

1994 MERCURY CAPRI

DRIVING A CAPRI IS LIKE HAVING YOUR OWN AMUSEMENT RIDE.

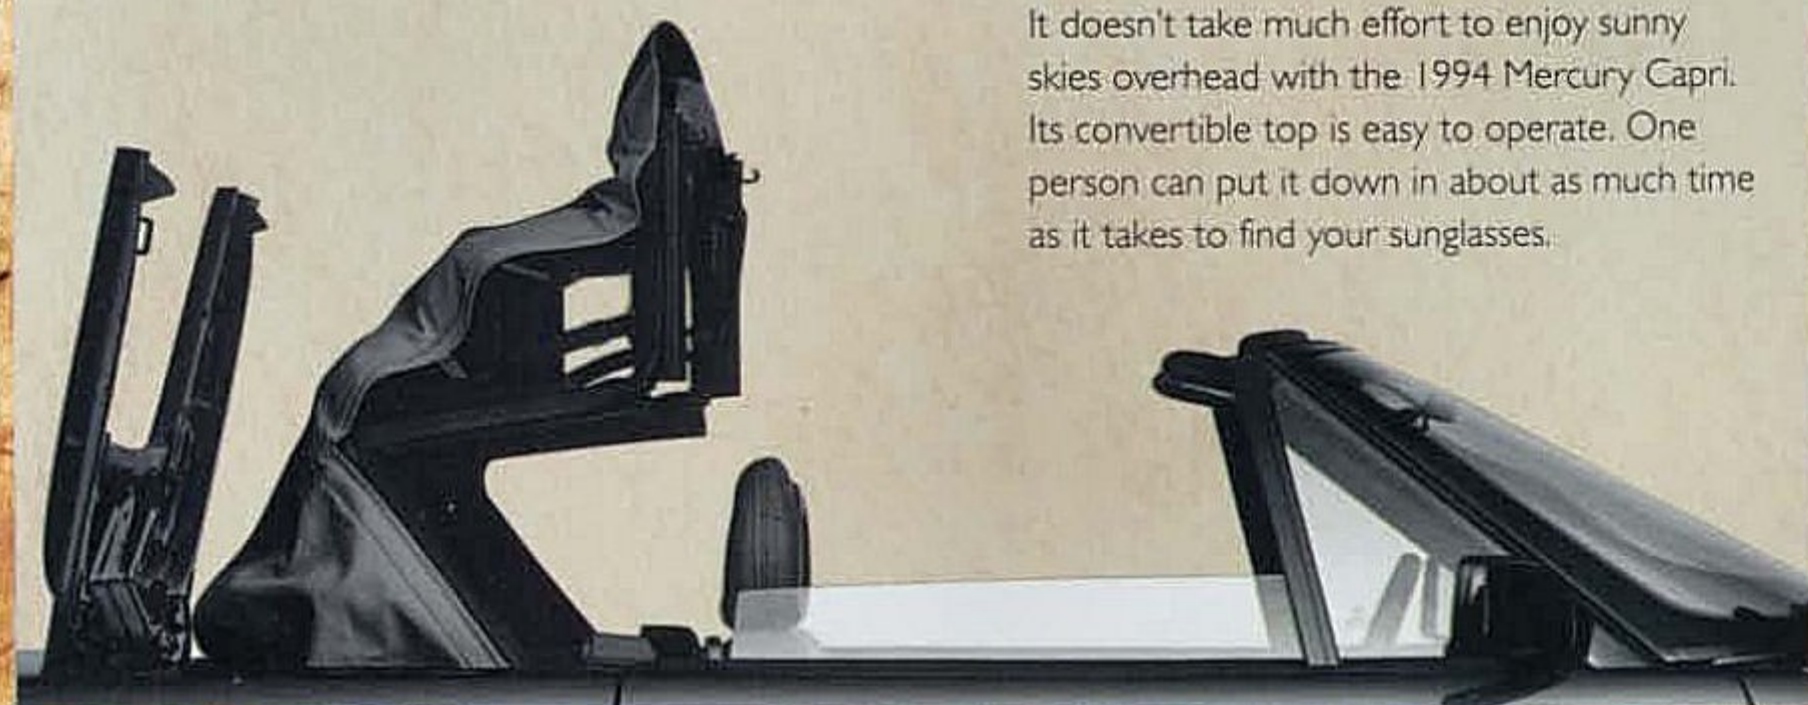

The 1994 Mercury Capri will instantly put a smile on your face. It delivers all the wind-blown fun only a convertible can. And it's available in two sporty models—each with a fresh, stylish appearance inside and out.

You can choose between Capri or its more powerful twin, the Capri XR2. Both models are loaded with an impressive list of standard features and available options. See your dealer for a complete listing.

A SURPRISINGLY SPACIOUS INTERIOR

Capri's interior is surprisingly spacious for a convertible in its class. The reclining front sport bucket seats provide plenty of comfort and support. Unlike some competitive models, Capri's back seat is capable of holding a couple of friends, sports equipment or an extra suitcase. And with the top up, the rear seat-back can be folded down to accommodate longer items, like fishing rods, stunt kites or cross-country skis.

EASY OPENING TOP

It doesn't take much effort to enjoy sunny skies overhead with the 1994 Mercury Capri. Its convertible top is easy to operate. One person can put it down in about as much time as it takes to find your sunglasses.

DUAL AIR BAGS

A driver- and right front passenger-side air bag Supplemental Restraint System is standard on Capri. This system offers added protection when used in combination with safety belts. Always wear your safety belt.

COMPREHENSIVE WARRANTY AND MORE

Every 1994 Mercury Capri is covered by a comprehensive, 36-month/36,000-mile bumper-to-bumper warranty. Also during the warranty period, every 1994 Capri is covered by a complimentary 24-hour roadside assistance program. Roadside assistance covers such items as changing a flat tire, jump-starting your vehicle, towing, getting you into a locked vehicle, bringing you gas should you run out, and more. Complete details and a copy of the limited warranty are available at your dealer.

GET-UP-AND-GO POWER

Capri comes equipped with a 16-valve, dual-overhead-cam engine, a five-speed manual overdrive transaxle, four-wheel disc brakes and a road-hugging four-wheel independent suspension. For a more spirited get-up-and-go ride, you can choose Capri XR2. It boasts a 132-horsepower, turbocharged engine and a sport-tuned suspension.

RACK-AND-PINION STEERING

Power-assisted rack-and-pinion steering is standard on Capri. It delivers excellent road feel with the right amount of assist for all driving maneuvers, including parking.

STANDARD FEATURES

Here are some of Capri's standard features:

- Front-wheel drive
- Five-speed manual transaxle
