

#### PERFORM LIKE NEVER BEFORE

Fine-tune your Q50's performance with the Drive Mode Selector. Choose from four distinct modes: Standard, Snow, Eco and Sport, or customize your own. The Q50's engine, transmission, suspension and steering settings will adjust automatically. Tailoring your drive at the flip of a switch.

#### FOUR-SEASON STATUS

Confidently move ahead with INFINITI's standard Intelligent All-Wheel Drive. It provides maximum traction by constantly adapting to changing road conditions.

#### PILOT WITH EASE

When technology advances to enhance the driver, you can cruise easier, follow smarter and steer quicker. INFINITI driver assist technologies in the ProACTIVE Package<sup>1</sup> employ the same technical innovations that will inspire and empower us in the future. When activated, driver assist technologies can automatically react to traffic to help you brake for cars ahead, accelerate to your preset pace and even help steer straight down your lane.

#### UNTOUCHABLE POWER

Choose the Q50's standard 300-hp V6. Or come alive in the fast lane with a 400-horsepower twin-turbo V6. This award-winning engine distinguishes Q50 I-LINE from other sedans in its segment – making it the only one with this kind of power. And it looks the part, with custom imported glossy black wheels, a blacked out grille and a carbon fiber spoiler.

#### STEER WITH ENHANCED PRECISION

Direct Adaptive Steering<sup>1</sup> translates your impulses into electronic input – so you get the response you want. Smooth. Quick. Precise.
