additional services such as arranging accommodation the night before an event.

You can even treat your friends and family to one of our tours with a Porsche Travel Club gift voucher.

**There's more to Porsche than meets the eye. Discover exactly what that is.**

The Porsche Travel Club offers you the chance to get a glimpse behind the scenes at Porsche, the company. We take you to sites such as the Porsche Museum in Stuttgart, created especially for those with a keen interest in the marque. Take a journey through the captivating history of Porsche sportscars: see how automotive icons such as the 356, 550, 911 or 917 have lost none of their fascinating appeal over the years – quite the contrary, in fact.

The Porsche Carrera Cup Tour offers you a unique insight into the world of motorsport – and much more besides: you can also take to the wheel yourself and tour through various German regions. Alternatively, you can visit the Porsche facility in Leipzig where the Cayenne and new Panamera are produced. At the Porsche Travel Club, we will do our utmost to create a package that suits your individual requirements. The Porsche Travel Club Ticket Service can also provide you with tickets to high-calibre sporting events such as the Porsche Carrera Cup, Porsche Supercup and Porsche Tennis Grand Prix as part of a VIP tour.

# Porsche in Zuffenhausen

Take a journey back in time.  
Behind the wheel of a Porsche, of course.

This is a chance for you to explore the fascinating world of Porsche up close. Take a journey through the captivating history of the company at the new Porsche Museum in Stuttgart. The dynamic nature of the marque is superbly demonstrated by the building's striking architecture. The vehicles on display within the museum clearly reflect the values for which Porsche typically stands: endurance, a sense of tradition and

the spirit of innovation. But to really experience a Porsche sportscar, you need to take to the driver's seat yourself. During the second part of the day, you therefore have the opportunity to test-drive a Porsche – on meandering country roads, through long stretches of glorious countryside and forests and, of course, on the motorway.

### Your itinerary

After individual arrival, your Porsche tour guide will greet you at the Porsche Museum in Stuttgart-Zuffenhausen. Your journey through automotive history starts here, and you'll find no shortage of highlights. The exhibition features around 80 vehicles on display in a remarkable setting. In addition to famous icons such as the 356 or 550 Spyder, you'll

also get to see some of our finest technological achievements from the early 20th century through to the present day. Afterwards, enjoy a guided tour of the factory where our sportscars are produced.

After lunch, transfer by bus to Porsche AG in Ludwigsburg. After a brief introduction to your vehicle, set off towards Heilbronn and along the motorway to the Hohenlohe region. Passing Jagsthausen and Goetzenburg Castle, made famous by the Goethe play 'Götz von Berlichingen', travel along the edge of the Neckar-Odenwald nature reserve and back to Ludwigsburg. Transfer to the Porsche Museum followed by individual departure.

### Dates:

# Porsche Carrera Cup Tour

**In racing it's all about securing the best position. That goes for the spectators too.**

Sportscars: always a moving experience – both as a spectator, and behind the wheel. With the Porsche Carrera Cup Tour, you can combine a fascinating driving tour through some of Germany's most beautiful regions with a visit to a Porsche Carrera Cup event in the run-up to the DTM (German Touring Car Championship).

The Porsche Carrera Cup has been a firm fixture on the German motor racing calendar since 1990.

This high-quality, professional race series, now regarded as the fastest and most spectacular one-make championship in Germany, is held as a support race for some DTM events. Watch the teams and drivers battling it out in fierce competition. Passion, entertainment and high drama are guaranteed, along with plenty of teamwork and sporting spirit. Get up close to the action with exclusive access to the drivers' paddock – and first-rate refreshments at the Porsche hospitality stand.

You can choose between two different destinations. Firstly, there's Hockenheim and the surrounding region. On the first day, you set off for a day tour of the Black Forest. After exploring the many winding roads, it's time for a 'pit stop' in Baden-Baden where you spend the night. On the next day, you drive to the Hockenheimring circuit where you can follow the Carrera Cup race event up close as a spectator – either at the start or end of the season.

Alternatively, you can opt for Nuremberg. Or more precisely, the Norisring circuit. The journey to the track promises to be no less exhilarating than the race itself on the second day. Follow the racing action live, before completing the return journey to Ludwigsburg.

Just like all Porsche Travel Club tours, Porsche Carrera Cup tours are not designed for those who simply wish to spectate.

Furthermore, it is renowned for the movement for change and freedom that led up to the German reunification. Sharing this same spirit, Leipzig is also the home of the Cayenne and the new Panamera: two fascinating cars built in one fascinating location.

As the name suggests, the Porsche Leipzig packages offer an exclusive tour of the manufacturing facility for the Panamera and Cayenne, as well as exhilarating driving experiences on its off-road circuit in the Cayenne and on the FIA-compliant test track. ## Porsche Weekends

**Take a break from  
your usual weekend routine.**

If you're looking for a short break with a difference, here's our idea of a few exciting days away: the Porsche Weekends. Take to the wheel of a Boxster, Cayman, 911, Cayenne or Panamera and explore some of the most beautiful regions in Germany.

For example, take a journey back to the age of chivalry on the historical Porsche Weekend: Castles & Palaces. Alternatively, enjoy a wealth of romantic views along the River Moselle with its picturesque vineyards, steep rock formations and ancient buildings. Our weekend tours in Bavaria and the Black Forest are also guaranteed to leave a lasting impression. And where better to enjoy a weekend of unadulterated pleasure than on the Bodensee (Lake Constance). Due to the mild Mediterranean climate, you'll even find palm trees growing here. The journey from Leipzig to Dresden combines an exhilarating driving experience with cultural attractions. The choice is yours.

No two Porsche weekends are the same. However, there are certain things they all have in common: charming countryside, culinary delights and excellent hotels. And plenty of driving pleasure along the way.

# Porsche Day Tour of Leipzig/Dresden

**Explore the beauty of Germany’s east.  
Powered by engineering from Germany’s south.**

Germany offers a diverse range of countryside. Undoubtedly one of its most beautiful upland regions is the Elbe Sandstone Massif, which also covers an area of Saxony known as ‘Saxon Switzerland’. The incredibly rich scenery here is constantly changing between plains, gorges, forests, table mountains and magnificent rock formations. ## Porsche Camps

**Some things in life are a challenge. But that makes them all the more rewarding.**

Some people enjoy a gentle pace of life, while others prefer plenty of excitement. And then there are those who like to go one step further, actively seeking out situations that can only be summed up by one word: extreme. Our Porsche Camps are designed to offer the ultimate challenge – and the thrills to match.

Porsche Camps give you the opportunity to improve your driving skills, while enjoying an exhilarating adventure against a backdrop of stunning natural scenery: Camp4 and Camp4S, for example, are set in the spectacular winter landscape of Finland. Alternatively, you can attend a course at the Nürburgring. As fascinating as ever, this track is incredibly demanding even for experienced drivers.

We also provide a full programme of activities to guarantee you'll have an unforgettable experience, even when you're not behind the wheel.

# Porsche Camp Nürburgring

**For some the Nordschleife is just a piece of track – and a bungee is just a piece of rope.**

The Nürburgring in the Eifel region. A world-famous racetrack thanks in no small part to its legendary Nordschleife section. Not without reason is it known as the ‘Green Hell’. With its large difference in altitude, rapid succession of fast

and medium-paced curves and relatively narrow track, the Nordschleife calls for precise mastery of the vehicle. This is exactly what makes it a superlative racing venue, guaranteeing maximum motoring pleasure for discerning

drivers. Let’s face it, who wouldn’t like to take to the wheel for a few laps of this track? In a Porsche, of course. But the Nürburgring is much more than just a driving circuit. In recent years, it has developed into an attractive interactive world of

adventure. With a shopping boulevard and the ‘ring°werk’ theme park – a combination of museum and science centre, there’s plenty of entertainment for visitors to enjoy.

Nürburgring Nordschleife

## Your itinerary

### Day 2

After breakfast and a short briefing, set off in a Porsche towards the Eifel region. Shaped by volcanic activity, the landscape is dominated by extinct volcanoes, craters and lakes, known as maars. It also features a number of meandering country roads. After lunch, the tour continues with many challenging bends. Enjoy dinner at the 'Eifeldorf Grüne Hölle' theme park, before returning to your hotel for the night.

### Day 3

You start by learning the basics of dynamic driving under the guidance of an instructor from the Porsche Sport Driving School. # Porsche Camps in Finland

**Why should you be skating on thin ice?**  
**When you can be skidding on black ice in a Porsche.**

Many people associate snow and ice with winter sports. The Porsche Travel Club is no exception. And there's no better location for winter driver training than the Arctic Circle, or more precisely Camp4 at the Arctic Driving Center in the

Finnish town of Rovaniemi or Camp4S at the Porsche Driving Experience Center in Ivalo – 300 km (186 miles) further north.

Take up the challenge: start your driver training on the specially

prepared snow-covered pistes at Camp4. More advanced drivers can put their skills to the test on our demanding ice lake at Camp4S. Whichever course you opt for, you will always be under the expert

guidance of the Porsche Sport Driving School instructors.

After the training, you'll also get the opportunity to explore the endless expanse of Lapland's countryside – on snowmobiles, for example.

# Camp4

**Minus 15 degrees in the snow. In a Porsche?  
We can warmly recommend it.**

The test facility at the Arctic Driving Center in Rovaniemi is an ideal location for practising your driving skills in safety in some of the most challenging winter conditions. Firstly, the Porsche instructors will teach you the basics of safety-conscious driving and driving dynamics. You will learn how to brake effectively, change direction and approach a slippery ascent. The course will also enable you to understand – and drive within – the limits of your car. During the theory briefing, you will

learn about various driving styles, followed by the opportunity to try these out for yourself.

**Your itinerary**

**Day 1**  
Individual travel to Rovaniemi and check-in at the Sokos Hotel Vaakuna. Relax over dinner, while the members of the Camp4 team welcome you and introduce themselves.

**Day 2**  
Breakfast at the hotel, followed by your first day of training at the Arctic Driving Center. Under controlled conditions, the Porsche instructors will teach you the basics of safety-conscious driving and driving dynamics. At the end of the day, enjoy a delightful evening meal in a traditional Finnish log cabin.

**Day 3**  
Practice makes perfect. This also applies to improving your driving skills in a Porsche. So, after breakfast at the hotel, you set off for the second day of your driving course at the Arctic Driving Center. In the evening, you'll be served dinner at an exclusive restaurant at the Arctic Circle.

**Day 4**  
Spend the whole day at the Arctic Driving Center, putting into practice what you have learned on the previous days. At the end of a long day, enjoy a well-earned dinner and say farewell to the Camp4 crew.

# Camp4S

## Have you ever lost your grip and enjoyed every minute of it?

Once you have mastered Camp4, you're ready for the challenges of Camp4S. The Porsche Driving Experience Center Finland on Lake Pasaajärvi near Ivalo provides the ideal setting for finely honing your driving skills. With 1.5-mm spikes on each tyre, you'll learn how to control a Porsche on black ice and snow and in some of the most demanding situations.

### Your itinerary

#### Day 1

Individual travel to the hotel in Ivalo. After check-in, enjoy a welcome dinner at the hotel and relax in preparation for the exhilarating days ahead.

#### Day 3

Developing your vehicle control on ice and snow requires a considerable amount of practice. That is why you spend as much time as possible at the wheel.

But not just in a Porsche. You'll also get to explore the snow-covered woodland wilderness on a snowmobile tour. In the evening, relax over a dinner of traditional Finnish specialities.

#### Day 4

The schedule for the fourth day includes some new training units. And, once again, you'll have plenty of opportunity to put the skills you have learned into practice. After many hours of driving pleasure, it's then time to say farewell over a well-earned dinner.

The following tour offers you the opportunity to sample ‘la dolce vita’ in Italy in truly remarkable style: behind the wheel of a Porsche.

**Porsche Saponi & Motori: the Amalfi coast**  
Immortalised by artists and poets, the Amalfi coast is probably one of Italy’s most picturesque regions. A fairytale landscape with the aroma of lemon blossom hanging in the air, crystal-clear water, romantic bays, lush vegetation and impressive clifftop routes overlooking the sea – it’s not without reason that the locals also refer to it as the Costa Divina: the divine coast.

Day 1

After your arrival, enjoy dinner with the group at the Hotel Le Agavi in Positano.

Day 2

Breakfast at the hotel, followed by a visit to Amalfi. Afterwards, you head for Ravello where you visit the Villa Cimbrone. Situated 300 metres above the sea, this impressive building offers breathtakingly beautiful views of the ocean. In the evening, take a boat trip to the Quattro Passi restaurant where you can enjoy a range of delicious fish specialities.

Day 3

But the extensive range of options available from Porsche Travel Club Italia certainly does not end here. Our tours can also be booked as an incentive package – the ideal way to motivate your staff or to show your appreciation to customers.

**A land of opportunity – and unlimited driving pleasure.**

Explore the ‘land of the free’ on this fascinating tour of America’s endless expanse of countryside. Looking to leave your everyday cares behind and follow your dreams? The Porsche Travel Club USA can help turn the dream into a reality. From east coast to west, on salt lakes, coastal roads and country roads. Surrounded by romantic vineyards or dramatic mountain ranges and rock formations. Never-ending horizons and tight bends that go

on for ever. For unlimited driving pleasure – in a Porsche. Below is just a taster of the many packages on offer:

**Highway 1 Road Tour**

Highway 1 – also known as the Pacific Coast Highway – links the cities of San Francisco and Los Angeles. Stretching for 756 km (470 miles), it features tight bends and breathtaking views across deep canyons. It runs past towns such as

Monterey, Santa Cruz and Bodega Bay, where Alfred Hitchcock shot his film “The Birds”. There are five more reasons to get excited about this two-day tour: the Boxster, Cayman, 911, Cayenne or Panamera. The accommodation that has been selected for you is equally impressive.

**Cayenne Grand Canyon Tour**

Everyone has seen images of the Grand Canyon in the US state of Arizona in countless photos, films and reports. But once you are actually there, you’ll be overwhelmed by its dramatic proportions: 1,800 metres deep, up to 30 km (19 miles) wide and more than 450 km (280 miles) long. Back in the 19th century, the canyon was seen as an unconquerable no-man’s-land. But that’s all changed. On this two-day tour in a Cayenne S, you’ll experience an off-road adventure of the extreme kind – for the ultimate thrill behind the wheel. An exhilarating rafting tour on the Colorado River is also included.

**Sebring 12-hour Race Weekend**

The 12 Hours of Sebring race kicks off the American Le Mans Series (ALMS). With all of its bumps, the course presents a challenge to both vehicles and drivers. That’s why it is one of the most famous sportscar endurance races in the world. The tour includes first-class hotel accommodation in Orlando, Florida, refreshments at the Porsche hospitality stand, access to the race and the opportunity to complete a few laps yourself in a 911.

# Porsche Sport Driving School

**At Porsche, evolution does not stop at our sportscars. It extends to the whole driving experience.**

Porsche stands for tradition – and so does the Porsche Sport Driving School. Since 1974, it has been offering participants excellent training and exhilaration behind the wheel, along with the opportunity to hone their driving skills both on and off road at various locations around the world. The training complies with international standards, and enables safety-conscious drivers to take their skills to another level – always under the guidance of our highly trained instructors. Needless to say, all courses offered by the Porsche Sport Driving School can also be booked as an incentive package.

The following pages give a brief insight into the training provided by the Porsche Sport Driving School. More detailed information can be found in the relevant catalogue or online at [www.porsche.com/sport-driving-school](http://www.porsche.com/sport-driving-school).

# Porsche Sport Driving School – about us

**Most people can't wait to finish school. Here's one you'll be sad to leave.**

You might not fancy the thought of going back to school. But what if you could swap your pencil for a gear lever and take things at your own pace?

Since 1974, the Porsche Sport Driving School has had one clear aim: to improve your driving skills on an ongoing basis, enabling you to drive more safely and deal more effectively with hazards on the

road. The number of racetracks around the world on which we offer training has continued to grow over the years: Spa and Nürburgring are just two of the many famous names. Since 1990, Porsche has also established a reputation in winter sports – behind the wheel, that is. For example, at Camp4 or Camp4S and on our 'Ice Force' training course, which has been attracting

enthusiasts to Finland for many years.

There are a number of different venues where you can become acquainted with the principles of track driving. As with any comprehensive training, our courses also include in-depth theory sessions. Ultimately, however, we believe that learning by doing is the key to

success: from the important basics to professional driving skills.

All of our courses are clearly structured and build on knowledge from the previous level so that you can finely hone your driving style step by step. First-time participants at the Porsche Sport Driving School, for example, start with the introductory Warm-up or Precision training. They then go on to improve their vehicle control further with the next level up, Performance training. Master training prepares participants for entry into the world of motorsport. Our instructors are on hand

throughout to provide professional tips and advice.

After successfully completing the courses, you will be ready to apply for a racing licence – your ticket to compete in motorsport events such as the Porsche Sports Cup, a race series for Porsche customers held at various German and international circuits.

You can either complete the training in your own vehicle, regardless of its make, or in one of the Porsche training vehicles provided. You can also choose which venue you wish

to attend – a famous international racetrack, one of our dedicated safety driving centres or one of our special winter training venues where you can practise driving on snow and ice.

Join us on a school outing with a difference – for the opportunity to train with the best in class.

Training Offer

We help you to achieve more than you ever thought possible.

If you wish to improve your driving skills, take a look at the courses we offer. The Warm-up course gives you an introduction to the Porsche Sport Driving School.

As illustrated below, this is then followed by more advanced courses, namely Precision, Performance and Master.

In addition to detailed communication of the basics, Precision training includes an individual assessment of the driving style of participants and a module where drivers

can complete full laps of the circuit. The Performance training course focuses on steering and cornering techniques, while intensively developing your skills on some extremely challenging circuits. Master training includes a range of motorsport-oriented features. After successful completion of this course, you can then set your sights on applying for a licence from the German Motor Sport Association.

The three available training levels give you the option of Onroad, Ice or – in some cases – Offroad. Training under these different track conditions enables you to continually test and improve your driving skills.

Porsche courses offer a uniform training content at international level and are recognised worldwide, which means you can easily switch

between various Porsche Sport Driving School courses around the world. Professionally trained Porsche instructors are on hand throughout.

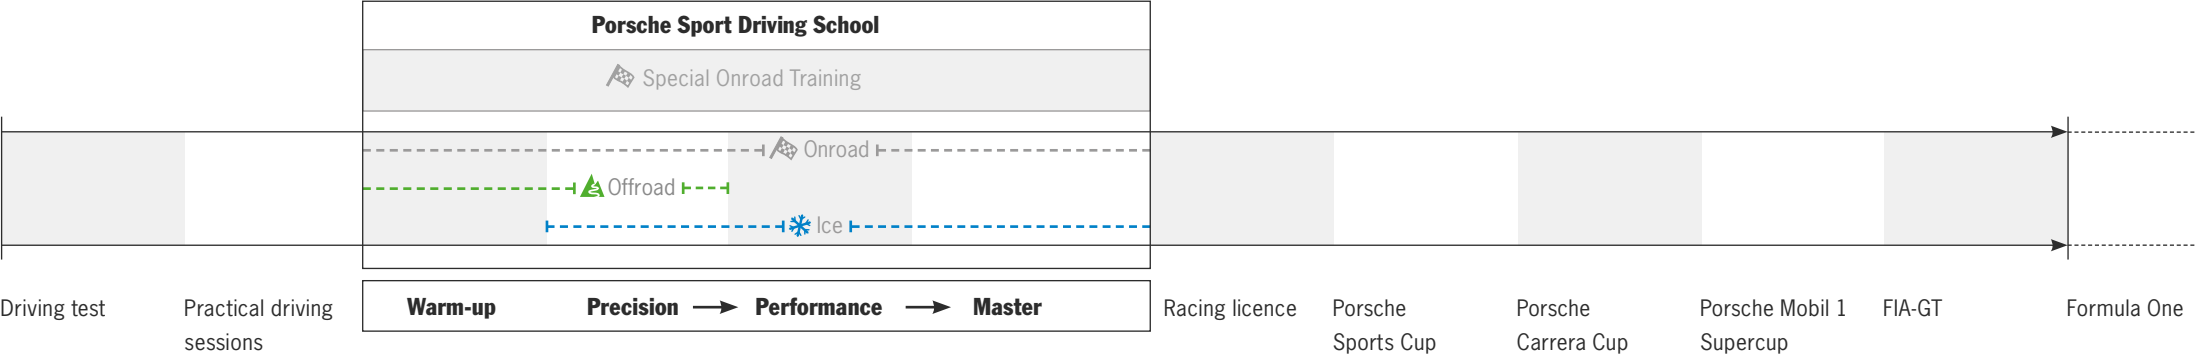

In Germany, you can use your own vehicle, regardless of its make, or hire a Porsche for the Warm-up or Precision courses.

In addition to the training levels, our programme also includes some special courses. The g-Force Training, for example, deals with topics such as controlled drift and how to safely transfer the power of your vehicle to the road. Our Telemetric Session, on the other hand, uses innovative measurement techniques lifted directly from the world of motorsport (telemetry) to bring you closer to the ideal line. Super Sport training is specially tailored to GT vehicle

concepts and promises to provide the ultimate adrenalin rush. Our Classic Cars training is a truly emotional experience designed for sports drivers and the devoted owners of pre-1993 vehicles who love exploring the potential of their vehicles with no intervention from modern-day driver aids.

Today, more and more women are showing an interest in our courses. We have therefore created a driver training reserved exclusively for female drivers, which covers the same content as our regular Precision training.

In addition, Porsche offers participants who like to live life in the fast lane other interesting driving events, such as the Porsche Sports Cup in Germany.

# International Racetrack Highlights

Hockenheimring

The Porsche Sport Driving School offers an extraordinary driving experience that allows you to follow in the tracks of professional racing drivers at the venues of some of the most thrilling events on the motor racing calendar. Our courses are designed to teach you how to handle your vehicle safely in dynamic driving situations, at high speeds and through a variety of chicanes. If you are ready for the challenge, all that remains is to choose which of the courses is for you. The following should help you with this decision.

**Nürburgring, Nordschleife (D)**  
The 'Nordschleife' is the most attractive section of the track between Hattenbach and Döttinger Höhe. The courses at this superlative racetrack covering 20.8 km (12.9 miles) are designed to teach you what driving discipline is all about, while at the same time ensuring that you enjoy every minute. The name alone is sufficient to inspire the respect and admiration of any racing enthusiast.

**Hockenheimring (D)**  
This circuit offers the ideal conditions in which to develop a whole range of different driving skills.

Safety zones and realistic road conditions, such as tight and blind corners, make the Hockenheimring an absolute must. Take to the wheel and learn optimum cornering at high speeds and experience the thrill of the 'Motodrom' first-hand.

**Imola (I)**  
The Rivazza approach at Imola is simply an unforgettable experience. Spanning a distance of 4.9 km (3.0 miles), the technically demanding track communicates the sheer thrill of the race and conveys 'la dolce vita' of Emilia-Romagna.

**Magny-Cours (F)**  
This Formula One circuit with its tight corners and acceleration and braking zones offers a memorable combination of high speed and the beautiful surroundings of the Loire Valley.

**Spa-Francorchamps (B)**  
Spa-Francorchamps is one of the world's most fascinating racetracks. Much of its fearsome reputation comes from the fast uphill and downhill stretches, as well as from the Eau Rouge, La Source and Blanchimont corners.

**Barber Motorsports Park (USA)**  
The Barber Motorsports Park in Alabama is one of the newest tracks in the USA. Spanning a distance of 3.8 km (2.4 miles), it features varied curves and the very latest race-track technology, all set against the glorious scenery of the southern states.

**Mt. Cotton (AUS)**  
A 50-minute drive north of the Gold Coast, this training area with its own road network covers 45 hectares of bush land. The course features all important road conditions, as well as an off-road terrain with sections that represent a challenge for first-time participants and experts alike.

# Porsche Sport Driving School in Leipzig

- **Track length:** 3.7 km (2.3 miles)
- **Number of corners:** 10
- **Difference in altitude:** 12 m
- **Track width:** 12 m

The Porsche test track in Leipzig features 10 spectacular sequences inspired by some of the world's most challenging corners. Discover the thrill of driving through sections reminiscent of legendary circuits where racing history has been written. The first bend, based on the S Curve at Suzuka, requires the highest levels of concentration, while the next right-hand corner generates the same lateral acceleration you'd experience in the Sunset Bend at Sebring. The following section is modelled on the difficult Loews curve at Monaco. Then it's time to master another hairpin bend similar to the Victoria Turn, before taking the ideal line through the Mobil1 S chicane as if you were at the Nürburgring. After the corner reminiscent of the Curve di Lesmo, you'll accelerate out of the tough left/right sequence as if you were at the Bus Stop at Spa-Francorchamps. After a curve

The corners shown are modelled on legendary circuits around the world.

based on the Suntory Corner, you'll find yourself on the finishing straight ready to start the next lap with a 10-metre high serpentine, followed by a steep chicane similar to the Corkscrew at Laguna Seca. Alternatively, you can take the 180-degree bend modelled on the Parabolica at Monza.

While featuring sections based on some of the world's most historic corners, the rest of the Porsche test track in Leipzig is extremely modern. It boasts state-of-the-art technology, generous run-off and safety zones, and 30 cameras to capture your best lap. Our test track is FIA-compliant and has been fully approved for professional competition use.

Participants on on-road training courses at the Porsche Sport Driving School in Leipzig are given the opportunity to complete an off-road section in a Cayenne, while all off-road courses include an on-road section on the FIA-compliant test track.

# Porsche Sport Driving School Partners

A basic Porsche principle:  
maximum performance can only be achieved as a team.

## Michelin

Porsche and Michelin look back on a longstanding and extraordinarily successful partnership. Through its pioneering developments in the field of high-performance tyres, Michelin is contributing to Porsche being able to meet its customer requirements. Every Porsche is

guaranteed to have superb handling characteristics. This is due in no small part to the fact that specific tyres are manufactured for each individual model. The main link between the car and the road, the tyre is designed at an early stage in the vehicle development process. Michelin currently supplies racing tyres for the 911 GT3 Cup cars

competing in the Porsche Mobil 1 Supercup and the international Porsche Carrera Cup series, the 911 GT3 RSR racing in the FIA GT championships, as well as the Porsche sportscars used in the Porsche Sports Cup. Porsche trusts in the quality of Michelin tyres, both on the road and track.

## Mobil 1

Porsche and Mobil 1 stand for innovative developments, high-quality engineering and advanced technology. The partnership formed between both companies in 1996 was therefore no coincidence, but a logical consequence. It has culminated in a number of impressive

wins on the racetrack, demonstrating the performance and protection that fully synthetic Mobil 1 lubricants provide. For Mobil 1, the racetrack is an ideal environment for developing and testing its new technologies. All the 911 GT3 Cup cars competing in the Porsche Mobil 1 Supercup and the international Porsche Carrera Cup series,

as well as the Porsche RS Spyder, use the very latest Mobil 1 Super-Syn anti-wear system technology. Furthermore, every single Porsche is filled with Mobil 1 ex works.

# Terms and Conditions of the Porsche Travel Club

Dear Guest,  
The tour operator TUI Deutschland GmbH/airtours (hereafter referred to as "Tour Operator") is working in conjunction with Porsche (operating under the name Porsche Travel Club) to provide the experience holidays described in the catalogue. Please read these terms and conditions carefully, as by making a booking you agree to accept them. They will be sent to you before you make your booking. They apply to all the holidays offered by the Porsche Travel Club, plus the additional services (e.g. green fees) that you book through the tour representative at your destination (see sections 12–14). These terms and conditions supplement articles 651a–m of the BGB (Bürgerliches Gesetzbuch – German Civil Code) and paragraphs 4–11 BGB-InfoV (Ordinance on the Requirements for Information and Clear Documentation in Civil Law).

**Note: Please note that the holidays offered by Porsche Travel Club Italia (p. 98) and Porsche Travel Club USA (p. 100) are subject to different terms and conditions. These can be obtained from the relevant tour operator.**

## 1. Booking, confirmation

1.1 With your booking you are agreeing to enter a binding travel contract with the Tour Operator. The travel contract is binding on the Tour Operator once he has confirmed the price of the holiday in writing.

1.2 Your booking is for you as well as for all the people travelling with you. You are answerable for your obligations in respect of this contract as well as for those of the people travelling with you, provided you have accepted specific responsibility by signing a separate declaration.

1.3 You will receive written confirmation at the time of or directly after concluding the contract (sub-section 1.1 clause 2).

The confirmation in writing will contain all important details and information on the holiday services you have booked. If the confirmation differs from your application, the operator is bound by the new offer for 10 days. The holiday contract comes into effect on the basis of the new offer if you accept the new offer within the 10-day deadline.

1.4 Advance reservations are provisional bookings for holidays not yet advertised. The Tour Operator turns them into firm bookings as soon as the brochure for the relevant season is made generally available.

1.5 If you only book an additional service (e.g. green fees, admission ticket) from a third party provider without any travel arrangements, the Tour Operator is only acting as agent for the third party. The purchase of the mediated service(s) means you are entering into a contractual arrangement with the respective provider. The name of the provider in question is on the voucher that you will receive.

## 2. Payment

2.1 To safeguard the monies paid by customers the Tour Operator has taken out insolvency insurance cover with the German Reisepreis Sicherungsverein VVaG (DRS). You will find an insolvency insurance certificate on the confirmation.

2.2 Upon concluding the agreement, the deposit of 20% of the total price becomes due when you receive the confirmation. The balance must be paid 30 days before the departure date (see sub-sections 2.3 and 2.5.3). No reminders will be sent.

Different cancellation conditions shall apply to the tour price:

### Camp4/Camp4S:

25% deposit, balance 2 months before departure.

2.3 The balance becomes due once it has been confirmed that your holiday is available as booked and the travel documents are either waiting for you at the travel agency or have been sent to you as agreed.

2.4 The amounts for the deposit and balance and any applicable cancellation charge in the case of cancellation are shown in the confirmation. The charges in the event of cancellation (c.f. section 7), change to booking or handling fees (c.f. section 8) as well as charges for customised holiday arrangements (c.f. sub-section 3.4) are payable immediately.

### 2.5 Paying the Tour Operator

2.5.1 Payments to the account of the Porsche Travel Club can only be made in euros. In the case of direct debiting the Tour Operator will need details of your bank account, your address or, if appropriate, the address for sending the travel documents as well as your written authorisation to charge your account.

2.5.2 You may also pay for your holiday by credit card. In this case you must enter the details of your credit card on the booking form. The Tour Operator will also need your address or, where relevant, the address of the person who will be receiving the documents, as well as your authorisation to charge your current account via the credit card. Please note that the TUI Card/TUI Card Gold cannot be used when making bookings with the Porsche Travel Club.

2.5.3 As a rule the deposit is debited within a week after concluding the contract and the balance 30 days before the departure date but not, in the latter case, before the conditions set out in sub-section 2.3 have been met.

2.6 [...]\*

2.7 Changes to the agreed method of payment can only be made up to 35 days before start of the holiday.

2.8 If you have not received your travel documents at the latest 4 days before your departure date, please contact

the Porsche Travel Club immediately. In the case of short notice bookings made within 7 days of the departure date, how you receive your travel documents will be agreed with the Service Team of the Porsche Service Club. In your own interest we ask you to check your travel documents carefully.

2.9 If payments that are due are not paid or not fully paid and you do not pay even after receiving a reminder with payment deadline, the Tour Operator can cancel the contract except in the case that a serious deficiency to the holiday has already become apparent. In the event of cancellation of the travel contract in the context of the sentence above, the Tour Operator can demand payment of cancellation charges as compensation in line with sub-sections 7.2 and 7.5. If you do not effect payments despite being in arrears, the Tour Operator reserves the right to charge a fixed dunning cost fee of €20 for the second reminder. Your right to prove that substantially lower or no costs were incurred remains unaffected.

2.10 Costs for additional services, such as visa applications, etc., are not included in the holiday price unless expressly itemised in the brochure write-up. If such costs are incurred, they will be invoiced separately.

## 3. What you get and the price of your holiday

3.1 The contractually agreed travel services are found in the documentation (e.g. brochure, flyer, internet). The relevant details are found in the confirmation (c.f. sub-section 1.1 clause 2). Before the contract is concluded the Tour Operator can modify the descriptions of holiday services at any time. Of course the traveller will be informed accordingly before making the booking.

3.2 Air carrier for the flight/EU Blacklist  
The Tour Operator is obliged in line with EU Regulation 2111/2005 of 14.12.2005 to inform you of the identity of the air carrier(s) for the

flight(s). If the air carrier has not yet been conclusively established at the time of the booking, you will be informed as to the air carrier that will probably perform the flight. As soon as the identity has been conclusively established, you will be informed accordingly. In the event that a change occurs to the air carrier performing the flight after the booking has been made, you will be informed accordingly as soon as possible. The list of air carriers subject to an operating ban within the EU (EU Blacklist) can be found at [www.lba.de](http://www.lba.de).

### 3.3 Flights

The flights will be with scheduled airlines. Travellers will be carried in economy class; a transfer to First Class or Business Class is possible on payment of the appropriate supplement. Transportation is provided on the basis of the terms and conditions of transport of the respective transport provider. These can be furnished if so requested. We strongly recommend that money, valuables, technical equipment and medication be carried exclusively in your hand baggage.

3.4 Special requests, customised holidays

3.4.1 The Porsche Travel Club may only accept the handling of special requests if they declare them to be non-binding. The Tour Operator will do his best to accommodate the request for special arrangements that are not described in the write-up, e.g. neighbouring rooms or rooms in a certain location or setting.

3.4.2 [...]\*

3.4.3 Porsche Travel Club à la carte service

In addition to the services described in the write-up, the Porsche Travel Club will be happy to cater to your personal travel requests (à la carte service). We offer the à la carte service for selected destinations starting from a minimum price of € 1,000 per person (for the additional services).

In addition, starting from a total price of € 5,000 per booking, you are entitled to use the à la carte service for bookings already made. For this we charge a service fee of € 150 per booking. The service fee is per person and is added to the price of holidays costing more than € 5,000. It is not refunded in the event that a booking is not made. This à la carte service refers to all travel components that do not conform to the description of travel services according to the brochure.

3.4.4 If travellers already at the destination request changes to flight or hotel arrangements, the Tour Operator reserves the right to charge a reasonable handling fee per person in addition to the extra costs that may arise.

3.5 [...]\*

### 3.6 Prolong the holiday stay

If you would like to prolong your holiday stay, please inform the travel representative or the Porsche Travel Club team as soon as possible. We are only too happy to extend your stay if the relevant accommodation and return transport options are available. The costs for extending the stay are payable at the destination. Please have a close look at the applicable rates and conditions for your return transport as well as the period of validity of your travel insurance and any possible visa requirements.

3.7 Travel representative services, support and assistance

For the holidays on offer you will be looked after at the destination by travel representatives of the Porsche Travel Club. Please consult the travel documentation for details, addresses and phone numbers. In the event of complaints, please refer to the special notes in sub-section 13.7.2.

## 6. Changes to travel services and prices

6.1 Any changes in or deviations from individual holiday services specified in the original travel contract that may become necessary after conclusion of the contract and are not due to actions on the part of the Tour Operator involving a breach of good faith are permissible only to the extent that they are of minor significance and do not impair the overall nature of the holiday booked. Flight times are as shown on the flight ticket. For reasons related, for instance, to air traffic congestion occasional delays or postponements to flights as well as route changes cannot be ruled out. Weather conditions may sometimes mean that the route specified in the schedule cannot be flown. The customer will be notified of any diversions by the local travel representative.

6.2 Any warranty claims remain unaffected, especially as far as the changed services are subject to defects. The Tour Operator undertakes to inform the customer immediately concerning changes in or deviations from holiday services. If appropriate, the Tour Operator will offer the customer the opportunity of rebooking or cancelling the contract free of charge. If a changed flight also involves a change in the airport, any Rail & Fly ticket in your holiday documents is still valid.

6.3 [...]\*

6.4 After conclusion of the holiday contract, if there is a hike in transport costs or duties levied for certain services, such as port or airport taxes, the Tour Operator reserves the right to change the holiday price agreed on in the contract on the basis below:

6.4.1 If transport costs, in particular, fuel costs, rise above the costs at the time of concluding the contract, the Tour Operator can increase the price of the trip according to the following formula:

a) In the case of cost increases charged to the Tour Operator on a seat basis, the Tour Operator can charge the traveller the relevant increase.

b) In other cases the additional transport costs charged by the transport provider per means of transport are divided by the number of seats for the contractual means of transport. The Tour Operator can charge the traveller the resultant increase per seat.

6.4.2 If charges or levies, such as port or airport taxes, that the Tour Operator has to pay are increased above the costs at the time of concluding the travel contract, the price of the holiday can be increased by the corresponding pro-rata amount.

6.4.3 Charging increased costs in accordance with sub-sections 6.4.1 and 6.4.2 is only permitted if the interval between conclusion of the holiday contract and the agreed travel date is more than 4 months and the circumstances leading to the increase had not occurred nor could be foreseen before the contract was concluded.

6.4.4 In the case of a retrospective change of the price of the holiday, the Tour Operator shall inform the traveller immediately. Price increases within the last 20 days before start of the holiday are not permitted. In the case of price increases of more than 5%, the traveller is entitled to cancel the contract free of charge or request transfer to another holiday that is at least the equivalent of the holiday in question on the condition that the Tour Operator is able to offer such a holiday to the traveller at no extra cost from his programme. The mutual rights and duties referred to in this clause also apply in the case of permitted change to a main holiday service or component.

6.4.5 The traveller shall assert his rights against the Tour Operator immediately after being notified by the Tour Operator about the price increases and/or the change to the holiday service.

### 7. Cancellation by traveller before the start of the holiday/cancellation charges

7.1 You can cancel your holiday at any time prior to travelling. The date of receipt by the Tour Operator of the notice of cancellation is definitive (see

section 17 below for the relevant address). We recommend that you submit your cancellation in writing.

7.2 If you cancel your holiday or fail to undertake the holiday, the Tour Operator loses the entitlement to the holiday price. Instead, the Tour Operator, as long as he is not responsible for the cancellation or the failure to undertake the tour and a case of force majeure does not exist, can demand reasonable compensation depending on the actual holiday price for making the travel arrangements and his costs and time spent (cancellation charges). The scaled, flat-rate cancellation charges as itemised in sub-section 7.5 are worked out on a pro-rata basis according to the proximity of the date of cancellation to the date of the contractually agreed start of the holiday taking due account of normally saved expenditures and customary possible alternative use of the unused holiday services and components.

7.3 Cancellation charges are also due if a traveller does not appear punctually (no-show) at the times specified in the travel documentation at the relevant airport or place of departure or if the holiday cannot be commenced for failure to possess the relevant travel documents such as valid passport or necessary visa for a reason the Tour Operator is not responsible for.

7.4 You are entitled to provide proof that no or significantly lower costs were incurred in the context of the cancellation or no-show than the costs imposed by the Tour Operator when implementing the flat rates (c.f. next sub-section 7.5).

7.5 The flat rate cancellation charges are normally applied per person/per accommodation unit:

7.5.1 [...]\*

7.5.2 [...]\*

a) [...]\*

b) Travel with the Porsche Travel Club more than 30 days before departure 25%, from 30th day before departure 35%, from 22nd day before departure 50%, from 15th day before departure 75%, from 2nd day before departure until day holiday starts or no-show 95% of the price of the holiday.

c) [...]\*

d) Flight-only on scheduled flights per person more than 30 days before departure € 30, from 30th day before departure € 96. This provision only applies to cancellation of flight-only routes on scheduled flights and not to cancellation of combined journeys. Sub-sections [7.5.1], 7.5.2 item b) apply in this case.

e) The cancellation provisions of the respective provider apply only in the case of additional services, e.g. green fees, admission tickets for musicals, where the Tour Operator acts as agent (c.f. sub-section 1.5). You are advised accordingly when making the booking.

f) [...]\*

Differing cancellation provisions apply to the following holidays:

### Camp4/4S

Cancellation before 1.11.2009:

75% of the holiday price.

From 2.11.2009: 95% of the holiday price.

### Vouchers

If a voucher for a given value that has already been issued to you is returned, a handling fee of 5% of the value of the voucher will be charged.

7.6 Your right to provide a substitute (see sub-section 8.2 below) remains unaffected by the above provisions.

### 8. Rebooking, change of person

8.1 Until the 31st day before your holiday starts at your request the Tour Operator will, as far as this is feasible, amend your confirmed booking. A charge of €50 per person will be made. Changes to bookings/amendments are deemed to include, for example, changes to travel dates, destination, place where holiday commences, accommodation or transport; in the case of scheduled flights, as soon as the ticket has been issued, change to departure time. Changes made that fall within the deadlines referred to above in this sub-section (e.g. for flight-

based/standard charges from 30th day before departure) as well as amendments that go beyond the period of validity of the brochure description upon which the booking is based (sub-section 3.1) can only be made by cancelling the travel contract under the provisions in sub-section 7.5 and immediately rebooking. This also applies to flight-only travel on scheduled flights in the case of a change of carrier initiated at your request.

8.2 Until the time of departure you the traveller can request that your rights and duties in accordance with the travel contract be assigned to a third person. The Tour Operator must be notified accordingly. The Tour Operator can object to a third person substituting the traveller if the third person does not fulfil the necessary travel requirements or statutory or official regulations or directives prevent his participation. If a third person replaces the booked traveller, the Tour Operator is entitled to charge a flat-rate handling fee of €50 to cover the associated costs. Your right to prove that substantially lower or no costs were incurred remains unaffected. You as the registered person and the person taking your place are jointly liable for the extra costs of the holiday incurred as a result of the inclusion of the replacement person.

### 9. Travel insurance

9.1 [...]\*

9.2 Holidays booked through the Porsche Travel Club include an insurance package covering cancellation and accident insurance.

### 10. Cancellation and termination by the Tour Operator

10.1 The Tour Operator can terminate the holiday contract without notice if the traveller continues to misbehave despite proper admonishment by the Tour Operator. This also applies if a traveller's conduct grossly violates the terms of the contract to such an extent that immediate termination of the contract is justified. The Tour Operator has

the right to retain the price of the holiday. The disruptive traveller shall also bear any extra costs for repatriation. On the other hand, the Tour Operator must make due cost adjustment to take into account the value of any saved expenditures as well as such benefits profited from for components not consumed by the traveller and put to other meaningful use or any refunds received from service providers.

10.2 The Tour Operator can cancel the holiday contract up to 5 weeks before departure in the event that the number of persons is not reached in line with the minimum number of participants specified in the relevant description of services and the holiday confirmation. The Tour Operator will of course inform you as early as possible as soon as it becomes apparent that the minimum number of participants will not be reached. The notice of cancellation will be delivered to the traveller immediately and you will be immediately refunded the price paid for the holiday.

10.3 In the event of the Tour Operator cancelling the travel contract in line with sub-section 10.2, the traveller is entitled to demand his inclusion in another holiday of at least equal value provided the Tour Operator is able to offer such a holiday from his holiday programme to the traveller without burdening the traveller with extra costs. The traveller shall assert this right against the Tour Operator immediately after becoming cognisant of the Tour Operator's notice of cancellation. If the traveller does not exercise his right to participate in a holiday of equal value, he shall be immediately refunded the price paid for the holiday.

### 11. Extraordinary circumstances – force majeure

11.1 We refer you to article 651j BGB in the case of termination of the travel contract due to force majeure. The wording of this article is as follows:

\* Not applicable to the Porsche Travel Club

(1) If the trip is substantially impaired, jeopardised or adversely affected as the result of force majeure not foreseeable when the agreement was entered into, then both the tour operator as well as the traveller may terminate the agreement simply under these provisions.

(2) If the contract is cancelled in line with item (1) above, the provisions of article §651e section 3 clauses 1 and 2, as well as section 4 clause 1 apply. The extra costs for repatriation are shared equally between the parties. In other cases the traveller bears the costs of repatriation.

11.2 You will find travel advisories from the German Foreign Office on the internet at [www.auswaertiges-amt.de](http://www.auswaertiges-amt.de) and can listen to them by calling +49 (0)30 5000-2000.

## 12. Redress/price reduction/termination

12.1 If a travel service or component is not fulfilled in conformity with the contract, the traveller is entitled to demand redress. The Tour Operator may deliver redress by providing equal or higher value replacement performance. The Tour Operator can refuse to provide redress if this would involve unreasonable expenditure.

12.2 After returning from holiday, the traveller is entitled to claim a reduction in the price of the holiday if the holiday services were not provided in conformity with the contract and he did not culpably omit to notify the Tour Operator of the defects immediately (without undue delay).

12.3 In line with statutory provisions if the holiday is seriously impaired as a result of a deficiency and the Tour Operator does not provide redress within a reasonable period, the traveller is entitled to terminate the holiday contract. It is recommended that the traveller in his own interest and in order to document such action put the notice of termination in writing. The same applies if the traveller cannot be reasonably expected for good cause to continue the holiday due to

deficiencies acknowledged by the Tour Operator. A reasonable deadline for providing redress does not apply if redress is impossible or the Tour Operator refuses to provide redress or if the immediate termination of the contract is justified in the traveller's interest. If the contract is terminated in this way, the traveller is entitled to be repatriated. In this case he will only owe the Tour Operator for the services and components he consumed under the proviso that these were of interest to him.

## 13. Liability

13.1 If a deficiency should exist, the traveller is entitled irrespective of reduction in the price of the holiday or termination to claim damages for non-performance unless the deficiency was caused by circumstances beyond the Tour Operator's control. The traveller can also claim damages for wasted holiday time if the holiday was ruined or seriously impaired.

13.2 The Tour Operator's contractual liability for damages other than personal injury is limited to three times the amount of the price of the holiday as far as the damage suffered by the traveller was not caused by the Tour Operator wilfully or through gross negligence. The limitation of the liability to the threefold of the price of the holiday also applies to damage suffered by the traveller other than personal injury for which the Tour Operator's responsibility is solely due to the fault of a service provider.

13.3 Compensation claims based on tort  
Operator for unlawful damages that are not due to wilful acts or acts of gross negligence are limited with respect to damage to property to the threefold of the price of the holiday. These maximum liability amounts apply per traveller per holiday. Possible further-going claims related to baggage in accordance with the Montreal Convention remain unaffected by this limitation.

13.4 The Tour Operator is not liable for interruptions to services, personal injury and damage to property related to services for which the Tour Operator acted merely as agent and only mediated services rendered by an outside party (e.g. excursions, sports events, visits to the theatre, exhibitions, transportation services from and to the advertised places of departure and destinations), if these services were explicitly designated in the holiday description and the booking confirmation as services rendered by an outside party stating the arranging contractual partner so clearly that they are discernible to the customer as not being part of the holiday performance of the Tour Operator. However, the Tour Operator is liable  
13.4.1 for services which represent the transportation of travellers from the advertised place of departure of the holiday to the advertised destination, interim transport during the journey and accommodation during the journey, as well as

13.4.2 if and as far as the damage suffered by a customer was causally due to the Tour Operator breaching his obligations to inform, advise and organise.  
13.5 You are fully responsible if you partake in sports or other holiday activities. You should check sports facilities, equipment and vehicles before using them. The Tour Operator is only liable for accidents that occur in the course of sports and other holiday activities if he must answer for any fault. The Tour Operator recommends that travellers take out accident insurance.

13.6 Transportation is provided on the basis of the terms and conditions of transport of the respective transport provider. These can be furnished if so requested. The terms and conditions of the German railway company Deutsche Bahn (DB) on the reverse of the train documents do not apply. The rights and duties of the Tour Operator and the customer in accordance with German travel legislation and these comprehensive terms and conditions of travel are not limited by the terms

and conditions of the respective transport provider. In line with the description of services (sub-section 3.1) your travel documents may contain Rail & Fly tickets from DB and an additional supplement called "Fahren & Fliegen" from the Association of German Transport Companies. All travellers are responsible for arriving in good time at the departure airport.

## 13.7 Duty to cooperate, complaints

13.7.1 In the event of disruptions to services all travellers are bound in the framework of statutory provisions to cooperate in avoiding or minimising possible damage.

13.7.2 Should you contrary to expectation have grounds to make a complaint, the local travel representative or service provider must be informed immediately in line with sub-section 3.7 clause 1 and request redress. Complaining to the service provider is often helpful, but does not relieve you of your duty to complain to the Tour Operator. You will find the applicable telephone and fax numbers as well as email addresses in your travel documents or in the description of services (sub-section 3.1). In the event of damage to or delays in the delivery of baggage or goods after a flight, the Tour Operator asks that you immediately notify the respective air carrier at the airport by completing and submitting the Passenger Irregularity Report (PIR). After discovering damage later on, in the case of baggage this should be done by completing and submitting the PIR at the latest within 7 days, and in the case of goods within 14 days after taking receipt, and in the case of delayed baggage at the latest 21 days after the baggage or goods were handed over to the traveller. As a rule airlines refuse to pay compensation if the PIR was not completed and submitted. In addition, the loss of, damage to or faulty transport of baggage should be notified to the travel representative. If a traveller culpably omits to report a defect, subsequent claims are null and void.

13.7.3 Travel representatives are not authorised to admit entitlement to any claims.

## 14. Exclusion of claims, limitation and assignment

14.1 All claims on account of the holiday not being provided in accordance with the contract (articles 651c to 651f of the BGB) must be lodged with the Tour Operator within one month (the relevant addresses can be found in section 17 below). You are recommended to do so in writing. The traveller can make a claim after the expiry of one month only if he was prevented from doing so earlier by circumstances beyond his control. The day the holiday ended is not counted in calculating the month's deadline. See 13.7.2 for claims relating to damage to baggage, delays in the return of baggage or the loss of baggage.  
14.2 Claims asserted by the traveller in accordance with articles 651c to 651f BGB for losses resulting from fatal injury, bodily harm or damage to health, if they arise from a deliberate or grossly negligent breach of duty on the part of the Tour Operator, lapse according to the statute of limitations after 2 years. This also applies to claims for compensation for other damages that arise from a deliberate or grossly negligent breach of duty on the part of the Tour Operator or one of his legal representatives or vicarious agents.

14.3 All other claims asserted by the traveller in accordance with articles 651c to 651f BGB lapse after 1 year according to the statute of limitations.  
14.4 The determining date for the lapse of claims according to 14.2 and 14.3 above is based on the day that follows the day the holiday ends as per contract.

14.5 Claims arising from unlawful acts lapse after 3 years.

14.6 If negotiations between the traveller and the Tour Operator regarding the claim or the circumstances surrounding the claim remain unresolved, then the period after which the claim

lapses will be postponed until the traveller or the Tour Operator refuses to continue with the negotiations. The period after which the claim lapses will take effect at the earliest 3 months after the end of the postponement.

14.7 Your travel agent acts only as an agent in making the travel contract. The agent is not authorised to accept any warranty or compensation claims made by the traveller after the end of the holiday.

14.8 The assignment of claims against the Tour Operator to other parties is excluded. This does not apply to co-travelling family members.

## 15. Passport, visa, customs, foreign currency and health requirements

15.1 The Tour Operator will notify nationals of the country in which the holiday is offered of any requirements concerning passport, visa and health regulations as well as any changes to such regulations before the start of the holiday. Nationals from other countries should contact the respective embassy/consulate of the destination country. Basic information on formalities is given in the holiday travel descriptions in the brochures (sub-section 3.1) and in the holiday documents. Please take note of this information and contact your travel agent should you require more detailed information.  
15.2 If the Tour Operator was entrusted with the visa application, the Tour Operator himself is not responsible for ensuring that the visas required are issued by the relevant consular authorities in good time unless the Tour Operator was ultimately responsible for the delay. You should allow approximately 8 weeks for the processing of visa applications, etc., by the relevant authorities.

15.3 The traveller alone is responsible for complying with all regulations necessary to participate in the holiday.

Any negative consequences, especially the payment of holiday cancellation

\* Not applicable to the Porsche Travel Club

charges arising from non-compliance with these regulations, are the traveller's responsibility, with the exception of consequences due to culpably incorrect or deficient information provided by the Tour Operator.

15.4 Consult the brochure and your travel agent to find out whether you need a passport or whether an ID card is sufficient. Please ensure the validity of your travel documents. In some countries children can be registered in the passport of an accompanying parent, in others children need their own passport.

15.5 Some countries apply very strict customs and currency regulations. Make sure that you are well informed and abide by the regulations.

15.6 Some countries demand that certain vaccination certificates may not be less than 8 days old and not more than 3 years old (smallpox) or 10 years (yellow fever). Proof of such vaccinations is required by the German authorities after returning from certain countries (e.g. in Africa, the Middle East). Please refer to the brochure and consult the Porsche Travel Club.

The following driving licences are accepted:

- EU driving licences

17.3 The invalidity of individual provisions of the holiday contract does not affect the validity of the overall holiday contract. The same applies to these terms and conditions of travel.

17.4 German law applies. The registered office of the Tour Operator is the place of jurisdiction for full merchants, persons without a general inland jurisdiction, persons who have relocated their domicile or common residence abroad or whose domicile or common residence is unknown at the time of bringing suit, as well as for passive lawsuits. Both cease to apply only if overriding international agreements stipulate otherwise.
