

BARINA

HOLDEN

SOPHISTICATED STYLE AND PERFORMANCE

Barina CDX Hatch in Carbon Flash Black

The sporty, yet sophisticated stance of the Holden Barina is an exciting expression of European styling. Available in Hatch or Sedan, it's fresh and modern from every angle, with slick alloy wheels, eye-catching exposed headlights and on the Hatch, uniquely designed hidden rear door handles.

Athletic performance makes driving the Holden Barina always a thrill. Its advanced 1.6 litre 4-cylinder engine*, paired with a 5-speed manual transmission*, means ample power is available, any time. Even if you choose the superbly smooth 6-speed automatic, Active Select puts you in charge of the gear changes with the push of a button. And when it comes to handling, the Holden Barina is intuitive and agile. It all makes for a truly spirited drive for those who aspire to more.

INTERIOR STYLE & TECHNOLOGY

Barina CDX

The Barina sets new standards for style and comfort. Unmistakably modern, it takes design cues from exciting new sources, with cockpit-style seats and a motorcycle-inspired instrument cluster with ice blue illumination featured throughout the cabin.

The CDX gives you even greater levels of comfort, with heated front Sportec seats, rear view camera, 7" colour touchscreen and the Holden MyLink infotainment system.

The Barina is designed with one idea in mind: your total enjoyment.

mylink

Take your world on board:

SAFETY

THE HOLDEN BARINA PROVES A SMALLER CAR DOESN'T HAVE TO BE SMALL ON SAFETY.

An array of active and passive safety systems as well as structural reinforcements have earned the Barina the highest possible 5-Star ANCAP safety rating.

Intelligent features like Electronic Stability Control (ESC) and Traction Control System (TCS) work together with leading brake technologies, including Electronic Brakeforce

Distribution (EBD) and Brake Assist (BA), to help you avoid an accident.

Should a collision occur, active safety systems immediately come into play. Six airbags – front, side impact and side curtain – protect occupants front and rear. At the same time energy management crumple zones work to take out the force of the impact, safeguarding

occupants by helping maintain the integrity of the passenger compartment.

With the Barina you can be sure we've made no compromise on safety. So, when it comes to choosing your next car, there's no need for you to compromise either.

Image: Barina CD Hatch in Nitrate Silver

How ESC helps you avoid accidents

Imagine you have to avoid an unexpected obstacle on the road. You end up with two wheels on the gravel verge and need to brake suddenly...

TCS reduces torque to reduce slip

ESC brakes the left rear wheel momentarily to reduce understeer

ESC brakes the right front wheel momentarily to reduce oversteer

Side curtain airbags

Side curtain airbags provide head and upper body protection for front seat occupants and left and right rear passengers

Anti-lock Braking System (ABS)

ABS prevents wheel 'lock up' during forceful braking which helps keep your car steerable and directionally stable, and reduces stopping distances on most surfaces

Seatbelt pretensioners

A sufficiently forceful impact will trigger pyrotechnic charges that force the front seatbelts to tighten, holding front occupants firmly in their seat

Electronic Stability Control (ESC)

ESC is a technically advanced chassis system that provides outstanding safety and vehicle control benefits. Working with ABS, ESC can apply individual brakes selectively to control oversteer or understeer as necessary to help the driver maintain control during extreme driving manoeuvres

Electronic Brakeforce Distribution (EBD)

EBD regulates the braking force applied to each wheel. This ensures optimal balance between front and rear brakes, which helps minimise stopping distances

Brake Assist (BA)

BA is designed to sense how fast you press the brake. If it detects an emergency stopping situation, it will maximise braking pressure to optimise braking performance

Traction Control System (TCS)

Designed to maximise the vehicle's stability on wet and icy roads, TCS detects if either front wheel has insufficient grip, and adjusts drive force and brake force accordingly

Side impact airbags

Side impact airbags provide chest and thorax protection for the driver and front passenger

Front airbags

For maximum protection in certain frontal collisions, the vehicle will deploy front airbags for the driver and front passenger

CD

Barina CD Hatch in Boracay Blue

CDX

Barina CDX Hatch in Summit White

Barina CD Hatch in Blaze Red

The Holden Barina CD welcomes you with an invitingly spacious interior. Intelligently designed storage spaces ensure all your belongings are within easy reach.

CD features include:

- 1.6 litre DOHC 4-cylinder petrol engine with 5-speed manual[^] or optional 6-speed automatic transmission with Active Select

Genuine Holden Accessories

SEAMLESS INTEGRATION

Genuine Holden Accessories are designed and manufactured in conjunction with the vehicle, which means that their materials, finishes and colours will all match seamlessly with your new Barina.

UNCOMPROMISED QUALITY

Each and every item in the Genuine Holden Accessories range is rigorously tested by Holden Engineers in the lab and the field, in accordance with Holden's own demanding standards to meet or exceed applicable Australian Design Rules (ADRs).

NEW ZEALAND-WIDE SUPPORT

Only Genuine Holden Accessories are sold and supported by the nationwide Holden Dealer Network. No matter where you are, or where you're headed, you'll never be far from help or advice should you need it.
