TIME ISN'T THE ONLY THING THAT FLIES WHEN YOU'RE HAVING FUN.

INTRODUCING THE ALL-NEW COROLLA XRS. IT HAS QUITE A BITE.

COROLLA XRS A WOLF IN COROLLA CLOTHING. The Corolla XRS has quite a bite. It features a 170 hp VVTL-i engine,
6-speed manual transmission and sport-tuned suspension – all surprisingly engineered to tear into the road.
To ensure things don't get too wild, the XRS has 4-wheel disc brakes and a dynamic strut tower brace that helps reduce body roll and increases stability. Inside, you'll find front sport seats, leather-wrapped steering wheel, leather-wrapped shift knob and Optitron Electronic Gauges. If the interior doesn't clue you in that this isn't the status quo Corolla, the exterior will – 16" alloy wheels and colour-keyed grille trim are a dead

giveaway. The Corolla XRS: every family needs its black sheep.

THERE ARE NOW FOUR WAYS TO HAVE FUN, and, in the process, make your accountant proud. Starting with the new high-performance Corolla XRS (facing page). The sleek and stylish Corolla Sport (above) offers 130 horses ready and willing to take you where the good times are. The Sport also features aerodynamic halogen headlamps, full skirt package, integrated fog lamps and a rear spoiler – proving that fun is in the eye of the beholder.

COROLLA LE Then there's the Corolla LE (above, top) with Optitron electronic gauges, power windows, power auto COROLLA CE door lock with shifter activation and colour-keyed mirrors. And don't forget the Corolla CE (above) with its 16-valve VVT-i engine, colour-keyed bumpers and bodyside mouldings. So much fun you can practically write off the blues.

Above from top: Corolla LE shown in Impulse Red. Corolla CE shown in Phantom Grey Pearl.

LOOKING GOOD. BEING SAFE. IT'S NOT AN EITHER /OR. The 2005 Corolla offers both.

Even to the spirited Corolla, some things are entirely serious. Just beneath its playful personality, you'll find a wealth of safety features with serious intent. For instance, Corolla has dual-stage driver and front passenger airbags that deploy to various levels based on the severity of the impact. The 2005 Corolla is driven by Toyota's powerful VVT-i (Variable Valve Timing with intelligence) engine that optimizes engine efficiency by constantly

retarding or advancing intake valve timing depending on conditions and engine speeds - resulting in exceptional low-end torque to get you off the line, mid-range punch for passing situations and clean-burning efficiency throughout the rev range. And for sheer stopping power, Corolla LE and XRS also have a 4-wheel Antilock Braking System (ABS) with Electronic Brake-force Distribution (EBD) - now optional on Corolla Sport. And that's just for starters. So rest assured. Because Corolla is all about putting a smile on your face... and keeping it there. Safety and fun coexisting harmoniously. It's a beautiful thing.

^{*} Airbag Notice: The 2005 Corolla features a driver & front passenger airbag Supplemento Restraint System (SRS) which activates only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. Seatbelts must be worn at all times by all occupants.
