

ALL-NEW
FLEX

2009

powered by you

Expanding Life's Possibilities

Get more out of it.

Flex Limited in Cinnamon Metallic with available equipment.

At first glance it's obvious the all-new Flex crossover utility vehicle (CUV) is something special. Its fine lines and bold design spark intrigue and allure, blurring the line between elegant luxury car and capable SUV. But Flex is a CUV that's a rolling work of modern design and is unique in every way. It's up to you to choose which way suits you best.

Nighttime brilliance

Available High-Intensity Discharge (HID) projector-beam headlamps brightly show you the way.

Grand openings

An available, innovative multi-panel Vista Roof™ provides windows to the world and makes Flex's already spacious interior feel even bigger.

Elegantly in Control

For a new driving experience.

Flex Limited with Charcoal Black interior and available equipment.

Flex's masterful design carries through to the interior. Handsome design touches include a colour-keyed leather-wrapped steering wheel with wood inlay on Limited. A leather-wrapped shifter is surrounded by an artistic centre console, while the instrument panel design rivals that of any vehicle. Of course, it's not only looks that make Flex a joy to drive. Steering wheel controls enable you to operate audio and cruise control features without your hands leaving the wheel.

Touch of class

A voice-activated Navigation System with a brilliant 8-in. colour screen, optional on SEL and Limited, computes complex routes in the time it used to take to unfold a map. A split screen even displays the map on the left and the planned turn list on the right. Commands are made with a touch of the screen or simple voice commands.

Customize Your Space

Travel the way you want.

Flex Limited in Charcoal Black with 2nd-row reclining seats with Power Release, available 2nd-row centre console and other equipment.

Stylishly flexible

As its name implies, Flex's seating options can be changed to suit different passenger and cargo needs. No less than 32 different seating configurations make Flex one of the most versatile crossover vehicles on the road today. Flex provides 1223 litres (43.2 cu. ft.) of cargo room behind the 2nd-row seats and 2356 litres (83.2 cu. ft.) with the 2nd- and 3rd-row seats folded flat.

Available 2nd-row bench seat.

Everything You Need

You won't want to get out.

Flex Limited in Charcoal Black with available 2nd-row console refrigerator.

A cool idea

Pop in a beverage at room temp; pull it out later at a cool 5°C. The secret is an available compressor-driven refrigerator, conveniently located in the centre console between the 2nd-row bucket seats. It not only chills; it freezes. Push the button once to refrigerate — twice to freeze.

If getting there is half the fun, Flex is the vehicle you need to get you there. Flex's list of innovative features that maximize comfort and convenience is about as long as the trips you'll take. If you want tunes, Flex has up to 6 sources of sound to choose from. Even more choices are available for the driver, front or rear passengers who can have their own ideal climate settings. Flex offers so much, it might feel like a second home — on wheels.

To each their own

Dual-zone Electronic Automatic Temperature Control allows driver and front passenger to select their individual comfort settings.

Get charged up

Plug in a laptop, battery charger or other small electronics that require a conventional household outlet with the available 110-volt, 150-watt outlet.

Wide open

The available power liftgate opens and closes from the integrated key fob, dash-mounted switch or switch in the rear cargo area.

Choose your comfort

Rear passengers can adjust climate control settings to their individual tastes with rear climate controls.

No fueling around

Forget about losing the gas cap. The new Easy Fuel™ capless fuel-filler system allows you to quickly and safely gas up, no cap required.

Warming up

Heated, leather-trimmed 1st- and 2nd-row seats are standard on Flex Limited, while SEL comes with heated, cloth 1st-row seats.

In Total Command

Control at your fingertips.

SYNC
Powered by **Microsoft**

SIRIUS
SATELLITE RADIO

Flex Limited in Charcoal Black with available equipment.

Now you're talking

Ford SYNC™, a groundbreaking voice-activated, hands-free communications and entertainment system, integrates your Bluetooth®-enabled mobile phone and nearly any portable digital media player. You talk, SYNC listens.™ And all without taking your hands off the steering wheel. Developed in concert with Microsoft, SYNC is fully updatable as new features become available. To learn more visit www.SyncMyRide.ca.

Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

Microsoft is a registered trademark of Microsoft Corporation. The Bluetooth word mark is a registered trademark owned by the Bluetooth SIG, Inc.

Get SIRIUS¹

With SIRIUS Satellite Radio, you can stay locked on your favourite channel wherever you drive, coast-to-coast. Enjoy over 100 channels of sports, personalities, news and commercial-free music.

Music and more

With nearly 10-gig of hard drive space housed in the available navigation system, you can store about 2,300 songs, upload photos, and even watch a DVD while parked.

Set the mood

Available Ambient Lighting gives you the ability to choose from 7 different interior lighting colours that illuminate the footwells and cupholders.

Showtime

2nd- and 3rd-row occupants can watch DVDs or play video games with the available on-board entertainment system that includes wireless headphones.

Back-up plan

In addition to the standard Reverse Sensing System, the Reverse Camera System equipped with the available Navigation System allows you to see what's behind while backing up. The image shows on the console's LED screen.

Entry level

Hidden in the driver door and invisible when not in use, the next generation SecuriCode™ keyless-entry keypad allows you to unlock the vehicle by touching in a code.

¹Includes 6-month prepaid subscription and online access. See your Ford of Canada Dealer or contact SIRIUS at 1-888-539-7474 for more information.

Confident Power

Always on call.

Flex backs up its powerful looks with a drivetrain to match. The 262-hp V6 engine combines with a standard, smooth-shifting 6-speed automatic transmission to provide the power and capabilities you demand every day. When properly equipped, Flex can tow up to 2041 kg (4500 lbs.), more than enough to pull your favourite toy to that special getaway spot.

Top of the line

Flex's available two-tone roof reflects a different era of automotive design and is sure to get noticed.

Powerhouse

Flex innovation can be found under the hood in the form of a 3.5L Duratec V6 engine. Sophisticated features, including intake variable cam timing (iVCT) help achieve a torque rating of 248 lb.-ft. @ 4500 rpm and maximize engine breathing for an output of 262 hp @ 6250 rpm. A standard 6-speed automatic transmission helps Flex attain 12.6L/100 km city and 8.4L/100 km hwy.¹

¹FWD models, based on Transport Canada approved test methods.

Flex Limited in Dark Ink Blue Metallic with available equipment.

Road Handler

Anytime, anywhere, in any condition.

AdvanceTrac® with RSC® (Roll Stability Control™) is standard on Flex. The system actually measures what other manufacturers' systems ignore or can only estimate. The system features a vehicle-roll motion sensor that works in conjunction with the Anti-lock Brake System (ABS), traction control and yaw control. RSC uses the sensor to directly measure the vehicle's roll-rate at least 100 times every second, which helps determine when and how the system will apply individual brakes and modify engine power to help all 4 wheels stay firmly planted.

Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

Staying grounded

The slickest surfaces can catch you off guard no matter how carefully you drive. Available AWD helps keep Flex grounded and gives you and your passengers a feeling of security, even in snowy conditions.

Flex SEL in Sterling Grey Metallic with available equipment.

Solid Protection

Surrounded by safety.

The Safety Canopy® System utilizes side-impact and rollover sensors to direct deployment of the side-curtain airbags in certain types of side-impact collisions or rollover events. The system provides coverage for all outboard-seated occupants.

Dual-stage front airbags help minimize impact forces.

Sensors detect the presence of a front passenger and safety belt use and activate or deactivate the airbag accordingly.

SPACE (Side Protection And Cabin Enhancement) Architecture™ and side-intrusion door beams help prevent cabin compromise in certain side-impact collisions.

Flex's Personal Safety System® (PSS) is a number of features working in conjunction to help protect the driver and front passenger in case of a collision. The system adjusts deployment of the front airbags¹ and includes a restraint control module, driver-seat position sensor, front safety belt usage sensors, front safety belt pretensioners, front safety belt energy-management retractors, dual-stage driver and front-passenger airbags¹ and Front-Passenger Sensing System.

¹Always wear your safety belt and secure children in the rear seat.

Secured approach

Available security approach lamps provide illumination when you're entering the vehicle at night or in dimly lit areas.

Customize Your Ride

Like nothing else on the road.

A full line of accessories allows you to customize Flex to suit your style and your needs. From colours to gadgets, Ford Accessories offers everything you need to make your already unique Flex one of a kind.

Customize it

Add style with special Flex exterior graphics for the sides and Faux Carbon Fibre appliqué¹ for the sides and rear.

Keep it clean

All-weather floor mats are precision cut for a custom fit and protect the carpet from dampness, soil and winter-time salt.

Cap it off

A locking fuel plug that inserts into the Easy Fuel™ capless fuel-filler system is available for added security.

Accessories shown include: Rear spoiler • Rear tailgate appliqué in Faux Carbon Fibre¹ • Body kit¹ • 22-in. chrome-aluminum wheels (available late 4th quarter 2008) • Exterior graphics kit • Groove inserts in Faux Carbon Fibre¹

¹Ford Licensed Accessories.

Specifications

Standard Equipment

Mechanical

3.5L Duratec V6 with 6-speed automatic transmission
4-wheel disc Anti-lock Brake System (ABS)
Battery saver
Easy Fuel™ capless fuel-filler system
Fuel tank — 70-litre capacity

Safety/Security

Personal Safety System* for driver and front passenger — Includes dual-stage front airbags, safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver-seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System

version of the original printed version.

Competitive comparisons are based on 2008 competitive models,
publicly available information and Ford data at the time of printing
of the 2009 original printed version. Some features discussed may be
optional. Vehicles shown may contain optional equipment. Features
shown may be offered only in combination with other options or
subject to additional ordering requirements or limitations. Dimensions
shown may vary due to optional features and/or production variability.
Following publication of the 2009 original printed brochure, certain
changes in standard equipment, options and the like, or product delays
may have occurred which would not be included in these pages. Your
Ford of Canada Dealer is your best source for up-to-date information.
Ford Motor Company of Canada, Limited, reserves the right to change
product specifications at any time without incurring obligations. Colours
may not be exactly as illustrated. Please see your sales consultant for
specific colour and model availability. Please visit your local dealer or
ford.ca for complete vehicle details.

FORD EXTENDED SERVICE PLAN

For a purchase or lease, the Ford Extended Service Plan (ESP) gives you
"Peace-of-Mind" protection designed to cover key vehicle components
and help protect you from the cost of unexpected repairs. To add to your
peace of mind and help protect your investment beyond your New Vehicle
Basic Warranty, complement your ESP with a prepaid maintenance plan
that covers all required scheduled maintenance items for your vehicle and
8 wear items. Ask your Dealer for a Ford ESP, the only service contract
backed exclusively by Ford Motor Company of Canada, Limited, and
honoured at all Ford and Ford Lincoln Dealerships across North America.
Certain limitations and exclusions apply, see your Dealer for details.

FORD CREDIT

Get the ride you want. Whether you plan to lease or finance, you'll find
the choices that are right for you at Ford Credit. Ask your local Ford of
Canada Dealer for details or check us out at fordcredit.ca.
