

Once you see 2006 Camry for yourself, you know. You take in Camry's attractively designed grille, headlamps and taillights, its flowing lines, sculpted form and subtle yet striking colour palette. You gaze upon its stylish profile and bold rear stance. And you smile. You've had these feelings before – just not for a car. Now wait until you drive it. And because everyone has different wants and needs, we created three unique versions of Camry. All blend style and performance with a healthy dash of elegance. All designed to capture your attention – and keep it. Camry LE, SE and XLE V6.

MORE ROOM – MORE LEATHER – MORE MORE. The elegant, spacious and refreshed Camry XLE V6 interior surrounds you with ergonomic convenience and comfort. The boldly designed centre cluster is very well appointed with optitron gauges and a multi-informational display that concentrates vital information

instant and average fuel economy, average speed and more. Camry XLE V6 also features a power driver seat, a rear sunshade and an optional XLE V6 trim package with leather interior and heated seats. All 2006 Camry models have an amazing .47 cubic metres (16.7 cu. ft.) of luggage capacity.
 Camry is a bit like a private club – only you get to pick the guest list.

controls, an AM/FM CD with 6-speakers, a cabin air filter and Antilock Braking System (ABS) – because let's face it, for the amount of time you spend driving, shouldn't your car be a place you want to be?

**FLAYOUR ADDED.** Camry SE. Take class and add a sporty twist. For the very passionate, there's the bold 210 hp V6 with a 5-speed, electronically controlled overdrive, automatic transmission – or choose a 5-speed manual transmission\* powered by Camry's smooth and responsive 154 hp, VVT-i, 4-cylinder engine. Both Camry SE and SE V6 are equipped with a sport suspension, alloy wheels, rear spoiler, sport grille, fog lamps and unique sport seats. The cockpit command centre spices things up with a leather-wrapped shift knob, sculpted 3-spoke, leather-wrapped steering wheel with audio controls, aluminum instrument panel accents and sport-inspired optitron gauges. Camry SE – slightly more aggressive.

\*Optional 5-speed automatic.

CAMRY SE

**CAMRY PERFORMANCE.** True love moves fast. In this case, very fast. They say the fastest way to a man's heart is through his stomach. We think it's through the gas pedal. Camry's LE and SE 154 hp, 4-cylinder engine is not quite what it seems (love is like that). It gives you what you need and doesn't ask for much in return. For more excitement, there's an aggressive 190 hp for the LE V6/XLE V6 and 210 hp for the SE V6. Both will get the tachometer pumping. And once Camry's multiport fuel injection and double-overhead cams kick in, well, that's the start of one beautiful relationship.

**CAMRY SAFETY.** When we came up with a way to make the Camry more powerful, more spacious, or even more stylish, we looked at the other side of the equation: how can we also make it safer? So we've added dual-stage airbags, child restraint anchors, head impact protection and an impact-

absorbing body. Front and rear head/side curtain airbags are standard on the XLE V6. Vehicle Stability Control (VSC) is available as an option.\* Safety and performance both residing comfortably in one beautiful, stylish package.

\*Airbag Notice: The 2006 Camry features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2006 Camry also features a Front Seat-Mounted Side Airbag and Front & Rear Head/Side Curtain Airbag (XLE V6 only) Supplemental Restraint System (SRS) which activates only in a side-impact collision of sufficient magnitude to inflate the bags. Seatbelts must be worn at all times by all occupants.
