## PERFORMANCE

Sonic LTZ Hatchback in  
Silver Ice Metallic.

# SONIC BRINGS IT ALL.

**POWERFULLY EFFICIENT.** Sonic offers a combination of power and efficiency that will leave you wondering how it's all possible. The ECOTEC® 1.4L turbocharged engine — standard on LTZ and RS, available on LT Hatchback — has a highway fuel consumption rating of 6.2 L/100 km!

**YOU WANT FAST? YOU GOT IT.** On the test track, the turbocharged Sonic blurs 0–96 km/h (0–60 mph) in less than 8 seconds.<sup>1</sup> And with 138 horsepower and 148 lb.-ft. of torque, Sonic has all the passing and merging power you'll need.

**DON'T HOLD BACK.** The ECOTEC 1.8L 4-cylinder engine with 5-speed manual transmission (standard on Sonic LS and LT) puts driving control in your hands. This engine delivers 138 horsepower and 125 lb.-ft. of torque.

<sup>1</sup> 2015 Chevrolet Sonic with 1.4L turbocharged engine and 6-speed manual transmission. Fuel consumption estimates based on GM preliminary testing in accordance with new 2015 Model Year Government of Canada approved test methods. Refer to [vehicles.nrcan.gc.ca](http://vehicles.nrcan.gc.ca) for details. Your actual fuel consumption may vary. <sup>2</sup> Achieved on a test track with 1.4L turbocharged engine and 6-speed manual transmission.

# RS. ALL THE FUN, TURBOCHARGED.

## **TURBOCHARGED RS PERFORMANCE.**

After you take your friends for a ride, they may begin to show signs of Sonic envy. With the standard 1.4L turbocharged engine, 6-speed manual transmission with performance-oriented gear ratios, sporty final drive ratios (4.18 for manual and 3.53 for automatic), plus a lowered and stiffened suspension with performance-tuned dampers, RS puts you in charge.

## **EXCLUSIVE RS STYLE.**

With stellar performance comes legendary looks. Sonic RS boasts aggressive rocker panel extensions and its own custom fog lamps. Take hold of the leather-wrapped sport steering wheel, settle into the heated leather-appointed front bucket seats and let this adrenaline-pumping experience begin.

**TUNED SUSPENSION.** Sonic RS delivers the sharp-edged performance of a tuned sport sedan. This suspension lowers the centre of gravity for optimized handling and an improved stance. And a special dealer-installed accessory suspension (shown) providing a lowered ride height is available on all models.

# 10 AIRBAGS. 5 STARS. THAT'S BEST-IN-CLASS.

<sup>1</sup> Based on WardsAuto.com 2014 Lower Small Car segment and the latest competitive information at the time of printing. <sup>2</sup> U.S. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program ([www.SaferCar.gov](http://www.SaferCar.gov)). <sup>3</sup> Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information. <sup>4</sup> OnStar acts as a link to existing emergency service providers. Not all vehicles can transmit all crash data. <sup>5</sup> Visit [onstar.ca](http://onstar.ca) for coverage maps, details and system limitations. Services and connectivity may vary by model and conditions. OnStar with 4G LTE connectivity is available on select vehicle models and in select markets. Customers will be able to access OnStar services only if they accept the OnStar User Terms and Privacy Statement (including software terms). OnStar acts as a link to existing emergency service providers. After the trial period (if applicable), an active OnStar service plan is required. <sup>6</sup> Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. MyLink on Sonic does not include functionality such as enhanced voice recognition, Gracenote and CD player. Visit [MyLink.Chevrolet.ca](http://MyLink.Chevrolet.ca) for more details.

**A NEW STANDARD.** Sonic offers safety ratings and safety technologies that are unsurpassed in its class. Sonic was also the first car in its class<sup>1</sup> to receive a 5-Star Overall Vehicle Score for safety from the U.S. National Highway Traffic Safety Administration.<sup>2</sup>

**10 AIRBAGS.** If a moderate-to-severe collision does occur, Sonic is designed to act fast – it's the first and only car in its class<sup>1</sup> with 10 standard airbags.<sup>3</sup> Sensors throughout the vehicle determine how many airbags deploy – including knee airbags for the driver and front passenger. And to add to this protection, the cabin is reinforced with high-strength steel throughout.

**ADVANCED SAFETY PACKAGE.** Sonic LTZ and RS include Forward Collision Alert, which issues a warning sound to alert you to a possible collision, and Lane Departure Warning that alerts you if your Sonic begins to drift across lanes without signalling.

**AUTOMATIC CRASH RESPONSE.<sup>4</sup>** In many crashes, built-in sensors can automatically alert an OnStar Advisor, who is immediately connected into the vehicle to see if you need help. It's part of OnStar<sup>5</sup> with the Directions & Connections Plan – standard for the first six months.

**REAR VISION CAMERA.** Back up confidently with the available rear vision camera. When you shift into Reverse, the available Chevrolet MyLink<sup>6</sup> Radio with a 178 mm (7-in.) diagonal display allows you to see if anything is behind you. And when conditions become less than ideal, safety technology like the StabiliTrak<sup>®</sup> Electronic Stability Control System with traction control is there to assist.
