

SIGMA GL WAGON.

From its sleek, handsome body design to its well-appointed interior and remarkable engine, the sensational new Sigma GL is everything a wagon should be. And more.

Lift the tail gate to reveal a high, wide and spacious cargo area. In fact, all the room you could want in a wagon is there.

Standard extras such as chrome skid strips to protect the carpeted cargo area and a large rear window with washer-wiper and tinted, heated glass, all help to set Sigma GL in a class apart from its competition.

From the driver's seat you look about you at a very impressive and comfortable interior.

The padded, sculptured dash features clear, easy to read instrumentation with electric clock, speedo with trip meter, door ajar and handbrake 'on' warning lights, voltmeter, temp and fuel gauges.

There's a push-button radio and fully adjustable flow-through ventilation. The energy absorbing steering column can also be adjusted. Plush carpet throughout and carpeted kick pads on all doors. The vinyl trim is standard with cloth as an option.

Beneath the all-round good looks and sensational equipment of Sigma GL is the quiet, smooth and economical power of the exclusive 4 cylinder Astron 1850 'silent shaft' engine with 4 speed transmission and Electronic Ignition.

Or you may specify the optional four cylinder Astron 2000 engine with either 5 speed manual, including overdrive, or 3 speed automatic transmission.

Radial ply tyres, front disc brakes and Sigma's four wheel coil suspension cap off a truly sensational wagon. The Sigma GL.
