

2010 **Element**

# Less paper today means more blue skies for tomorrow.

At Honda, we have always considered it our responsibility to do our part to help preserve the global environment, for today and for generations to come. This is an environmental vision we call *Blue Skies for our Children* and with this vision in mind, we felt it was time to make a change for the greater good of the planet.

That's why Honda Automotive has decided to stop printing paper brochures and start encouraging people to visit [honda.ca](http://honda.ca) to experience an interactive approach to our cars and company. Yes, it will take some time getting used to, but we think the end result will be worth it for everyone and for the future we all share.

# The 2010 Honda Element. And now for something completely different.

You could say the Element's bold grille with integrated wrap-around headlights makes it stand out. You could even say its fender design gives it a stylish streamlined character. But maybe all you need to know is the Element is as cool as utility comes.

When it comes to interior versatility, the Element has one thing in mind – everything. With a total of 64 different seating configurations, it has been designed to adapt to your active lifestyle in every way, shape and form. If you need extra cargo space, flip up and clip the rear seats to the sides of the cabin. If you need even more space, remove them altogether. If you need room for something bigger, such as a bike or two, or easy access to the cargo area or a flat surface to work on, simply fold down the clamshell tailgate. And if at the end of an adventurous day you feel the need to stretch out and relax, the Element is happy to oblige with flat-folding driver and front passenger seats.

If it's adventure you're looking for, you'll find it faster in an Element. From the smooth handling of its solid unit body frame to the interior versatility of all those seating configurations, the Element was made to help you explore the great outdoors. Its strength comes from a powerful yet efficient 2.4-litre, i-VTEC® 4-cylinder engine with 166 horsepower.

Its athletic nature comes from its available Real Time 4WD® and compact 4-wheel independent suspension with front and rear stabilizer bars. And as a low-emission vehicle with a Tier 2 Bin 5 rating, the Element has a conscience that's cleaner than most.

FEEL FREE.

Element

# Element

## Element LX

166-hp, 2.4-litre, 16-valve, DOHC, i-VTEC® 4-cylinder engine • 5-speed automatic transmission with Grade Logic Control • 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) • 16" steel wheels with full covers • AM/FM/CD audio system with 4 speakers • Air conditioning with air-filtration system • Centre console • Control-link MacPherson strut front suspension and compact double-wishbone rear suspension • Dual-stage, dual-threshold front airbags (SRS) • Fold-flat-capable seating • Front 12-volt power outlet • Front and rear splash guards • Front and rear stabilizer bars • Front side airbags with passenger-side Occupant Position Detection System (OPDS) • Immobilizer Theft-Deterrent System • Intermittent rear window wiper/washer • Lower Anchors and Tethers for Children (LATCH) • Maintenance Minder system • Power-assisted, ventilated front disc/solid rear disc brakes • Power door and tailgate locks • Power front windows with auto-up/down driver's window • Power side mirrors • Rear window defroster • Remote entry system • Removable, flip-up rear seats • Side curtain airbags with rollover sensor • Steering wheel-mounted cruise control • Tire Pressure Monitoring System (TPMS) • Urethane-coated utility floor • Variable intermittent windshield wipers • Vehicle Stability Assist (VSA®) with Traction Control • Water-resistant FXC™ (Fabric for Extreme Conditions) seat fabric – front seats
