A CAR FIRST. A BADGE SECOND

**Tucson**

**The first step into the world of Sports Utility Vehicles, or SUVs, can be a difficult one. The choice is endless so you want the right combination of on road and off road capability. The Hyundai Tucson now makes the choice easy.**

By understanding your needs for an SUV we have developed, without compromise, the Tucson.

The Tucson combines off road choice with superb on road driving ability, making it amazingly versatile. With smooth rounded curves, its up to date styling is at the forefront of SUV design.

Designed to give you that go anywhere independence whilst complementing your everyday lifestyle, the Tucson will give you the confidence to travel anywhere, and provides a great alternative to more traditional family cars.

**Hyundai Tucson: A whole new world waiting for you.**

**new**  
**Outlook**

**The Tucson mixes responsive on road driving performance with off road ability. All this, plus the latest in safety technology, makes driving the Tucson safe, reliable, and an absolute pleasure.**

With Hyundai's advanced four wheel drive system, the car will switch automatically between two wheel drive and the sure footedness of four wheel drive when necessary. Whatever the weather or the driving conditions, you will feel safe behind the wheel of the Tucson. If it makes your life simpler, you have the option of switching to four wheel drive manually at low speed when you are driving over difficult terrain. We know some of you may never go off road, but it's reassuring to know the vehicle can perform if required.

# Highlights

**Underscoring the confident style of the Tucson, there is a choice of paint options with solid, metallic or mica finishes.**

A metallic finish is achieved by adding aluminium flakes to the paint and then applying a coat of clear lacquer. The mica finish adds an extra depth of lustre with the inclusion of mica particles in the paint layer.
