

2017 S-Class Coupe & Cabriolet

A legacy of desire, reopened.

Mercedes-Benz

The best or nothing.

A pinnacle of design

From its iconic grille to its horizontal LED taillamps, the S-Class Coupe sends a rich heritage on a bold trajectory. Its signature pillarless profile is more than an element of panoramic elegance. It's also symbolic of the unimpeded passion of its engineers, and the seamless advancement of its engineering. Its sweeping, muscular shape and scintillating details reflect its quick acceleration and irresistible allure.

Openly passionate

The first S-Class convertible in 44 years is a sensual, seductive expression of timelessly modern elegance. From its iconic grille to its 19" or 20" AMG wheels to its wide LED taillamps, it exudes the muscular confidence of our coupe stablemate. But within seconds, its impeccably tailored soft top opens up an entirely new dimension of S-Class motoring.

19" and 20" AMG wheels

Standard AMG wheels combine style with substantial size. The legendary precision of AMG is presented in 19" and 20" sizes. The ideal complement to the standard AMG lower body styling, a variety of wheel designs and finishes can excite every S-Class Coupe or Cabriolet's owner as well as its onlookers.

Exquisite refinement, abundant space and style

A showcase of advanced technology, the cabin's exquisite craftsmanship and sculpted design meld modern art and extraordinary comfort. Four individual seats are swathed in supple Nappa leather and surrounded by topstitched upholstery on nearly every surface. The exotic, handcrafted wood trim, in a delectable array of options, is accented in satin aluminum. Top up or down, the cabin is a treat for every sense.

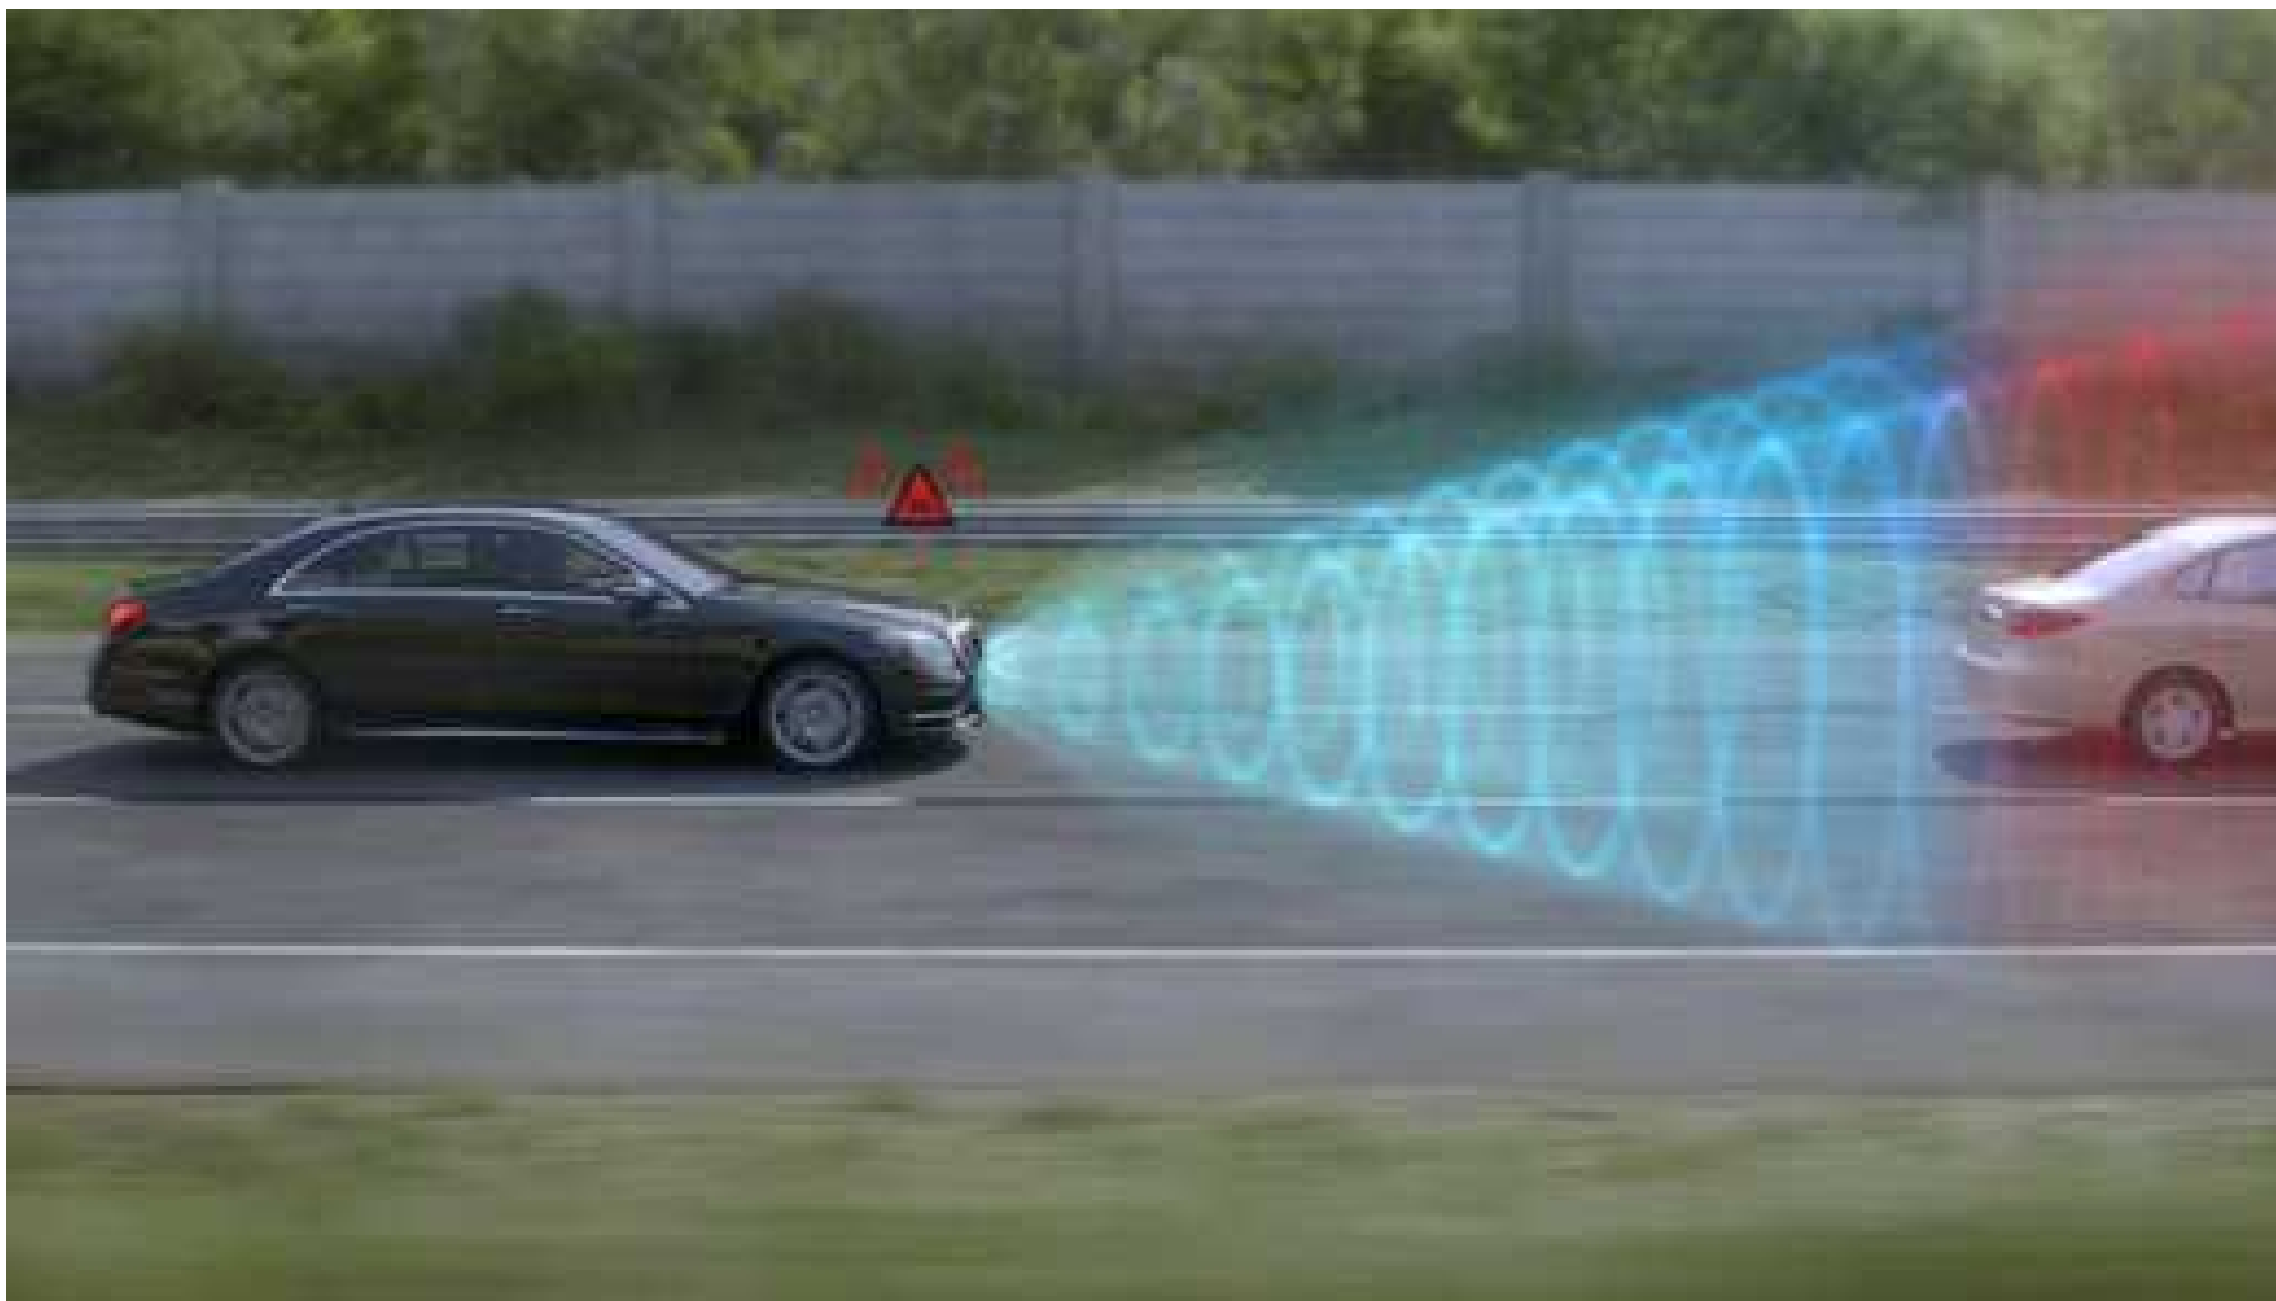

Acoustic power top

With rich fabric — in any of four colors — covering two insulating inner layers, the S-Class Cabriolet's power soft top creates coupelike quiet when raised. The touch of a button at up to 60 km/h — whisks it out of sight under a sculpted cover. A new electric partition automatically moves into place, to divide the trunk for the stowed top and generous luggage space.

100% LED lighting

As the first modern vehicle without a single lightbulb, the S-Class is once again a beacon of inspiration for the entire industry. From its full-LED headlamps with Adaptive Highbeam Assist and Active Curve Illumination, to its multizone, multicolour ambient cabin lighting, it employs nearly 500 efficient, effective and enduring LEDs. For an even more dramatic effect, the headlamps are available with accents featuring 94 Swarovski® crystals.

Brake Assist (BAS) PLUS

Radar-based technology alerts you if you're approaching a vehicle ahead at a speed and distance that suggest a collision is likely. In addition to alerting the driver, its Brake Assist PLUS with autonomous braking can apply up to 100% of the car's braking force automatically from speeds up to 105 km/h, to help prevent a collision or reduce its severity.

ATTENTION ASSIST

The first system of its kind, ATTENTION ASSIST can automatically alert the driver if it detects signs of drowsiness on long trips. It continuously monitors up to 70 parameters of driving behavior, starting in the first few minutes of a drive. The latest generation of this innovation can help detect drivers who begin their trip drowsy, and offer more useful information via the dashboard display.

MAGIC VISION CONTROL

MAGIC VISION CONTROL features wiper blades with laser-cut holes that emit a precise spray of washer fluid directly in front of the moving wipers. The system eliminates the brief, vision-obscuring blast of conventional washers, and minimizes overspray and runoff, especially beneficial with the top-down Cabriolets. The washer fluid reservoir and lines — and even the wiper blades — are heated for year-round effectiveness.

Advanced driving assists

Standard Intelligent Drive helps ease your every move. Radar-based DISTRONIC PLUS adapts your cruising speed to the traffic flow, even if it's stop-and-go, while its Steering Assist helps keep you centered in your lane. Active Lane Keeping and Blind Spot Assists keep a virtual eye to either side. Cross-Traffic Assist watches for vehicles and pedestrians in your path. And PRE-SAFE PLUS helps prepare for a rear-end collision before it happens.

Innovative parking assists

PARKTRONIC's ultrasonic sensors help detect obstacles while you're negotiating tight spaces, alerting you with audiovisual indicators in the cabin. Active Parking Assist can help you find a parking spot, then expertly steer you in hands-free—like a virtual valet. A standard 360° camera shows a bird's-eye view of your surroundings on the in-dash screen. It composes the images of four cameras into a single live colour overhead view.

Indulgent comfort, individually contoured

Intuitive and artfully sculpted controls offer 16-way power adjustment of the front seats. But that's just the beginning of their comforts. Heating and ventilation are standard. The front armrests can be heated. And the seats' Drive-Dynamic multicontour design can add side support in corners, or offer a "hot stone" massage. Even the twin, individually contoured rear seats are heated.

Digital instruments and touchpad COMAND

Dual 12.3" high-resolution screens combine analogue-style gauges with animated displays of driving systems, vehicle settings, entertainment and navigation. An intuitive touchpad makes the advanced COMAND system even easier to use, including fingertip gestures and handwriting recognition. A standard Head-Up Display appears to "float" over the hood, providing useful driving information with minimal "eyes off the road."

COMAND navigation and audio

The COMAND system includes navigation with a fast hard drive for maps and data, as well as lane guidance as you approach turns, and LINGUATRONIC voice control that can learn your natural way of speaking. Listening choices are nearly limitless, from standard SiriusXM® Radio to Bluetooth® wireless audio streaming and two USB ports.

Burmester® Premium and 3D Sound

One of the most respected names in handcrafted high-end home audio, Germany's Burmester has developed two surround-sound systems for the S-Class Coupe and Cabriolet. The standard 13-speaker 590-watt system fills the cabin with rich, pure digital sound. Available Burmester High-End 3D Surround Sound aims to be the pinnacle of mobile audio, with 1,540 total watts and 24 speakers on Coupes, or 23 on Cabriolets. Both Cabriolet systems seamlessly adapt when the top is lowered.

Advanced locking and starting features

From its pushbutton KEYLESS-START feature to its power trunk lid, the S-Class Coupe and Cabriolet makes getaways easier. Standard KEYLESS-GO lets you unlock and lock the car with a touch of a door handle. And the power trunk closer includes HANDS-FREE ACCESS, which opens or closes the trunk with just a gentle kick of your foot under the rear bumper — ideal when your arms are full.

Purified and rarified air

Available dual charcoal filters team with an ionizer that uses an electrical charge to virtually eliminate impurities and odours from the cabin air. It helps make the air quality more enjoyable and healthier, especially for those with asthma or allergies. An available fragrance atomizer introduces any of four distinctive yet subtle aromas to the cabin. And the Cabriolet's THERMOTRONIC dual-zone climate control employs 12 sensors and 18 actuators to seamlessly maintain comfort in any season — top up or down.

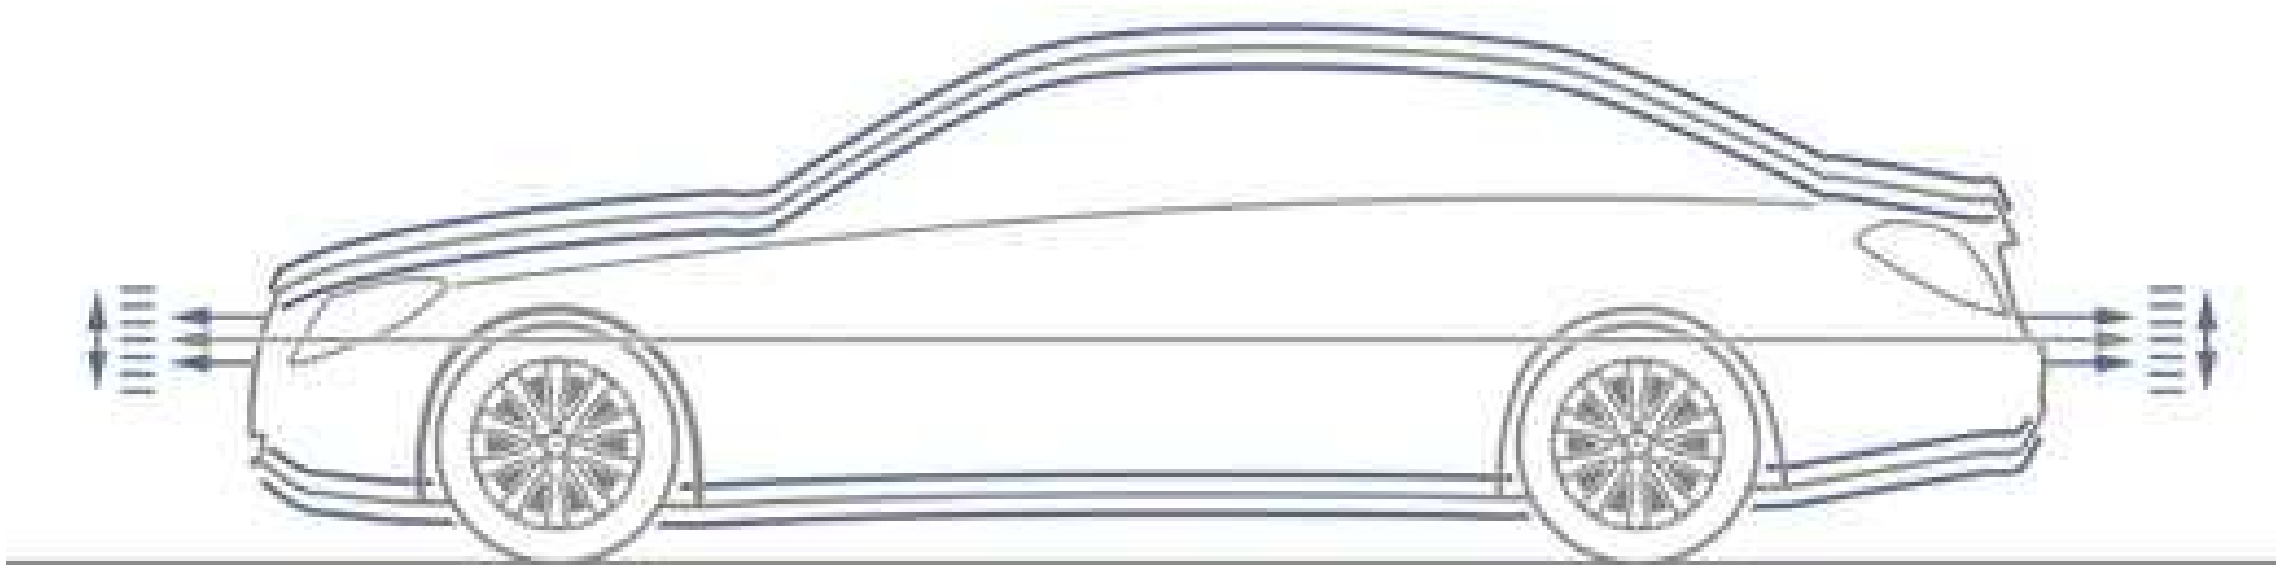

Advanced biturbo V-8 and V-12 power

Powerplant choices include two Direct Injection biturbo V-8s and a superlative AMG biturbo V-12. With immediate torque and impressive efficiency, the S-Class engines accelerate the pace of progress. Each of them employs numerous advanced technologies to turn less fuel into more energy, for power to spare with fewer emissions left behind. An ECO Start/Stop system saves even more fuel at stoplights.

Adaptive air suspension

No matter which model you choose, its suspension offers a choice of Sport and Comfort modes, plus automatic leveling at all four wheels. The adaptive AIRMATIC air suspension tames the road with quick-thinking semi-active response and a light weight. The Mercedes-AMG models feature specific calibration commensurate with their overall performance.

MAGIC BODY CONTROL

The Mercedes-AMG S 65 Coupe's camera-assisted MAGIC BODY CONTROL is an industry first. It can actually see bumps and curves ahead, and act to quell them in real time, even leaning into corners like a slalom skier.

4MATIC all-wheel drive

From a loose surface to a tight corner, the S 550 Coupe's standard 4MATIC all-wheel drive adds confidence on any road, in any season, by always sending torque to the wheels with the best grip. It's also one of the nimblest and lightest AWD systems in its class, for more fun in dry corners and better mpg year-round. On the Mercedes-AMG S 63 4MATIC Cabriolet and Mercedes-AMG S 63 4MATIC Coupe, AMG Performance 4MATIC puts power to the pavement with unparalleled expertise.

Extraordinary body strength

Advanced body engineering ensures that the pillarless coupes and open-air convertibles of the S-Class deliver impressive rigidity and safety. Intelligent use of materials including ultrahigh-strength steel, aluminum and magnesium, as well as strategic reinforcements, deliver the same high torsional rigidity in both body styles with virtually no weight penalty. Unparalleled cornering precision and driving composure result.

Handcrafted by racers

Racing-bred style and power only start to tell the story of the Mercedes-AMG S-Class Coupes and Cabriolets. From the Mercedes-AMG Performance 4MATIC all-wheel drive of the Mercedes-AMG S 63 models to the forged 20" wheels of the Mercedes-AMG S 65, there may be no higher pinnacle of passion in the world of open-air motoring. And with their handcrafted biturbo powerplants, it's a passion they are truly born with.

577-hp AMG V-8 and 621-hp AMG V-12

Advanced, racing-derived technology is united with a powerful Mercedes-AMG tradition: an engine that's crafted by the hands of its own "master." Direct Injection, a pair of high-rpm turbos and patented NANOSLIDE cylinder walls team up for 577 hp and 664 lb-ft of torque in the Mercedes-AMG S 63 models. In the Mercedes-AMG S 65 models, twin turbos feed twelve cylinders to create a 621-hp, 737-lb-ft force of nature.

Performance in every detail

From their AMG-developed suspensions to their exquisitely rendered cockpits, each Mercedes-AMG S-Class is crafted to make every drive breathtakingly memorable. Buttery Nappa leather is impeccably stitched to nearly every surface that's not already swathed in rich wood or carbon fibre. And in both their advancements and their abundance, the flagship Mercedes-AMG coupes and cabriolets accelerate the art of motoring.

Exclusive Package

Extraordinary luxury and craftsmanship expressed through exquisite upholstery and trim elements.

Standard on Mercedes-AMG S 65

designo Exclusive Nappa leather upholstery

Standard on Mercedes-AMG S 65

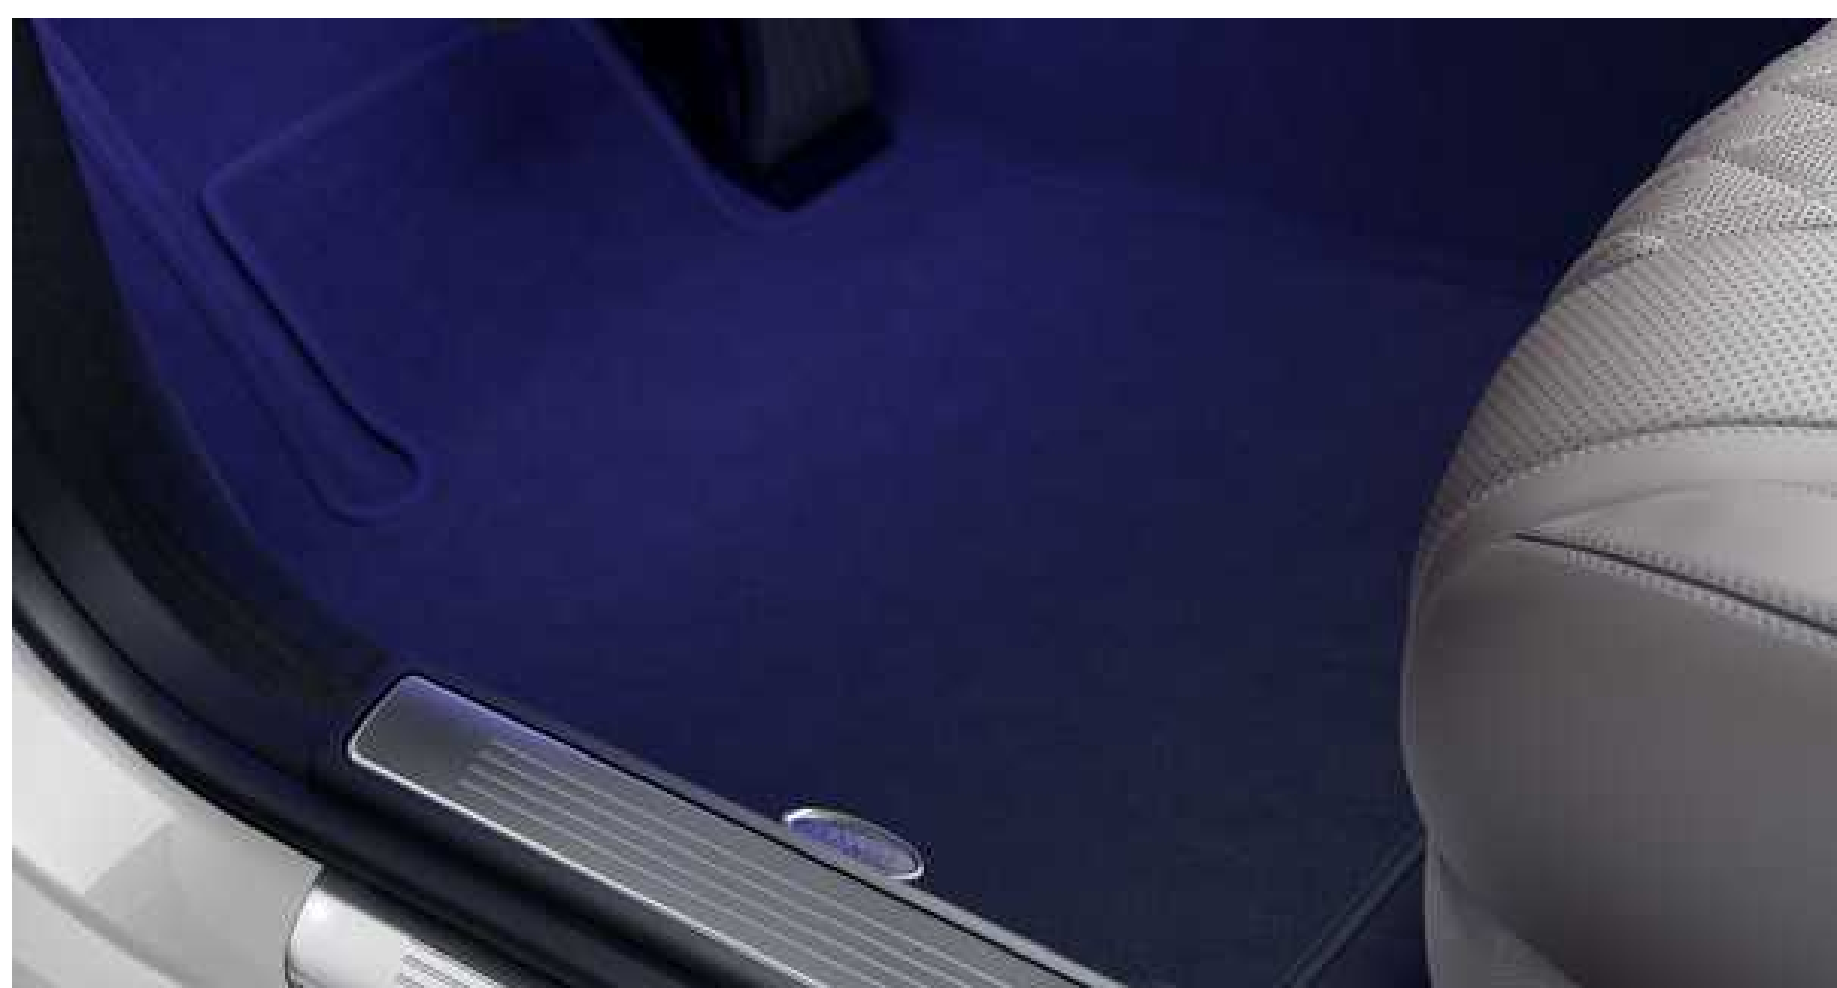

Superlatively soft, smooth-grain *designo* Exclusive Nappa leather is hand-fitted to the seating surfaces and head restraints. Exquisite diamond-pattern stitching highlights the center seat sections as well as the leather inlays in the doors and dash. The upper dash and doors are also hand-fitted in Nappa leather.

DINAMICA roof liner

Included only S 550 models / Standard on Mercedes-AMG S 63 models / Mercedes-AMG S 65 features Nappa leather (Coupe) or Nappa leather/DINAMICA roof liner (Cabriolet)

The ceiling and roof pillars are lined in rich DINAMICA, a manmade material that combines the look and feel of suede with easy upkeep and enduring beauty.

designo floor mats

Included only on S 550 models

Extraordinary plush velour floor mats are exquisitely detailed with leather borders and metal *designo* badges.

Exclusive AMG floor mats

Included only on Mercedes-AMG S 63 models / Standard on Mercedes-AMG S 65 models / Not available on S 550 models

Rich velour floor mats feature leather borders and metal AMG badges.

Air Balance Package

A thoughtful group of innovations to help cleanse the cabin air and provide the soothing benefits of aromatherapy.

Available on S 550 4MATIC Coupe / Standard on Mercedes-AMG S 65 Coupe and all Cabriolets

Cabin-air purification system

Dual activated charcoal filters team with an ionizer that uses an electrical charge to create the same fresh-air sensation you experience after a summer storm. Airborne impurities and odours are virtually eliminated from the cabin to provide air quality that's more enjoyable and healthier, especially for those with asthma or allergies.

Cabin fragrance system

Featuring an elegant, LED-backlit vial in the glovebox and its own ductwork, a fragrance atomizer offers an added dimension of ambience. Any of five distinctive yet subtle aromas is gently atomized at periodic intervals into the cabin, yet won't linger on cabin surfaces or clothing. A new “Pacific Mood” fragrance is an S-Class Cabriolet exclusive. The vial is easily replaced when you'd like to change scents, or you may fill one with your own favorite fragrance.

Swarovski Crystal Lighting Package

Advanced vision by night, intriguing style by day or night.

Available on S 550 and Mercedes-AMG S 63 Coupes / Standard on Mercedes-AMG S 65 models / Available individually on S 550 and Mercedes-AMG S 63 Cabriolets

Swarovski® crystal LED headlamps

For an even more scintillating presence, LED headlamps with genuine Swarovski® crystals bring intriguing luminance to the Daytime Running Lamps and turn signals. Seventeen angle-cut crystals form the signature flare-shaped DRL within each headlamp, while 30 round crystals comprise each turn signal. Even while they're off, they add a distinctive dimension to the car's brilliant visual presence.

Night View Assist PLUS

In darkness, Night View Assist PLUS projects invisible infrared beams and reads them with a special camera. Combined with thermal imaging, the system can display a clearer, supplemental real-time view of the road ahead on the large screen in the dash, directly in front of the driver. Its advanced technology can also help identify and point out pedestrians and animals along dark roadways, and help alert pedestrians with a focused flash of the LED headlamps in their direction.

AMG Night Package

Gloss Black accents take your AMG S-Class Coupe or Cabriolet to the dark side.

Available on all Mercedes-AMG Coupes and all Cabriolets

Gloss Black exterior accents

Subtle and mysteriously alluring, the AMG Night Package renders numerous exterior details in dramatic high-gloss black. Darkened components includes the front air dam's "A-wing" trim and splitter, the side sill inserts, the exterior mirror housings, and the rear apron's diffuser insert.

AMG sports exhaust with black chrome tailpipes

The AMG sports exhaust system enhances performance while emitting the signature sound from its four black chrome tailpipes. Electronically controlled internal flaps respond to engine rpm and throttle loads, as well as the selected drive mode, to serenade acceleration and higher revs with a rewardingly throaty growl, yet its tone is pleasingly mellow during relaxed, quiet cruising.

Standalone Options

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG Performance steering wheel

Available on Mercedes-AMG models only / Not available with Porcelain/Esspresso Brown upholstery

In addition to its pronounced contouring, thick padding and Nappa leather-wrapped rim, the AMG Performance steering wheel incorporates racing-inspired DINAMICA side grips. (Not available with Porcelain/Esspresso Brown upholstery.)

Sport wood/leather steering wheel

Available on Mercedes-AMG models only

With a flat-bottom design and hand-polished wood accents, this 3-spoke sport steering wheel offers an ideal pairing of classic style and ultramodern control.

AMG exterior carbon trim

Available on Mercedes-AMG models only

Born and bred on the racetrack, carbon fibre highlights the front apron cross-strut, the side-sill inserts and the lower diffuser in the rear valance. Carbon fibre side mirror covers complete the stunning effect.

Swarovski® crystal LED headlamps

Available on S 550 and Mercedes-AMG S 63 Cabriolets (requires Night View Assist Plus) / Standard on Mercedes-AMG S 65 models / Available on S 550 and Mercedes-AMG S 63 Coupes in Swarovski Crystal Lighting Package

For an even more scintillating presence, LED headlamps with genuine Swarovski® crystals bring intriguing luminance to the Daytime Running Lamps and turn signals. Seventeen angle-cut crystals form the signature flare-shaped DRL within each headlamp, while 30 round crystals comprise each turn signal. Even while they're off, they add a distinctive dimension to the car's brilliant visual presence.

Standalone Options cont.

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Night View Assist PLUS

Available on S 550 and Mercedes-AMG S 63 Cabriolets / Standard on Mercedes-AMG S 65 models / Available on S 550 and Mercedes-AMG S 63 Coupes in Swarovski Crystal Lighting Package

In darkness, Night View Assist PLUS projects invisible infrared beams and reads them with a special camera. Combined with thermal imaging, the system can display a clearer, supplemental real-time view of the road ahead on the large screen in the dash, directly in front of the driver. Its advanced technology can also help identify and point out pedestrians and animals along dark roadways, and help alert pedestrians with a focused flash of the LED headlamps in their direction.

MAGIC SKY CONTROL

Available only on S 550 4MATIC Coupe and Mercedes-AMG S 63 4MATIC Coupe / Standard on Mercedes-AMG S 65 Coupe

A Mercedes-Benz exclusive, this innovative evolution of the Panoramic roof concept alters the transparency of its glass panel when electrical current is applied. At its darkened setting, the thermal energy entering the cabin is less than a household light bulb. And even in its transparent mode, both UV and infrared rays are effectively blocked, helping keep the cabin cooler.

Burmester® High-End 3D Surround Sound system

Standard on Mercedes-AMG S 65 models / Standard on Mercedes-AMG S 65 models / Reduces trunk space / Please see your dealer

Engineered to be the pinnacle of mobile high-end audio, the Burmester 3D system combines innovations in automotive audio with their legendary quality. A 1,540-watt amp combines analog and digital signals to deliver the most natural sound spectrum in any musical genre. A total of 24 speakers in Coupes, or 23 in Cabriolets, includes a trunk-mounted subwoofer with its own 400-watt amp, speakers set into the full-length console, and innovative ceiling-mounted surround speakers. Adjustments include four preset listening modes.

Standalone Options cont.

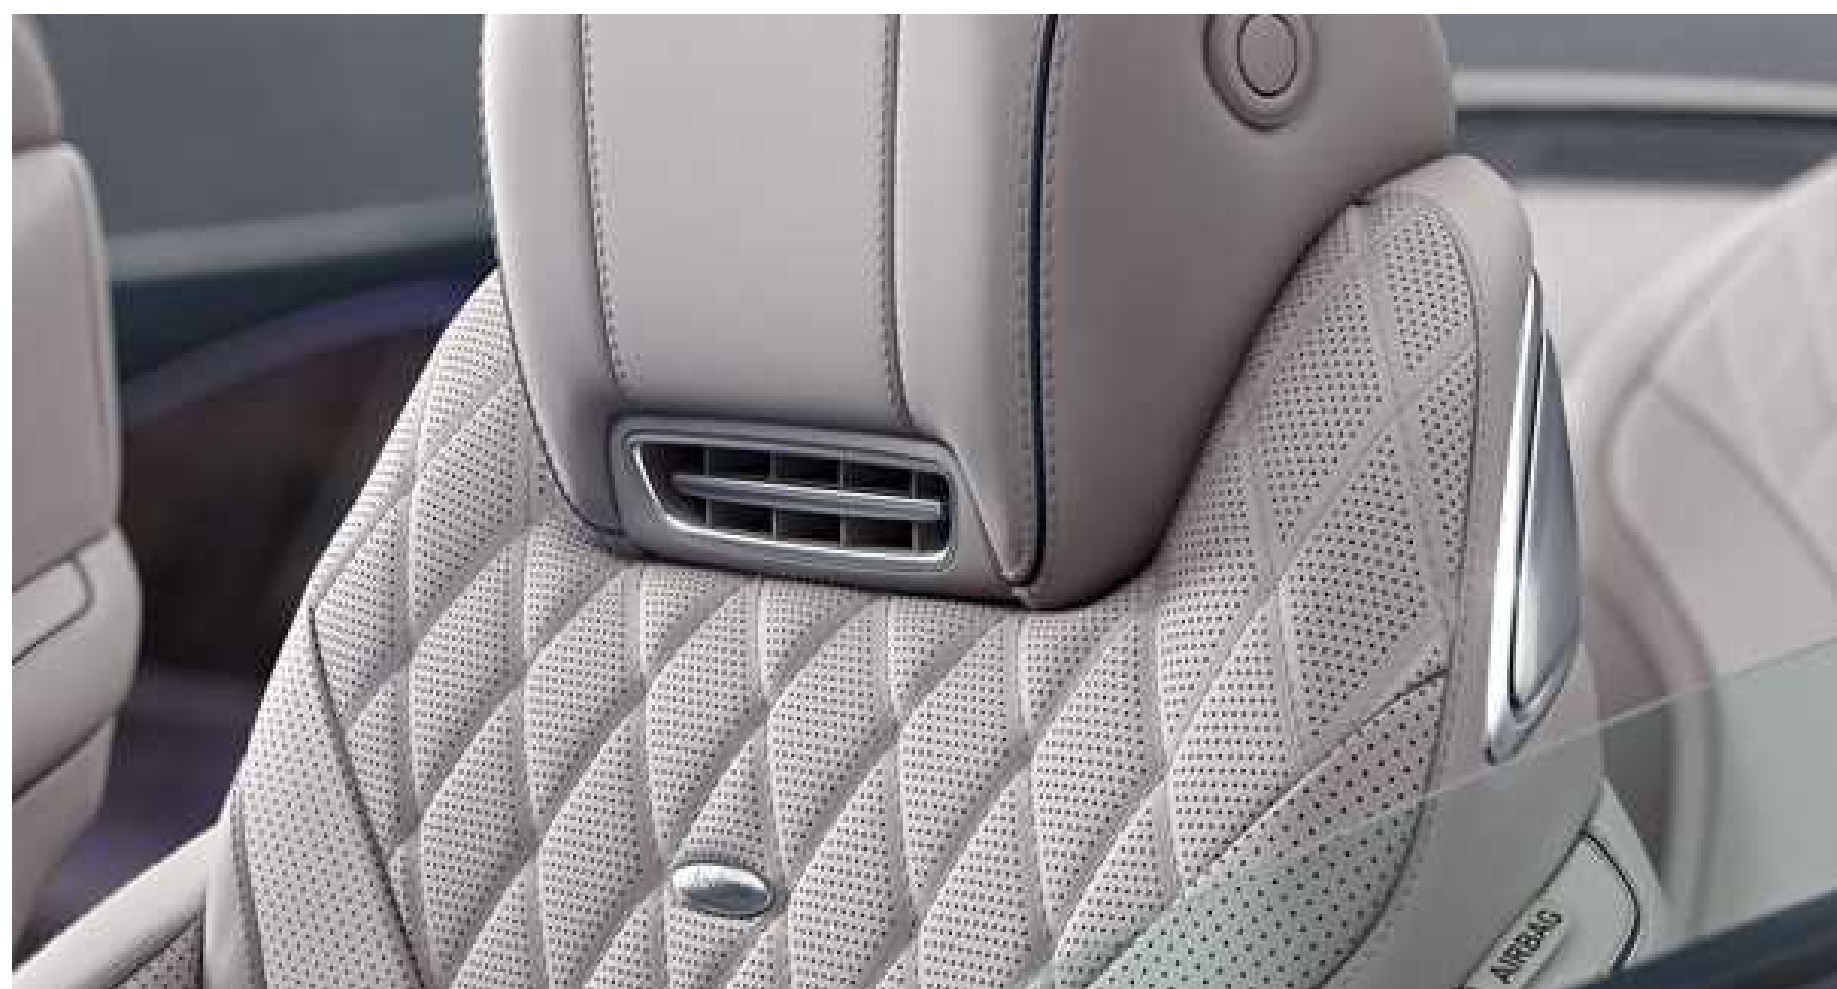

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

SPLITVIEW front-seat entertainment system

Available on all models

An exclusive breakthrough in video technology allows the central high-resolution in-dash widescreen to show two different displays to the driver and front passenger. So while the driver continues to enjoy all the functionality of the standard COMAND system, including audio, navigation and easy control of vehicle settings, the passenger can watch a DVD movie using the standard in-dash player, wireless remote and wireless headphones.

AIRSCARF neck-level heating system

Available on all Coupe models / Standard on Cabriolets

Tilt-adjustable vents beneath each front head restraint deliver warmed airflow to your neck, head and shoulders, like a virtual scarf. With individual 3-stage temperature controls and airflow automatically adjusted to your driving speed, AIRSCARF lets you enjoy alfresco driving even in cooler weather.

20" AMG multi-spoke alloy wheels

Available on S 550 models

Massive in size yet light in weight, the multispoke design of these 20" AMG wheels offers the high-tech look befitting the precisely tuned performance of the S-Class. Fitted with high-performance runflat tires, their sporty handling is an ideal complement to the car's highly capable suspension.

20"AMG 10-spoke forged-alloy wheels in Silver

Available on Mercedes-AMG S 63 models

Light weight and large size unite in racing-derived forged-alloy wheels with silver spokes and centres, set against a nearly invisible outer rim. Concealed lugs further elevate their clean design. They're wrapped in low-profile high-performance tires.

Standalone Options cont.

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

20" AMG 10-spoke forged-alloy wheels in Matte Black

Available on Mercedes-AMG S 63 models

Lightness meets darkness in racing-derived forged-alloy wheels with Matte Black spokes and centres, encircled by a pencil-thin polished outer rim. Concealed lugs further elevate their clean design. They're wrapped in low-profile high-performance tires.

20" AMG twin 5-spoke forged-alloy wheels

Available on Mercedes-AMG S 65 only

Lightweight, highly rigid 20" AMG wheels feature five pairs of ultrathin spokes. Polished surfaces highlight the spokes and connect each adjacent pair around the rim, contrasted with dark painted pockets for a distinctly racy look. They're fitted with low-profile high-performance tires and feature lug-concealing centre caps.

designo Metallized Ash wood trim

One of the most striking trim choices ever offered on an S-Class, the light colour and flowing grain patterns of Ash wood are stained using a metal-infused process that results in an exotic silver tone. Crafted by the expert hands of *designo* artisans, it's a celebration of old-world workmanship and modern art.

Burl Walnut wood trim

Not available with Bengal Red interior

Intricate in texture, the traditional warmth of Burl Walnut wood is polished by hand to a high gloss that celebrates its unique grain.

Standalone Options cont.

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG Carbon Fibre/Black Piano Lacquer wood trim

Genuine, racing-derived carbon fibre is complemented by the unique depth and gloss of wood trim whose Black Piano Lacquer finish comes from the same process used to create the finest concert instruments.

***designo* Black Piano Lacquer "Flowing Lines" wood trim**

Impossibly thin and precise blonde "pinstripes" accent the infinitely deep Black Piano Lacquer wood throughout the S-Class Cabriolet or Coupe cabin. This unique, exclusive embellishment celebrates the multidimensional, organic design of the cabin.

***designo* Black Piano Lacquer wood trim**

Available only on S 550 models

Using the same crafting technique as the finest orchestral instruments, Black Piano Lacquer lends the hand-finished wood trim of the S-Class Cabriolet or Coupe an elegant, extravagant excitement.

Soft top in any of four colours

Available on all Cabriolet models at no charge

The impeccably tailored fabric of the power soft top is available in a choice of four colours: classic Black, rich Blue, bold Red and elegant Beige.

Standalone Options cont.

Make your S-Class Coupe or Cabriolet your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG Carbon Ceramic Braking System

Available only on Mercedes-AMG S 65 models

Specially developed for superlative performance, carbon-fibre-reinforced ceramic discs enhance endurance under high heat and loads, for even shorter stops and higher fade-resistance during high-performance driving. With larger front discs, they offer higher total braking force but are 20 percent lighter. Bronze-painted calipers feature “AMG Carbon Ceramic” logos.

Carbon fibre engine cover

Available on Mercedes-AMG S 63 models / Standard on Mercedes-AMG S 65 models

An engine cover crafted from genuine carbon fibre celebrates the rich racing heritage within every handcrafted AMG powerplant.

Mercedes-Benz Genuine Accessories

Exclusively engineered to fit your car and your life, they're the best way to make your S-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

Car care products

Keep the interior and exterior of your vehicle looking their best with our exclusive, specially formulated interior and exterior car care kits.

Navigation update

Owning a navigation system is one thing. Keeping it up to date is another. Mercedes-Benz map update software keeps your maps and Points of Interest current with the latest information.

Roof accessories

Roof carrier bars allow for a variety of add-on accessories to be mounted to your vehicle. Choose from a ski/snowboard holder, roof box or bike rack. Carrier bars and add-ons sold separately.

Wheel upgrades

Choose from a wide selection of stunning wheels to accentuate your style.

Mercedes-Benz Genuine Accessories cont.

Exclusively engineered to fit your car and your life, they're the best way to make your S-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

Winter wheel & tire packages

Winter wheels and tires can play a major role in your safety and your vehicle's handling and performance on icy, snow-covered roads. Winter tires offer increased traction in harsh conditions and can reduce stopping distance by up to 3 car lengths.
