

Mercedes-Benz

The Redesigned 2009 **M-Class**

Built for the road, or a lack thereof.

There are many places worth visiting simply because they are off the beaten track. The redesigned 2009 M-Class is sure to get you there in comfort and in style. Whether you're heading through rough terrain or just facing difficult weather conditions, the M-Class is ready to tackle whatever lies ahead.

With all the features you'd need for off-road driving, it is infinitely capable of handling the obstacles you'll run across in the urban jungle. Be it potholes, construction, standing water or black ice, the M-Class makes the hazards of city driving disappear.

In the redesigned 2009 M-Class, at first glance you'll notice the larger grille and rear view mirrors, as well as the updated look from the new headlamp and rear bumper design. But we didn't stop there. You'll also appreciate the inner refinements that make the M-Class everything you could ever want in a luxury SUV.

Bold in spirit, bold in design.

Redesigned for 2009, the M-Class delivers an automotive presence like no other. It's an aura of power, excitement, and accomplishment. The striking visual presence begins at the front end, with dramatically styled headlights and an aggressive grille. The sloping hood leads the eye to pleasing lines along the sides of the vehicle, directly above strong, impactful wheel wells. This visual journey concludes at the rear of the M-Class, where the lines abruptly merge and fade away into a functional, yet elegantly designed fifth door and all-new tinted LED tail lights.

With rich and stunning details like alloy wheels, stainless steel under-ride protection, blue tinted glass, a silver grille and chrome accents, the exterior of the M-Class makes a bold visual statement that perfectly complements the power within.

Once you step in, you won't want to step out.

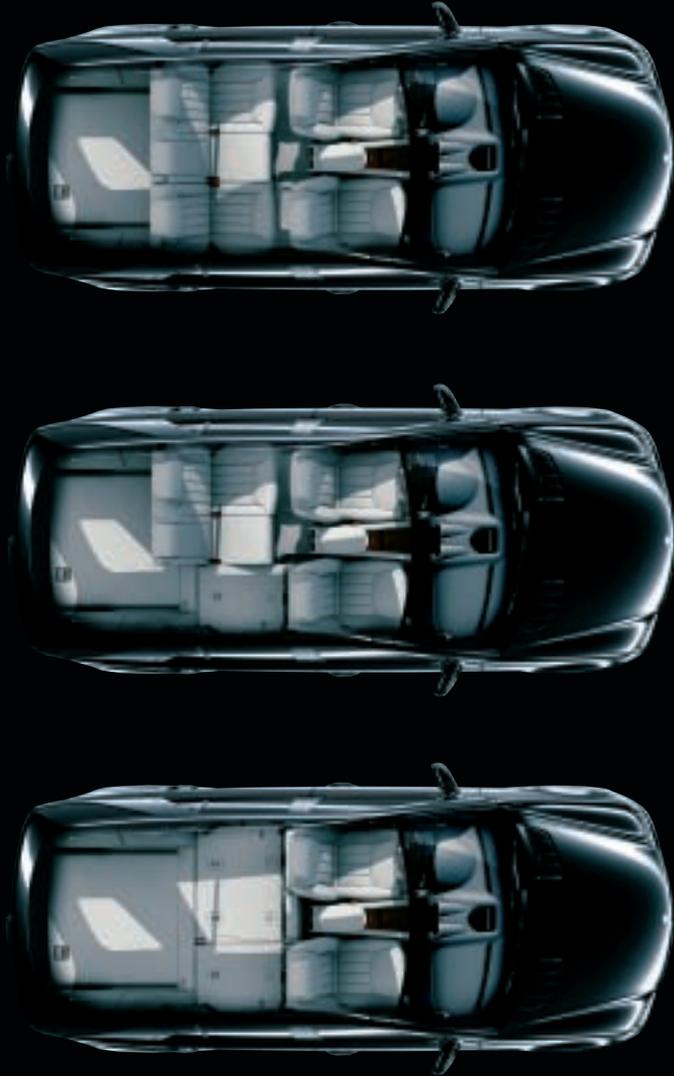

The generous use of space and high-quality materials inside the redesigned M-Class ensure the highest degree of comfort. At first, you may notice the stylish new ARTICO-covered door panels. But the moment you open the doors, your gaze is drawn to the bold interior design featuring luxuriously refined fine wood trim, a well-designed intuitive cockpit and exquisite ARTICO leather¹ seats.

Standard features abound, including the COMAND control system featuring a new 6.5-inch, high-resolution LCD colour display, an MP3-compatible video capable 6-disc DVD changer and SD card slot. With the Media Interface² you'll receive 3 different connection cables—one for your iPod®, a USB input for memory sticks and the auxiliary audio input. Tune in with SIRIUS Satellite Radio³ featuring more than 100 premium channels or listen to your favourite tunes on the harman/kardon® LOGIC7® surround sound system⁴. Bluetooth connectivity provides safe, hands-free cell phone use while driving. COMAND APS with hard drive-based navigation and the new-generation LINGUATRONIC voice control system⁵ complete the experience. Moreover, the newly designed multifunction steering wheel can also be used to call up vehicle data, operate the radio and telephone, and even change gears using the shift buttons.

¹Man-made leather. Standard on the ML320 BlueTEC and ML350 4MATIC™ ²Standard on the ML550 4MATIC™ and ML63 AMG. Manipulate space at will.

The M-Class has plenty of headroom and legroom to ensure that everyone on board is comfortable. Should you need more room for luggage, the rear seat can easily be folded forward. The rear seat has a 1/3 to 2/3 split, allowing both sections to be folded forward separately.

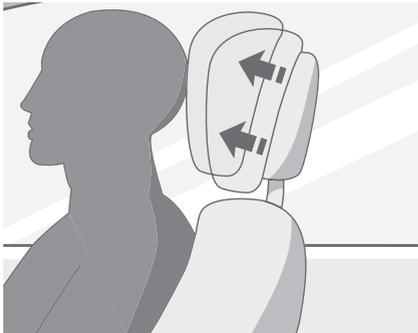

You won't have to be too selective when deciding what to take with you in your M-Class. With load space between 833 and 2,050 litres, it certainly won't cramp your style. Securely stow smaller objects in the convenient side storage compartments, and for ultimate control, opt for the EASY-PACK power tailgate with push-button operation!

Sometimes a cage can be very liberating.

Included with all M-Class models is the integral safety concept from Mercedes-Benz that combines intelligent, active and passive safety systems, ready to come to your assistance if needed to provide a stress-free driving experience.

The redesigned M-Class features an extremely sturdy passenger cage that protects occupants by way of energy-absorbing front-end, reinforced doors, extended crumple zones, and an elevated ride position. The passenger cage is built on an exclusively designed SUV-specific uni-body that is exceptionally strong, lightweight and rigid. Its remarkable resistance to twisting and flexing leads to more precise handling, and a smoother, quieter ride.

Front seat passenger protection is further enhanced by our NECK-PRO head restraints. In the event of a rear-end impact, pre-tensioned springs push the head restraints on the driver and front passenger seats forward, bracing the heads of the front seat occupants and reducing the risk of whiplash.

Our NECK-PRO head restraints are sensor-controlled.

The M-Class starts and ends with safety.

Mercedes-Benz has always been a leader in safety innovation. Here are the details on a few of the benchmarks.

ELECTRONIC STABILITY PROGRAM (ESP®)

The M-Class' Electronic Stability Program (ESP®) enhances directional control by monitoring your steering and braking. It will make instantaneous adjustments if it senses loss of control or stability. If it senses oversteer or understeer, ESP® will apply the brakes and adjust engine torque to any combination of the four wheels to help you regain control and stay on course!¹

ACTIVE BI-XENON HEADLAMPS

Active Bi-Xenon headlamps with headlamp washers and cornering lights provide better vision over long distances. They also actively swivel to either side based on your steering and driving speed, so you can better see what's happening around curves.

ADVANCED SEAT BELTS AND AIR BAGS

All five seat belts feature Emergency Tensioning Devices (ETDs), which help remove seat-belt slack in a sufficiently severe front or rear impact. Our advanced multi-stage front, side and window curtain air bags provide unequivocal passenger protection?²

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

Permanent confidence. Relentless control.

Our 4MATIC™ permanent all-wheel drive system gives you excellent control over your M-Class, so you can drive with complete confidence, no matter what the season or road conditions. It is always engaged, relentlessly sending torque to each wheel independently, ensuring optimal traction and control.

4MATIC™ is aided by our 4-wheel Electronic Traction System (4-ETS). 4-ETS monitors each wheel for the first sign of wheel slip. It then individually brakes the slipping wheels to maintain the perfect balance of power and traction. By continuously ensuring that more power goes to the wheels with more grip, 4-ETS can help keep you moving, even if only one wheel has traction.

The powerful sound of silence.

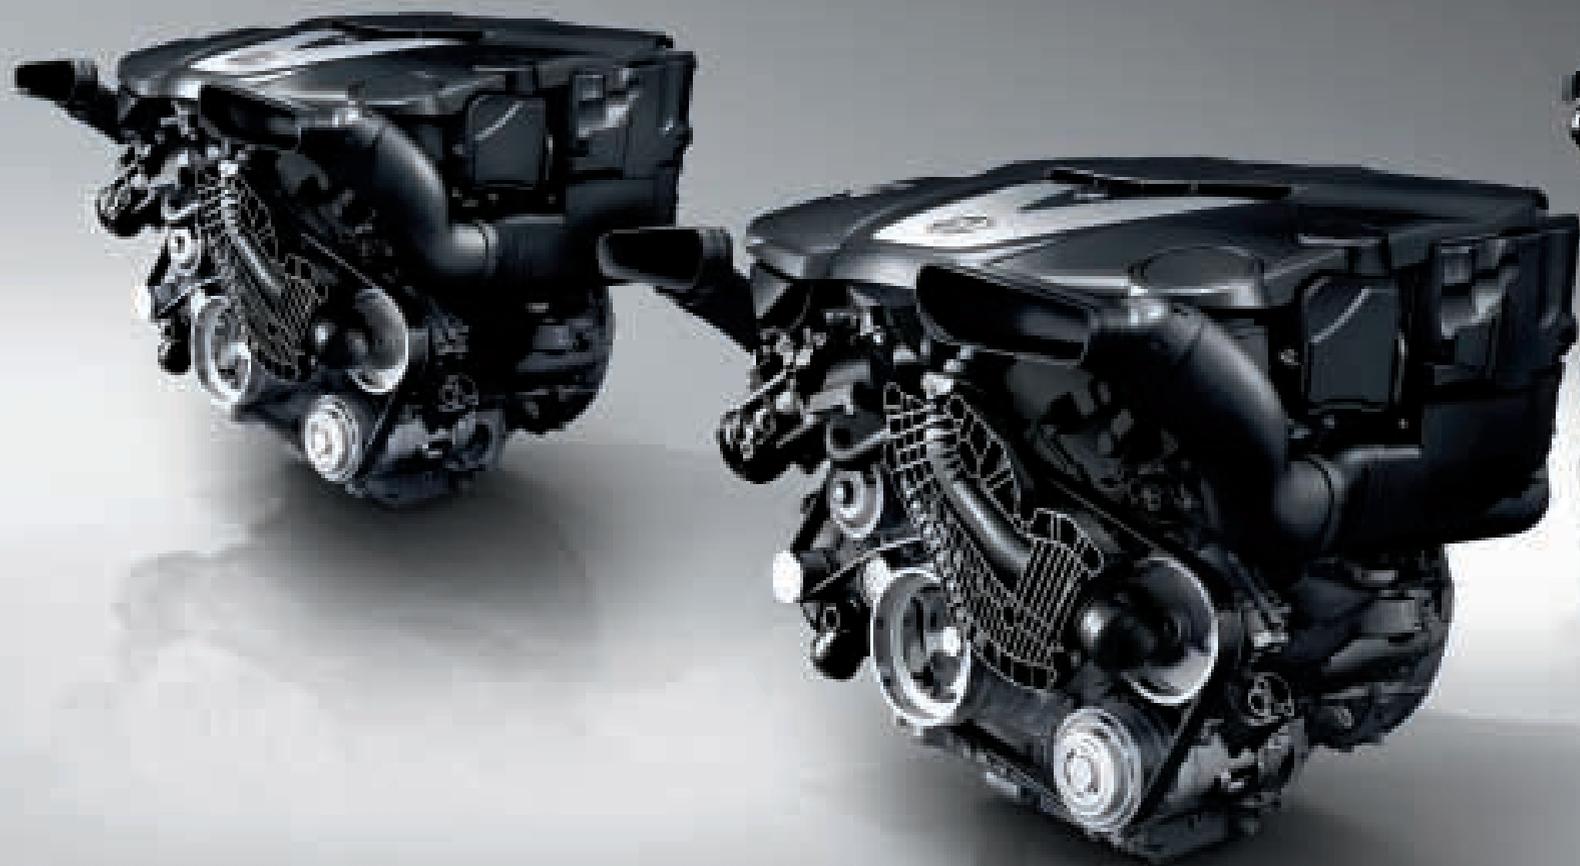

It's amazing how quiet the six cylinder M-Class BlueTEC diesel engine runs while delivering exemplary power in any driving condition. The ML320 BlueTEC has a maximum power output of 210 hp, impressive 400 lb-ft of peak torque, a top speed of 210 km/h and a 0 to 100 km/h acceleration time of 8.6 seconds. And yet, its low fuel consumption rivals that of a hybrid. Equipped with environmental-friendly, next generation BlueTEC technology, this turbo-charged engine also meets the world's toughest exhaust emission regulations, while AdBlue injection, employing both the common-rail direct injection principle and a special particulate filter, makes it one of the world's cleanest diesel SUVs – eliminating more than 80 per cent of nitrous oxide emissions.

With seamless performance and up to 950 km per tank, the M-Class BlueTEC diesel brings new meaning to the phrase “win-win situation”. You win. And, so does the environment.

The ML320 BlueTEC's engine design helps maximize both engine efficiency and driving pleasure.

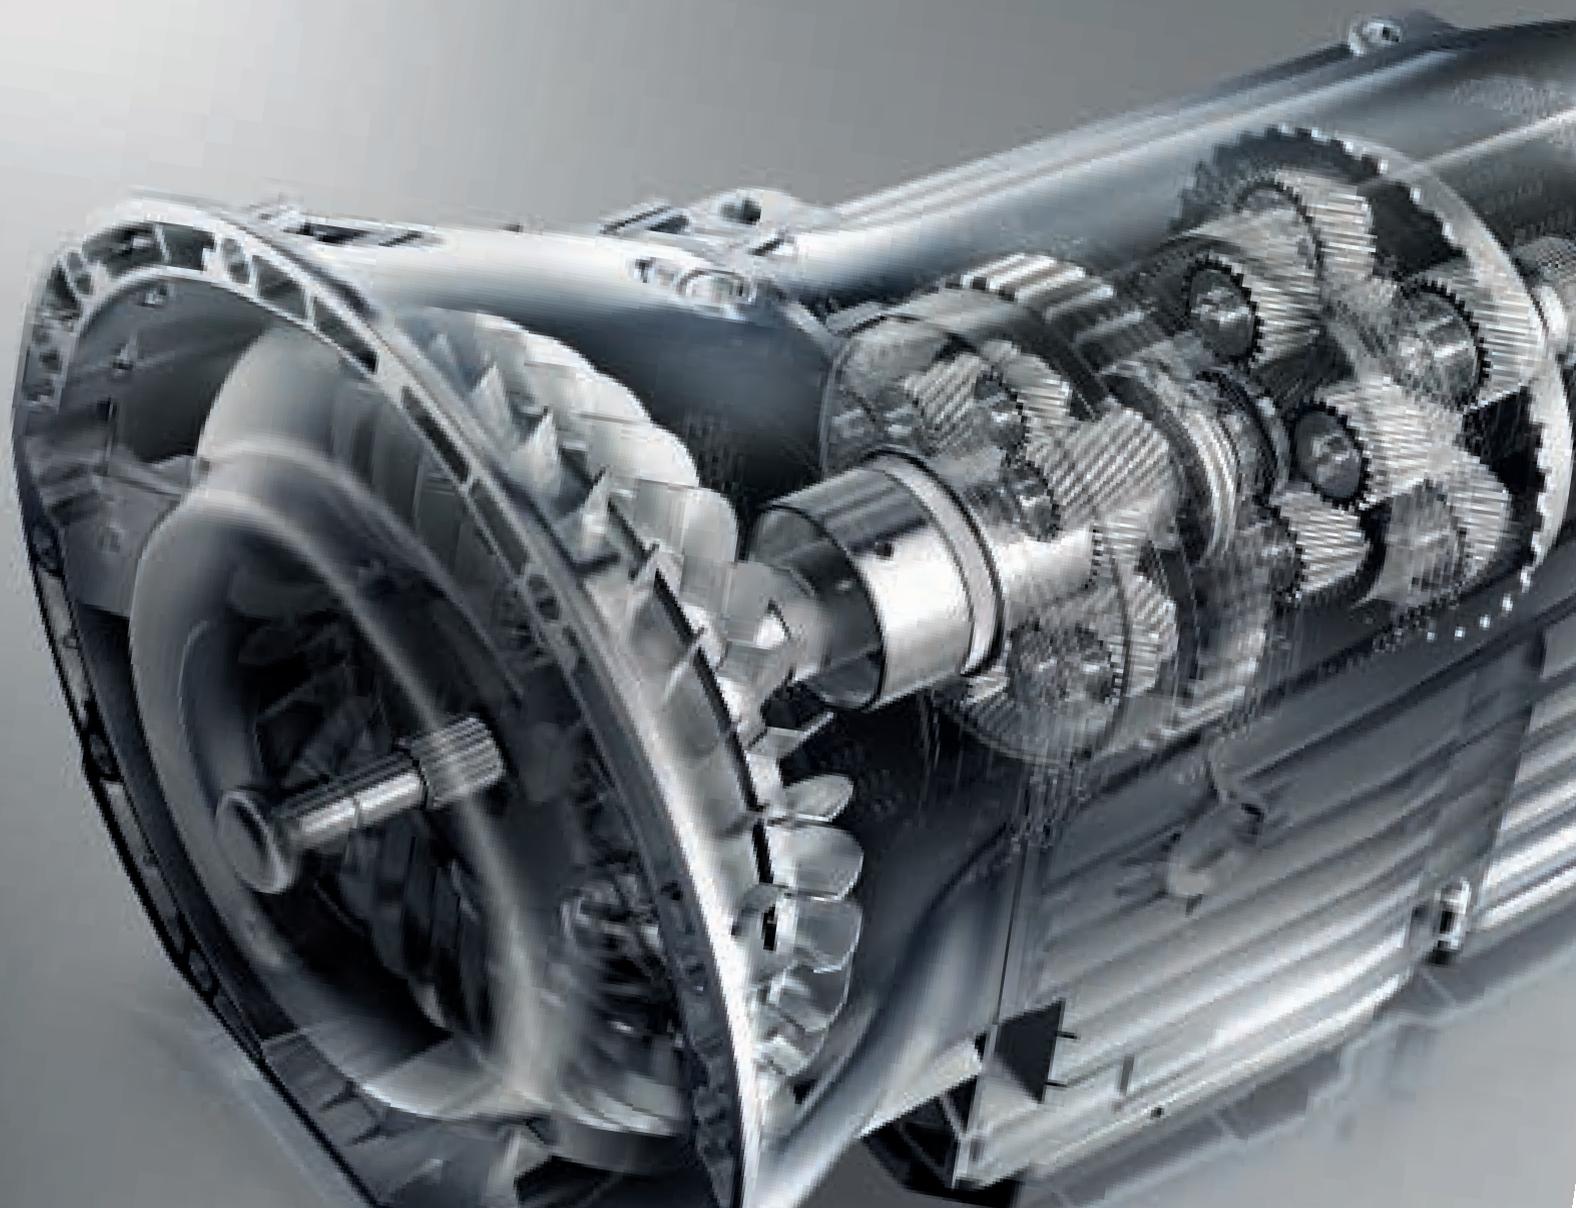

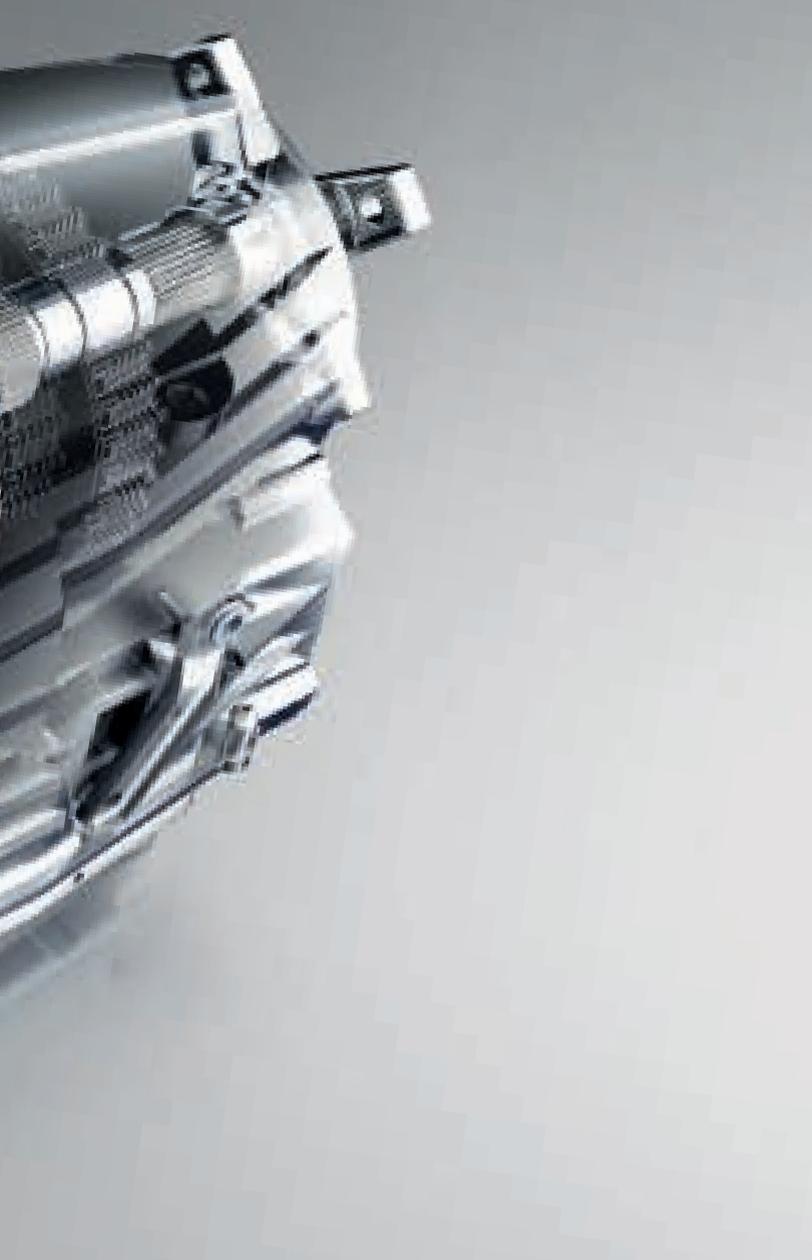

The power to move you.

The gasoline engines available for the M-Class provide the power and responsiveness you need to have an outstanding driving experience.

The V-6 engine in the ML350 4MATIC™ provides high power and torque levels in combination with improved fuel economy and low emissions. It has 268 hp and maximum torque of 258 lb-ft.

If V-8 power and smoothness are what you want, look no further than the ML550 4MATIC™. Despite its high power output, this engine consumes less fuel than you'd expect. And while it's hard to do justice to the pure power of the ML550 4MATIC™ in words, it is easy to put a figure on it. It has 382 hp and maximum torque of 391 lb-ft. This allows it to accelerate from 0 to 100 km/h in less than six seconds.

Take ride comfort to a whole new level.

The redesigned M-Class is fitted standard with the 7G-TRONIC 7-speed automatic transmission. Gears are selected directly, ensuring uninterrupted torque delivery, virtually imperceptible shifts and enhanced ride comfort. Should you need to brake sharply or accelerate quickly, 7G-TRONIC simply skips the necessary number of gears.

7G-TRONIC 7-speed automatic transmission also allows you to downshift manually using the standard DIRECT SELECT shift buttons on the steering wheel if you'd like even more control over gear selection.

Ride like you are on air.

The M-Class takes driving enjoyment to new levels – literally – with AIRMATIC Air Suspension¹. When travelling at speed, the ride height of the M-Class is automatically lowered. This minimizes drag, reduces fuel consumption, and improves handling. When you travel with a heavy payload, the air suspension keeps the ride height of the vehicle constant at all times.

Further to these features, AIRMATIC also includes the Adaptive Damping System (ADS) with its three manually selectable damper settings: “Auto”, “Sport” and “Comfort”.

Enjoy a refined ride no matter what your driving conditions.

¹Only available as part of an option package on the ML320 BlueTEC and ML350 4MATIC.™ Standard on the ML550 4MATIC™ and ML63 AMG.

Control the ultimate beast.

The ML63 AMG is the ultimate expression of strength and aggression, and is found nowhere else on the road today. It features a front apron with a brushed stainless steel inlay, circular fog lamps ringed in chrome, additional air intakes, and a rear apron with chromed scratch protection. Of course, with a look this sporty, it's important to have the right wheels. The AMG 21" 5-multi-spoke alloy wheels harmonize perfectly with the AMG's style.

The AMG-built, 6.2-litre, naturally aspirated V-8 engine generates 503 hp and a maximum 465 lb-ft of torque, assuring that the ML63 AMG performs beyond your expectations. It lets you accelerate from 0 to 100 km/h in a breathtaking 5.0 seconds. The 7G-TRONIC 7-speed automatic transmission delivers remarkably short shifts. The AMG sport suspension beautifully handles the ML63 AMG's torque, while AMG springs, struts, shock absorbers, and the AMG high-performance braking system ensure optimum driving control.

Inside the ML63 AMG you'll find the perfect conditions for top performance. AMG sport seats with Alcantara panels in the shoulder area offer optimum support and are exceedingly comfortable. The AMG ergonomic sport steering wheel with shift buttons and AMG instrument cluster with a lap-locking RACETIMER add an athletic feel. The AMG Nappa leather upholstery, high gloss Burl Walnut wood trim and brushed stainless steel sport pedals create a suitably aggressive atmosphere.

The bold, aggressive styling of the ML63 AMG is the perfect visual complement to its exemplary power.

AMG

Select your colour of distinction.

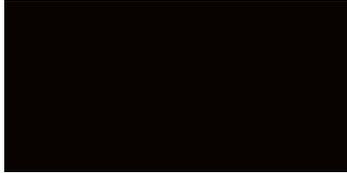

Our cutting-edge nano-particle paint technology gives you a variety of unique metallic and solid paint finishes to choose from. Benefit from the extra scratch-resistant clear coat that keeps colours brilliant, and less susceptible to environmental factors such as precipitation, sunlight, temperature variations, dust and soot. Enjoy over 30% more paint protection than a conventional clear coat.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system — or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

Looking for more Mercedes-Benz information? Visit mercedes-benz.ca to open an online window to Mercedes-Benz Canada. Get information about any model, including financing and leasing options, upcoming vehicles, or purchase Mercedes-Benz the Collection gifts and personal accessories. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, Mercedes-Benz Ownership, and the history of Mercedes-Benz.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It is only there that you can fully experience the effortlessly superior handling that makes this car so special. You can feel how the powerful engine drives the vehicle onwards and how the precise steering movements have a direct effect on your own mood. The special atmosphere that arises during a drive in a Mercedes-Benz cannot be put down on paper. That's why we would like to invite you to reserve an appointment for a test drive at your local Mercedes-Benz dealer. Or visit www.mercedes-benz.ca. We look forward to seeing you.
