

...you are about to experience

**SENSATIONS**

you have

never

before known!

**NO MATTER HOW MANY CARS  
OR HOW MANY MILES**

**YOU HAVE DRIVEN...**

YOU HAVE NEVER BEFORE HAD THE FEELING OF  
SAFETY, CONTROL AND UTTERLY RELAXED COMFORT  
YOU WILL FIND IN THE NEW PACKARD.

TO GUIDE YOU ON THIS DISCOVERY DRIVE, HERE  
IS A QUICK PREVIEW OF THE NEW RIDING SENSATIONS  
YOU ARE ABOUT TO EXPERIENCE—

**YOU'LL EXPERIENCE THE FIRST NEW SENSATION**  
just seconds after you enter the car, as  
Packard's patented Levelizer automatically  
adjusts the car to ride level.  
Now, you're ready to go—

*curves & turns*

AS YOU SWING INTO THE  
TURNS, feel the wonderful  
new freedom in your arms and  
shoulders and the absence of  
roll and sway! Sharp corners  
become soft curves and sweep-  
ing turns become gently flowing  
ribbons. For comfort never  
before known, Packard has  
achieved complete mastery of  
motion!

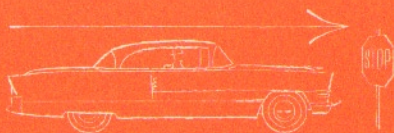

## *bumps & dips*

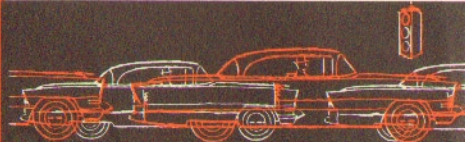

RELAX when you see a rough stretch ahead. You're in for a pleasant surprise! Ominous looking bumps, dips, chuck holes and ruts will seem to disappear into thin air, and vanish in the road behind you. There are no rough roads in a Packard.

## *starts & stops*

IF THE ROAD AHEAD IS CLEAR, and you want to step on the gas, you will experience the new thrill of a balanced take-off on an even keel . . . further proof of Packard's mastery of motion. When you stop, you do so with no rear end pitch. You stop as you start, always on even keel!

## *power & drive*

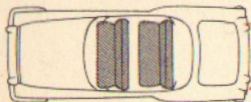

IT IS VERY UNLIKELY that you will ever want more power than you will have at your command in the new Packard. It is the kind of breathtaking power that makes your spirit leap high.

# NOW... LET THE RIDE DECIDE

---

Judge for yourself. Then decide on the ride that gives you completely relaxed comfort and bodily freedom.

These factors should be your first consideration. So much of your life is lived in your car on the road—relax and enjoy it!

*what you can expect from Packard's Revolutionary Ride*
