NEO QR20DE 2.0 L ENGINE

Mesin baru *front-mounted* yang responsif sekaligus efisien berkat adaptasi teknologi CVTC (Continuously Variable Timing Control) yang mampu mengatur *intake timing* sesuai putaran mesin. Pada putaran rendah, aliran udara mengecil guna menekan emisi, sementara pada putaran tinggi, katup udara tambahan otomatis membuka sehingga tenaga mesin maksimal. Tak mengherankan bila Serena Anda bertenaga hingga 147 PS dengan torsi maksimum 20.2 kg-m.

New front-mounted engine that is responsive and efficient with the adoption of CVTC (Continuously Variable Timing Control) technology that adjusts intake timing according to engine's speed. At lower RPMs CVTC decreases airflow for lower emissions and increases air flow at higher RPMs to boost performance. Not so surprising if your Serena can churn out up to 147 PS of horse power and 20.2 kg-m of torque.
