

■ Xenon headlights for low and high beam, with luminous rings, including dynamic headlight range control for much better illumination of the road ahead in bad weather or poor visibility. These headlights also feature auto-levelling to adjust for varying passenger and cargo loads. (Not available on the 320i.)

■ Headlight washer system provides automatic cleaning in parallel with the windshield wipers when the headlights are on, thereby enhancing the headlight illumination of the road ahead in all weather conditions.

■ The rain sensor uses an infrared light to measure the amount of rain. When the wipers are in the "intermittent" mode, the rain sensor automatically adjusts the windshield wiping interval as needed. Includes automatic headlight function.

☐ Park Distance Control (PDC) uses ultrasonic sensors in the rear bumper to help you judge the distance to other cars and unseen objects when parking. The beeping becomes faster as your bumper approaches the object, turning into a constant tone when the distance is less than 30 centimetres.

■ Multi-function leather steering wheel offers highly convenient operation, increased safety and an ergonomical design that makes it fit especially well in the driver's hands. (Optional on 320i.)

■ Six-speed manual transmission makes for extremely dynamic driving. Smooth and optimally synchronized, it boasts precise, short shift throws. The more tightly graded transmission and additional sixth gear make the engine even more responsive to your personal style of driving. (Available only on 330i/xi.)

□ On-Board Navigation System guides you conveniently and directly to your destination. In addition to providing driving instructions via voice, directional arrows or map display, the system will provide destination-specific information. Includes Canada/USA Navigation DVD.

Climate ■ Automatic Control includes Automatic Air Recirculation (AAR), which is activated when a sensor detects certain pollutants in the outside air, Inside, cabin air continuously passes through a microfilter that removes pollen, dust and spores. (Not available on 320i.)

☐ Telephone and BMW Assist preparation enhances driving safety even further with Bluetooth technology. A full Telephone and BMW Assist preparation includes one year of BMW Assist Safety and Security Telematics Services at no extra charge. With the BMW Assist Safety and Security Package, you get access to Emergency and Roadside Assistance Telematics Services.

Equipment

□ Harman/Kardon Sound System projects exceptional sound from 10 speakers and upgraded amplification, plus 2 subwoofers and vehicle-speed-sensitive equalization.

□ Electric seats with driver memory enable the driver and passenger to precisely adjust their seats to individual preferences. The positioning of the driver's mirror is also retained in the seat memory. (See page 53 for availability.)

□ Lumbar support is electronically adjustable and provides the driverand front passenger with a high degree of seating comfort and effective spinal relief. The continuously variable air cushion system helps you adopt an orthopaedically correct seating position.

■ Interior auto-dimming mirror increases driving safety and comfort for driving at night. Depending on the dazzle intensity, the interior mirror dims accordingly in order to minimize glare. When dazzling has ceased the mirrors return to the original degree of reflection.

☐ **Through-loading system** with 2:1 split-folding rear seats, including ski bag.

range of individual settings and features on your car, including the Follow-Me-Home function. **Key Memory** allows you to set your preferred seat position of the electrically adjustable driver's seat. Furthermore, it is possible to set the automatic climate control to the interior temperature and air distribution to a specific key.

■ Vehicle Memory allows you to program a full

■ Driver and front passenger airbags protect your head and upper body in a frontal collision from hitting the steering wheel or instrument panel. Depending on the severity of the impact, the airbags are inflated via a two-stage gas generator (Impact-Dependent system); the front passenger airbag comes complete with a seat occupancy detector.

■ Head Protection System (HPS) for the driver and front passenger provides effective protection of your head and upper body in a collision from the side.

■ Dynamic Stability Control (DSC) recognizes the risk of the car skidding very early and stabilizes the car within milliseconds. Also includes Dynamic Brake Control (DBC).

Illustrations above: all dimensions in mm. Figures in () apply to 320i, if different. Please see your BMW Retailer for 325xi and 330xi dimensions. Luggage compartment capacity 440 litres. Turning circle 10.5 m on 320i, 325i and 330i; 10.9 m on 325xi and 330 xi.

- 1 Top speed limited electronically.
- 2 BMW AG test results. Actual acceleration results may vary, depending on specification of vehicle, road and environmental conditions, testing procedures and driving style. These results should be used for comparison only, and verification should not be attempted on public roads. BMW urges you to obey all posted speed laws and always wear safety belts.
- 3 NR Can-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage will most likely be lower.
