

2015 FIAT®

500L living.

The FIAT® 500L was born from the desire to offer increased functionality and a few extra square feet — all in a car that maintains city-friendly proportions. The result? A massively appealing vehicle that manages to combine the best of everything FIAT has to offer — not to mention the airy feeling of high ceilings, panoramic views and a wide-open, unique interior.

Four for five.

500L brings to life all the perks that come with a couple more doors, larger accommodations and extra gusto. This will be your "go-to" vehicle, with room for more crew and more gear, and with its city-friendly proportions, 500L is able to tuck itself into and get out of tight places everywhere.

POP It's not hard to interpret the motivation for this masterpiece: fun. 500L Pop stands out with distinctive Italian design, a multitude of personalization options, versatility and efficiency. Eye-opening standard features include the 1.4L MultiAir® I-4 Turbo engine, air conditioning, hands-free communication¹* and Uconnect® 5.0 multimedia centre with a 5-inch touchscreen.

SPORT This is the kind of player that gets recruited the moment he steps out onto the field. 500L Sport delivers the quick and agile feel of smaller cars, and adds standard details like 16-inch aluminum wheels, heated front seats and SiriusXM satellite radio² with a one-year subscription. With 500L Sport, it's all gain and no pain.

Colours may not be exactly as shown.

TREKKING With its panoramic views and a unique two-tone Nero/Marrone (Black/Brown) interior, 500L Trekking will make you feel like you're already back to nature. Be ready for anything with its aggressively designed front and rear fascias, and unique 17-inch aluminum wheels — perfect for whatever wild environs you find yourself in.

LOUNGE This 500L is a destination in itself. Turned out with premium appointments that reflect a truly stylish lifestyle, those who frequent this Lounge will have a special appreciation for its luxurious standard features like leather-faced seats, Park-Sense® Rear Park Assist³ and ParkView® Rear Back-up Camera³. It's the ultimate place to see and be seen.

*All disclaimers and disclosures can be found on the inside back cover.

500L Lounge in Rosso

Built-in double-takes.

500L gives drivers a great outlook with its segment-exclusive⁴ framed glass A- and D-pillars that provide nearly 360-degree views. Open the available dual-pane sunroof for a decidedly airy perspective. You'll notice sophisticated touches everywhere you look on 500L — from exterior Chrome accents to uniquely styled interiors and impressive technology. 500L is definitely worth a second look.

500L Trekking shown in Nero/Marrone cloth

Great ambience.

Working with high ceilings and open spaces (42 percent more room than FIAT® 500) takes an expert eye. The 500L interior succeeds with a unique mix of materials and options that say “you,” no matter who you are. Thoughtfully placed, tactile and readable controls put everything within reach. Available heated seats and BeatsAudio™ Premium Sound System make any commute more relaxing, turning 500L into your preferred venue to listen to your favourite tunes. You can even go wireless with Bluetooth® hands-free communication¹ — just one of its many standard conveniences.

Properly secure all cargo.

10

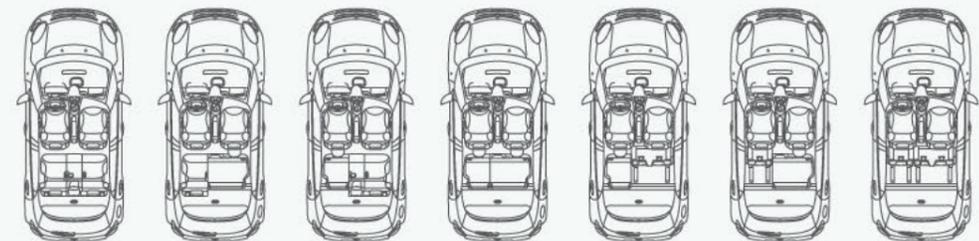

Properly secure all cargo.

Properly secure all cargo.

Deceptively spacious.

Shhhh — with 603 L of cargo volume, 500L has the capacity to haul those large “can-I-borrow-your-car?”-type loads, but does a great job fooling your friends with its compact, streamlined styling. With 2798 L of interior volume, 500L stores passengers just as efficiently. They’ll enjoy lots of legroom and the convenience of 60/40 split-folding Tilt, Tumble & Slide rear seats that make 500L flexible and accommodating for every size passenger or cargo load. Organization is versatile with features like the dual glove box and multiposition rear shelf panel that can hold up to 90.7 kg (200 lb).

Seven seating configurations

It's all at your beck and call.

Uconnect® for FIAT® 500L puts the world at your fingertips, keeping your hands on the wheel and your eyes on the road.

HANDS-FREE COMMUNICATION¹ Keep your gaze on the road and your hands firmly on the wheel when you make and receive calls with hands-free communication.

SIRIUSXM SATELLITE RADIO² Count on the available SiriusXM satellite radio to entertain you with its 120 channels of sports, news, talk and music from every genre. SiriusXM includes a one-year subscription.

VOICE COMMAND¹ Uconnect offers voice command for selecting AM/FM and available SiriusXM satellite radio² channels, so a better song or a different station is at your beck and call — as are all your phone calls, for that matter, with voice-controlled dialing and answering with compatible Bluetooth® equipped phones.

NAVIGATION⁵ You'll be escorted to your destination with the available factory or Retailer-Activated⁶ Navigation that puts intuitive map graphics and controls at your fingertips via touchscreen, or simply say an address to get directions with One-Step Voice Destination Entry. Audio directions and voice prompts provide turn-by-turn guidance.

TOUCHSCREEN TECHNOLOGY The Uconnect 5.0 and 6.5A multimedia centres feature 5- and 6.5-inch touchscreens respectively. These optimally placed touchscreens give you easy access to AM/FM radio, SiriusXM satellite² and comfort controls, along with any Bluetooth streaming audio devices you have in play.

TEXT READ AND RESPONSE Take your smartphone's IQ up a notch with the Uconnect feature that lets you stay in touch via text messages,⁷ while staying fully engaged with your driving duties. With the help of Bluetooth and Message Access Profile (MAP) on your smartphone, the system announces receipt of the message, identifies the sender and then reads the message aloud. With your hands on the wheel, you can reply to a message using one of 18 preprogrammed text messages.

BLUETOOTH STREAMING AUDIO With this indispensable feature, music and calls can be streamed wirelessly from a Bluetooth-enabled smartphone or audio player, giving you easy access to them through steering-wheel and touchscreen controls — so you can stay connected and entertained while keeping your eyes on the road.

MEDIA HUB Here's another way to stay connected and powered up. You'll find a premium media hub equipped with an auxiliary jack and USB port that enables charging and seamless operation of portable devices. With it, you're never short of power or tunes.

500L Trekking shown in Giallo

It really moves.

All the extra hauling and passenger space of 500L is more than accounted for with extra power under the hood with the award-winning and innovative 1.4-litre MultiAir® I-4 Turbocharged engine, which delivers up to 160 horsepower and 184 lb-ft of torque. The Euro Twin-Clutch (available on Pop) enables precise shifts and quick acceleration, while the all-new AISIN® 6-speed automatic transmission (available on Sport, Trekking and Lounge) offers great performance as it shifts for you. A 6-speed manual comes standard on all models for those who prefer more personalized control. A Touring-tuned suspension, featuring KONI® shocks and MacPherson struts, smooths out the ride while offering more responsive handling.

eco:Drive Uconnect® 5.0 is compatible with the eco:Drive™ application, so you can train yourself to adopt driving habits that save both money and the environment. Plug a USB drive into your FIAT® 500L to automatically store your driving data and information about your driving patterns. When the USB drive is plugged back into your computer, a downloaded application analyzes your personal driving style and suggests ways you can improve your fuel consumption and cut emissions. While you're there, check out the online community, eco:Ville. Meet other FIAT owners who are committed to reducing their CO₂ footprint. Visit fiatcanada.com/ecodrive to download the eco:Drive app.

Big on safety.

"Living large" in 500L includes the assurance of knowing that no corners are cut when it comes to the well-being of our drivers and passengers. We place a huge emphasis on developing technologies that create the kind of security that makes getting behind the wheel as comfortable for our drivers as the seats they sit in. Starting with seven air bags,⁸ Electronic Stability Control,⁹ four-wheel disc antilock brakes, crumple zones, Enhanced Accident Response System, tire pressure monitoring system, active front head restraints,¹⁰ available ParkView[®] Rear Back-up Camera³ and Park-Sense[®] Rear Park Assist³ — the list of safety features goes on and on.

SEVEN AIR BAGS⁸ come standard to help protect passengers in the event of a collision. In the front seating positions, this includes advanced multistage front air bags, front seat-mounted side air bags for added thorax and pelvic protection, and a driver's knee blocker air bag. In addition, two side-curtain air bags help provide head protection in side impacts for both front and rear passengers.

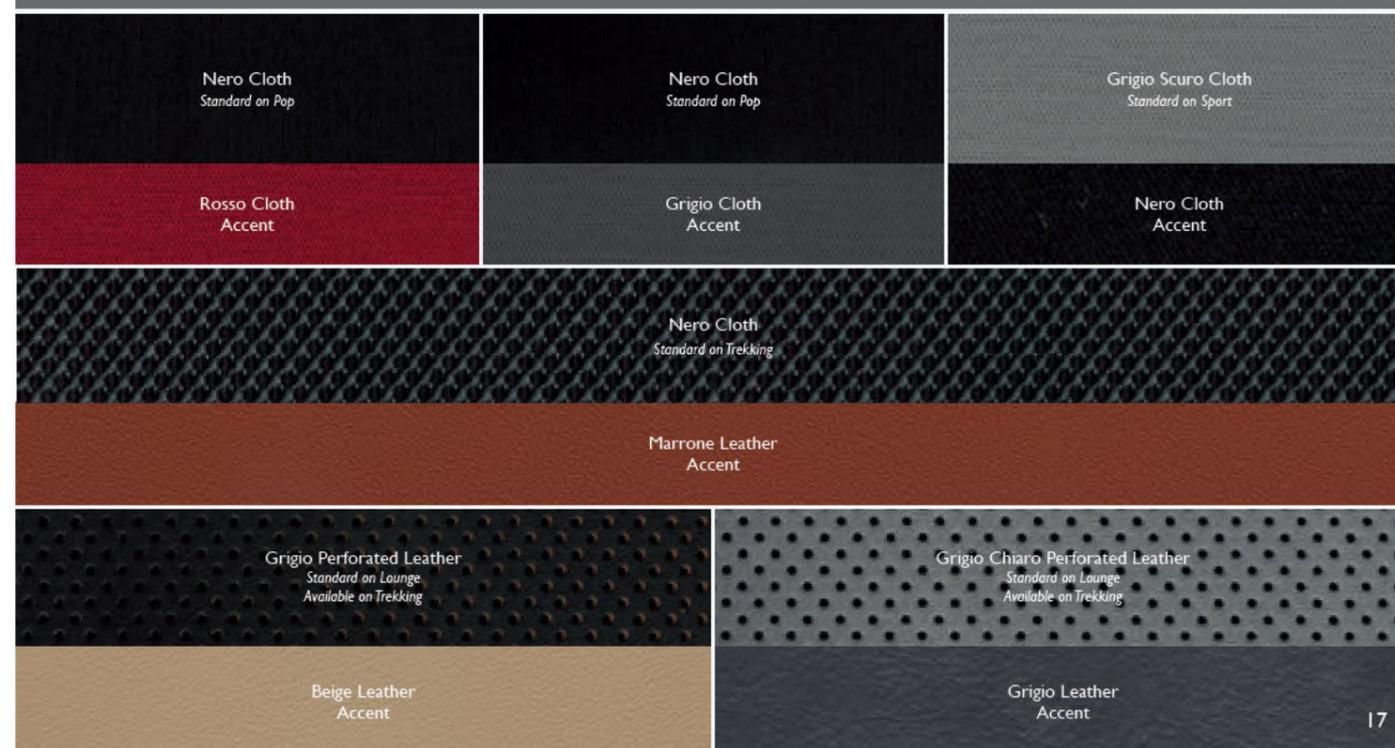

ELECTRONIC STABILITY CONTROL (ESC)⁹ When you drive, you should, of course, always pay attention. When you drive a FIAT[®] 500L, the car also pays attention. ESC is designed to assist drivers in maintaining control of their vehicles. ESC senses when a vehicle is starting to spin or plow, then strives to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels.

WARRANTIES: 2015 FIAT vehicles are backed by a 5-year or 100,000-kilometre* fully transferable Powertrain Limited Warranty with \$0 deductible plus 24-hour roadside assistance! Basic Warranty coverage is for 3 years or 60,000 kilometres.* Rust-through coverage on all body sheet metal is for 3 years.

*Whichever comes first. Some conditions may apply. †The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. Visit your FIAT Studio for full details.

DISCLAIMERS: (1) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. (2) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca (3) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (4) Based on Ward's Upper Small Sedan segmentation. (5) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. (6) Additional fees will apply for Retailer-Activated Navigation. (7) Preset voice-to-text messaging and incoming text message reading requires a MAP-enabled phone. (8) The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (9) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (10) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (11) Not compatible with all garage door openers.
