

ALL-NEW 2013

CADILLAC XTS

THE NEW STATE OF THE STATE OF THE ART.

For those in search of true, contemporary luxury, the long wait is over. The Canadian-built 2013 Cadillac XTS shatters expectations of what luxury driving can be. It's elegantly styled, with a bold presence that turns heads. It reinvents the way you control mobile information, communication and entertainment, with the revolutionary and intuitive Cadillac User Experience. It delivers formidable performance with impressive efficiency, thanks to cutting-edge V6 power. It redefines chassis technologies, with a standard Magnetic Ride Control® suspension and premium Brembo® brakes. And its cabin blends best-in-class spaciousness, ingenious amenities and meticulous craftsmanship. In short, the new XTS is the most advanced production sedan in Cadillac history – and the new state of the art in luxury sedans.

At Left: XTS, shown in Graphite Metallic with available Platinum Collection.

HOW CAN COLD STEEL GENERATE SO MUCH HEAT?

In appearance as in every other aspect, the new XTS leaves the conventional far behind. The sheet metal is chiselled and assertive. The stance, confident, poised and potent. Lines that sweep gracefully from the front fenders to the Cadillac-signature vertical taillights suggest motion even when the car is standing still. Best of all, XTS's sleekly dramatic style also helps to smooth the flow of air over and around the body. The resulting aerodynamic efficiency not only helps reduce fuel consumption, it also contributes to more effortless performance, a quieter cabin and a more peaceful and relaxing ride.

1 Every XTS is equipped with advanced Xenon High-Intensity Discharge (HID) headlights. Premium Collection and Platinum Collection models include adaptive forward lighting, which turns the headlights as you steer into curves and corners for more effective illumination.

2 Standard on XTS are elegant 19-inch premium painted aluminum wheels with chrome inserts. The gleaming 20-inch, 15-spoke wheels shown here are among the many premium features included on Platinum Collection.

3 A distinctive feature of the new XTS's exterior design is a sleekly styled third side window located behind each rear door. These windows allow more light into the cabin, for a brighter, more enjoyable ride, and give rear passengers an increased sense of space and a better view. A power rear window shade and manual rear-side window shades are available to reduce bright glare on sunny days.

At Right: XTS, shown in Graphite Metallic with available Platinum Collection.

ATTENTION TO DETAIL MAKES ALL THE DIFFERENCE.

Design. Technology. Materials. Craftsmanship. The XTS cabin achieves a higher standard on all fronts. The lines of the instrument panel sweep seamlessly into the upper doors, providing a satisfying sense of space and unity. Expertly worked leathers, exotic woods and brushed metals reward both the eye and the touch. Seating comfort excels, thanks to contoured front buckets that were refined through the use of pressure-mapping technology to eliminate "hot spots." Your rear passengers will also enjoy a premium riding experience, with best-in-class legroom* and a slightly raised seat height that affords them a superior view all round.

*Based on WardsAuto.com 2012 Middle Luxury segmentation. 2012 Model Year competitive data for segment based on latest published information available at time of printing.

1 Included with the Luxury Collection, Premium Collection and Platinum Collection, an interior ambient lighting package highlights the quality of the premium leathers, woods and metals that adorn the XTS cabin.

2 Supple leather seating surfaces are an integral part of every XTS interior. The Platinum Collection takes that a step further, with seats upholstered all around in unique, ultra-soft Opus aniline leathers.

At Left: XTS interior with available Premium Collection, shown in Caramel with Jet Black accents and available features.

IT FITS YOU LIKE A FINELY TAILORED BESPOKE SUIT.

In the XTS cockpit, every lever and switch is perfectly located, ideally weighted to deliver positive feedback and sculpted with a fine sense of contemporary style. Together with a leather- and wood-trimmed steering wheel that's power-adjustable for both angle and reach, the well-bolstered 10-way power driver's seat makes it a simple matter to find the driving position that provides optimal comfort and control. Fine materials abound, and are a delight to both the eye and the hand, while the superb sound reproduction of the Bose® audio system beguiles the ear. For Cadillac's state-of-the-art flagship sedan, it's only fitting.

1

1 Included with the Premium Collection and Platinum Collection is the custom-designed 14-speaker Bose® 5.1 Studio Surround® audio system which delivers 6 channels of sound for a remarkably rich, detailed listening experience. An excellent 8-speaker Bose® audio system is standard on XTS and Luxury Collection.

2

2 With AudioPilot® noise compensation technology and a pair of Personal® surround speakers mounted in the top of each front seat, the Bose® Studio Surround® audio system delivers all the emotion and dynamics of a live performance, regardless of where you happen to be sitting in the car.

CADILLAC USER EXPERIENCE: REVOLUTIONARY, INTUITIVE CONTROL.

The entirely new Cadillac User Experience – CUE for short – puts a world of connectivity, entertainment and communication at your fingertips. CUE lets you pair your XTS with up to ten Bluetooth®-enabled smartphones.* Access your contacts, audio files and more. Listen to text messages – and respond – hands-free while you drive.** And store up to 60 presets, including points of interest, phone numbers, as well as radio stations and more. Best of all, it employs an icon-based touch-screen control system inspired by those found in the best smartphones, so you already know how to use it. CUE even detects your hand as it approaches, then pulses to acknowledge your command. For a detailed demonstration of how the revolutionary Cadillac User Experience changes driving forever, see your Cadillac dealer.

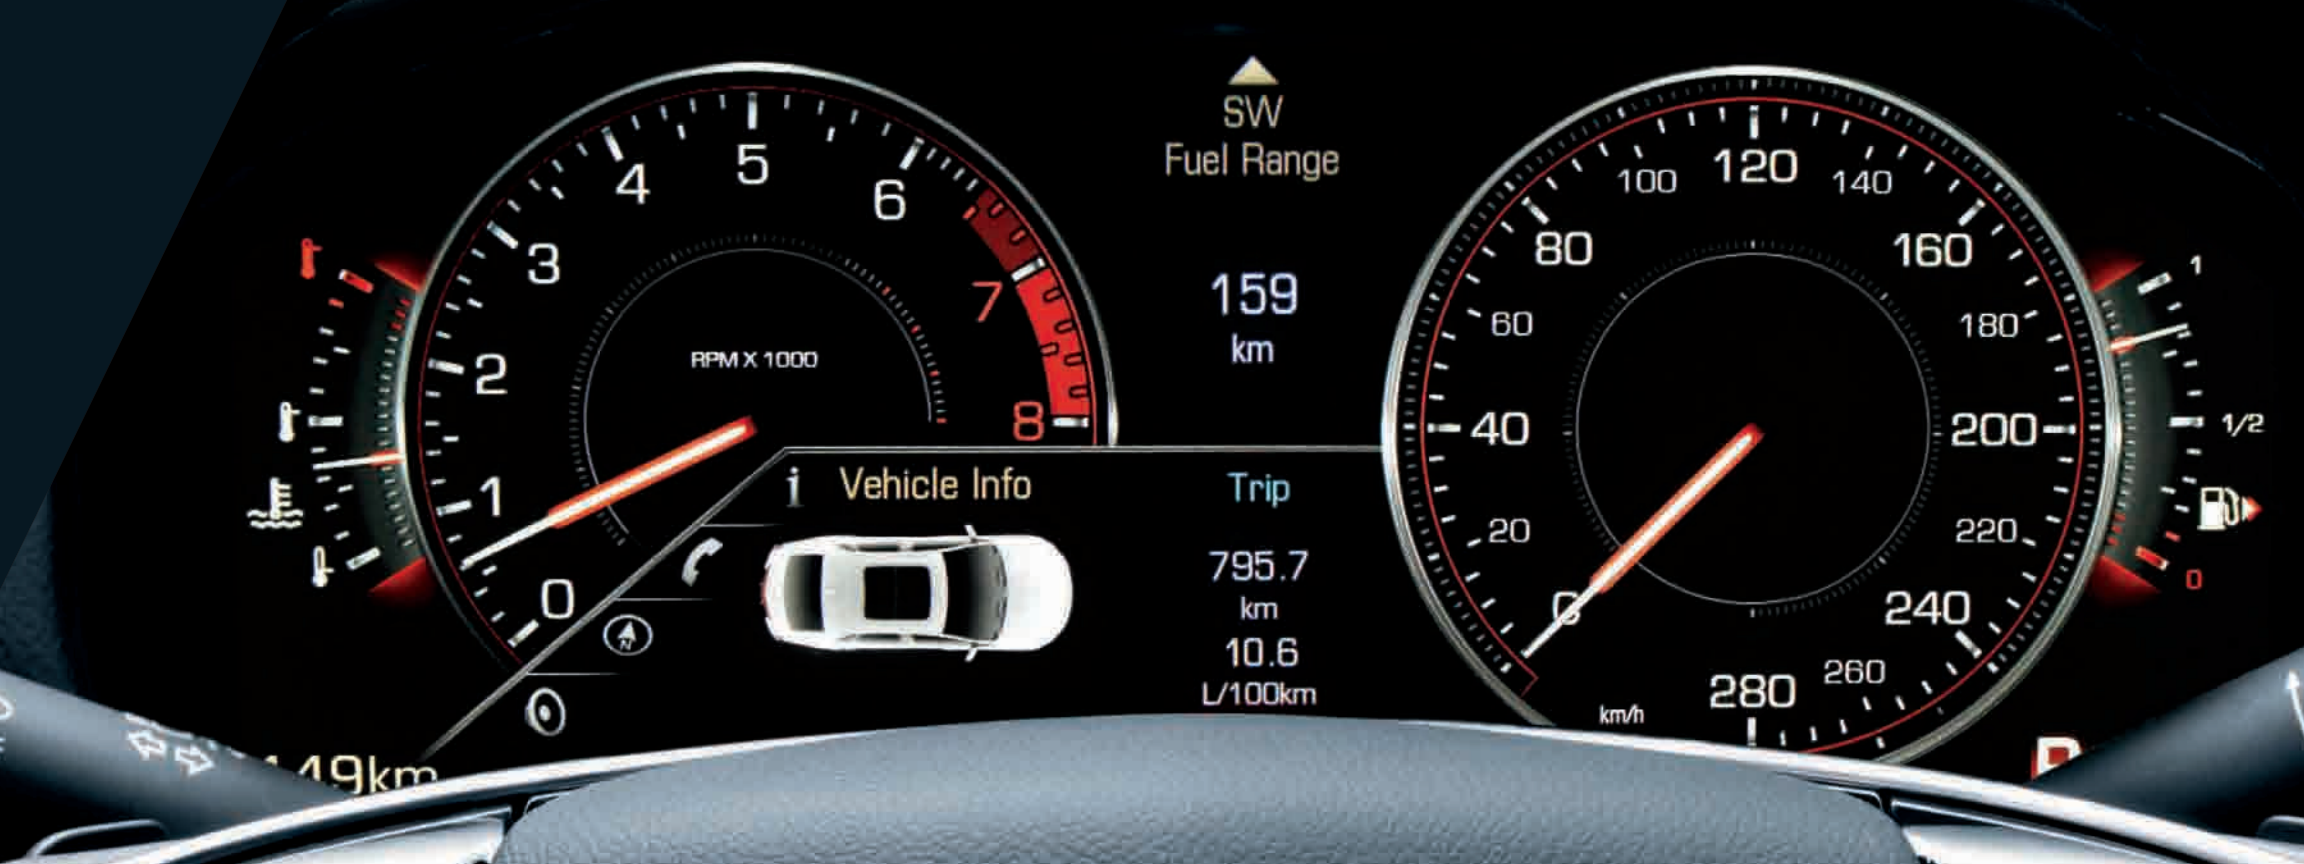

* Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. ** Interim availability.

CONFIGURABLE INSTRUMENTATION

CUE lets you configure your XTS's gauge cluster to display only the information you prefer.

1 Enhanced gauge cluster. 2 Balanced gauge cluster. 3 Simple gauge cluster. 4 Performance gauge cluster.

CONTROL

With a 203-mm (8-in.) touch screen featuring visual icons, proximity sensing, tactile feedback and voice recognition, CUE is as easy to use as your smartphone.

CONNECTIVITY

Using Bluetooth® 3.0 technology, Cadillac's revolutionary CUE can integrate your smartphone and, on select models, 3D navigation into a single, intelligent system.

CONVENIENCE

To adjust the climate control system, change the radio station, contact OnStar® or perform a host of other functions, just touch the appropriate on-screen icon.

XTS SEES MORE SO YOU KNOW MORE.

When driving, knowledge is your first line of defense. Using leading-edge ultrasonic, radar and camera-based technologies, XTS advances that defense a step forward with available driver warning systems including Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert,* Rear Cross Traffic Alert, Front and Rear Parking Assist and the innovative Safety Alert Seat. XTS's advanced remote sensing technology also enables a higher level of convenience in the form of Adaptive Cruise Control.** When this available system is activated, your XTS will slow automatically when it encounters a vehicle ahead, then maintain a preset following distance until your preferred speed can be resumed.†

* Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.

** Interim availability.

† Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

1 XTS's available Front and Rear Automatic Braking feature** monitors for obstacles in front of and behind the car during low-speed manoeuvres.

When it senses that a collision may be about to take place, the system alerts the driver and, if necessary, can apply the brakes without driver intervention.

2 Included on Premium Collection and Platinum Collection is the Safety Alert Seat, available exclusively on XTS. By sending an immediate pulse through the seat cushion, either right or left, or simultaneously, this patented technology quickly and intuitively warns you of the direction of a potential hazard.

At Left: XTS employs radar technology and strategically placed cameras to monitor for potential hazards at the front, sides and rear of the vehicle.

ENGINEERING THAT'S SO FAR AHEAD OF THE CURVE YOU'LL THINK IT'S MAGIC.

Today's luxury means performance with efficiency, as demonstrated by the XTS's advanced new 3.6-litre V6 engine. Thanks to cutting-edge technologies like direct fuel injection, it puts 304 horsepower at your disposal while also delivering impressive fuel efficiency. XTS's chassis behaviour is equally magical, thanks to sophisticated HiPer Strut front suspension geometry and class-exclusive Magnetic Ride Control® technology* that helps both sharpen handling and smooth out pavement irregularities. In addition, XTS's available torque-vectoring Haldex All-Wheel-Drive system is engineered to help optimize traction on slippery surfaces. A rear electronic limited-slip differential distributes torque across the rear axle, ensuring power goes to the wheel with the best grip. Rounding out the technical package is a confidence-inspiring braking system by world leader Brembo® borrowing braking technology from Cadillac's high-performance CTS-V.

* Based on WardsAuto.com 2012 Middle Luxury segmentation. 2012 Model Year competitive data for segment based on latest published information available at time of printing.

1 XTS's innovative 2-door capless fuel system is superior to some competitive single-door systems which are vulnerable to leaks. Not only does it keep both your car and your hands cleaner, it also helps prevent the paint scratches that a loose tethered cap can produce.

2 XTS's V6 engine employs direct fuel injection, a very precise fuel delivery technology that helps maximize power while simultaneously reducing fuel consumption and emissions.

3 To optimize ride and handling characteristics, Magnetic Ride Control® – a technology pioneered by Cadillac – assesses driving conditions every millisecond and can adjust individual shock absorber damping every 5 milliseconds.

At Far Right: XTS, shown in Graphite Metallic with available Platinum Collection.

WRAP YOURSELF IN AN ULTRA-HIGH-STRENGTH STEEL SAFETY BLANKET.

With its strategic use of advanced ultra-high-strength steel, the XTS body structure is engineered to resist intrusions into the passenger compartment in the event of a collision. This rigid safety cage is supplemented by a full range of other passenger protection essentials, including front and rear crumple zones, pretensioners in the front safety belts and no fewer than ten standard airbags.

1 To ensure positive, immediate braking response in wet conditions, XTS's Auto-Dry brake system pulses pressure to the brake calipers to wipe the rotors dry. It also turns on automatically when the available rain-sensing windshield wipers are activated.

ONSTAR®: DRIVE CONNECTED.

Among the many powerful reasons for choosing XTS, OnStar® is one of the very best. OnStar® is standard on every XTS, along with twelve months of the Directions & Connections Plan with Turn-by-Turn Navigation.* Described below are some of the remarkable services OnStar® can perform for you.

AUTOMATIC CRASH RESPONSE

Any time your XTS's integrated crash sensors indicate that a collision has taken place, the vehicle immediately forwards that information to the OnStar® Centre. An OnStar® Advisor will call immediately to see if you need help. If you're unable to respond, the Advisor can determine your exact location via GPS and dispatch emergency services.*

STOLEN VEHICLE ASSISTANCE

In the unlikely event that your XTS should be stolen, OnStar® can help recover it. Using GPS technology, OnStar® can locate your vehicle and track its movements. OnStar® can relay that information to authorities who can use it to recover your XTS quickly and safely.

TURN-BY-TURN NAVIGATION

When it comes to user-friendliness, OnStar®'s Turn-by-Turn Navigation has no equal. By pressing a single button, you make a voice connection to an OnStar® Advisor and tell him or her where you want to go. Within seconds, clear, audible directions are downloaded to your XTS. Turn-by-Turn Navigation will even help get you back on track automatically if you take a wrong turn.

HANDS-FREE CALLING

OnStar®'s built-in wireless calling feature helps you make mobile calls legally. It also provides a convenient and reliable connection, even in areas where cellular reception is limited. Calling fees apply. See dealer for details.

REMOTE VEHICLE DIAGNOSTICS

OnStar® can provide you with the information you need to keep your new XTS in top condition. Every month, the system can run a series of diagnostic and maintenance checks and send you a comprehensive report via email.

ONSTAR REMOTELINK™

The OnStar RemoteLink™ app makes it easy to connect to OnStar®, even when you're not in your car. OnStar RemoteLink™ allows you to perform a series of functions remotely from your iPhone® or select Android™ devices. Once you download and register the app at onstar.ca, you can access all the following functions regardless of where you may happen to be:

- Lock/unlock your doors
- Start your engine remotely
- Activate your horn and lights to help you find your vehicle
- View real-time fuel information (range to empty, fuel remaining, current fuel consumption and lifetime fuel consumption)
- Send OnStar® Turn-by-Turn Navigation directions to your vehicle
- Check your tire pressure and remaining oil life
- Access your OnStar® account information
- Contact an OnStar® Advisor, Roadside Assistance or your preferred Cadillac dealer.

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency service providers.

CADILLAC SHIELD:

THE NEW STANDARD OF LUXURY OWNERSHIP.

At Cadillac, we believe our owners deserve the very best. That's why when we set out to create the ultimate customer experience, designing and engineering great vehicles was just the beginning; we were also looking to create an experience comparable with the world's greatest luxury brands. Every vehicle we sell is backed

by Cadillac Shield, the most comprehensive suite of owner benefits offered by any luxury automotive brand in the world. From innovations like Remote Vehicle Diagnostics and advanced mobile apps to our no-charge Premium Care Maintenance Program, Cadillac Shield sets an entirely new standard of luxury ownership.

CADILLAC WARRANTY

Every Cadillac is covered by a 4-year/80,000 km Limited Warranty,* which covers repairs on your entire vehicle, including parts and labour, to correct problems in materials and workmanship. A 6-year/110,000 km Powertrain Component Limited Warranty* is also included that covers select powertrain components.

COURTESY TRANSPORTATION

Whenever your XTS requires scheduled maintenance or warranty repair service during the warranty period, your dealer will provide you with shuttle transportation for daily service or an alternate car (or reimbursement for rental or other transportation expenses) for overnight service.

DIAGNOSTICS BY ONSTAR®

With best-in-class diagnostics from OnStar® you can run regular checks on a wide variety of vehicle systems. You can also receive updates via email or the OnStar RemoteLink™ app for iPhone® or select Android™ phones.**

PREMIUM CARE MAINTENANCE

Standard on every new Cadillac is the no-charge Cadillac Premium Care Maintenance Program, which covers select required maintenance services during the first 4 years or 80,000 km of ownership.*

NAVIGATION BY ONSTAR®

Just push the OnStar® button and ask the Advisor for directions to your destination. OnStar® will download directions to your XTS and a voice will call out every turn.**

CONNECTIONS BY ONSTAR®

With the OnStar RemoteLink™ app, you can access and control select vehicle information and features from anywhere you have cell phone service.**

ROADSIDE ASSISTANCE

Any time you require assistance during the 6-year/110,000 km Powertrain Component Limited Warranty period,* regardless of where you may be in Canada or the contiguous United States, Roadside Assistance is at your disposal 24 hours a day, 7 days a week, 365 days a year.

SECURITY BY ONSTAR®

In the unlikely event that your XTS is stolen, OnStar® can locate it via GPS. An Advisor can then send a Stolen Vehicle Slowdown® or Remote Ignition Block signal (working in conjunction with police) to help authorities safely recover your vehicle.**

EMERGENCY BY ONSTAR®

In the unfortunate event of a crash, OnStar® can automatically dispatch emergency services to your exact location, even if you're unable to ask for help.**

* Whichever comes first, fully transferable. See dealer for complete details.

** Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency service providers. Active OnStar® subscription required.

XTS OFFERS A COLLECTION TO SUIT EVERY LUXURY DRIVER.

STANDARD COLLECTION

Outstanding style, exceptional quality, scintillating performance, thoughtful amenities: all the essentials of the luxury car experience are present and accounted for in the Standard Collection.

1 Genuine Sapele wood trim on XTS's steering wheel, centre console and centre stack adds warmth and distinction.

2 A bold Cadillac logo framed by a finely detailed bright chrome and piano-black front grille adds drama to XTS's front styling.

3 XTS's front bucket seats feature supple leather seating surfaces and are heated and ventilated for four-season comfort.

4 Puddle lights located under the exterior rear-view mirrors provide convenient illumination as you enter and exit your XTS.

At Cadillac, we know every luxury car driver is unique. To assist you in tailoring your new luxury sedan to your individual preference, the style, technology and performance of XTS are offered in a choice of distinct Collections.

LUXURY COLLECTION

The Luxury Collection is equipped to deliver higher levels of comfort, convenience and safety. A Memory Package for the driver's seat, exterior mirrors and steering column is included, as is a rear vision camera.

1 High-tech vertical LED daytime running lights provide a distinctive styling accent at the front end of the Luxury Collection.

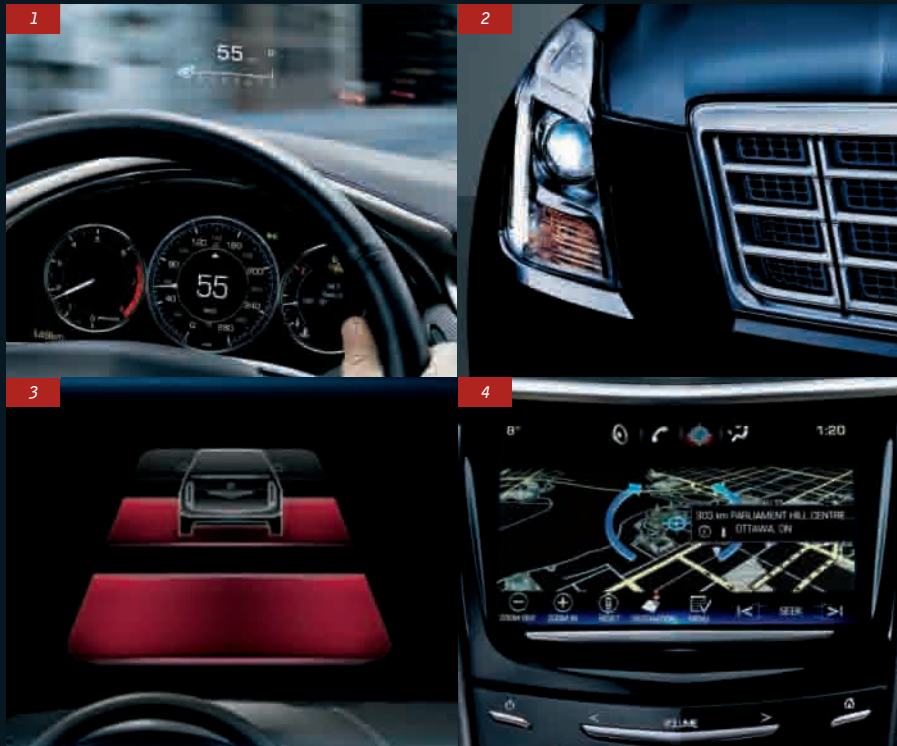

2 As you approach your Luxury Collection equipped XTS, the door handles glow softly to make themselves easier to locate in the dark.

3 Bright dual integrated exhaust outlets add a well-finished and contemporary look to the Luxury Collection's rear styling.

4 Luxury Collection's wood-and-leather trimmed steering wheel is heated, adding to your personal comfort on chilly mornings.

PREMIUM COLLECTION

The Premium Collection delivers outstanding refinement and a higher level of advanced technology. Features like Lane Departure Warning,* Forward Collision Alert and Cadillac's innovative Safety Alert Seat are all included.

1 A full-colour Head-Up Display (HUD) delivers essential driving information and reduces the need to take your eyes off the road.

3 Radar-based Adaptive Cruise Control** adds convenience and peace-of-mind when you encounter traffic ahead during highway driving.

2 Premium Collection's forward adaptive lighting system automatically turns the headlights as you steer into curves and corners.

4 Premium Collection adds a 3D GPS Navigation System to further enhance the revolutionary Cadillac User Experience.

* Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.

** Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

PLATINUM COLLECTION

For the best of the best, look no further than the Platinum Collection. Supple Opus full-leather seats, gleaming Lineate wood trim and a luxurious Alcantara® headliner are just a sampling of what's included.

1 The Platinum Collection's large UltraView sunroof extends over both the front and rear seats. A power sunshade is also included.

3 Open the front doors of the Platinum Collection equipped XTS and the sill plates glow softly to greet you and guide your entry.

2 The Platinum Collection's doors, console and instrument panel are all wrapped in leather for a soft touch and elegant appearance.

4 A unique mesh grille treatment adds an extra measure of refinement to the front styling of the Platinum Edition.

S – Standard. 0 – Optional individually or in combination with other optional equipment.

- Interim availability.
- Included with available Driver Assistance Package.
- Included with available Driver Awareness Package.
- Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.
- Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.
- Features 4.2" colour LCD display.
- Includes leather-wrapped shifter with wood insert.
- Full functionality requires Bluetooth[®] and smartphone. Some devices require USB connectivity.

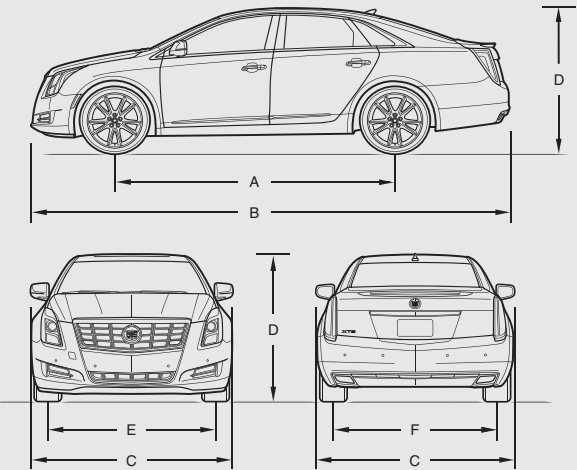

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.
** All-season tires may not satisfy winter tire requirements

in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

† At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.
†† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

‡ Includes weight of trailer, cargo, passengers and equipment. All towing recommendations are subject to change. Trailer tongue should be 10% of the maximum trailer weight but should not exceed the load rating specified for that vehicle, engine or hitch combination. See your dealer or refer to the XTS Owner's Manual for details.

2013 XTS EXTERIOR COLOURS

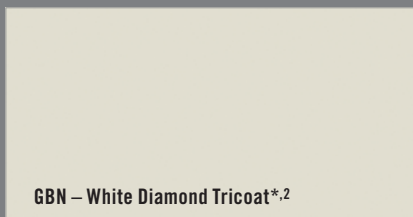

GAN – Radiant Silver Metallic

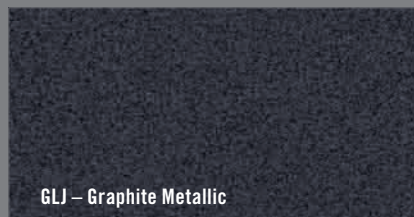

GBA – Black Raven

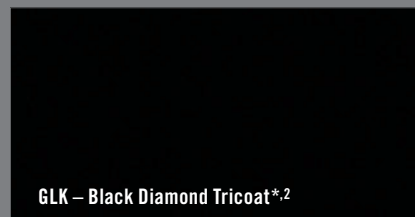

GBE – Crystal Red Tintcoat*1

GBN – White Diamond Tricoat*2

GLJ – Graphite Metallic

GLK – Black Diamond Tricoat*2

GWT – Silver Coast Metallic

GXH – Sapphire Blue Metallic

The exterior and interior colours in this brochure are as close to the actual vehicle production colours as the printing process allows. For more accurate colour samples, ask your Cadillac sales consultant to see the dealer showroom vehicle colour display.

* Available at extra cost.

- 1 – Tintcoat is a premium two-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.
- 2 – Tricoat is a meticulous three-layer process that results in a dramatic hue-shifting colour reminiscent of a show-car finish.

ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, General Motors of Canada has created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

PURCHASING:

- **Purchase Financing or Leasing** – on-the-spot financing at your GM dealership[†]
- **The GM Card** – GM cardholders may redeem up to \$3500 GM Card[®] Earnings (subject to Vehicle Redemption Allowances) toward the Total Purchase Price on eligible new GM vehicles.^{††} For full program details please visit thegmcard.ca

[†] Subject to eligibility. ^{††} Program subject to change.

ADDITIONAL OWNERSHIP PROGRAMS:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period.[‡]

[‡] Conditions and limitations apply.

INFORMATION RESOURCES:

You can obtain more information about Cadillac vehicles and programs from your Cadillac dealer, or at these information centres:

- The Cadillac website at cadillac.ca
- The Cadillac Contact Centre at 1-888-446-2000 (1-800-263-3830 for TDD users).

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A WORD ABOUT CORROSION

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

TRADEMARKS

The marks appearing in this Cadillac brochure including, but not limited to: General Motors, GM, Cadillac, the Cadillac badge, Cadillac Shield, CTS-V, XTS, and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Cadillac User Experience, CUE, Magnetic Ride Control, E-Z Key, HiPer Strut, StabiliTrak and Twilight Sentinel are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors. OnStar and the OnStar emblem are registered trademarks and OnStar RemoteLink is a trademark of OnStar, LLC.

TheftLock is a registered trademark of Delphi Technologies, Inc.

Bose and Studio Surround are registered trademarks of the Bose Corporation.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

The SiriusXM name and related logos are trademarks of SiriusXM Canada, Canadian Satellite Radio, Inc.

iPhone and iPod are trademarks of Apple Computer, Inc., registered in the U.S. and other countries.

The Android mobile technology platform is a registered trademark of Google Inc.

Bluetooth is a registered trademark of Bluetooth SIG Inc.

Brembo is a registered trademark of Brembo S.p.A.

Alcantara is a registered trademark of Alcantara Spa, Italy.
