A PLACE TO RECHARGE

A spacious interior equips you with a modern yet rugged design and leading technology. The Uconnect® 4C NAV multimedia centre with an 8.4-inch touchscreen displays hybrid details, like charge percentage and remaining range, while a dash-mounted indicator shows status during charging sessions.

When the Electric Vehicle Service Equipment (EVSE) is connected, a multi-coloured LED light at the charge port indicates charging status. The battery gauge on the instrument panel also indicates the State of Charge. The Uconnect App² lets you remotely check on the State of Charge.

AUTHENTIC CAPABILITY

The 4xe system is paired with the 2.0L I-4 DOHC direct-injection Turbo Plug-In Hybrid Electric Vehicle (PHEV) engine to bring out the best in the already tested and proven Jeep® 4x4 hardware: the Selec-Trac® full-time 4x4 system on Sahara® models and Rock-Trac® full-time system on Rubicon® models. A 17-kWh lithium-ion battery pack, regenerative brake booster and 8-speed PHEV automatic transmission work in concert to send impressive amounts of power and torque to each wheel — maximizing the capability of every component.

POWER x2

YOU'RE IN E-CONTROL You choose how and when to optimize the hybrid drivetrain. Select HYBRID for the best of both worlds, ELECTRIC to only use battery power or E-SAVE to reserve battery power for later ... like for low-emission zones in cities or on the trail for near-silent exploring with maximum torque and horsepower.
