LINCOLN

2002 BLACKWOOD

The Lincoln Blackwood was designed using one simple rule: there are no rules. This

breakthrough vehicle is 50% utility vehicle, 50% luxury sedan — and 100% original. It

is a once-in-a-lifetime mix of function and fantasy, intrigue and exhilaration, adventure

and artistry. And perhaps the most compelling example yet — of American luxury.

Blackwood is not for everyone. It's for the few who live their

own lives, for their own enjoyment. Who have the

courage to do exactly what they want, the way they want.

To relish every moment of every day — and every night.

You might as well have

designed it yourself.

Blackwood fits naturally

into your world. Its

bold, distinctive style

and uncompromised

comfort help to set it

apart from others. All

this, and the luxury you

expect from a Lincoln.

You demand the right tools, whether it's the right cooking utensils — or the right

vehicle. You appreciate classic style; the importance of strength; the essence of

function; the need for beauty. You are satisfied only when something fits your

needs perfectly. And you know that life is too short to settle for anything less.

You decide what to wear — and what to drive — by how it feels.

The perfect vehicle reflects your personal tastes — and

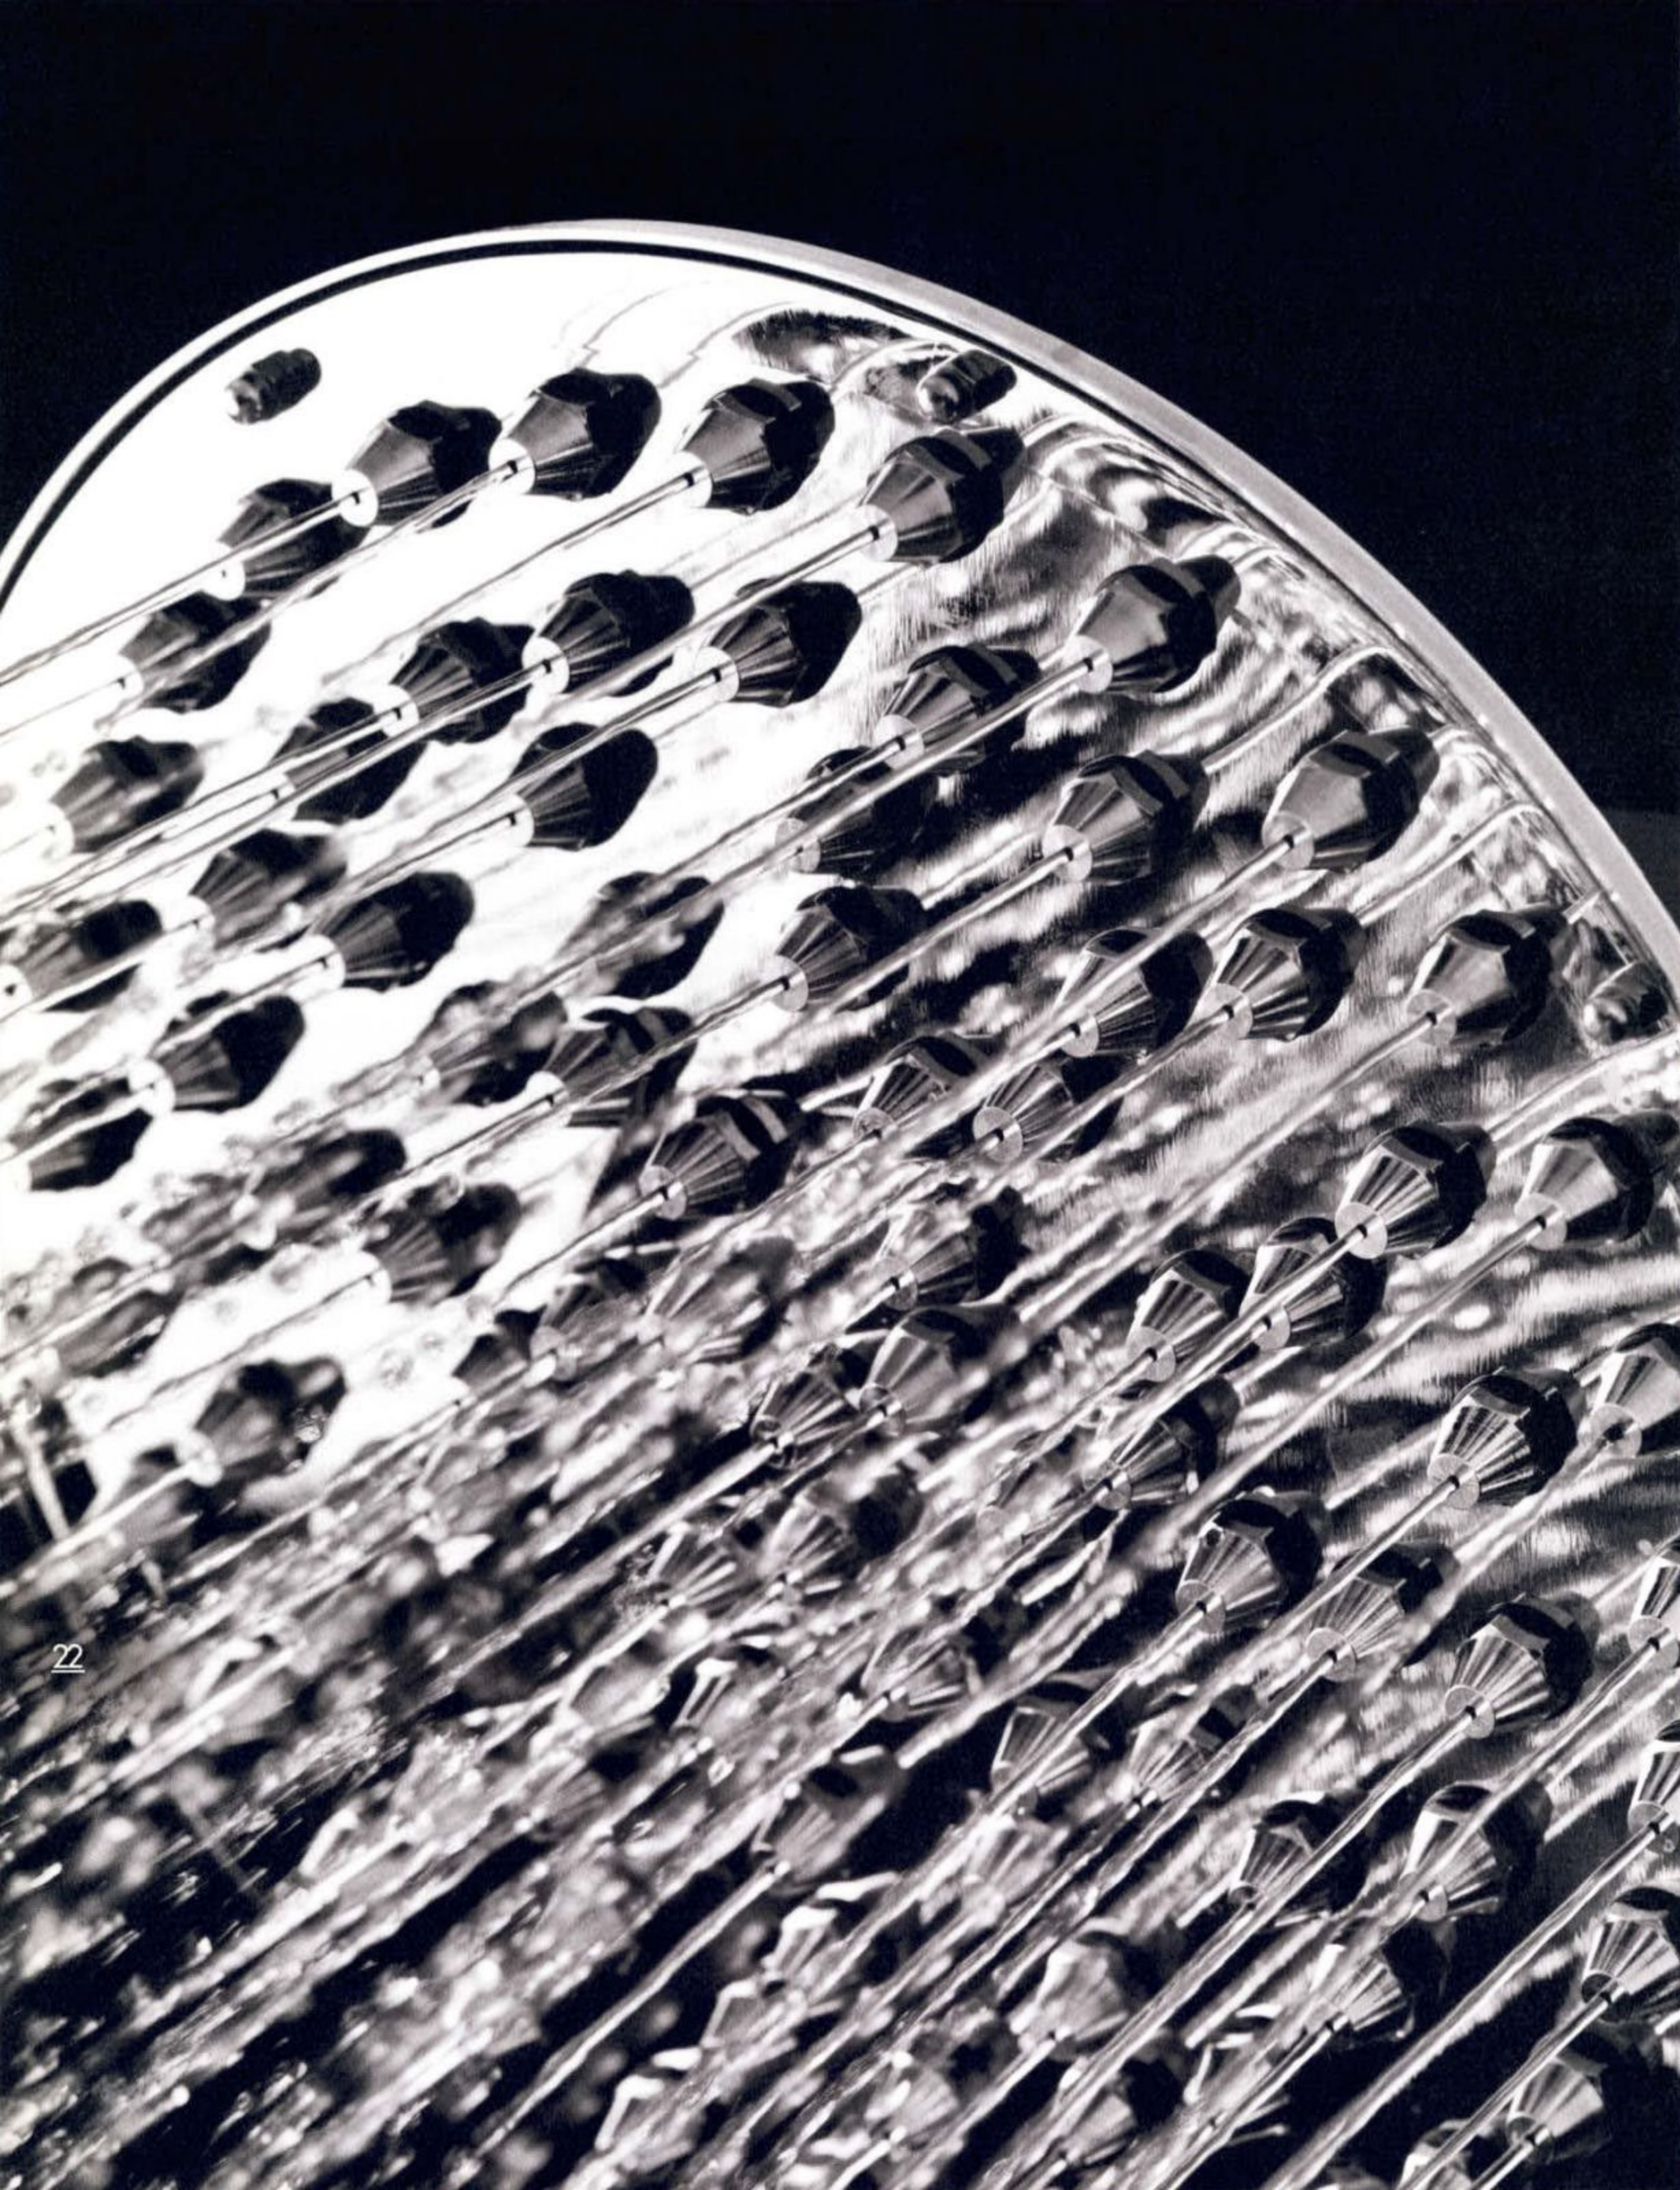

complements your lifestyle with uncanny accuracy. From black-tie

formal to laid-back luxury, Blackwood always fits.

To stay in touch with yourself, sometimes you have to leave yourself — and everybody else — far behind. With the thrust of Blackwood's commanding 300-horsepower V8, you're as good as gone.

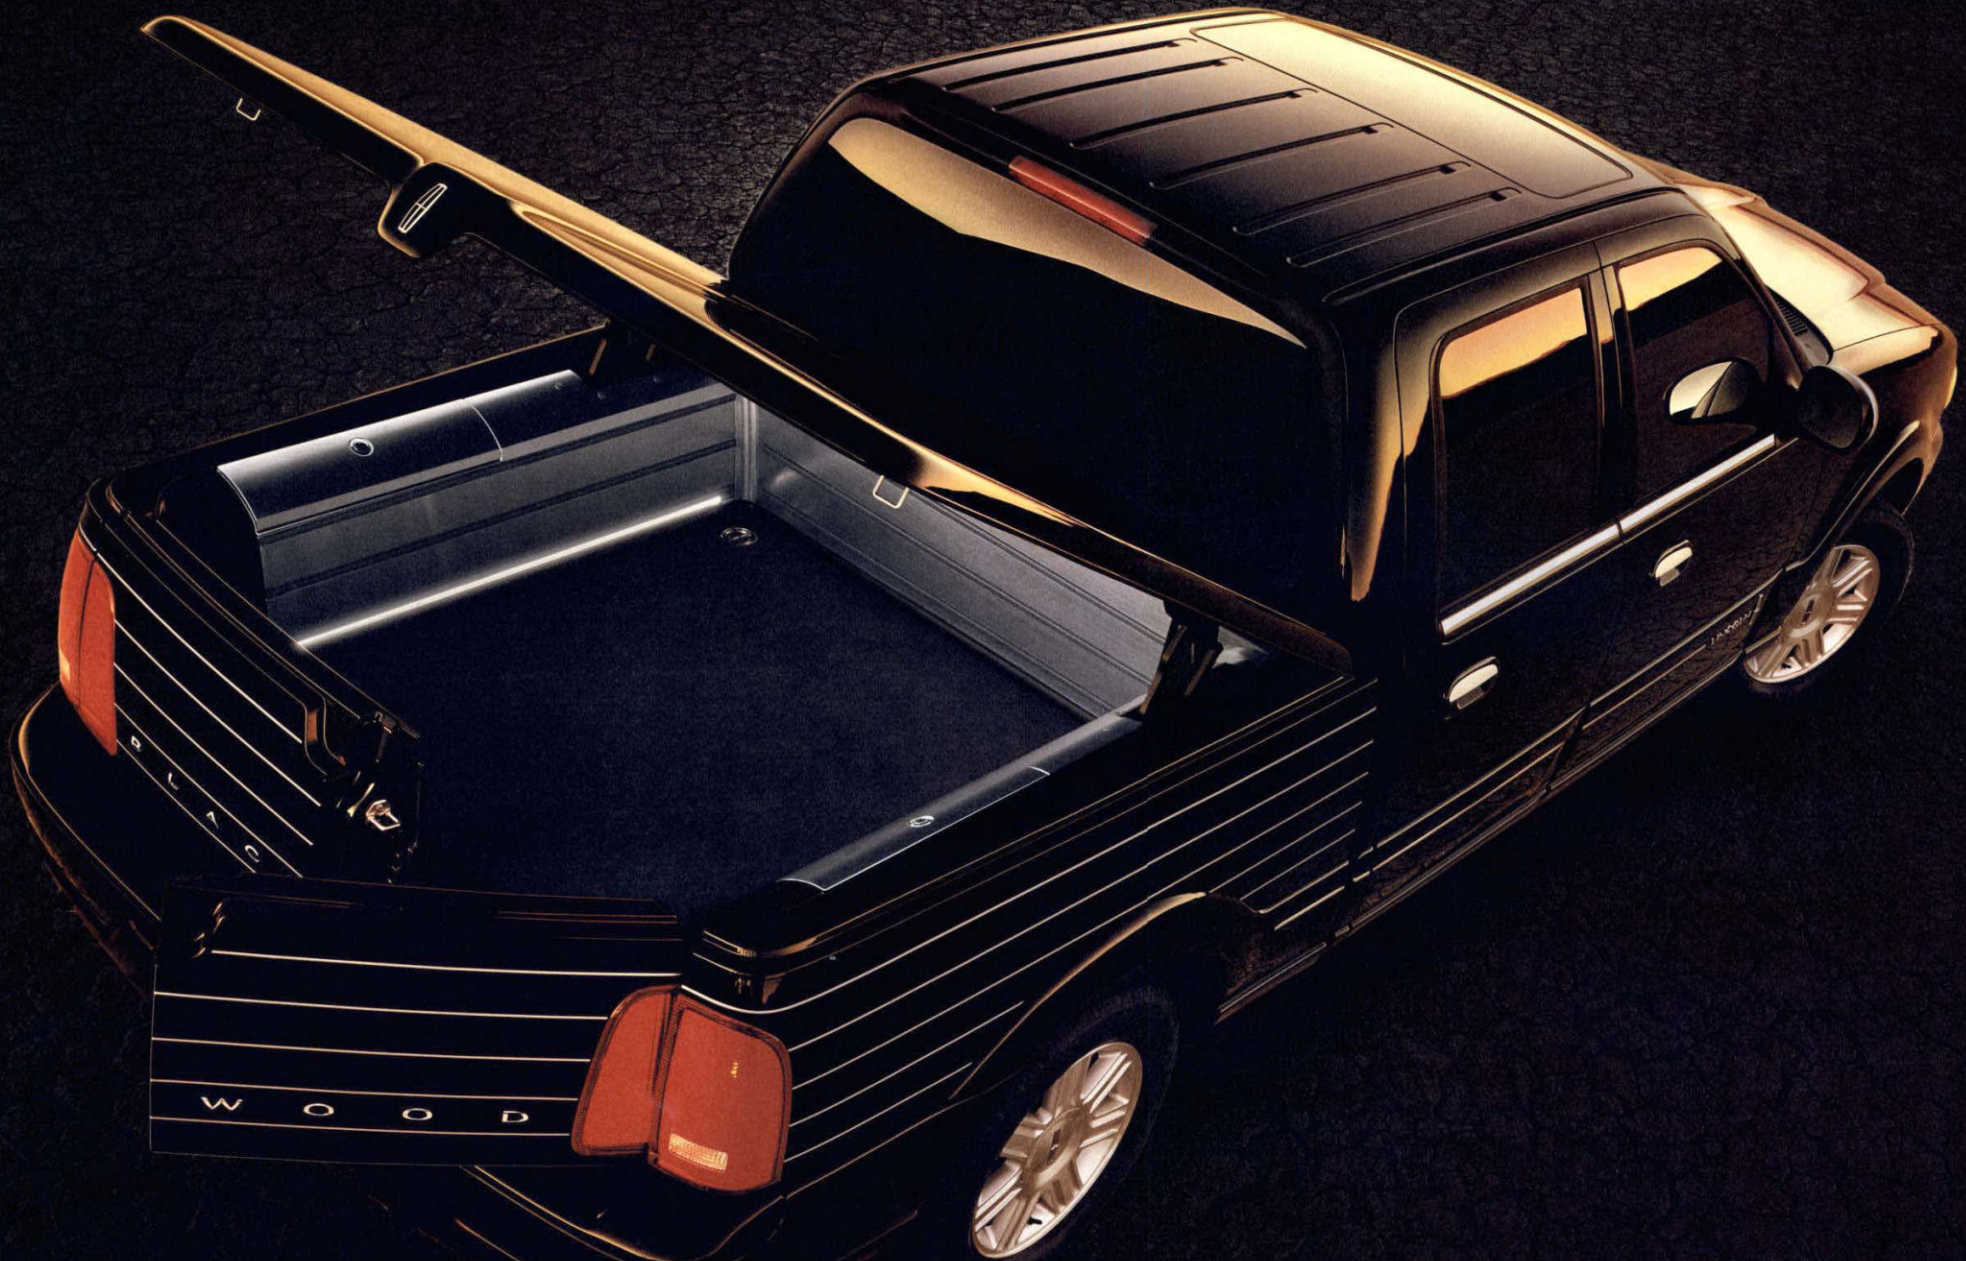

You're capable, strong, independent. And when it's time to get something done, you

get it done. Whether you're running a company, towing a horse trailer, or keeping

an appointment with the sunrise, you and your Blackwood are perfect companions.

As each new day begins, the versatile Blackwood takes on the day's challenges.

The weatherproof,
power hard tonneau
cover and swing-out
rear-trunk doors
provide easy access—
while they protect an
impressive amount of
your precious cargo in
stainless steel-trimmed,
LED-lit Lincoln luxury.

A high-angle, black and white photograph of the front interior of a Lincoln Blackwood SUV. The image shows the driver's and passenger's seats, both upholstered in dark leather with horizontal stitching on the seatbacks. The center console is visible between the seats, featuring a gear shifter and handbrake. The dashboard and steering wheel are also visible, with the steering wheel having the Lincoln logo in the center. The overall lighting is dramatic, highlighting the textures of the leather and the contours of the interior components.

Climate-controlled,

leather-trimmed front

seats allow plenty

of space. And what

a space it is, with real

wood accents, a

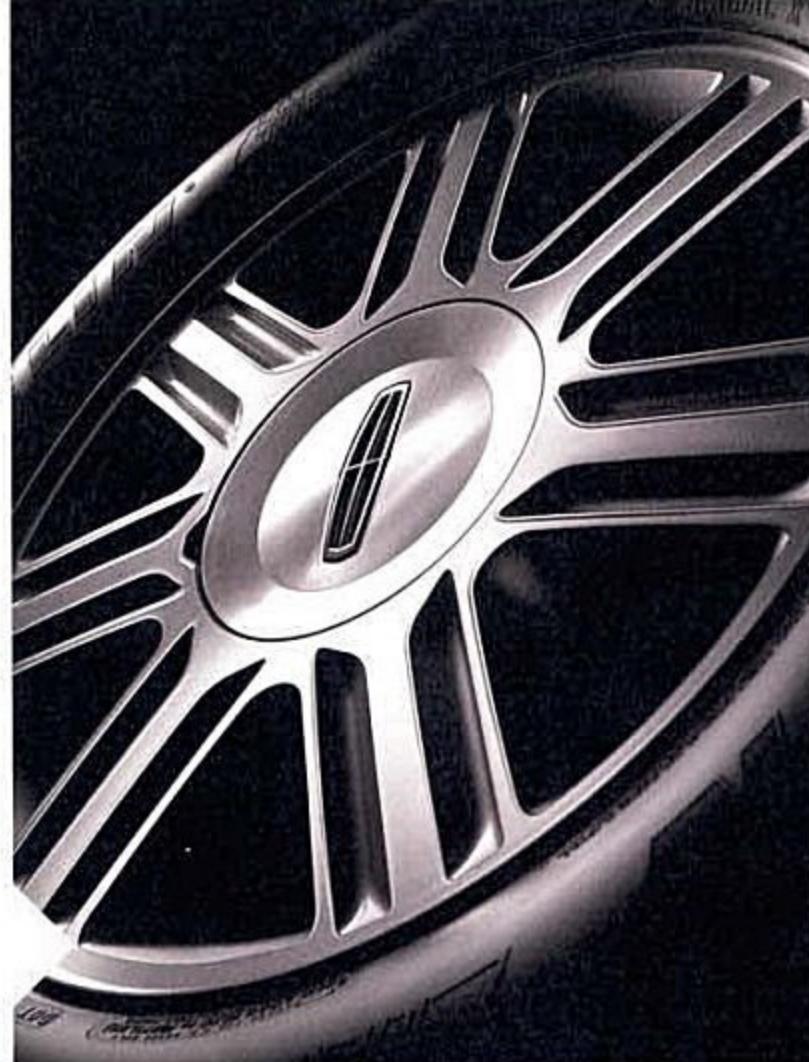

seven-speaker Alpine®

Audiophile sound

system, and automatic

climate-control.

Blackwood stands tall on unique **eighteen-inch-diameter, machined-aluminum wheels** and low-profile performance tires, producing a compelling combination of contemporary style and responsive handling. Additionally, a full-size wheel and spare tire is stored underneath the vehicle.

To help keep your smaller items safe and organized, convenient **integral storage compartments** have been provided inside Blackwood's cavernous trunk. For added convenience, the dual swing-out rear-trunk composite doors are fitted with handy storage bins.

The **Alpine® Audiophile sound system** pumps out 140 watts from its AM/FM stereo/cassette and six-disc CD changer, transforming it into clear, accurately reproduced music through its subwoofer-equipped, seven-speaker array. Speed-compensating volume control adds cruising convenience.

The **overhead console** includes an on-board trip computer that estimates distance-to-empty, indicates compass direction and calculates average fuel economy. Blackwood's console is also equipped with convenient map/courtesy lamps, as well as controls for the power moonroof and power tonneau cover.

Lincoln Blackwood is equipped with **five 12-volt power points**, each ready to power a cellular phone, laptop computer or other electronic device. Four of the power points are strategically located in Blackwood's interior. The fifth is inside the rear-trunk area, allowing you to power a light, TV or compressor from outside.

The genuine **wood- and leather-trimmed steering wheel** tilts to suit the driver's ergonomic preference. It also features speed control, as well as duplicate climate and audio controls.

Blackwood's unique exterior trunk area is highlighted by distinctive **Wenge wood-appearance trim**, the classic Lincoln star on the power-operated hard tonneau cover, and a brilliant chrome-plated fuel door.

Blackwood's dual fold-away **exterior mirrors** can be programmed — along with the driver's seat and adjustable brake and accelerator pedals — to accommodate three different drivers' preferences. An LED turn indicator, easily visible to following traffic, appears in the mirror's housing when the turn signal is activated. The exterior mirrors also heat up quickly to melt obscuring snow, sleet or ice.

The driver and front passenger are treated to individually **climate-controlled power seats**, which heat or cool their occupants, monitoring their own surface temperature for comfort. The seats also feature six-way power-adjustment and power lumbar support.

Blackwood is propelled by a 300-horsepower, 5.4-liter, 32-valve, **DOHC InTech™ V8**. The vehicle's 8700-pound towing capacity is enhanced by its 355 lb-ft of torque and its rear load-leveling suspension. The electronically-controlled, four-speed automatic transmission is programmed for immediate acceleration and smooth, seamless shifting. Blackwood also includes a transmission oil cooler, for powerful towing capability. And an overdrive function lowers engine rpm while it helps reduce noise at highway speeds.

Blackwood's interior environment is monitored and adjusted by its CFC-free **electronic automatic temperature control** — all you do is set your preferred temperature, and the system takes care of the rest. And to prevent getting a blast of cool air when what you really wanted was warm air, or vice versa, the interior fan is programmed to wait until heated or cooled air has reached the appropriate temperature before activating.

The **HomeLink® Universal Transmitter** allows the Blackwood driver to activate garage doors, or even patio, driveway or interior lights, right from the driver's seat. Just reach up and touch the universal remote, ingeniously engineered into the driver's side sun visor.

To ensure we're offering our customers the best service possible, we proudly offer the **Lincoln Personal Consultant**. You can visit our Web site at lincolnvehicles.com/pc and a manufacturer's representative will help you with anything from price quotes to product features to arranging a test drive at your local dealer — at no cost or obligation.

Blackwood's available CD-ROM-based **Navigation System** uses satellite signals from the Global Positioning System, combined with course/distance sensing and map-matching technologies to identify your location and guide you to your destination with easy-to-follow audio and visual directions on its five-inch color console display.

The **power moonroof** of the 2002 Lincoln Blackwood gives you inspiring access to the world above you, from the urban towers of Manhattan to the high peaks of Montana. Intuitive, easy-to-use fingertip controls are located in the elegant, overhead console.

The **power-operated hard tonneau cover** is sealed against rain, snow and dirt. It can be operated from the key fob, driver's door keypad, or the overhead console. Security features include a phosphorescent emergency release handle that opens the tonneau cover from inside the trunk area, as well as an obstacle-detection system, which prevents the tonneau cover from closing if it is inadvertently obstructed.

Quad bucket seats, trimmed in soft, perforated leather, occupy an expansive interior space, providing you with comfort as well as expansive leg, hip and shoulder room.

An advanced **Remote Keyless Entry System** allows you to lock and unlock your Blackwood, illuminate the interior, operate the power tonneau cover and even flash its exterior lights and sound the horn in an emergency, all from outside the vehicle. And the driver's-side keyless-entry keypad can be activated only by your personal code.

Blackwood's standard **Reverse Sensing System** affords you an extra measure of convenience — and reassuring confidence — when backing up. A clear, audible signal, progressively increasing in intensity, alerts the driver as an obstacle is approached.

A dual front airbag Supplemental Restraint System¹ creates peace of mind by helping to protect the driver and front passenger in certain frontal impacts. And to additionally protect the driver and front passenger in certain lateral impacts, Lincoln Blackwood is also equipped with **side-impact head/chest airbags**, mounted in the front seats.

¹Always wear your safety belt and secure children in the rear seat.

The new 2002 Blackwood's innovative dual **swing-out rear-trunk composite doors** conveniently open straight-out for easy cargo loading and nearly effortless operation.

Drivetrain

ENGINE	
LAYOUT	Front engine, rear-wheel drive, 2-wheel drive
TYPE	DOHC 32-valve InTech™ V8 with electronic engine control system
CONSTRUCTION	Cast iron block with aluminum heads
DISPLACEMENT	5.4 liter/330 cu in.
BORE & STROKE	90.2 mm x 105.8 mm/3.55 in. x 4.17 in.
COMPRESSION RATIO	9.5:1
HORSEPOWER	300 @ 5000 rpm (SAE net)
TORQUE	355 lb-ft @ 2750 rpm (SAE net)
AIR INDUCTION SYSTEM	Long runner intake with tuned plenum
FUEL DELIVERY	Sequential multi-port electronic fuel injection
FUEL REQUIREMENT	91 octane (recommended)
COOLING SYSTEM	Fail-safe cooling
TRANSMISSION	
TYPE	4-speed electronic automatic overdrive with overdrive lockout
AXLE RATIO	3.73:1 (Stability Assist with limited slip differential)

Chassis

BODY	Body-on-frame construction
SUSPENSION	Front: Independent Short- and Long-Arm with stabilizer bar and coil springs Rear: 5-link load-leveling with leaf/air springs

SHOCK ABSORBERS	Front: Gas, acceleration-sensitive	Rear: Gas, acceleration-sensitive
AIR SUSPENSION	Rear load-leveling system	
STEERING	Variable power-assisted, recirculating ball, speed-sensitive	
Type		
Overall ratio	16.1:1	
Turning circle	45.9 ft diameter	
WHEELBASE	138.5 in.	
TRACK	Front: 65.4 in.	Rear: 65.4 in.
BRAKES	Power-assisted 4-wheel disc, anti-lock	
WHEELS	18-inch machined aluminum	
TIRES	P275/55R18SL BSW all season	
CURB WEIGHT	5700 lb	
GROUND CLEARANCE	7.9 in.	

Towing

CLASS/HITCH RECEIVER	Class III ¹ (weight carrying)/Class IV ^{1,2} (weight distributing)
TRAILER WEIGHT	8700 lb max.

Safety and Security

- Driver and front passenger dual airbag Supplemental Restraint System (SRS)³
- Driver and front passenger side-impact head/chest airbags¹
- 4-wheel disc brakes with Anti-lock Brake System (ABS)
- 3-point safety belts for all passengers (adjustable shoulder D-rings for comfort)
- Anti-intrusion door beams
- SecuriLock™ passive anti-theft system
- Child-safety locks on rear doors
- Reverse Sensing System and reverse lamps
- Remote Keyless Entry System with panic button, illuminated entry, power tonneau control and driver's door keypad
- Speed-sensitive intermittent windshield wipers
- Center high-mount stop lamp
- Inertia fuel pump shut-off switch
- Power hard tonneau cover equipped with obstacle detection
- Stability Assist with limited slip differential
- Child-safety seat tether anchors

Interior Amenities

- Power-adjustable brake and accelerator pedals with memory
- Leather-trimmed quad bucket seats
- Driver and front passenger climate-controlled seats with six-way power adjustment and power lumbar support
- Memory setting driver's seat, exterior mirrors and adjustable accelerator and brake pedals
- Wood- and leather-trimmed tilt steering wheel with speed control, and duplicate controls for climate and audio
- CFC-free electronic automatic temperature control
- Alpine® Audiophile sound system with AM/FM stereo/cassette and 6-disc CD changer
- Four-gauge cluster with tachometer and warning lights
- Auxiliary climate control for rear occupants
- Auto headlamps
- HomeLink® Universal Transmitter
- Real wood accents on instrument panel and door trim panels
- First-row leather-padded floor console cover, storage, cupholders, coin holder, tissue box holder, rear audio and climate controls, and 12-volt power point
- Second-row leather-padded floor console cover, storage bin and tray, tissue box holder and cupholders
- Full overhead console including map/courtesy lamps, power tonneau cover and moonroof switch, and on-board trip computer
- Map pockets with closeable flap on back of front seats
- Power windows and door locks with illuminated controls and express-down driver's window
- Electrochromic interior rearview mirror
- Driver and passenger sun visor with illuminated vanity mirrors
- Accessory delay for radio, power windows, moonroof and tonneau cover
- Battery saver
- Front and rear floor mats

Exterior Features

- Wraparound complex reflector headlamps
- Complex reflector taillamps
- Complex reflector fog lamps
- Rear cornering back-up lamps in rear bumper fascia
- Color-keyed bodyside cladding and flared wheel lips
- Wraparound front and rear bumper fascias
- Dual swing-out rear-trunk composite doors with integrated storage compartments
- Stainless steel-lined trunk with recessed tie-down hooks, power point, center floor carpet, phosphorescent emergency release handle, storage compartments and strip lights on trunk side panels
- Power moonroof
- Wenge wood-appearance trim on trunk exterior
- Chrome-plated fuel door
- Front-door trim panel puddle lamps and rear-door reflectors
- Power hard tonneau cover with built-in lights and obstacle detection
- Power-heated fold-away exterior mirrors with memory and turn signal indicator
- Chrome door handles and lower window moldings
- Solar-tinted glass with Privacy Glass™ on rear doors and rear window
- 18-inch machined-aluminum wheels
- Four full-size doors

Option

- Navigation System with 5-inch color console display and voice instruction
