THERE IS ONLY ONE CHOICE: THE ALL-NEW 2003 AVIATOR.

<sup>1</sup>Available December 2002. <sup>2</sup>Map is intended to serve as a sample destination and may not reflect actual mapping technologies and coloration.

LINCOLN OFFERS A 4-YEAR/50,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY<sup>1</sup> COVERING REPAIRS, REPLACEMENT, OR ADJUSTMENT OF ALL PARTS DEEMED DEFECTIVE IN MATERIALS OR WORKMANSHIP AT NO OUT-OF-POCKET COST TO YOU.<sup>2</sup>

STANDARD WITH ALL 2003 LINCOLN VEHICLES IS OUR 3-YEAR/36,000-MILE COMPLIMENTARY MAINTENANCE—A NO CHARGE, SCHEDULED SERVICE PLAN CONDUCTED AT 5,000-MILE OR 6-MONTH INTERVALS, WHICHEVER OCCURS FIRST, IN ACCORDANCE WITH YOUR VEHICLE'S SCHEDULED MAINTENANCE GUIDE.<sup>3</sup>

<sup>3</sup>SEE YOUR DEALER FOR MORE DETAILS.

AVIATOR OFFERS A STANDARD POWER-ASSISTED FOUR-WHEEL DISC ANTI-LOCK BRAKE SYSTEM (ABS). THIS SYSTEM HELPS BY IMPROVING THE DRIVER'S STEERING CONTROL AND PREVENTING WHEEL LOCKUP DURING HARD BRAKING ON MOST SURFACES.

THE AVIATOR GIVES YOU THE CHOICE OF STANDARD BUCKET OR AVAILABLE 40/20/40 BENCH SEATING IN THE SECOND ROW, PROVIDING ROOM FOR SIX OR SEVEN PASSENGERS, RESPECTIVELY. THE STANDARD THIRD-ROW BENCH SEAT ALSO FOLDS DOWN FLAT FOR ADDED CARGO SPACE.

An available Rear Seat Entertainment System with DVD player will help keep your rear seat passengers entertained while you stay focused on the road ahead. This includes a ceiling-mounted, flip-down 7-inch color LCD screen with independent volume and power controls, two wireless headphones, and a remote control.

Unable to find your keys? Have you locked your keys in your vehicle? No problem. The 2003 Lincoln Aviator is equipped with a stylish and functional programmable keypad located on the driver's side door. Keyless entry is made possible with a personalized identification number that you can easily set and reprogram as needed.

Luxury extends into the Aviator's back seats with independent fan and temperature controls for the auxiliary climate control system. And with the available 40/20/40 second-row bench seat, rear-seat passengers can access cupholders contained within the front console unit.

AVIATOR'S POWERFUL, RESPONSIVE 4.6-LITER 32-VALVE DOHC INTECH™ V8 ENGINE DELIVERS AN IMPRESSIVE 300 LB.-FT. OF TORQUE AND UP TO 7,300 LBS. OF TOWING CAPACITY, WHILE STILL QUALIFYING AS A LOW EMISSIONS VEHICLE (LEV) NATIONWIDE.

AN AUTOMATIC 5-SPEED OVERDRIVE TRANSMISSION HELPS ACCENTUATE AVIATOR'S POWERFUL, BEST IN CLASS 302-HORSEPOWER ENGINE. AND THE DYNAMIC TORQUE CONVERTER OFFERS A STRONG PERFORMANCE FEEL, QUICK STARTS AND RESPONSIVE ACCELERATION.

This is no ordinary key. This electronically coded ignition key is the hub of the Aviator's SecurILock® passive anti-theft system. It prevents ignition bypass by allowing only the correctly coded key to start the vehicle. The security system is also armed once the key is removed from the ignition and disarmed only with the correctly coded key.

LINCOLN AVIATOR'S AVAILABLE CLIMATE-CONTROLLED SEATS ALLOW BOTH THE DRIVER AND FRONT PASSENGER TO REGULATE THE TEMPERATURE OF THEIR SEATS—SENDING EITHER COOL OR HEATED AIR UP THROUGH THE SEAT CUSHIONS FOR ADDITIONAL COMFORT.

AVIATOR'S FOUR-WHEEL INDEPENDENT SUSPENSION WITH COIL SPRINGS AND MONOTUBE SHOCK ABSORBERS PROVIDE HEIGHTENED PERFORMANCE TO HELP ENSURE A SMOOTH RIDE AND RESPONSIVE HANDLING.

Of course, the Aviator comes with convenient and very intuitive center-stacked Audio and Dual Zone Electronic Automatic Temperature Controls that allow the driver and front passenger easy access to the stereo, as well as the ability to enjoy different temperature settings.

Do you like fresh air? Do you like the sun?

Then may we suggest the power moonroof, available on the Lincoln Aviator. Open the moonroof with a touch of a button, located on the overhead console, for easy access to the sun, the moon, and the stars.

EQUIPPED WITH AMPLE INTERIOR STORAGE SPACE, THE LINCOLN AVIATOR WAS DESIGNED WITH CONVENIENT STORAGE COMPARTMENTS ON THE DOOR TRIM OF ALL FOUR DOORS. THE FRONT-ROW COMPARTMENTS ARE RETRACTING AND CAN EASILY ACCOMMODATE CDs, MAPS, BOOKS, AND OTHER SMALL ITEMS. IN ADDITION, THE FRONT-ROW DOOR ARMRESTS ALSO OPEN UP TO REVEAL STORAGE BINS THAT CAN HOLD SUNGLASSES AND CELL PHONE ACCESSORIES, TO NAME A FEW.

AN AVAILABLE PREMIUM SOUND SYSTEM WITH AM/FM STEREO AND 6-DISC IN-DASH CD SYSTEM USES SEVEN SPEAKERS, INCLUDING AN 8-INCH SUBWOOFER, TO CREATE PRECISE, CRISP SOUND REPRODUCTION. TO ENHANCE THE VERSATILITY OF YOUR AUDIO SYSTEM, THE PERSONAL AUDIO SYSTEM (INCLUDED WITH THE AVAILABLE REAR SEAT ENTERTAINMENT SYSTEM) IS A FEATURE THAT ALLOWS INDEPENDENT LISTENING TO DIFFERENT AUDIO SOURCES. SO WHEN HEADPHONES ARE USED IN THE REAR SEAT, FOR EXAMPLE, FRONT AND REAR SEAT PASSENGERS CAN CHOOSE TO LISTEN TO THE SAME AUDIO SOURCE OR CHOOSE DIFFERENT SOURCES.

The Aviator comes standard with large color-keyed folding exterior mirrors. The electronically controlled mirrors automatically heat up to quickly melt ice and snow. They also house prominent turn signals, and security approach lamps, and include a reverse tilt feature. And, of course, the mirrors can be programmed to remember your preferred settings.

For a feeling of elegance, the Aviator has been equipped with a handsome, genuine leather-trimmed and wood-grained steering wheel. The steering wheel also includes speed control, duplicate audio and climate controls, and a tilt feature, which allows the driver to position the wheel to perfectly meet his or her individual needs.

Because drivers come in varying sizes and stature, the Aviator is equipped with power-adjustable brake and accelerator pedals. Traveling up to three inches, these pedals allow you to assume a comfortable driving position, while maintaining a safe distance from the steering wheel in the event of airbag deployment.

High Intensity Discharge (HID) headlamps are available on the Aviator. HID lighting provides brighter, whiter light; has longer life; and requires less maintenance.

THE PERSONAL SAFETY SYSTEM, STANDARD WITH AVIATOR, IS A COMPREHENSIVE DRIVER AND FRONT-SEAT PASSENGER RESTRAINT PACKAGE. THIS SYSTEM INCLUDES DUAL-STAGE DRIVER AND FRONT PASSENGER AIRBAGS<sup>1</sup>, FRONT SAFETY BELT PRETENSIONERS, FRONT ENERGY-MANAGEMENT SAFETY BELT RETRACTORS THAT HELP REDUCE THE FORCE OF THE BELTS ON THE OCCUPANTS' CHESTS, AND FRONT CRASH SEVERITY AND DRIVER'S SEAT POSITION SENSORS WHICH TAILOR AIRBAG DEPLOYMENT FOR A VARIETY OF FRONT-IMPACT SITUATIONS AND HELP ENHANCE OCCUPANT PROTECTION AND SAFETY.

<sup>1</sup>ALWAYS WEAR YOUR SAFETY BELTS AND SECURE CHILDREN IN THE REAR SEAT.

WHEN BACKING UP, THE AVIATOR DRIVER WILL BENEFIT FROM THE ADDED CONVENIENCE OF STANDARD REAR PARK ASSIST. THIS FEATURE SOUNDS A CLEARLY AUDIBLE WARNING SIGNAL, WHICH INCREASES IN INTENSITY AS AN OBJECT IS APPROACHED, ALERTING THE DRIVER TO USE EXTRA CAUTION.

THE AVIATOR IS EQUIPPED WITH A SPEED-SENSITIVE, VARIABLE-ASSIST RACK-AND-PINION STEERING SYSTEM. THIS REDUCES THE EFFORT REQUIRED FOR PARKING AND LOW-SPEED MANEUVERS. AT HIGHWAY SPEEDS, POWER ASSIST IS MINIMAL, WHICH HELPS DRIVER CONTROL WHILE INCREASING DRIVING CONFIDENCE.

The standard side-impact curtain airbags, as part of the Safety Canopy™ system, offer another level of safety and security. When used with properly worn safety belts, they provide the driver and front passenger and second-row outboard passengers with added protection in certain side collisions.

<sup>1</sup>Always wear your safety belt and secure children in the rear seat.
