A classic, reinvented.

Who would've thought 40 years ago, the Honda Civic would've made such a big impact? 40 years later, it's still doing it. Since 1998, the Civic has been Canada's best-selling car.

The 2016 Civic is ready to change the way you view the road. It has been reimagined and redesigned inside and out. From its sporty, aggressive exterior to the luxurious, roomier interior, we thought about every detail. If fun is your middle name, the Civic now comes with two Earth Dreams[™] 4-cylinder engines. Both the 1.5-litre turbocharged direct-injected 4-cylinder engine that produces 174 hp¹ or the 2.0-litre naturally-aspirated 4-cylinder engine that pumps out 158 hp¹ help make every drive a blast. Brawn aside, we've designed the new Civic to be more fuel-efficient and technologically advanced than ever. New available tech features like Apple CarPlay^{™2,3} and Android Auto^{™2,3} help you stay connected, and a wireless charging pad keeps your compatible smartphone juiced. Plus, you'll feel more aware of the road with available Honda Sensing™ technologies like Collision Mitigation Braking System^{™2} (CMBS[®]) and Lane Keeping Assist System² (LKAS). With everything you get out of the Civic, it's easy to understand why it's become a favourite in Canada.

Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE JI349 procedures.
 None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

^{3.} Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

Feel good in its skin

Turns out, looks can get you everywhere. Especially if you're in a Civic. It's been completely redesigned with an aggressive stance, a sportier look and sleek lines to make it look unlike any Civic before. Up front, its LED daytime running lights and available LED headlights give it a distinctive presence that helps let everyone know you're coming. We've made it lower, longer and wider, so when you're in it, you'll sit pretty on its available fashionable 17" aluminum-alloy wheels. If you want a fresh view, put down the windows, tap a button and open up the available power moonroof with tilt feature. Plus available fog lights up front and mirror-integrated LED turn signal indicators help you stand out on the road. Be proud, confidence looks good on you.

Sleek and clean lines Standard LED daytime running lights and available LED headlights LED taillights Available 17" aluminum-alloy wheels Available rear deck lid spoiler EXTERIOR 3/4

If you thought it looked good outside, wait until you get in. Available heated front and rear seats, plus available leather trimmed seating surfaces, make it look like a hot ride and extremely easy to warm up to. Plus, the driver's seat with available 8-way power adjustment and the passenger's seat with available 4-way power adjustment finds you the right position, while the available dualzone automatic climate control lets you and your passenger choose your own temperatures. Up front, the sleek designed available leather wrapped steering wheel with available steering wheel mounted audio and cruise controls helps you handle some of your features like changing your tunes or cranking them up. You'll notice that the Civic is now much bigger inside, but if you still need room, the available 60/40 split fold-down rear seatback folds down to help you accommodate large or bulky items. The Civic looks aggressive, but it also has a softer side, thanks to premium soft touch materials that hug the interior. You'll notice that the multi-functional centre console with sliding armrest is anything but average. It opens up to give you added convenience by storing small objects along for the ride. Whether you're headed to a concert, on a road trip or simply running around town, you'll like getting there as much as arriving.

Available heated front and rear seats

Available leather trimmed seating surfaces

Available dual-zone automatic climate control

Available 60/40 split fold-down rear seatback

Premium soft touch materials

Multi-functional centre console with sliding armrest

Your newest toy has some of its own.

Don't let the sporty styling fool you. The Civic brings the brains to back up its beauty. It's loaded with tech features and completely down for wherever the road's going to take you. Hop in, turn up the music, set your destination and go.

Honda LaneWatch™ blind spot display.

Add a little transparency to your drive with the available Honda LaneWatch™ blind spot display.¹ When you signal right, your Display Audio System¹ is engineered to show your blind spot onscreen, from a camera mounted under the passengerside mirror. It shows you nearly four times more than a mirror alone.

Honda Satellite-Linked Navigation System™ with bilingual Voice Recognition.

Your plans change in a second, which is why the available Honda Satellite-Linked Navigation System^{™1,2} with bilingual Voice Recognition is at your beck and call. Aside from turn-by-turn directions, it also guides you with improved graphics, 3D landmark displays, highway signs, speed limit display, arrival time and lane guidance.

Multi-angle rearview camera.

Long gone are the days of having a friend direct you as you reverse. The multi-angle rearview camera¹ helps you to keep a close watch on anything that might pass by behind you and lets you see from multiple angles. It gives you three views to choose from: wide, normal and top-down.

Apple CarPlay™ and Android Auto.™

Finally, a car that loves your smartphone as much as you do. Working with the available Display Audio System, Apple CarPlay^{™1,3} and Android Auto^{™1,3} display key content from your compatible smartphone on the built-in 7-inch Display Audio System. It'll help you stay connected and add some more fun to your drive.

7-inch colour TFT centre meter display with Driver Information Interface.

In addition to displaying the vehicle speed and tachometer, the available 7-inch colour TFT centre meter display houses important vehicle information like engine oil life, trip range, warning messages and turbo booster meter (EX-T and Touring trim). It also displays your audio information and turn-by-turn directions when teamed up with available Honda Satellite-Linked Navigation System.^{™1,2}

Wireless charging.

Keep your phone charged on the go. The available wireless charging pad charges your compatible smartphone without wires, cables or plugs. Simply drop it on the charging pad and, well, that's it.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states. 3. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

Skip ready and set. This thing's ready to go.

Great power is now in your hands and under your foot. Both new engines in the Civic make long and short drives feel like joyrides. The available 1.5-litre turbocharged direct-injected 4-cylinder engine with 174 hp¹, which creates 162 lb.-ft. of torque from 1,800 – 5,500 rpm¹ and the standard 2.0-litre, 16-valve, DOHC, i-VTEC[®] 4-cylinder engine with 158 hp¹ are designed to find a balance between performance and fuel-efficiency. Teamed up with Eco Assist™ and ECON mode button, they are designed to help keep you on the road longer, and away from gas stations. If you like changing things up, the 6-speed manual transmission (MT) on the DX and LX trims is handy, but if you prefer simply putting it in drive to get on your way, the available continuously variable transmission (CVT) is for you. The Civic likes to keep things balanced. The independent strut front suspension, independent multi-link rear suspension and Agile Handling Assist combine improved handling with comfort for any humps, bumps or dips in the road. Whatever road you're on, the Civic has a grip on it with Variable Ratio Electric Power-Assisted Rack-and Pinion Steering to give your hands as much power as your right foot. No matter how you want to go there, the Civic is ready when you are.

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

Eco Assist™

Engages all your senses. Then adds a few more.

We didn't just completely change the Civic or improve its power and styling, we gave it a new perspective of the road. For the first time, the Civic comes with available Honda Sensing™ technologies. These safety and driver-assistive technologies are designed to help improve the driver's situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

HONDA SENSING[™] TECHNOLOGIES

Collision Mitigation Braking System[™] (CMBS[®]).

To help reduce the likelihood or severity of a frontal impact, the available CMBS®¹ is engineered to apply the brakes if you don't slow down when it senses you're at risk of a collision. If it still senses an imminent collision, CMBS[®] is designed to brake firmly.

Road Departure Mitigation (RDM) system.

The available Road Departure Mitigation system¹ is designed to help steer and even apply the brakes when necessary to help keep the vehicle from leaving the road.

Lane Keeping Assist System (LKAS).

The available LKAS¹ is engineered to gently correct your steering when you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Lane Departure Warning (LDW) system.

The available LDW system¹ is designed to monitor vehicle lane position and alert you when your vehicle drifts into a new lane when you haven't signaled.

Adaptive Cruise Control (ACC) with Low-Speed Follow.

The available ACC system¹ is designed to keep a set speed and set following interval behind a vehicle detected ahead of yours, including the ability to start and stop the vehicle with the flow of traffic.

Forward Collision Warning (FCW) system.

The available FCW system¹ that is integrated with CMBS® is designed to detect the presence of vehicles in front of you and issue alerts if you're approaching with too much speed. If you fail to respond to the alerts, the CMBS® is triggered into operation.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest

s wireless mobile phone to be paired with the vehicle. Opera

ACTIVE SAFETY

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brakeforce Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

PASSIVE SAFETY

Advanced Compatibility Engineering™ (ACE[™]) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE[™]) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions, to help prevent intrusion into the passenger cabin.

Six standard airbags

The Civic comes with six standard airbags. It features dual-stage, multiple-threshold front airbags as well as side curtain airbags with rollover sensor system, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent[™] side airbags, which are designed to deploy in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

HondaLink[™] Assist Automatic **Emergency Response System**

The available HondaLink Assist Automatic Emergency Response System^{1,2,3} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is designed to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you're on the road.

Seat belt safety

The Civic helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system and 3-point rear seat belts.

Hill Start Assist¹

When you take your foot off the brake, this feature is engineered to temporarily maintain brake pressure to help prevent your Civic from starting to roll backwards when stopped on an incline.

Child safety

The Civic features childproof rear door locks as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the world's most advanced humanoid robot, ASIMO, HondaJet, the fastest, highest flying and most fuelefficient aircraft in its class, and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED[®] (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 100,000 trees in Canada over the last 9 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

We're Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to "design" your Honda and personalize it with items from a list of quality accessories.

We're Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Honda reminds you to properly secure all items stored in the cargo area.
