

CHRYSLER

THE RANGE

CHRYSLER

The ribbon seal and silver wings first appeared on the radiator shell of the 1924 Chrysler Model B. When fashions changed in the 1950s the badge disappeared and returned with the Chrysler PT Cruiser in 2000.

Since the early days of automotive design, Chrysler has been synonymous with individuality and style. As a company that emerged in the same era as the art deco movement it was clear from the early days that Chrysler would have an unswerving commitment to design-led principles. This coupled with an enviable reputation for pushing daring concept cars through to production, has ensured that Chrysler's unique range of vehicles has its own distinctive personality.

Today's range offers you the stunning Crossfire Coupe and Roadster, the individual yet versatile PT Cruiser, the world's favourite MPV, Voyager and the attention-grabbing 300C. Chrysler's commitment to design is matched only by its dedication to ever higher standards of service. Every Chrysler comes with the additional peace of mind of a 3-year 60,000 mile warranty – whichever comes sooner – and the bodywork is covered by a 7-year unlimited mileage anti-corrosion guarantee.

INSPIRATION COMES AS STANDARD.

CROSSFIRE is unique – its bold character defined by a spine that runs through the centre of the car, both inside and out. The proven 215bhp 3.2 litre V6 pulls a top speed of 155mph and a 0 – 62mph time of 6.5secs, linked to a short throw 6-speed manual or a 5-speed automatic gearbox. Cast aluminium wheels are 19" at the rear and 18" at the front, delivering more power to the road surface and creating unbelievable stopping power.

Choose from the Coupe or the Roadster with its powered fabric soft top. A low glass:body ratio and a clearly defined profile are perfectly matched by the striking boat tail rear end positioned between massive rear wheel arches. Crossfire's full leather interior features a central console with a state-of-the-art Infinity stereo system that creates a sports-style twin cockpit, separated by high-back heated sports seats. There is dual zone air conditioning and the driver's seat is eight-way power adjustable. Crossfire is a masterful blend of form and function.

PT CRUISER Its retro features – the confident grille, bold wheelarches, distinctive interior dials – blend perfectly with the cutting-edge technology to create a 5-door vehicle with unique charm. Choose either the distinctive hatchback, which comes in three models – Classic, Touring or top of the range Limited – or the fun-loving Cabrio – available as Touring or Limited.

A lively 2.4 litre petrol engine is available on all models. It has a choice of a 5-speed manual or 4-speed Autostick gearbox. The hatchback also comes with a punchy 2.2 litre Common Rail Diesel (CRD) option that provides effortless economy-optimised cruising with plenty of power in reserve.

The versatile interior has room for five adults with luggage. You can fold the seats flat or even remove the rear ones for extra space. There are electric windows, air conditioning, a six-speaker concert-quality CD player, an anti-lock brake system (ABS) and four front airbags, two front-mounted and two seat-mounted side airbags for head protection and cushioning passengers from danger.

VOYAGER and the even more spacious Grand Voyager, offer incredible functionality, both seating seven in comfort. The range offers an exceptional choice of engine size including one of the most powerful diesel engines found in any MPV, the all new 2.8 Common Rail Diesel (CRD) with automatic transmission. The acclaimed 2.5 CRD combines 141bhp with all-important fuel economy and a 5-speed manual transmission. The 2.4 petrol engine available on SE and LX offers the same manual gearbox and 145bhp. The 3.3 V6 petrol unit is the most powerful performer in the range with 172bhp and an effortless 4-speed automatic transmission.

The Voyager range offers the choice of long or short wheelbase and four trim levels. Even the most affordable, the SE, offers luxuries like air conditioning, electrically operated and heated door mirrors as standard, whilst the LX features cruise control and steering wheel mounted audio controls. Limited models enjoy climate control plus heated and electrically adjustable front seats, powered sliding doors and tailgate, the sheer luxury of leather and superb sound from a 360 watt six disc CD sound system with 10 Infinity speakers. Top of the range Grand Voyager Limited XS has in-dash satellite navigation and a fully integrated DVD system.

SEBRING is a strikingly beautiful car inspired by the 2003 Chrysler Airflite concept vehicle. It provides a fresh alternative to those seeking a mid-size family car. A long bonnet profile and roofline gives it a sleek, sophisticated appearance. Sculptured character lines accentuate its athletic stance. With an anticipated launch in 2007, the Sebring will come with a choice of powerful petrol and diesel engines. It will also offer class-leading safety, excellent fuel efficiency and a superior level of interior craftsmanship.
