The picture of elite engineering.

The presence and appeal of the E-Class Sedan is instantly apparent to the observer, displaying a sense of self-assurance that is perfect in keeping with its long history of pre-eminence.

The striking exterior of the E-Class Sedan includes standard AMG styling featuring a dynamic front and rear apron with powerful side sill panels. Further, the addition of the straight bar LED daytime running lights and the standard panoramic sunroof¹ leaves no doubt that the 2012 E-Class embraces all the characteristics of a genuine Mercedes-Benz.

At home on the road.

The use of the finest-grade materials and outstanding workmanship create a high-quality impression, both in look and feel. Standard ARTICO leather and Dark Ash wood trim ensure exceptional splendor while the new Media interface¹ connections and instrument cluster design allow for ease of interior instrument functionality.

^{&#}x27;Standard on the E 550 4MATIC™ Sedan and E 63 AMG Sedan and Wagon. Available as part of an option package on the E 350 BlueTEC Sedan and E 350 4MATIC™ Sedan and Wagon.

Astounding form.

A tasteful blend of different worlds defines the E-Class Wagon. It features a modern, yet emotional aerodynamic design, supported by standard AMG styling, roof rails, benchmark-setting storage capacity and cargo dimensions, plus all the technical innovations of the E-Class Sedan – like the new straightbar design LED daytime running lights and the LED illuminated license plate. Which means you can appreciate the style and elegance of a sedan combined with the high utility value of a wagon.

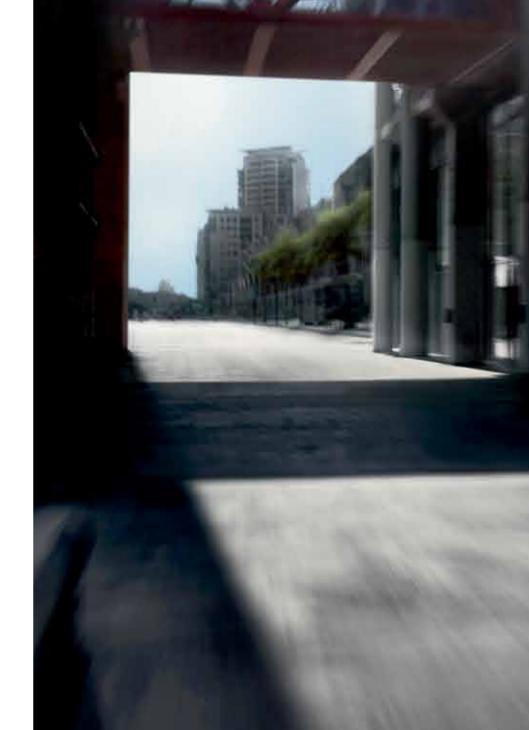

Bountiful luxury.

The E-Class Wagon comes with plenty of storage space and intelligent solutions such as the EASY-PACK load compartment management system make loading and unloading that much easier. Fine attention to detail and modern design adorned the interior with a standard ARTICO leather dashboard and upholstery as well as a panoramic sunroof. Further, an intuitive Media interface puts control confidently at your fingertips.

Breaking new grounds in comfort.

The E-Class Sedan and Wagon have few rivals. Standard 14-way power adjustable heated front seats and power adjustable lumbar support allow for exceptional customization. A new full-colour display Instrument Cluster puts you in command of everything, while Electromechanical Power Steering (EPS) provides a finely tuned steering control that adjusts itself to the parameters of the road.

You will be entertained.

The E-Class Sedan and Wagon take entertainment as seriously as they do comfort.

All the cockpit controls are visible at a single glance thanks to the multifunctional COMAND 7" colour LCD display screen in the centre console. Navigation, audio and telephone are combined into one intuitive design with the new COMAND APS control and display system, equipped with an integrated hard-disc drive (HDD) navigation and 6-disc DVD player¹. Even better, all key functions can now be called up using the LINGUATRONIC voice control function with whole-word recognition capability.

The premium harman/kardon® LOGIC7® surround sound system², featuring 12 loudspeakers, 450 watts of power and a 9-channel Digital Sound Processing (DSP) amplifier lets you hear your favourite music with stunning clarity and depth. Additionally, the Media interface³, which gives you 3 different connection cables – one for your iPod®, a USB input for memory sticks and the auxiliary audio input, provides versatility and control while driving.

SIRIUS Satellite Radio⁴ comes integrated into your vehicle's audio system. With 120 channels of coast-to-coast reception coverage including music, sports, news, talk and comedy, SIRIUS lets you listen to what you want, whenever you want.

Increased adrenaline. Reduced emissions.

Performance meets fuel economy. Luxury meets responsibility. At Mercedes-Benz, we don't believe in compromise. This is no exception: our BlueEFFICIENCY platform ensures that when we develop a new model, environmental responsibility plays a major role. We do this at all levels of our vehicle development and production – and therefore take a comprehensive approach to all the potential factors relating to drive systems, lightweight construction, energy management and fuels. This all-round approach also includes aspects such as the total harmful emissions, choice of materials, development, production, use and servicing, right up to eventual vehicle recycling and disposal. The world's awareness is increasing as emissions, fuel consumption and fuel prices become topics that affect us all. For Mercedes-Benz it is both a corporate goal and an obligation to shape the future of mobility in a responsible and sustainable manner.

Owns the road as easily as it does attention.

With our award-winning 4MATICTM permanent all-wheel drive system delivering optimal traction regardless of road conditions, the E-Class knows no boundaries. 4MATIC™ incorporates the 4-wheel Electronic Traction System (4ETS), monitoring each wheel for slippage and individually braking wheels to maintain the balance of power. By continuously ensuring that power is transferred to the wheels with grip, 4MATICTM will keep you going, even if only one wheel has traction.

4MATICTM delivers the outstanding control of all-wheel drive without sacrificing true driving enjoyment. Sharp steering and the balanced feel of a rear-wheel drive vehicle are retained making the E-Class a joy to drive in any season.

4MATIC™, equipped on the E 350 Sedan and Wagon and the E 550 Sedan.

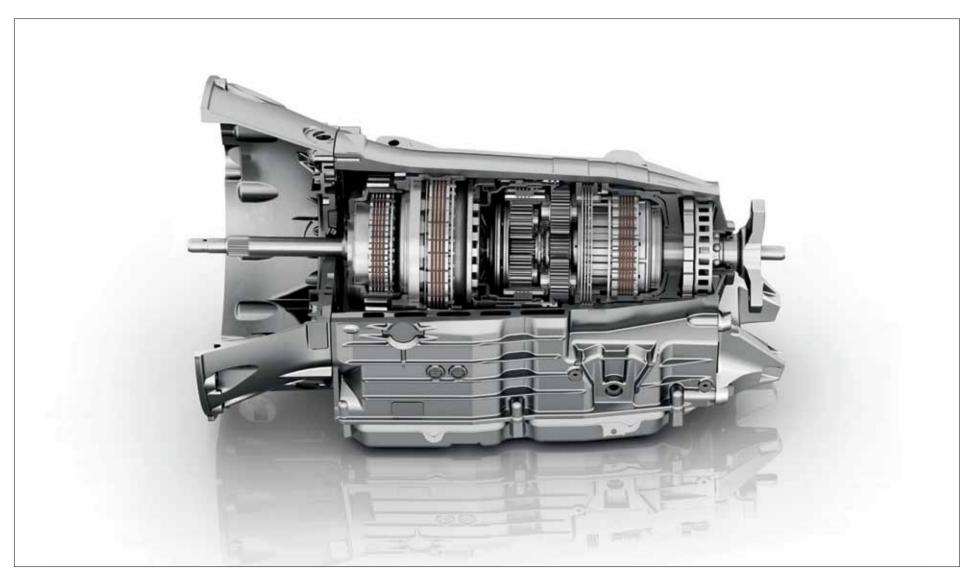

Fast forward.

Both the E 350 4MATIC™ Sedan and Wagon have a 3.5 L direct injection V6 engine that produces 302 hp and 273 lb-ft of torque, giving you plenty of power to get the most out of everyday driving. Performance goes a step further on the E 550 4MATIC™ Sedan with a 4.6 L Bi-turbo V8 engine with 402 hp and 443 lb-ft of torque.

The 7G-TRONIC PLUS automatic transmission; one of over 18 million automatic transmissions produced in a period spanning more than 50 years.

Optimum power and performance.

The revised programming of the E-Class Sedan and Wagon's 7G-TRONIC automatic transmission provides the optimum engine speed for all shifts. Shift paddles on the steering wheel allow the driver to manually change gears with outmost ease, for a sublime driving experience in any situation.

18" 5-spoke wheels1

19" AMG 10-spoke wheels3

18" AMG 5 twin-spoke wheels2

19" AMG 5 twin-spoke wheels4

The energy-absorbing crumple zones in the front and rear sections, an extremely robust safety passenger cell, and the doors with special reinforcing elements form an effective defensive barrier in an emergency.

Take a hard line on safety.

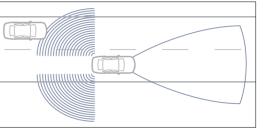

Over 80 sensors make it their job to see to your well being, while countless innovations give you that reassuring feeling of safety.

ATTENTION ASSIST monitors your driving style and warns you that you are becoming drowsy or letting your attention stray. Likewise, Passive Lane Keeping Assist¹, a series of three simple vibrations of the steering wheel that alerts you if you are unintentionally drifting out of your lane, and Passive Blind Spot Assist¹, which monitors the blind spots to the sides of the vehicle within a range of 3 metres, make significant contributions to driving safety.

With a radar-based proximity control that can detect and react to imminent collisions with oncoming traffic, DISTRONIC PLUS including PRE-SAFE® BRAKE is available as part of the Advanced Driving Assistance Package. This package also includes Active Blind Spot Assist² and Active Lane Keeping Assist² – gently applying the brakes to bring the vehicle back into the appropriate lane if wandering is detected. These features, along with all the other state-of-the-art innovations, ensure that no matter what the situation or road condition, you can rest assured in the safety of your E-Class Sedan and Wagon.

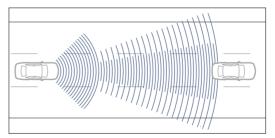

ATTENTION ASSIST will detect signs of drowsiness by analyzing driving behavior typical of a fatigued driver. A visual warning will then alert the driver advising him to rest.

Blind Spot Assist alerts the driver if it identifies a risk of a collision while the vehicle is changing lanes.

Utilizing radar technology, Night view assist provides a clear view of the road ahead when driving at night or in dark conditions.

DISTRONIC PLUS reduces the chance of rear end collisions by automatically braking in the event of danger.

¹Available as part of an option package on all E 350 models, and the E 550 4MATIC™ Sedan. Standard on the the E 63 AMG Sedan and Wagon. ²Available as part of an option package on all models.

Four-door sedan. Four-star performance.

The most powerful E-Class comes courtesy of the Mercedes-Benz AMG motor sport experts. The E 63 AMG Sedan with 518 hp accelerates from 0 to 100 km/h in just 4.3 seconds. Four shift programs provide a choice between Controlled Efficiency, Sport or Sport Plus mode, as well as a manual mode that allows gear changes using AMG shift paddles mounted to the steering wheel.

Every AMG engine is signed in steel by the technician who hand built it. "One man – one engine": the philosophy at the heart of every AMG engine.

Raise your pulse.

In the exclusive interior of the E 63 AMG Sedan, high-quality AMG PASSION leather appointments await. An ergonomic AMG sport steering wheel provides superior comfort and exceptional control while AMG sport seats ensure a comfortable sport driving experience.

AMG sport steering wheel.

Fine luxurious detailing blends with a sporty interior.

Dressed for the occasion.

The finishing touches can mean the difference between a work of art and a true masterpiece. Whichever colour you opt for, you've made the right choice. Because with a selection of paint finishes benefiting from an extra scratch-resistant clear coat, your E-Class is less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.

The E-Class Sedan, available in a variety of bespoke designo finishes.

An E-Class that matches your style to perfection.

designo offers a true feast for the senses. Once your eyes have taken in the many bespoke paint finishes and the leather combinations, you'll savour the scent of the fine leather upholstery and available matching trim. But it's not just the quality and workmanship that make *designo* so unique: it's also the almost infinite range of combinations. They allow you to give your Mercedes-Benz a signature of its own.

The seats and door centre panels can be trimmed in single-tone or two-tone leather in a choice of nine shades. The unique upholstery fluting, with elaborately stitched double lap seams, is exclusive to *designo*. Beautiful *designo* leather trim is also available in black or colour matched to your selected *designo* interior.

A passion for things done right.

A passion for craftsmanship and attention to detail – it's what you'd expect from Mercedes-Benz. It drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience that includes the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help.
Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz experts who can talk you through the finer points of working your car's audio system — or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

'Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

Mercedes-Benz is virtually yours.

Visit e e e e - and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Access information about any of our vehicles, including financing and leasing options, upcoming models, and configure your dream Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It's only there that you can fully experience the superior handling and power that makes this car so special. Feel the engine move you forward, and watch your heart rate rise with the speedometer. That unique feeling in your stomach cannot be put down on paper. That's why we would like to invite you in for a test drive at your local Mercedes-Benz dealer. Reserve your appointment today, or visit $\mathbf{e} \cdot \mathbf{e} \cdot \mathbf{e} \cdot \mathbf{e} \cdot \mathbf{e}$. We look forward to seeing you.
