

SpaceWagon.

SIGMA WAGON SPOILS YOU. AGAIN.

The new Sigma wagon. The Space Wagon. So called because it provides a spacious cargo area with all the room you and your family could want for in a wagon.

Powered by a 2 litre 'Silent Shaft' engine Sigma comes equipped with standard four speed manual transmission. Or, if you prefer, you can specify the optional 3-speed automatic transmission.

Handsomely styled throughout with a striking colour co-ordinated interior, this Sigma wagon spoils you with standard comfort and safety features like reclining front bucket seats, side window defrost, loop pile carpet, tilt steering column, intermittent wipers, heater/demister, and flow through ventilation.

And at the rear, Sigma's large rear window gives the wagon driver excellent visibility for increased safety.
