FordGalaxy
2000 200 5

FordGalaxy
from 2006

A luxury car, a practical car, a car for business or a car for the family. The Ford Galaxy challenges conventional thinking. The Galaxy can seat seven adults easily in complete comfort. You don't climb into a Galaxy, you simply step aboard into a first class experience. And this innate quality can be seen in the styling range, where you can pick and choose your own touches to enhance your driving pleasure.

Alloy
Wheels

Ford alloy wheels are designed to complement the looks of whatever Ford you drive. Sleek, purposeful or elegant, the choice is yours. And you can be assured that whatever alloy option you choose, you can trust that they've been manufactured to the highest standards, from the finest materials, and endured long-term testing to keep you safe on the road. Every single alloy is X-ray checked for defects, and further checked to ensure no air from the tyres will be lost through the wheel. And with different styles machined, silver or grey you can be assured that our alloys perform as good as they look.

Generic Accessories

Ford accessories are designed and manufactured by Ford. They all have one common purpose, to fit perfectly onto all our cars. We don't compromise on our materials, on our design, or on our manufacturing integrity. And by also offering a range of carefully selected quality products from well-known manufacturers we can provide you with everything you need to match your own personal style, with both performance and safety in mind.

Transportation

Whatever you need to carry, we have a transportation accessory to make it easier and safer. For example, you can choose from a range of robust and spacious roof boxes aerodynamically designed to carry additional items such as skis. Or choose from a wide range of bicycle carriers, roof boxes and other attachments. We want you and your passengers to travel in complete safety and comfort. So, why don't you let Ford carry the load?

Tow Bars

Whether planning to tow a trailer or caravan, you want to be sure its g oing to stay safely attached. So Ford tow bars are tested not only to meet all legal requirements, but also Fords ow n strict internal requirements. Extensive crash testing gives you the confidence that your tow bar wont compromise your vehicles saf ety, and corrosion-resistance testing for 480 hours in salt spray is reassurance that your tow bar will last as long as your Ford. The corresponding electrical kits are also tested beyond the legal requirements, and are designed for complete compatibility and integration with your Ford s electrical systems.

Interior Bicycle Carrier

Enables you to transport upto 3 bikes. For further details see product overview table

All Ford incar transportation systems are developed and tested to fit in the optimum position in the vehicle so that they stay in place during use. They are designed to complement the interior of the vehicle. Load Barrier nets and Dog Guards are crash tested to protect passengers in a 50 km/h frontal crash.

1 450 034

Load Compartment

You can travel more safely when your loads are stored securely. Ford accessories for the load compartment are designed and tested to fit perfectly and stay in place, keeping loads where they should be even under heavy braking. Load barrier nets and dog guards, for example, are crash tested to protect passengers in a crash at up to 50 km/h. And to help you keep the load space looking as good as the rest of your Ford’s interior, we have accessories to keep it clean, dry and tidy.

Protection Mat for Luggage Compartment

This fold-out mat protects your Ford against dirt and damp. The outside of the mat is premium velour carpet while the inside is a durable, washable plastic anti-slip material. When completely unfolded the entire luggage compartment is protected – from the bumper to the folded back seats. It also folds out to protect your bumper against damage when loading. Available for Focus C-MAX

Car Protection

Ford floor mats use materials and colours that are designed to fit with the interior of the vehicle. They are fixed directly into the vehicle s interior floor so that the mat cannot slip and interfere with the pedals. All Ford floor mats are flammability tested to conform with ISO 3795 and they resist soiling, fading, heat ageing as well as fogging, which can cause a film on the inside of the windscreen.

Ford’s protection foils are specifically designed for each Ford model, and branded with the model name in some cases. Daily wear and tear can soon cause scuffs and scratches on the door and rear bumper sills. The foils provide protection without compromising the looks and style of the vehicle. Fitting is easy with the self-adhesive backing on each strip. For further details see product overview table

Ford Alarm Systems

Ford Alarm Systems protect your vehicle effectively as they plug straight into your vehicle’s wiring system. This means that all vulnerable points like bonnet, boot and doors are protected and the ultrasonic sensors ensure maximum protection of the interior. So don’t wait, toughen up your security and give your Ford the best possible protection.

Ford Alarm System MFD1 Standard

A dedicated alarm upgrade for the Focus and C-MAX models. Utilises the existing Ford remote.

Safety

Child Safety

Your children deserve to be as comfortable and safe as you are when they're travelling in your Ford. So Ford offers a range of premium quality child seats, from our approved supplier Britax*, for all ages from babies to young children. Designed to meet the highest safety standards, they are thoroughly crash tested. There is also a great selection of ISOFIX seats, which are quick and easy to fit correctly and safely, to the ISOFIX points built in to various Ford models. Which means all you have to worry about is choosing the removable, washable trim which best suits your Ford's interior.

Child Seat Baby-Safe Plus ISOFIX

For children up to 13 kg, incl. specific ISOFIX mounting facilities, with extra padding to protect baby's back, can be adjusted in 3 different positions, incl. sun canopy, tested and approved according to ECE R 44/04 norm

1 448 164

Child Seat Baby-Safe Plus

For children up to 13 kg, with extra padding to protect baby's back, can be adjusted in 3 different positions, incl. sun canopy, tested and approved according to ECE R 44/04 norm

1 448 160

Child Seat Lord Plus

For children between 9–18 kg, 5-point harness system with central belt length adjustment, tested and approved according to ECE R 44/04 norm

1 441 484

Safety

Feeling safe with children in the car

Ever since it became a legal requirement that children in our cars are safely secured, the standards for children's car seats have become more and more stringent.

There are a large number of children's car seats for various age groups which fulfil these requirements. However, even the best child seats offer no protection if they are not fitted correctly or used properly. Although many child seats are secured in similar ways, every seat has its own particular belt fastening system. Therefore, it is vital to listen to the advice of specialist staff when buying a child seat, and equally important to read the operating instructions.

If you have a very young child, you need to be aware that all baby seats from Group 0+ (babies up to 13 kg) utilise rear-facing systems, i.e. the seat must be fitted so the child is facing backwards. Please note: these baby seats may only be fitted to the front passenger seat if the passenger airbag has been deactivated, or if the car is not fitted with a passenger airbag.

Many injuries can be avoided if children are correctly secured. Yet a recent study showed that only 31% of child safety seats are used correctly. It is also important that children are properly secured for all journeys, regardless of their length. The risk of injury for unsecured children in cars is seven times higher than that for children in appropriate safety seats.

Child Seat Duo Plus ISOFIX

For children between 9–18 kg, 5-point harness system with central belt length adjustment, tested and approved according to ECE R 44/04 norm

1 448 154

Child Seat Kid

For children between 15–36 kg, 3-point harness system, headrest can be adjusted in 11 different positions, tested and approved according to ECE R 44/04 norm

1 441 487

Roadside Accessories

Ford Roadside Assistance accessories are designed to help ensure the maximum safety for Ford drivers and passengers in the event of a breakdown or accident. All products meet the latest European legislative requirements. All Ford vehicles contain dedicated fixings for safe, easily accessible storage of roadside assistance accessories when not in use. Ford warning triangles and First Aid kits are specially selected to fit securely into these fixings.

Garmin* Mobile Navigation System Nüvi 660

Ford gives you more to enjoy than just driving – like the wide range of entertainment and information options available, to help you get where you’re going, and have more fun on the way. For example, you can choose from in-car and mobile navigation systems to give you the best route, and loudspeakers to give you the best sound. But whatever you choose, it will be state-of-the-art, user-friendly technology.

Infotainment

Comfort

Are you sitting comfortably? All Fords are designed to make your life as relaxing as possible. From the ergonomically designed driving position, to the tactile controls, to the headrests, we surround you and your passengers with total Ford comfort. Now with our accessories you can enhance your comfort factor even more. Parking aids or parking heater, our products are made with your lifestyle in mind.

Parking Distance

Xvision* Park Distance Control systems allow you to park with ease to within a distance of 30 cms via a variable intermittent beeping signal. Built to original equipment standard with a 3 year warranty, it can be fitted to any vehicle, whether new or used and colour coded to match the vehicle body colour.

New to Xvision*'s range is a visual LED display system. Contained in a discrete display module, it can be fitted in the front or rear of the vehicle, providing LED signals as well as the audible beeps for additional guidance whilst parking and manoeuvring.

Boutique

You could say that life is all about style. With Ford Boutique weve given the style conscious somewhere to enjoy life. The range has everything you need to make your life with your Ford that extra bit special. On the following pages you will find a selection from our programme, which changes twice a year. So if youre i nterested in a stylish new look to go with your new Ford, please ask your Ford dealer for more details.

It is also the first automotive merchandise range to carry the *respect-inside certification for products in its range. Ford continually strives to place its environmental and social responsibility policies at the heart of its corporate behaviour. Now, for selected items in the TeamRS and Ford ST 2006 ranges, it is possible to see the social projects and audit reports for all of the suppliers involved at each stage of the manufacturing process.

* respect-inside verifies that these items are produced only by sources committed to environmentally sound practices, socially responsible policies and independently verified certification of their facilities.

For more information, please go to: www.respect-inside.org
