

Galant Sedans

Galant GL

Everything you need in a car for comfortable, safe driving. The GL has just about every standard feature you can think of. Plus there's a new look grille which incorporates four headlights, and the indicators and parking lights are recessed into the front bumper bar. Some of these standard features are: reclining bucket seats, woodgrain instrument panel, cigarette lighter, push button radio,

tilt-adjustable steering, electric clock, multi-use stalk, and a centre console. Plus a 4-speed floor shift, or optional 3-speed automatic.

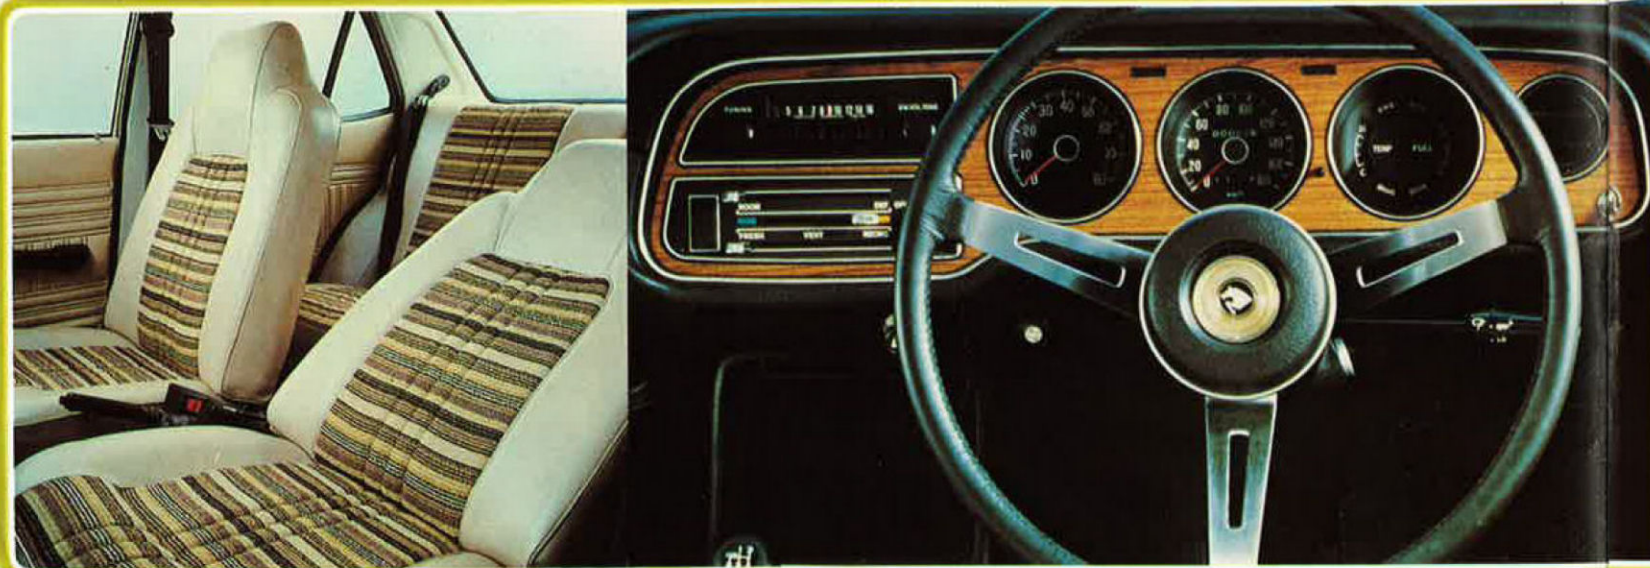

The lower panels on the doors are carpeted to prevent scuffing.

Protective side mouldings, wheel dress rims and decorative rear applique with a new tail-light design, round off the GL's luxurious feeling.

SPORTSPACK

The Sportspack option is available on both the XL and GL models. It has an eye-catching exterior black stripe treatment and black door upper frames. Styled road wheels with stainless steel trim rings and 165 SR13 radial tyres give the Galant extra road handling and extra styling.

Inside, there is a wood-grain instrument panel plus tachometer and a racy three-spoke soft-grip steering wheel. There's also a centre console and the seats have sporty colour-keyed cloth panels.

Sports park

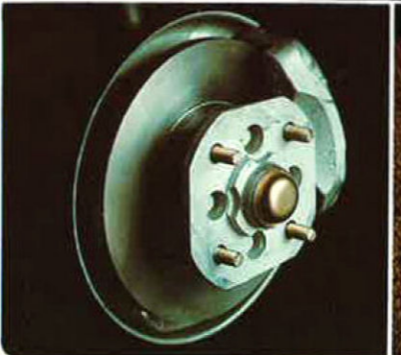

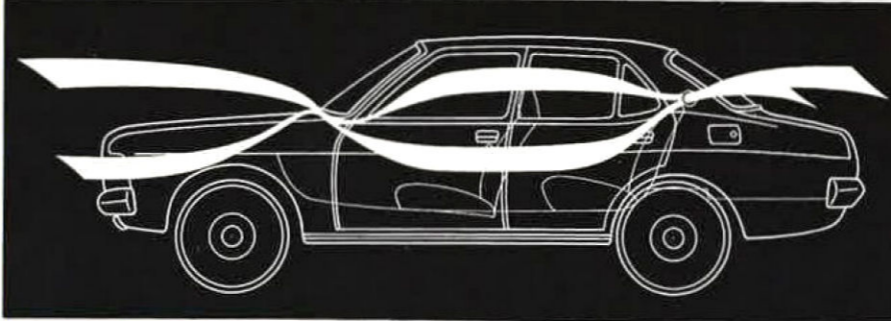

The power to go in your Galant comes from the OHC 1600 Hemi-Saturn engine, winner of the Southern Cross Rally. That's power enough to go anywhere: down to the beach, up to the mountains.

Inside, there's an all-weather flow-through ventilation system changing the air inside the car every ten minutes. That way, the atmosphere stays clear, and so does your head when you're driving.

And in the boot, there's 0.3 m³ (10.5 cubic feet) of space. More than enough to fit all your luggage, when you take off on that long holiday.

 S = standard
 N.A. = not available

Galant XL

A beautifully practical car designed specifically for your comfort and safety. A new grille incorporates twin headlights, and the parking lights and indicators are recessed into the front bumper. An innovative tail-light section makes up the rear end.

All the power you could ever need comes from the Southern Cross Rally winning 1600 OHC Saturn engine. And when you're in the driving seat, all the controls are within easy reach. The multi-use stalk allows fingertip control of indicators, windscreen washers, two-speed wipers, headlight flashers and dip.

There is standard four on the floor gear shift, but automatic three-speed transmission (as shown here) is optional. The steering wheel is tilt-adjustable so you can position it where it's most comfortable for you.

The XL is fully carpeted and the front seats recline for travelling comfort. Not only that, they're covered in long-wearing vinyl with grained inserts.

With the Galant XL you just get in, sit back and relax in one of the most comfortable, practical cars on the road.
