As one of the world's foremost manufacturers, Ford has a unique understanding of the motor car industry. From the very beginning, our goal was to build vehicles of character that would provide the maximum in driving satisfaction. In achieving this our engineers have pioneered more industry firsts than any other volume manufacturer.

Whether in performance, economy or safety and security Ford is a leader in bringing the advantages of new technology to a growing motoring public.

However, it isn't only in technological development where we are industry leaders.

An essential part of our culture is in providing our customers with a range of effective consumer services. Among the many new services we have recently introduced is Ford Acumen Personal Leasing, an intelligent way to drive a new car every two years.

We believe that no company has a divine right to success and we shall continue to do our utmost to meet the aspirations of our customers.

Scorpio. It's another world

The dramatic sweep of the body lines
and elegantly styled interior confirm
Scorpio as a luxury car of rare
distinction.

Symmetry

Precision engineered to be strong, silent and safe, this elegant car is beautifully equipped to handle the real world.

Vehicle illustrated is Executive Saloon with optional Driver's pack.

Flexibility

Combining the elegance and refinement of the saloon with luggage space and versatility Scorpio estates offer conclusive proof that business and pleasure do mix.

Vehicle illustrated is Ghia Estate with optional Driver's pack.

Luxury

Inside the Ultima's particularly quiet cabin, a range of ideally located comfort and convenience features is at your command.

Ultima facia shown
with optional
equipment fitted.

Inner virtues

To travel in complete comfort you need an interior that balances flair with purpose. Slide into the Scorpio interior and you'll find the attention to detail exquisite. On Ultima models the driver's

seat adjusts ten different ways and can be programmed to suit three different drivers' needs. The sweeping dashboard with a 'burr walnut' effect fascia and matching door appliqué is

complemented by a deep cut-pile carpet. Should the outside temperature start climbing, simply push the button marked AC and the CFC-free air conditioning with automatic temperature

control system (optional on Executive and Ghia, standard on Ultima) will ensure it remains precisely at the level you select inside the cabin.

Ultima interior with optional equipment fitted, including leather trim.

Attention to detail

Scorpio drivers enjoy an environment designed for enhanced driver control. The well planned fascia and instrumentation provide drivers with information at a glance and, with all major controls and switches within easy reach, the driver's concentration stays where it should, on the road. Even the audio system can be adjusted by remote

control. Power-assisted steering, standard on all Scorpios, is speed sensitive on V6 models and makes a considerable contribution to driver control. Some Scorpio models have an electrochromatic rear view mirror, which is self-dimming in the glare of following headlights, and the passenger door mirror on the same model automatically dips to focus on the kerb when reverse gear is selected.

Optional concealed high pressure telescopic jet system ensures headlights give optimum performance.

The Ultima's electrochromatic rear view mirror operates by continually sensing light on its surface.

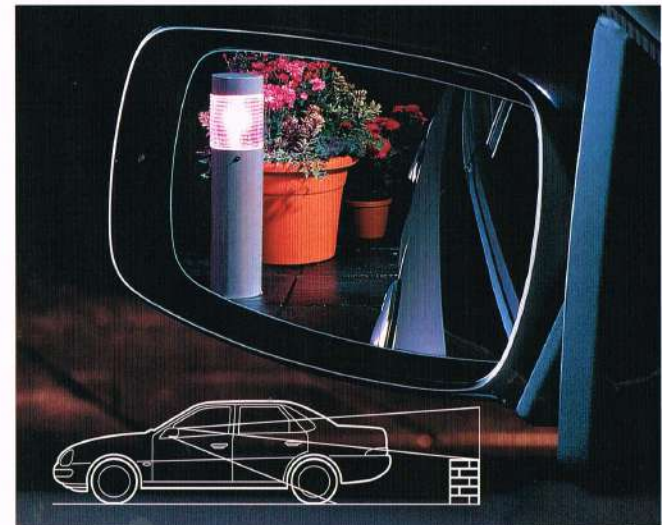

It then automatically adjusts the intensity to provide the optimum viewing conditions.

On Ultima models a driver's programmable electric seat means that up to three pre-determined positions can be stored and selected at the touch of a button.

Five-mode fuel computer on the Ghia and Ultima provides a comprehensive range of instant information.

Picture left: The illustration shows the 7000 RDS audio system with removable control panel security feature standard on the Ultima model.

Ultima's passenger door mirror tilts to show the kerb when reverse is selected.

Estates of the art

With over 1.6 cubic metres of space the Scorpio estate has an enormous appetite for luggage. The clam shell rear door and level flooring ensure ease of loading and unloading and with the rear

seat splitting 60:40 extra space is available when required. A range of roof mounted transportation systems further adds to the estates' luggage carrying capability.

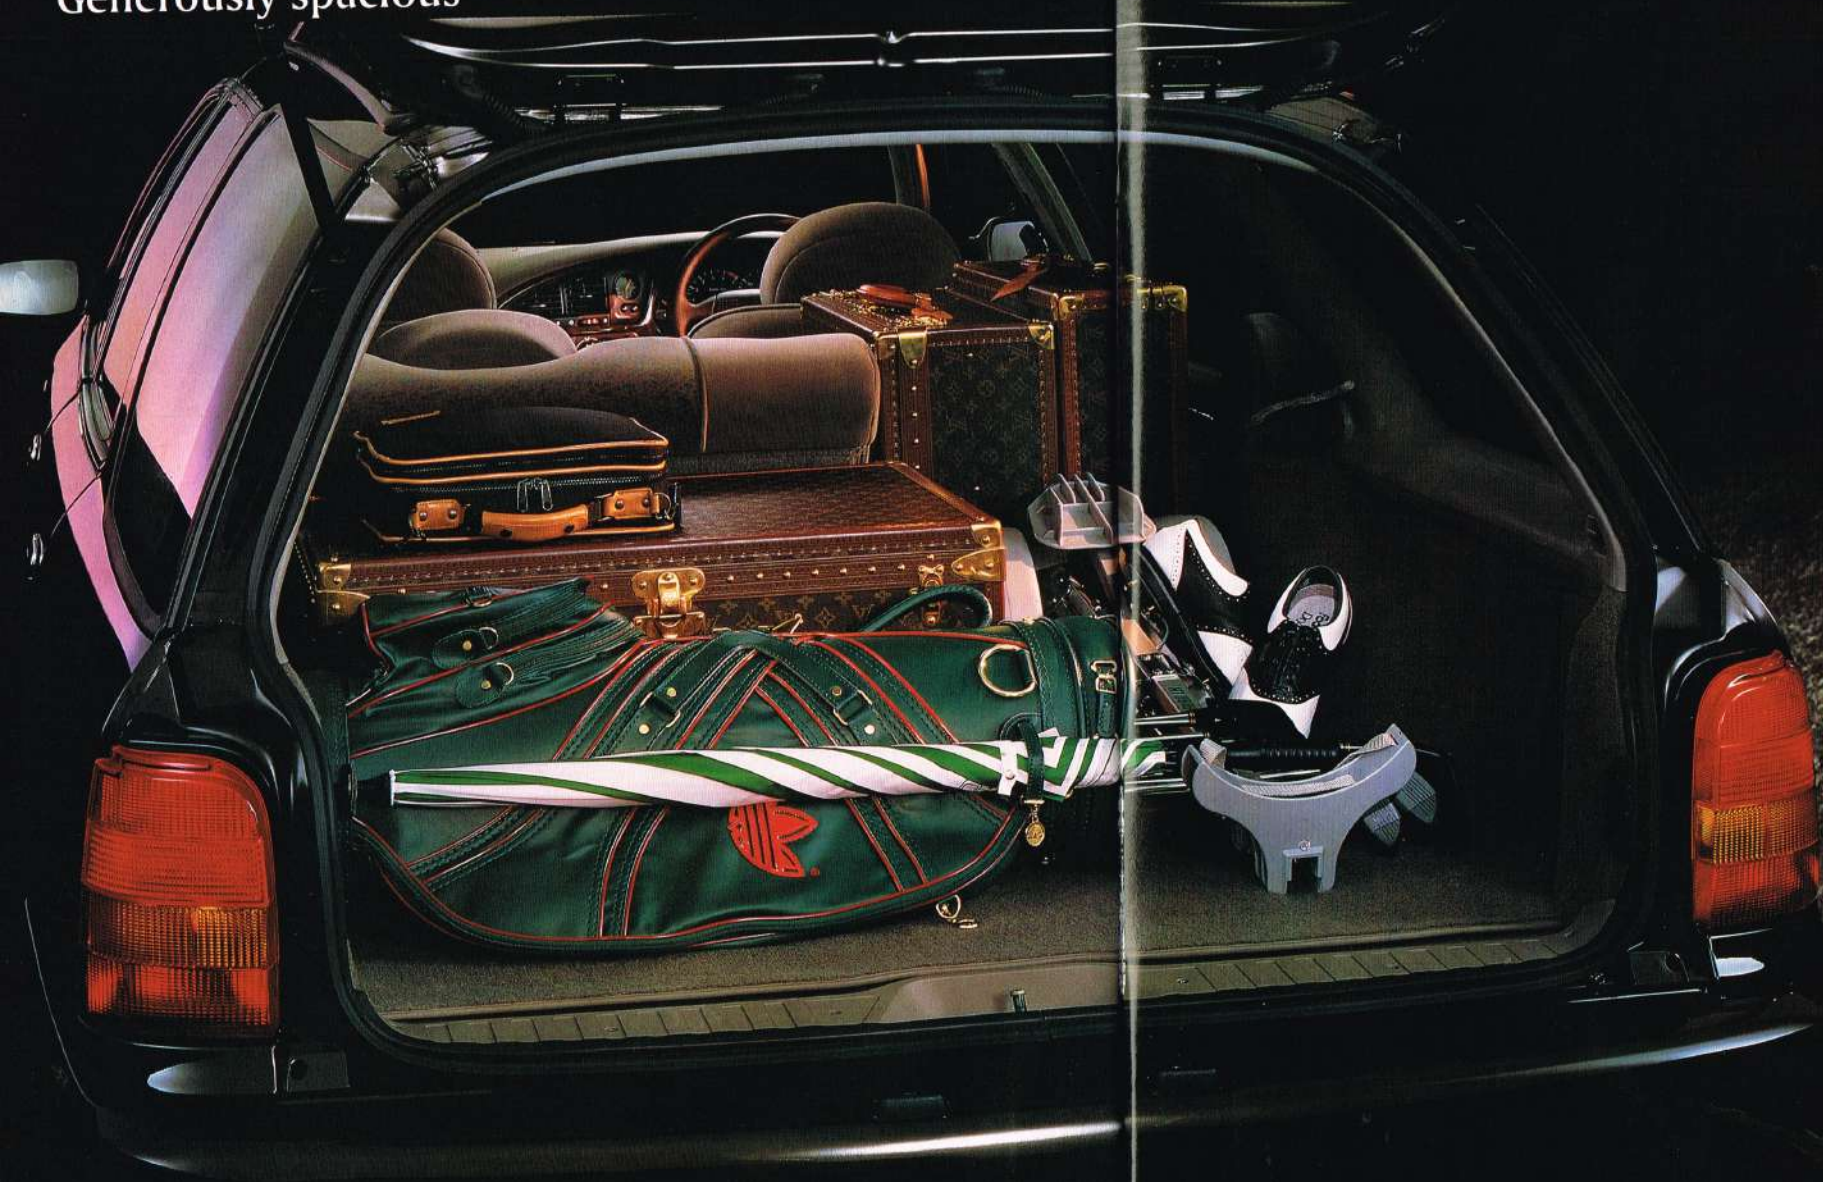

60:40 split rear seat gives flexible carrying capability with full folding for increased capacity.

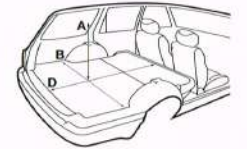

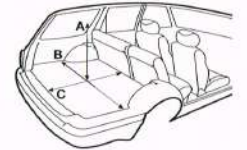

Tonneau cover – standard on all models, provides load concealment from prying eyes.

Generously spacious

Carrying loads is one thing, protecting them is another. To help keep loads stable the Scorpio estate is equipped with tie down eyes and belts. Equally important is protecting loads from unwanted attention. All Scorpios have a standard perimeter alarm and, in addition, estates have a tonneau cover to keep possessions away from prying eyes. If extra protection is required, an optional volumetric alarm with movement sensor is available, which on estates also includes a rear side window shatter detector.

Key to luggage area diagrams

- A Maximum height 805 mm
- B Maximum floor width 1382 mm; width between wheelarches 1108 mm
- C Length to back of rear seat 1082 mm
- D Length to rear of front seats 1991 mm

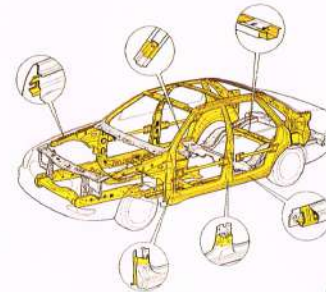

Above: The rear seat adjustable head restraints and armrest remain usable, even with the 60:40 split-back versatility.

Safe, secure, sure

As with all Ford vehicles, occupant safety has the highest priority in the Scorpio's design – a product of Ford's Dynamic Safety Engineering (DSE) programme. DSE is designed to help drivers avoid accidents in the first place and to help reduce the risk of serious injuries to occupants in the event of collision.

The safety systems designed for Scorpio include the Supplementary Restraint System of driver's Airbag which is standard on all Scorpions (front passenger's Airbag is optional). In addition a rugged safety cage concealed beneath its aerodynamic body and anti-lock brakes to help you steer clear of accidents, mean that Scorpio stands as a testament to our belief that safety should never be considered an extravagant luxury. Safety belts and side

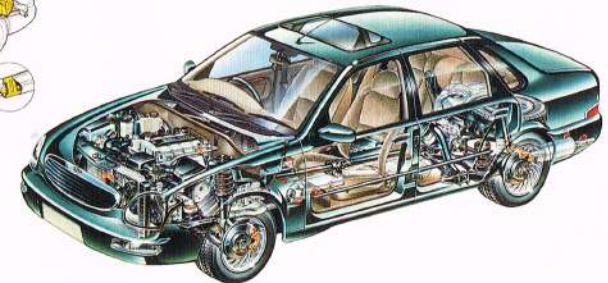

The body structure of the Scorpio forms a high-strength safety cage around the occupants. Includes side impact beams.

Left: Traction control (optional) improves vehicle steerability and stability providing the driver with greater control.

impact beams add further to occupant protection and all round peace of mind.

Car related crimes continue to increase with over half a million cars being stolen a year. To help prevent your Scorpio from becoming a statistic we have incorporated some of the industry's most sophisticated protection systems. For example, all Scorpions are fitted with the Ford Safeguard immobiliser. Unlike other immobilisers Safeguard is individual to each car. That is to say all cars fitted with Safeguard have their own electronic signature and that makes it practically impossible for even the most determined thief to crack it. Hard to beat but easy to use Safeguard is activated every time the ignition key is removed from the car. Other lines of defence include reinforced door locks and central, double locking.

Ford were the first volume manufacturer to offer Tracker vehicle tracing system as a Dealer fit option on its entire range.

A perimeter alarm is standard and provides additional vehicle protection.

The Scorpio is fitted with high security locks designed to provide extra vehicle protection.

The front seat belts feature grabbers to help prevent excess paying-out of the seat belt webbing in an impact.

A Safeguard engine immobiliser is fitted as standard on Scorpio models, as a powerful anti-theft measure.

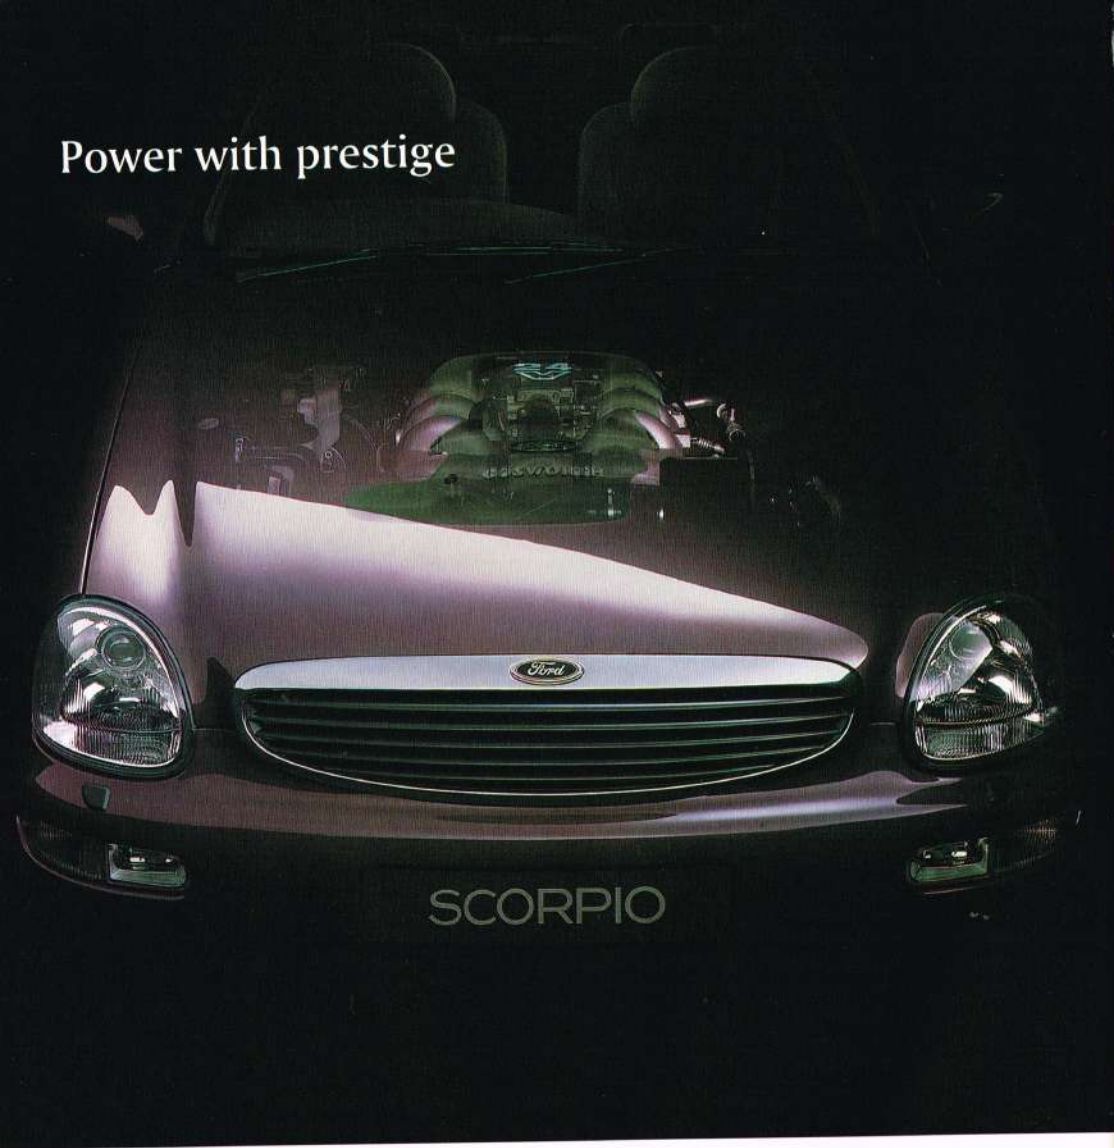

The standard driver's Airbag can be complemented by an optional passenger's Airbag.

All audio equipment is Keycoded to help deter thieves.

Power with prestige

The Ultima model, with the powerful 2.9-litre 24V Cosworth engine.

The cornerstone to Scorpio's power is the range of responsive, silky smooth multi-valve engines. Press the accelerator and the engine management system ensures you get the maximum efficiency out of your engine. Built to deliver plenty of horsepower and a wide torque band, Scorpio powertrains give you a smooth, effortless performance.

Whether matched to the five-speed manual gearbox or a four-speed automatic, the power is smoothly translated for crisp acceleration and satisfying cruising speed. On 16V and Cosworth 24V models the A4LDE automatic gearbox is fitted, featuring sport, economy and winter modes.

Equipped to delight

Over the past few years the traditional values associated with luxury cars have become somewhat blurred. The Scorpio clearly redefines these values in a car that is unmistakably luxurious.

From the crafted seating to the sculptured console and dashboard the emphasis is on flair and comfort.

Chromed scuff plates are standard on all Scorpio models, and protect the interior from damage and wear.

Audio systems have remote operation, by stalk controls mounted on the steering column. This enables the driver to keep both hands on the wheel whilst adjusting the sound system.

Model 7000 RDS EON Radio/Cassette, "Keycoded" with removable control panel and 2060 CD Autochanger are standard on the Ultima.

A CFC-free air-conditioning system with pollen filter ensures that drivers and passengers remain comfortable.

Scorpio models have electrically-operated front and on Ghia and Ultima variants, electrically-operated rear windows. All three models feature "burr walnut" effect appliqué on the interior door trim at window level.

The optional passenger's Airbag comes with a high-level central brake light for additional visibility and safety.

Cruise control provides relaxing driving and is standard on Ultima and available as part of the optional Luxury pack on Executive and Ghia.

Remote-control central, double locking is standard equipment on all models, and means improved vehicle protection.

Key:

This table shows the availability of engine and gearbox combinations on Scorpio models and their resulting kerbweights.

Note:

All vehicles are 5-speed unless Auto stated. All petrol engines are equipped with a Catalytic Converter.

Towing limits

quoted in this catalogue represent the maximum towing ability of the vehicle at its Gross Vehicle Mass to restart on an 8 per cent gradient at sea level. The performance and economy of all models will be reduced when used for towing. For further guidance, refer to the National Caravan Council's Towing Code.

Roof rack load is a maximum of 75kg on all models.

Fuel and performance

Scorpio 4-door

	Fuel consumption in L/100km (mpg)†		Performance (Ford test figs.)	
	Simulated urban driving	Constant 56 mph (90 km/h)	Max. speed (mph)	0-60 mph (secs)

CD Autochanger – Model 2060	■	■	■
Remote control facility for volume, station, AM/FM and CD	■	■	■

Carpet and Trim

'Burr walnut' effect facia, gearlever surround and door inserts	■	■	■
Carpet – Cut pile	■	■	■
Door bins – Front, carpet-covered. Door pull handle/armrest, fabric insert door trim	■	■	■

Lighting

Courtesy lights – Header-mounted, front and rear door-operated	■	■	■
Courtesy lights – Delayed switch-off	■	■	■
Courtesy lights – Front and rear footwells	■	■	■
Lights – Door marker/kerb illumination, front and rear	■	■	■
Luggage compartment	■	■	■
Reading lights – Front and rear	■	■	■

Instruments and controls

Instruments – Speedometer, digital odometer, digital trip recorder, constant read-out fuel gauge, water temperature gauge	■	■	■
Tachometer	■	■	■
Cruise control	■	■	■
Fuel computer – Multi-function (petrol only)	■	■	■
Graphic information module – 5-way door ajar, low air temperature, side and headlight bulb failure	■	■	■
Warning indicators for oil pressure, direction indicators, glow plugs-on (diesel only), high beam, ignition/alternator, brake failure, handbrake on, Airbag(s), lights on audible warning, automatic transmission engaged audible warning	■	■	■
Warning lights – Auxiliary. Low washer fluid, low engine coolant, high engine coolant temperature, brake pad wear	■	■	■
Illuminated heater controls – 3-speed fan with four pollen-filtered vents with temperature and direction control, two dedicated side window demists	■	■	■
Rear compartment heating ducts	■	■	■
Master lighting control – Facia-mounted	■	■	■
Control stalks – Column-mounted for indicators, main beam, dip and flash, wash/wipe functions	■	■	■
Steering column – Reach and rake adjustable	■	■	■
Airbag – Driver's	■	■	■
Steering wheel – Four-spoke incorporating horn function (leather-trimmed on Ultima with cruise control)	■	■	■

Seats and Seat Belts

For seat fabric see page 33			
Front seat – Driver's, adjustable lumbar support, pneumatic	■	■	■
Front seat – Driver's, electric height adjust	■	■	■
Front seat – Driver's electric 10-function seat adjustments: height, reach, cushion tilt, seat back rake, and lumbar adjustment with personalised entry	■	■	■
Front seats – Fully reclining with fully adjustable head restraints	■	■	■
Storage pockets – Front seat backs	■	■	■
Rear seat – One-piece forward-tilt seat cushion (4-door)	■	■	■
Rear seat – 60:40 split back	■	■	■
Rear seat – Folding centre armrest	■	■	■
Rear seats – Head restraints, fully adjustable	■	■	■
Seats – Leather-trimmed, with heated front seats (Ultima Leather models)	■	■	■
Seat belts – Front, inertia reel, with grabbers and height-adjustable mounts. Two rear inertia reel and one centre lap static	■	■	■

Comfort and convenience

Accessory socket/cigar lighter, front	■	■	■
Accessory socket/cigar lighter, rear	■	■	■
Air-conditioning – CFC-free with Automatic Temperature Control	■	■	■
Centre console – With cassette storage and trinket tray	■	■	■
Centre console and storage box with padded lid, cassette and CD storage, coin slots and trinket tray	■	■	■
Clock – Analogue quartz	■	■	■
Glovebox – With lid and illumination	■	■	■

Paint – Metallic (no charge)	■	■	■
------------------------------	---	---	---

^a Subject to status and the signing of a 12 month airtime contract. The contract may be terminated by giving 30 days written notice after the end of the 12 month period. Available in conjunction with the purchase in the UK of a new Ford vehicle (excluding the Channel Islands and Isle of Man, named daily rental companies (Avis, Hertz, Budget, Eurocar, Eurocar, Euro Dollar, Flightform, Thrifty and their licensees/agents and Daily Rental), Ford and Dealer demonstrator programme vehicles, FRCS/Service rental vehicles, direct service vehicles).

EXTRA COVER

New Maintenance Plans

Your Ford Dealer can advise you on extended warranties. Extra Cover, the optional extended warranty from Ford now incorporates Service Cover, allowing you to add routine servicing or full maintenance cover to your plan.

Petrol and diesel models

24 Months/18,000 miles
24 Months/24,000 miles
24 Months/36,000 miles
24 Months/unlimited miles*
36 Months/24,000 miles
36 Months/36,000 miles
36 Months/60,000 miles

Note:

- The timescale for the Warranty Plans is from the date of Warranty commencement and continues until the completion of the time or mileage allowance, whichever occurs first.
- Extra Cover can be purchased up to 12 months after the date of vehicle Warranty commencement, but still starts from the date the vehicle was registered.
- Service Cover can be purchased up to 2 months after the date of vehicle Warranty commencement.

Ford Audio Systems

Ford are one of the largest vehicle audio manufacturers in the world with dedicated research, development and manufacturing facilities in Europe, producing high quality sound systems to suit your needs.

By investing in state of the art electronic testing equipment, Ford have the ability to design a sound system specifically to complement each vehicle, ensuring that

all its component parts are precisely matched to optimise the listening experience.

Audio systems equipped with an RDS or RDS EON decoder pick up inaudible signals transmitted on the FM waveband to provide station name display, automatic re-tuning and up to the minute traffic information.

As well as having a unique 4 digit Keycode audio systems have a removable control panel for additional security.

Upgrade flexibility

A wide variety of audio options is offered as Dealer or factory fit. This gives you the flexibility to upgrade the standard system in your vehicle. For further details on the Upgrade programme please consult your Ford Dealer.

5000 RDS EON stereo radio/cassette which is standard on the Executive.

7000 RDS EON stereo radio/cassette, standard on the Ghia and Ultima and optional on the Executive.

Ford Cellular Systems

Motorola Micro Tac II. This heavyweight performer weighs in at a lightweight 225 grams. Offers a 99 number memory with name labelling.

The Compact II features two unique keys giving one touch access to the Ford Call Caroline and to the Ford/RAC Control Centre.

Ford is the world's only vehicle manufacturer to offer its customers the benefits of a totally integrated mobile communications service. Whether you require reassurance and security at an affordable cost or the very latest state of the art digital technology, you can rely on the expertise and value offered by Ford's mobile communications specialists.

Backed by dedicated customer services personnel, a team of technical support specialists and the ability to bill you direct, Ford Cellular can meet all your communication needs with an open, fair contract and the most flexible and competitive line rental and call tariffs available. For more information contact your Ford Dealer or Ford Cellular Systems direct on 0345 91 92 93.

Ford Phone Compact II

The newcomer to the Ford Cellular range was specifically designed for our customers in partnership with Motorola, the world's leading cellular manufacturer. With two unique one touch keys connecting you directly to either the Ford Call Caroline or the RAC Control Centre, the Compact II has been created with security, quality of service and value for money in mind.

The latest Ford model shows signal strength with accuracy, a permanently displayed battery gauge and has a ten memory capacity; enough for those important and often used personal numbers. For business tariff customers the Compact II is available in a hi-tier version. This includes additional features such as a 50 number alpha-numeric memory and a built-in rapid battery charger.

Optional Rapid Spec packs and Accessories

Rapid Spec is a process by which vehicles can be customised at the factory when a vehicle is ordered, offering you the ability to personalise the vehicle to match your individual needs. The current Rapid Spec options for Scorpio include RS alloy wheels, interior packs, tow bar and many other choices.

Additional Security Systems

Complementing the high levels of standard security features already fitted to the Scorpio, Ford has developed a range of additional anti-theft devices. These meet the criteria laid down by the insurance industry test facility at Thatcham and may enable policy holders to benefit from an additional premium discount from most major insurance companies. Installation of these systems is available through a network of Ford Dealers accredited to the Vehicle Security Installation Board (VSIB).

Ford 10

This provides remote control operation of vehicles fitted with existing central locking and the closing of electric front windows. Ultra-secure random coding provides the ultimate in protection against the hi-tech code grabbing electronic equipment used by thieves.

Ford 20 – Only for vehicles fitted with Safeguard immobiliser

This alarm module, fitted with Ford 10 will upgrade your vehicle's existing security system to "Thatcham Category 1". Ford 20 includes a self-powered alarm, as well as ultrasonic interior movement detectors.

Ford RS alloy road wheels combine attractive styling with top performance.

Sports interior pack provides a smart and comfortable interior.

Load space liner keeps load space clean and helps protect the interior from damage.

Tow bar with detachable ball.

Strong, steel tubing bicycle attachment.

Classic designed wooden/leather RS steering wheels with or without cruise control.

Vehicle shown has accessory wheels fitted.

Child seat designed with advanced safety features to meet strict international standards. This fully adjustable infant/child seat can be used as a baby seat or a seat for a young child.

Easy to use, lockable ski attachment.

Premium dog guard is ideal for securing pets.

Lockable crossbars for integrated roof rails.

Secureable crossbars for added load flexibility.

Ford and Ford Credit Services

The Ford range

In addition to the Scorpio, there's a comprehensive range of vehicles with something for everyone.

The Fiesta Classic range puts stylish motoring within everyone's reach.

The new Fiesta is set to maintain its position as Europe's best selling car in its class.

The new look Escort's good looks and lively performance ensure its continued success.

Discover the stunning qualities of the award winning Mondeo, where advanced technology and imaginative design are ideally brought together.

For the sports enthusiast the sleek Probe sports coupé offers thrills with style.

Whether it is business or pleasure the spacious and versatile Galaxy makes the ideal companion.

Blending comfort with durability ensures the Maverick 4x4 is the perfect choice for the adventurous.

The new Courier Kombi provides a perfect combination of a spacious 5-seater with the versatility of a highly practical load carrier.

Ford also offer a wide range of light to medium size commercial vehicles including the Fiesta Van, Courier, Escort and, of course, the Transit range.

For further details about Ford's range, simply visit your local Ford Dealership or **call free on 0800 111 222.**

Please note: The range of brochures is constantly updated and the ones shown on this page may differ from those in your Dealership.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular car. The cars themselves have not been tested and there are inevitably differences between individual cars of the same model. In addition, a car may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the car has been driven and the standard of maintenance, will affect its fuel consumption.

Insurance Groups are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Illustrations, descriptions and specifications. Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer.

Optional Equipment. Throughout this publication, wherever a feature is described as being an 'Option' or 'Optional Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary.
