

2013 OUTLANDER

ADVENTURE CALLS

The 2013 Outlander is a sleek, strong and robust compact sport utility vehicle with the agility of a sports car. Its low centre of gravity and sure-footed handling complements the great amenities built into its roomy cabin. Oozing with stylish comfort, innovative design and cutting edge technology, this vehicle boasts commanding conveniences such as Bluetooth® hands-free phone interface, Music Server and a 40GB HDD navigation system with Real-Time Traffic. Powered by an available 3.0L V6 MIVEC engine, the Outlander generates an impressive 230 HP with 3,500 lbs towing capacity. From day trips or shopping excursions to weekend getaways, the Outlander makes it fun to get out on the road to enjoy sporty performance, while benefiting from excellent fuel economy and low emissions.

► THE WORLD'S MOST ADVANCED ALL-WHEEL CONTROL SYSTEM*

Super All-Wheel Control monitors the road surface moment-to-moment and automatically transfers power to the wheels with the most traction. The S-AWC gives you the cornering control you need to arrive safe and sound, whether you're in snow, rain, mud or ice.

FLIP/FOLD SEATS

One tug on the reclining lever and Outlander's 2nd-row seats fold flat and tumble forward out of the way. The resulting cargo area measures a massive 2,056 litres – enough to handle even the most enthusiastic shopping spree or weekend excursions. Outlander LS and XLS come standard with 3rd-row seats that easily disappear into the floor when not in use.

EASY READY-TO-GO LOADING

The Flap-folding Tailgate eliminates the lip found on many utility vehicle tailgates. The tailgate on the Outlander lays down flat, making it easier and more convenient to slide heavy objects in and out.

REVERSE LOGIC WITH REAR MOUNTED CAMERA*

The 2013 Outlander features an abundance of technology, including an available rearview backup camera, allowing the driver to see hidden obstacles during reversing manoeuvres.

HIGH PERFORMANCE AUDIO

Redefine your sound experience with the available Rockford Fosgate® premium sound system. High-performance audio explodes with 710 watts of power that floods the entire interior with crystal-clear sound through nine, specifically-tuned speakers. And with six months pre-paid SIRIUS Satellite Radio, you will have the best in audio entertainment.

BLUETOOTH® 2.0 HANDS-FREE PHONE

Nothing integrates your compatible cell phone with your audio system better than Bluetooth® 2.0 hands-free cellular phone interface. The system employs voice recognition technology and steering wheel-mounted buttons for safer hands-free operation. Connect your iPod®, iPhone® or MP3 player with the USB audio to enjoy your music library in premium quality. Standard on all Outlander models.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Mitsubishi is under license. SIRIUS Satellite Radio Inc. 'SIRIUS', the SIRIUS dog logo and related marks are trademarks of SIRIUS Satellite Radio, Inc.

SAFETY COMES STANDARD

When it comes to your safety, the 2013 Outlander is on constant alert with active technologies to pre-empt whatever the road might throw in your way. With advanced safety features like Active Stability Control, Anti-Lock Brake System and Super All-Wheel Control, you will get a handle on the road and stay on it. Should the unthinkable occur, the Outlander is designed to protect you with its Reinforced Impact Safety Evolution (RISE) body that absorbs energy during high-impact collisions. It is also fitted with front passenger Supplementary Restraint System (SRS) and six standard airbags including front, side and curtain protection.

- DUAL-FRONT AIRBAGS
- FRONT SEAT-MOUNTED SIDE-IMPACT AIRBAGS
- SIDE-IMPACT CURTAIN AIRBAGS (1ST & 2ND ROW OCCUPANTS)

ACTIVE STABILITY CONTROL

Stabilizes the vehicle while maintaining optimum traction by regulating engine power and braking force at each wheel.

ACTIVE FRONT DIFFERENTIAL

Using an electronically-controlled clutch located in the transfer case, the Active Front Differential limits speed difference between the left and right front wheels and controls driving force distribution, providing optimal traction at all times.

VERSATILITY IS KEY

Fill the active and adventurous part of your life with all that the new 2013 Outlander offers. The Continuously Variable Transmission equipped on the ES that allows for seamless acceleration also provides better fuel economy. Its spacious and cleverly designed interior opens up a world of limitless possibilities. Capable of accommodating seven (3rd row seating is standard on the LS and XLS) or loading up its impressive cargo space for the great outdoors, the Outlander is the versatile vehicle for your versatile life.

SUPERIOR TRACTION

Mitsubishi's Super All Wheel Control (S-AWC) outperforms the competition with its Active Front Differential, which dynamically manages the left to right torque split in the front axle. The result is superior cornering, improved stability and enhanced road performance allowing you to conquer everything from heavy rain and snow or tough terrain.
