

SOLUTIONS FOR THE WORLD YOU DRIVE IN.

At General Motors we are 100 percent committed to building vehicles that answer your specific needs. Because you demand more of your vehicle than ever before, we're committed to putting more of what you want into every vehicle we make.

VALUE

Value means much more than simply the price you pay for a vehicle. We are particularly proud of the value you receive for your money when you choose a General Motors vehicle – the unique combination of style, performance, safety, quality and functionality that sets GM's diverse model lineup apart from the rest.

FUEL ECONOMY

We know how important fuel efficiency is today. GM has it covered by offering more cars that get better than 7.0 L/100 km or 40 mpg in highway* driving than any other automaker in Canada. In addition, GM offers 15 models with Active Fuel Management™ fuel-saving technology – and 17 models that can run on E85 ethanol fuel.

QUALITY

If you're looking for a vehicle that's built to exceptionally high standards, look no further than GM's long list of quality and dependability awards, media accolades and consumer recommendations – as well as the fact that GM builds the most dependable, longest-lasting full-size pickups on the road*.

INNOVATIVE DESIGNS

It required ingenuity to bring utility and dramatic style together in the Chevrolet HHR. And it required pure creativity to execute the flawless lines and purposeful design of the Pontiac Solstice open-air roadster. At GM, we break the mould to develop new designs that give you more range of selection than ever before.

SAFETY

General Motors is the only automotive manufacturer committed to offering a full range of cars, trucks and SUVs that provide safety protection before, during and after a collision. In addition, GM builds 26 vehicles that have earned U.S. Government five-star frontal or side crash test ratings for 2006 models.**

FEATURES

GM keeps you ahead of the curve, by adding the features that really make a difference to your driving experience. Features like OnStar – the first comprehensive in-vehicle communications and assistance service. And XM Satellite Radio – the largest satellite radio provider in the world – that's now offered on more than 50 GM vehicles.

*Dependability based on longevity; 1988-July 2005 full-size Chevrolet and GMC light-duty pickup registrations, including chassis cabs. Sources: R.L. Polk Canada, Inc. National Vehicle Population Profile – Canadian Vehicles in Operation as of July 1, 2005. Based on % of vehicles remaining in operation, weighted on age of vehicle.

2007 EQUINOX

2007
EQUINOX

2007 EQUINOX

NOW IT'S EVEN MORE INGENUOUS.

Equinox first broke ground as the compact crossover vehicle that combined the utility of an SUV with the road handling and refinement of a premium sedan. Now the V6-powered Equinox is breaking new ground again with new styling cues on the exterior and interior, in addition to several technological advances. They include the StabiliTrak vehicle stability control system, traction control and four-wheel disc brakes with ABS – all standard. A new available active all-wheel-drive system adds to the sophistication. Even the fuel efficiency is enhanced. Ingenuity on display – in the vehicle that continues to rewrite the rule book. The 2007 Chevrolet Equinox.

For more information on Equinox, visit our website at equinox.gmcanada.com

Equinox LT, shown in Silverstone Metallic with available features.

EQUINOX

REDESIGNED FROM THE INSIDE OUT.

The restyled 2007 Equinox features revised front and rear fascias for a more integrated look. Standard 16-inch aluminum wheels and available 17-inch aluminum wheels create an authoritative presence. The handling is also enhanced, thanks to new suspension components and revised suspension tunings. So you can admire the new Equinox from the outside, but a test drive is required for a full appreciation.

EQUINOX AWD

THE ALL-WHEEL-DRIVE SYSTEM IS ACTIVE – JUST LIKE THE WEATHER.

In Canada, the weather can change in the blink of an eye. Fortunately, the new available active on-demand, all-wheel-drive (AWD) system adjusts accordingly. This new system not only reacts to change quickly, but can also help prevent wheelspin. The AWD system integrates with the standard StabiliTrak vehicle stability enhancement system, traction control and ABS brakes, transferring torque to the rear wheels when front wheel slippage is detected. The result is enhanced launch capabilities during hard acceleration and increased vehicle stability. In Equinox, the technology is also ingenious.

The smooth-shifting, standard 5-speed automatic transmission doesn't only keep you in the sweet spot of the power band – it also helps maintain optimal fuel efficiency. The transmission also features Adaptive Learning Capacity, which adjusts the shift schedule automatically to compensate for the load you're carrying and the driving conditions.

Unlike many other vehicles in its class, Equinox features standard V6 power. The 3.4L V6 engine produces 185 horsepower. The engine contributes to a substantial towing capacity: 1588 kg (3500 lb.).

The new, standard StabiliTrak vehicle stability control system continuously monitors steering angle, wheel speeds, brake pressure and lateral acceleration. If the system detects deviation from your driving line, it intervenes by adjusting brake pressure and engine torque at individual wheels to help return the vehicle to your intended direction.

EQUINOX INTERIOR

THEY'RE THE REAR SEATS, NOT THE BLEACHERS.

Some vehicles tend to overlook the comfort of those who occupy the rear seats. In Equinox, there are no bleachers. The Multi-Flex rear seats can slide back and recline to provide enormous legroom and a very comfortable sitting position. Or they can slide forward to open up more

rear cargo room. The fold-flat front passenger seat adds to the versatility. And for 2007, Equinox LT rear seat passengers gain the added convenience of a centre armrest with cupholders. In Equinox, comfort never takes a back seat.

KEY FEATURES:

- Multi-Flex 60/40 split-folding, sliding, reclining rear seats can travel up to 200 mm (8 in.)
- Air conditioning with air filtration system and rear-seat heat ducts
- Power 6-way driver's seat adjuster on LT, available on LS
- Console with storage areas, cupholders and armrest
- Rear fold-down armrest with cupholders (LT models)
- Available heated leather seating surfaces (LT models)
- Available remote vehicle starter system.

Equinox LT interior, shown with available leather seating surfaces in Light Gray.

EQUINOX CONTROLS

Equinox enables you to keep track of 20 separate vehicle functions through the new standard Driver Information Centre.

The new available touch-screen DVD navigation system* features voice recognition and responds to up to 26 commands.

The available rear DVD entertainment system includes a large fold-down LCD monitor, 2 wireless headphones, input jacks and a remote control unit.

For an enhanced listening experience, a premium Pioneer 7-speaker sound system is available on Equinox.

*At time of print, detailed map coverage is available for most major urban areas of the United States and certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas. Choose the factory navigation option and you will receive an updated navigation DVD each of the first two years following delivery.

Equinox LT instrument panel, featuring leather-wrapped steering wheel with sound system controls.

NOT JUST REDESIGNED – RE-ENGINEERED.

You can't help but notice the clean lines and refined design of the new, restyled instrument panel and centre stack. Take a closer look and you'll discover that functionality has also increased. A new Driver Information Centre now relays more information – including the status of the new

standard tire pressure monitoring system. And the new sound system includes an auxiliary audio input for personal MP3 players. The 2007 Equinox – it just looks better and better.

KEY FEATURES:

- Enhanced Driver Information Centre
- Tire pressure monitoring system
- Power windows, mirrors and programmable door locks
- CD player with auxiliary audio input jack; MP3 playback included on LT models
- Tilt adjustable steering column
- Premium Pioneer 7-speaker sound system available
- DVD navigation system available
- Rear DVD entertainment system available.

EQUINOX SAFETY & SECURITY

AN ALL-ROUND APPROACH TO SAFETY.

You can take reassurance from the fact Equinox earned the highest possible U.S. Government safety rating – five stars.*

For 2007, there is added peace of mind with every new safety and security feature – including a tire pressure monitoring system that alerts when a tire is under- or over-inflated. And the standard dual-stage frontal air bags are complemented by a new Passenger Sensing System that controls deployment.** Read more details about Equinox's safety features below and on the following page. And gain an appreciation for Equinox's comprehensive and well-rounded approach to safety.

5-STAR SAFETY RATING

The 2006 Equinox earned 5 stars – the highest U.S. Government safety rating – for the driver and front passenger in frontal crash tests, and front and rear passengers in side-impact crash tests.*

SAFETY DIAGNOSTICS

A sophisticated safety module determines the severity and location of an impact. It also controls the deployment of the front dual-stage air bags,** the available head curtain side-impact air bags, and the front safety belt pre-tensioners.

AIR BAG TECHNOLOGY

The standard front dual-stage air bags** sense the severity of a crash to determine whether the air bags should be deployed and the most appropriate amount of inflation. The new Passenger Sensing System automatically switches the front passenger frontal air bag on or off based on the passenger's weight and the type of pressure on the seat. In addition, available head curtain side-impact air bags mounted to the roof rails are designed to help reduce the risk of head injuries to front and outboard rear-seat occupants in certain side-impact collisions. For 2007, the head curtain air bags also feature rollover protection.

ONSTAR

The OnStar in-vehicle communications and assistance service represents one of the most important advances in safety and security in recent years. When you choose the available OnStar system on Equinox LT, you also receive the one-year Safe & Sound Plan. And the available Directions & Connections Plan now includes new Turn-by-Turn Navigation. It provides step-by-step, voice-guided directions to your destination.†

SAFETY CAGE CONSTRUCTION

A rigid steel safety cage surrounds the passenger compartment for added occupant protection. The cage is reinforced with 1-piece frames that support door openings, the roof, and steel door beams, helping resist side-impact intrusions. And the structure is designed with front and rear crush zones that are engineered to collapse in a controlled manner to help absorb crash energy while protecting the integrity of the safety cage.

LATCH

Equinox includes Lower Anchors and top Tethers for Children (LATCH) to help secure child restraints. Three LATCH positions are provided, but only 2 are to be used simultaneously. If 3 are needed, the third can be installed using a safety belt.

STABILITRAK

The StabiliTrak vehicle stability control system is standard on all Equinox models for 2007. It uses a network of sensors to detect when the vehicle isn't responding appropriately to steering input, which can cause a loss of lateral traction (sideslip), understeer (plowing) or oversteer (fishtailing). When any of these conditions begins to occur, the system automatically adjusts brake pressure at the appropriate wheel or wheels, and regulates engine torque, to return the vehicle to your intended driving line.

*U.S. Government ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (safercar.gov).

**A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.

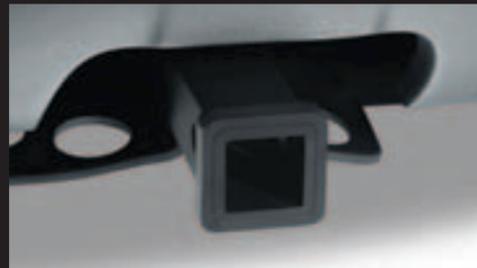

†Turn-by-Turn availability impacted by some geographic/cellular limitations, advisor-assisted routing available.

EQUINOX ACCESSORIES

EQUINOX HAS ITS OWN PERSONALITY. NOW ADD YOURS.

Equinox has a strong character all its own. Now it's your turn to personalize your vehicle with the added style and function provided by GM Accessories. They are the only accessories that are integrated into the process of designing your vehicle, ensuring excellent fit, finish and functionality. And only GM Accessories are backed by GM's 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for Equinox, or visit gmcanada.com

*Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

GM Accessories available for Equinox include:

- 17" chrome wheels
- Moulded hood protector
- Ventvisors
- Doorsill appliqué
- Splash guards
- Hitch-mounted bike and ski carriers
- Console storage bag
- Trailer Towing Package
- Pet Restraint Package.

ONSTAR

OnStar* uses advanced communications technology to enhance your safety, security and convenience. OnStar Advisors can provide a wealth of information and perform a variety of diagnostic services.

They can also provide assistance in an emergency. No wonder more than 4 million people have become OnStar subscribers and over 12 million calls are made each month on the built-in voice-activated, hands-free system. OnStar and one year of the Safe & Sound Plan are available on Equinox LT models. See your dealer for more information on plans and services.

*OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. Not all OnStar features are available on all vehicles. OnStar acts as a link to existing emergency service providers. OnStar Hands-Free Calling requires a Hands-Free enabled vehicle, prepaid minutes and existing OnStar service contract. Subscription Service Agreement required.

XM SATELLITE RADIO

What's convinced more than six million people to subscribe to XM Satellite Radio? How about the largest playlist on the planet, with musical genres that span everything from decades to dance, rock to rap and country to classical – broadcasting the most commercial-free music in digital quality sound? Or is it the news, talk, comedy and sports channels – including more than 1,000 NHL games – and all available from coast to coast?* XM has revolutionized radio as we know it. And now you can enjoy XM Satellite Radio in your next General Motors vehicle – GM is the first automaker to offer factory-installed satellite receivers. Ask your dealer for more information.

*Includes three free trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

THE GM WARRANTY:[†]

The New Vehicle Limited Warranty is your promise of total warranty protection. It applies to the first owner and all future owners of the vehicle, and covers repairs to correct vehicle defects related to materials or workmanship during the warranty period.

The warranty includes:

- 3-year/60,000 km* Base warranty coverage
- 6-year/160,000 km* rust-through perforation coverage
- 8-year/130,000 km* coverage on catalytic converters and powertrain control modules (PCMs).

[†]Conditions and limitations apply. *Whichever comes first.

OTHER OWNERSHIP PRIVILEGES AND PROGRAMS:[†]

- **Roadside Assistance** – 24/7 service via toll-free number during the Base warranty period, anywhere in Canada or the United States
- **Courtesy Transportation** – may be offered during the Base warranty period
- **GM Protection Plan (GMPP)** – the only extended services contract backed by the resources and commitment of General Motors. GMPP may be purchased at the time of your sale or lease, or subsequently during the Base warranty period[†]
- **GM Goodwrench Service** – with GM-certified technicians and GM-approved parts, nobody knows your GM vehicle better.

[†]Conditions and limitations apply.

TO HELP YOU PURCHASE OR LEASE A NEW VEHICLE:

- **GMAC Financing** – on the spot financing at your GM dealership^{††}
- **GMAC SMARTLEASE** – a smart alternative to traditional financing^{††}
- **GM Student Bonus Program** – GM will cover the first two purchase finance or lease payments and the lease security deposit on eligible new GM vehicles for students and recent graduates of high school, college or university[†]
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 on GM Card[®] Earnings toward the total purchase price or lease down payment on selected vehicles[†]. For more information on The GM Card please call 1-800-461-3279.

[†]Conditions and limitations apply. ^{††}Subject to eligibility.

INFORMATION RESOURCES:

You can find more information about these programs from your GM dealer, or at these information centres:

- The GM website at gmcanada.com
- The GM Customer Communication Marketing Centre at 1-800-GM-DRIVE (1-800-463-7483 or 1-800-263-3830 for TDD users)
- For information about GMAC visit gmcanada.com or call 1-800-616-4622.

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, the GM Canada emblem, the GM Canada website address, the GM Accessories logo, Buick, Cadillac, Chevrolet, the Chevrolet emblem, GMC, HUMMER, Pontiac, Saab, Saturn, Equinox, HHR, Solstice, and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Multi-Flex, SMARTLEASE, Solar-Ray and StabiliTrak are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

GMAC is a registered trademark of the General Motors Acceptance Corporation.

OnStar, the OnStar logo and the OnStar button are registered trademarks of the OnStar Corporation.

PASS-Key III and TheftLock are registered trademarks of Delphi Automotive Systems.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

Pioneer is a registered trademark of Pioneer Electronics.

The XM name and related logos are registered trademarks of XM Satellite Radio Inc.
