

2009

SEDONA

There is no safer minivan.

KIA MOTORS
The Power to Surprise™

Sedona 2009
Putting your family first.

Sedona EX-Luxury, shown in Crimson Red metallic

*Safety,
comfort and
reliability
rolled into one.*

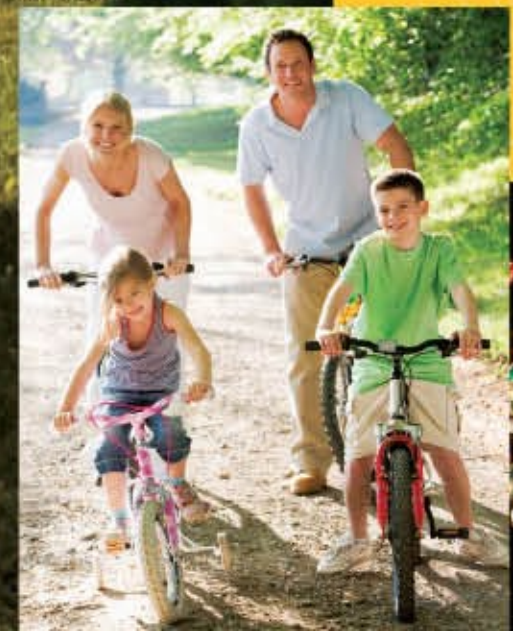

What's on your agenda? Running the kids to school or over to grandma's house? Taking a trip to the cottage or to a ski resort? Whatever the occasion, Sedona for 2009 has been designed to keep up with all your family's needs. It comes loaded with the latest technology, including an impressive list of advanced safety features. With its long wheelbase, Sedona is spacious and comfortable for kids and adults alike. You'll particularly enjoy the versatility of its second- and third-row seating and its many possible cargo configurations.

If things don't fit inside, Sedona boasts an impressive 3,500 lbs. of towing capacity¹. And if you have to get to hockey practice in a hurry Sedona comes through, with its standard 250 horsepower V6 engine with a Steptronic five-speed automatic transmission. Factor in Sedona's six-speaker AM/FM/CD stereo, available rear DVD entertainment system, standard Bluetooth² technology and available Sirius satellite radio, and you've got the ultimate family minivan — at an affordable, family-friendly price.

¹ With trailer brakes.

² All models except EX-Luxury.

Sit back and Enjoy.

Sedona's interior combines superior comfort and stylish design. Leather seats are available for seven, with plenty of headroom and legroom all around, and adjustable headrests for everybody. Heated front seats are available too, and the available integrated memory remembers your personal seat settings as well as your preferred positions for the mirrors and the available power adjustable pedals. Set the available six-way adjustable power driver's seat with lumbar support just the way you like, and notice how it powers back when the door is opened, for easy entering and exiting. You'll also be sure to appreciate all the convenient storage spaces throughout the cabin. When you remove the versatile second-row seats and fold the third-row reclining seats into the floor, you'll have 4,007 L (141.5 cu. ft.) of space for cargo.

SEATING CONFIGURATIONS
Sedona's second-row sliding and reclining captain's chairs and fold-into-the-floor 60/40 split third-row seats provide a multitude of cargo configurations.

OPEN AIR
Everybody appreciates a little sunshine and a breath of fresh air—just open the power tilt and sliding sunroof. It's standard, with a manual shade cover, on the EX-Luxury model.

DUAL POWER SLIDING DOORS
Available dual power sliding doors and power tailgate make it easy to load in the kids, plus all kinds of sports gear and groceries. It's all the easier with the convenient remote keyless entry.

In control.

The ergonomic design and quality finish of Sedona's interior pleasingly combine form and function. The dashboard is stylish and all controls, gauges and buttons are well laid out, readable at a glance and easy to reach. The available trip computer digitally records how far you travel, while the compass keeps you on the right track.

FAMILY ENTERTAINMENT

Available steering wheel-mounted audio controls make it a snap to play your favourite tunes on the powerful six-speaker AM/FM/CD stereo system. You can also plug your memory stick or iPod into Sedona's USB or auxiliary jacks. The available rear DVD entertainment system with colour LCD monitor makes long drives a lot more entertaining for kids of all ages. Bluetooth¹ technology lets you keep your cell phone in your pocket while you make hands-free calls. No earpiece is needed — you'll hear your caller over the stereo speakers.

Tune into 120 channels of crystal-clear, digital-quality sound. Sirius features commercial-free music and the best in sports, news, talk and entertainment. Standard on Sedona EX Luxury model.

¹ All models except EX-Luxury.

EVERYBODY KEEPS THEIR COOL

Standard front and rear air conditioning provides a blast of cool air on hot days so that everyone can ride in comfort.

ALL THE POWER YOU NEED

Start with power door locks and power front windows with driver's one-touch auto down. Add second- and available third-row power windows. For good measure, finish with available dual power sliding doors and power tailgate with anti-pinch protection.

JUST RIGHT

With the touch of a button, the available two-position memory feature repositions Sedona's six-way power adjustable driver's seat with lumbar support, to just the way you want.

5-STAR CRASH TEST RATING

NHTSA - Frontal and side impacts

4 YEARS IN A ROW

Family matters.

The Sedona offers you and your family wraparound protection with six airbags in all: dual front advanced impact airbags, dual front seat-mounted side-impact airbags and dual full-length side-impact curtain airbags. Standard active front headrests help prevent whiplash. In the event of a rear-end collision, they automatically move forward to support and protect your neck and head. Meanwhile, the four-wheel disc brakes with anti-lock braking (ABS) prevent lockup and shorten stopping distances and power heated exterior mirrors keep your view clear when it's cold outside.

GREATER STABILITY

Electronic stability control (ESC) keeps Sedona stable and helps correct your vehicle's path. It adjusts brake pressure automatically at the appropriate wheel or wheels and regulates engine torque. Standard on all EX models.

STAY IN CONTROL

Four-wheel disc brakes with ABS prevent Sedona's wheels from locking and skidding during heavy braking. Together with Sedona's electronic brake distribution (EBD), ABS monitors your vehicle's movements and distributes engine or braking power as needed to maintain vehicular control. Standard on all models.

ALWAYS GET A GRIP

The traction control system senses if the wheels are spinning and combines engine power and brake force to transfer power to the wheels that have the most traction. Standard on all EX models.

BACK-UP WARNING SYSTEM

Using ultrasonic sensors, Sedona's back-up warning system alerts you through a series of beeps when objects are behind you. Standard on all models except LX.

Your Future

Kia is committed to environmental sustainability and protecting the future for both you and your family. Through extensive research and development, we are actively researching alternative fuels and expanding the use of eco-friendly technology with the development of more efficient engines, exhaust systems and transmissions.

Kia has played a leading role in developing alternative-fuel vehicles to help significantly reduce fuel emissions. Our Fuel Cell Electric Vehicle (FCEV) program is developing and testing hydrogen fuel cell powered Kia Sportages as well as using more materials made from recyclable aluminum and magnesium - that are 30% to 40% lighter than steel to boost fuel economy. The Kia Rio hybrid, now in testing, is expected to reduce air pollutants by 30% and increase fuel efficiency by 50%.

We also continue to improve our recycling efforts with the establishment of an automotive recycling centre with the goal of making vehicles that are 95% recyclable.

"Clear simplicity is the ultimate design that is impossible for anyone to imitate. It is difficult to create something entirely new, but Kia Motors will create a new design future through honesty, purity and simple beauty."

Peter Schreyer, Chief Design Officer

One of the most respected authorities on product design in the automotive industry. His outstanding creative work has led to many national and international awards for his sporty and innovative designs.

Our Future

Kia Motors* recently became the fifth-largest automaker in the world and Kia Motors continues to be one of the fastest-growing with annual sales in excess of 1.4 million vehicles. We also understand that our continued success will be dependent upon our commitment to design.

Reflecting this, Kia Motors' state-of-the-art 100,700 sq.-ft. North American Design Centre features a \$45 million studio which engineers, models and creates new vehicles. But our commitment to you goes beyond design. In 2009, we will be opening our first automotive plant in North America.

At Kia, when we talk about changes in the future, we're talking about changes for the better.
