

# A NEW STANDARD OF STYLE

What's under the hood isn't the only thing new about the 2016 Outlander; we've also completely refined its exterior to give it an elegant, robust look. Featuring Mitsubishi's new "Dynamic Shield" design language that stays true to Outlander's history of commanding, athletic creations; its refreshed style is immediately evident in the front fascia that extends from its rugged side bumpers up to its large and dominant chrome and silver grille with gloss black bumper accent. And with sleek LED headlamps, chrome accents and 18" alloy wheels, the Outlander is so stunning it will turn heads so fast that onlookers may experience whiplash.

## 2016 OUTLANDER

## BUILT OVER 100 WAYS BETTER.

The newly redesigned 2016 Mitsubishi Outlander is packed with many interior and exterior enhancements that make it more bold and sophisticated than ever. With exterior styling emphasized by the new dynamic fascia, lower cladding and distinctive wheel arch mouldings, the Outlander's rugged beauty is matched by its all-new, CVT-8 transmission and re-tuned suspension that make for a smoother and more comfortable, yet responsive ride. On the inside, a quieter more refined and functional cabin delivers sophisticated comfort and convenience. The 2016 Mitsubishi Outlander is built more than 100 ways better... and with this many enhancements, that's over 100 more reasons to love it.

## REFRESHING SILENCE

The 2016 Outlander has received 31 noise reducing enhancements to ensure a quieter more enjoyable cabin. Refinements include new acoustic windshield glass, sound dampening sheets and foam blocks throughout the interior to name only a few of the 31 changes; ultimately made to insulate, isolate and mitigate unwanted noise, vibration and harshness experienced on your daily commute. So less noise gets between you and your talk radio, if that's what you're into. It's our way of letting you enjoy a little bit of quiet time.

## SOPHISTICATED PERFORMANCE

Driving shouldn't feel like a chore, even if you're running errands. That's why the 2016 Outlander is now equipped with the new generation CVT-8 transmission, re-calibrated suspension as well as enhanced electric power steering. With improved performance, superior fuel efficiency and excellent handling, the new 2016 Outlander takes you farther and gets you there faster, making it an absolute pleasure to drive.

SUPER ALL-WHEEL CONTROL (S-AWC)<sup>†</sup>

The Super All-Wheel Control system features four driver-selectable modes: ECO sends power to the front wheels during normal driving to improve fuel efficiency yet can instantly transfer power to all four wheels the moment any slippage is detected, NORMAL for everyday conditions, SNOW for winter conditions, and LOCK for low traction situations.

## ADVANCED SAFETY

The available sophisticated safety features, Forward Collision Mitigation (FCM)<sup>†</sup> and Adaptive Cruise Control (ACC)<sup>†</sup>, aboard the Outlander use advanced radar technology to constantly monitor the vehicle's position in relation to other vehicles in front of it on the road. FCM will intervene if a possible frontal collision is detected and provide warnings as well as apply the brakes as necessary. ACC maintains a set driver-determined distance between you and the vehicle ahead ensuring a protective zone in front of the Outlander at all times. Both features will warn you with visual and audible alerts to ensure your absolute safety.
