

# QX80

## THE HEIGHT OF LUXURY

Experience a new level of refinement on every journey. The 2019 QX80 LIMITED is the premier expression of our iconic SUV. With exclusive design details and a host of standard driving innovations, this stunning new INFINITI lets you take command at every turn.

## ENHANCE YOUR CAPABILITIES

Engineered for luxury without limits, it offers bold ideas for the driven. Indulge up to 8 passengers in expansive comfort and entertainment. Empower yourself with innovation that looks as far forward as you do with technology like Predictive Forward Collision Warning<sup>1,7</sup> and Intelligent Cruise Control<sup>1,3</sup>.

## REFLECT ON YOUR VISION

The Smart Rear View Mirror<sup>12</sup> means your view need never be compromised by passengers, large cargo or even darkness. The toggle transforms it from a mirror into an LCD screen, displaying the enhanced view from a wide-angle high-resolution camera.

In the strength of its lines and fearless presence, the QX80 cannot be mistaken nor ignored. It is a grand statement of confidence for 7 or 8 passengers, with distinctive front and rear fascias and powerfully expressive LED headlights featuring an eye-inspired INFINITI signature. Augment the QX80's bold stance with the available 22-inch wheels.

## PASS CONFIDENTLY

Performance in the QX80 puts you in command. An impressive 5.6-litre V8 balances 400-hp and 413 lb-ft of torque with modern-day efficiency and up to 8,500 lbs in towing capacity<sup>10</sup>. The INFINITI All-Mode 4WD<sup>®</sup> ensures you're ready when the pavement is wet, snowy or not paved at all. For command in curves and smoothness in bumps, the Hydraulic Body Motion Control<sup>1</sup> actively adjusts the suspension to counter body lean and bounce.

## EXPAND YOUR AWARENESS

The QX80 augments your ease by helping watch for and avoid danger on all sides. Drive with innovations such as Blind Spot Intervention<sup>®1,2</sup>, that can actively help avoid vehicles in your blind spot area, and Predictive Forward Collision Warning<sup>1,7</sup> that watches two cars ahead to help warn you of danger, sometimes before you even see it.
