

Equinox

The perfect SUV for real life.

Things don't always go as planned. There aren't always enough hours in the day. And sometimes it'd be nice to have more than one pair of hands. That's not a bad thing; it's just life. So, here's an SUV that's made for the way you actually live.

For starters, it has the stylish good looks of a premium SUV but you don't have to treat it with kid gloves. Jet-black leather-appointed trim¹ adds a nice bit of luxury inside, but it's also easy to clean. Little spills and crumbs just wipe right off. The panoramic glass sunroof² is something else you're going to love, especially if you're stuck in the office all day and need to top up your vitamin D levels.

On cold early mornings, heated front and rear seats¹ and steering wheel² make things nice and cosy. And when it's a scorcher outside, ventilated front seats2 will help keep you cool.

These days, peace and quiet can be hard to come by. You'll like the way Active Noise Cancellation³ helps to take care of that. And of course, an SUV is all about space. One-touch fold flat back seats⁴ put all the room you need at your fingertips, so you can save your workout for the gym. Better still, the hands-free tailgate¹ powers open when you wave your foot under it. You'll find that really handy when your hands are full.

LED headlamps and taillights1 add a sharp design touch, but once again, this is an SUV that doesn't just look good. With two-wheel drive and all-wheel drive models1 it can handle whatever your life throws at it, perfectly.

We've thought of everything, so you don't have to.

Work. Friends. Gym. Kids. Dogs. Family. Sport. DIY. Teenagers.

Life can get crazy, and while we can't do much about that, we can give you less things to worry about. The technology we've packed into this SUV won't just make your day easier; it'll keep you safer.

If the kids are always draining the battery on your phone, you'll find wireless phone charging¹ a real bonus. And because the radio doesn't play 'The Wheels on the Bus' on a loop, you'll be thankful for Apple CarPlay® and Android® Auto². It's phone projection technology that seamlessly syncs your smartphone to the car's screen so you can access your phonebook, navigate with your maps and play your favourite playlists via the Bose® Premium Audio System⁵. You can also make calls, text mates and get directions, all without taking your hands off the wheel. And the 8-inch colour touch-screen³ is nice and big so it's easy to follow while you drive.

Keeping everyone you care about safe is another thing this SUV takes very seriously with HoldenEye^{®4}. It works like an extra pair of eyes, looking out for potential dangers and warning you before they can happen.

Forward Collision Alert⁴ lets you know when you're closing in too fast on the car in front. And because we all drift out of our lane sometimes, Lane Keep Assist⁴ will help steer you back on course as the vibrating Driver's Safety Alert⁴ warns you — subtly — to pay attention, unlike that back-seat driver we all know. Autonomous Emergency Braking⁴ will even intervene in certain situations and brake the car for you, reducing the severity of potential collisions or even avoiding them entirely.

There's also Blind Spot Alert⁴ for eyes-in-the-back-of-your-head vision when you're changing lanes. Your headlamps have High-Beam Assist⁴ so you can light up the road ahead at all times without dazzling other traffic. And Rear Cross Traffic Alert⁴ helps you safely reverse out of those tight shopping centre carparks when your vision is restricted. 5 star ANCAP safety rating across the range.

Equinox LS

In Son of a Gun Grey

Hope you like surprises, because that's just what you get with the LS. It's packed with features you'd usually expect on more expensive models. Like Apple CarPlay® and Android® Auto² so you can do all the things you love doing on your phone, via the 7-inch touch-screen.

Passive Entry and Push-Button Start (PEPS) is another handy gadget, especially when your hands are full. And don't be surprised if the engine stops when you idle. It's designed to do that to save on fuel and reduce emissions. It'll start again automatically as soon as you step off the brake pedal, or clutch for those who like a left-foot workout. The LS will make you feel safer too, with LED Daytime Running Lamps, stability control and six airbags. And if you're worried about parking an SUV, don't be. The LS has Rear Park Assist and a Rear View Camera to make it easy getting in and out of even the tightest spots.
