

**Automobile Specialty
Company**

a division of ASC Incorporated

**Limited Production;
Unlimited Resourcefulness.**

*Automobile Specialty Company
can help make specialty-vehicle
marketing ideas a reality—from
convertible versions of an existing
model to totally new automobiles
—by providing everything
from design and engineering
to manufacturing.*

Automobile Specialty Company is the one complete resource for the development, production and marketing of limited-edition and specialty automobiles. With a depth of in-house design and engineering capabilities plus its own production facilities, Automobile Specialty Company can take a project from initial idea to initial rollout. And do so cost-effectively.

That means that in conjunction with its Limited-Edition

Vehicles Group, Automobile Specialty Company offers:

Computer-Aided Design and Engineering

- New model development
- Vehicle modification
- Component systems
- Performance packages

Prototyping

Manufacturing and Production

- Captive and dedicated facilities
- Low-volume production runs

OEM Programs

- Special roof treatments
- Special editions

- Convertibles
- Limousines
- Sunroof systems
- Simulated convertibles

Aftermarket Programs

- ASC/McLaren limited editions
- Regional and dealer special editions

Show Cars and Idea Vehicles

Component Systems Supply

Marketing Assistance

Expertise and Experience.

No other resource can offer the same combination of real-world success and years of experience with major domestic and import manufacturers. So when you want to capture special market segments and do so profitably, call the company whose very name means full-service specialty production.

Automobile Specialty Company.
