Styling

Feel the difference. Your Ford has been elegantly styled and beautifully crafted to ensure that your journey through life is both inspired and relaxed. It's one lifestyle choice that will sit perfectly in your world. With our accessory range we can offer more choices to enhance your Ford inside and out to make your Ford your own. From beautifully tailored interior trims to performance body styling kits, our accessories have been designed and safety tested to fit your Ford and your life perfectly.

FordKa
FordSportka
FordStreetka

A life less ordinary, that's what the Ford Ka and Streetka give you. Dynamic and sharp, the Ford Ka cuts through style and design mediocrity. But why stop there? With our range of bold styling parts and inspired accessories you can turn even more heads. It's not how far you can go, it's how far you dare to go. Happy restyling.

FordGalaxy
2000 – 2005
FordGalaxy
from 2006

A luxury car, a practical car, a car for business or a car for the family. The Ford Galaxy challenges conventional thinking. The Galaxy can seat seven adults easily in complete comfort. You don't climb into a Galaxy, you simply step aboard into a first class experience. And this innate quality can be seen in the styling range, where you can pick and choose your own touches to enhance your driving pleasure.

Eibach* Sports Suspension Lowering Kit

Alloy Wheels

Ford alloy wheels are designed to complement the looks of whatever Ford you drive. Sporty, purposeful or elegant, the choice is yours. You can be assured that whatever alloy option you choose, you can trust that they've been manufactured to the highest standards, from the finest materials, and endured long-term testing to keep you safe on the road. Every single wheel is X-ray checked for defects, and further checked to ensure no air from the tyres will be lost through the wheel. And with different styles – machined, silver or anthracite – you can be assured that our alloys perform as good as they look.

Generic Accessories

Ford accessories are designed and manufactured by Ford. They all have one common purpose, to fit perfectly onto all our cars. We don't compromise on our materials, on our design, or on our manufacturing integrity. And by also offering a range of carefully selected quality products from well-known manufacturers we can provide you with everything you need to match your own personal style, with both performance and safety in mind.

Whatever you need to carry, we have a transportation accessory to make it easier and safer. With our great choice of accessories you will certainly find the right product to suit your needs. For example, you can choose from a wide range of attachments like bicycle carriers, robust and spacious roof boxes, ski carriers, water sports carriers and many more. We want you and your passengers to travel in complete safety and comfort. So, why don't you let Ford carry the load?

Roof Base Carrier

Specifically designed for each Ford model. Use our base carrier to fix whatever attachment you may require for your transportation needs. For further details see product overview table

Locking function

All Ford roof base carrier are lockable for theft protection

MontBlanc* Bike Carrier Barracuda Comfortable carrier, for frames up to 80 mm, for all base carrier profiles usable	1 225 654

**Thule* Roof Box Ranger 90**

The first soft box which is easy to mount, easy to remove, roll up and stow away in its practical storage bag. It does not require the storage space that traditional boxes do and can be brought along in the luggage compartment of your car to be unpacked, mounted and loaded within a few minutes

**Thule* Bike Carrier ProRide 591**

A universal easy to install carrier for frames up to 80 mm (e.g. mountain Bikes).

**Thule* Roof Carrier Basket (Xpedition 821)**

This alloy transportation basket allows to transport nearly everything. With its unusual wide load-bearing bars it is even possible to transport a big tent or the most extensive collection of camping equipment. This accessory is not only a smart solution, but even an alternative to transport cargo that normally would require a trailer

**Thule* Ski Carrier Deluxe 727**

The comfortable carrier for up to 6 pairs of skis or 4 snowboards. Also available as Xtender 739 with slide-out function

**Thule* Kayak Carrier 874**

Smart solution that allows you to transport all your equipment that you need to discover the coast side and watercourses. The carrier adapts perfectly to the shape of the kayak. Large pads protect the hull, and four adjustable rubber support together with powerful straps to keep the kayak firmly secured during transport

**Thule* Roof Boxes**

With easy mounting system and central locking. Designed to carry a wide variety of loads and protect them from the weather and theft. For further details see product overview table

Tow Bars

Whether planning to tow a trailer or caravan, you want to be sure it's going to stay safely attached. So Ford tow bars are tested not only to meet all legal requirements, but also Ford's own strict internal requirements. Extensive crash testing gives you the confidence that your tow bar won't compromise your vehicle's safety, and corrosion-resistance testing for 480 hours in salt spray is reassurance that your tow bar will last as long as your Ford. The corresponding electrical kits are also tested beyond the legal requirements, and are designed for complete compatibility and integration with your Ford's electrical systems.

Tow Bar Fixed

Tow Bar Detachable

For extra transport and stowage capability. The towing capacity is vehicle and engine specific. Please refer to your vehicle documentation. Use the detachable tow bar if you don't want to make any compromise to your car styling.

Tow Bars

Model	Description	FINIS

Electrical Kits for Tow Bars

Tested in all conditions, including salt spray for 480 hours, to ensure functionality even in extreme situations. For further details see product overview table

Interior Bicycle Carrier

Enables you to transport upto 3 bikes. For further details see product overview table

All Ford interior transportation systems are developed and tested to fit in the optimum position in the vehicle so that they stay in place during use. They are designed to complement the interior of the vehicle. Load barrier nets and dog guards are crash tested to protect passengers in a 50 km/h frontal crash.

Stowage Box for umbrellas

Practical storage of umbrellas, fix the box with screws or Velcro® strip wherever you find a space, for all models

1 524 823

Load Compartment

You can travel more safely when your luggage is stored securely. Ford accessories for the load compartment are designed and tested to fit perfectly and stay in place, keeping luggage where it should be even under heavy braking. Load barrier nets and dog guards, for example, are crash tested to protect passengers in a crash at up to 50 km/h. And to help you keep the load space looking as good as the rest of your Ford's interior, we have accessories to keep it clean, dry and tidy.

Protection Mat for Luggage Compartment

This fold-out mat protects your Ford against dirt and damp. The outside of the mat is a premium velour carpet while the inside is a durable, washable plastic anti-slip material. When completely unfolded the entire luggage compartment is protected – from the bumper to the folded back seats. It also folds out to protect your bumper against damage when loading. Available for C-MAX

Load Space Liner

Perfectly fits into the vehicle and keeps the luggage compartment clean and dry. For further details see product overview table

Anti-Slip Mat

Ford's anti-slip mats come with a durable rubber anti-slip surface to protect your luggage compartment. For further details see product overview table

Car Protection

Everyday life can bring you unexpected and unwanted surprises. Like scratches, bumps and knocks to your Ford. So why not give your Ford a little bit of extra protection? Sill protection foil for example, can be fitted within seconds and provides excellent protection for years to come. How about our floor mats, which not only match your vehicle's interior but are flame proof too?

Car Care Products

Description	FINIS

Chamois Leather 52 x 35 cm	0 800 532

Car Protection

Ford floor mats use materials and colours that are designed to fit with the interior of the vehicle. They are fixed directly into the vehicle's interior floor so that the mat cannot slip and interfere with the pedals. All Ford floor mats are flammability tested to conform with ISO 3795 and they resist soiling, fading, heat ageing as well as fogging, which can cause a film on the inside of the windscreen.

Rear Bumper Load Protection in 3-D stainless steel design

Rear Bumper Protection Foil

Ford's protection foils and plates are specifically designed for each Ford model, and branded with the model name in some cases. Daily wear and tear can soon cause scuffs and scratches on the door and rear bumper sills. The foils provide protection without compromising the looks and style of the vehicle. Fitting is easy with the self-adhesive backing on each strip. For further details see product overview table

Roadside Accessories

Ford roadside assistance accessories are designed to help ensure the maximum safety for Ford drivers and passengers in the event of a breakdown or accident. All products meet the latest European legislative requirements. All Ford vehicles contain dedicated fixings for safe, easily accessible storage of roadside assistance accessories when not in use. Ford warning triangles and first aid kits are specially selected to fit securely into these fixings.

Safety

Child Safety

Your children deserve to be as comfortable and safe as you are when they're travelling in your Ford. So Ford offers a range of premium quality child seats from our approved supplier Britax*, for all ages from babies to young children. Designed to meet the highest safety standards, they are thoroughly crash tested. There is also a great selection of ISOFIX seats, which are quick and easy to fit correctly and safely, to the ISOFIX points built in to various Ford models.

Child Seat Baby-Safe Plus ISOFIX

For children up to 13 kg, incl. specific ISOFIX mounting facilities, with extra padding to protect baby's back, can be adjusted in 3 different positions, incl. sun canopy, tested and approved according to ECE R 44/04 norm

1 448 164

Child Seat Baby-Safe Plus

For children up to 13 kg, with extra padding to protect baby's back, can be adjusted in 3 different positions, incl. sun canopy, tested and approved according to ECE R 44/04 norm

1 448 160

Child Seat Lord Plus

For children between 9-18 kg, 5-point harness system with central belt length adjustment, tested and approved according to ECE R 44/04 norm

1 441 484

Safety

Feeling safe with children in the car

Ever since it became a legal requirement that children in our cars are safely secured, the standards for children's car seats have become more and more stringent.

There are a large number of children's car seats for various age groups which fulfil these requirements. However, even the best child seats offer no protection if they are not fitted correctly or used properly. Although many child seats are secured in similar ways, every seat has its own particular belt fastening system. Therefore, it is vital to listen to the advice of specialist staff when buying a child seat, and equally important to read the operating instructions.

If you have a very young child, you need to be aware that all baby seats from Group 0+ (babies up to 13kg) utilise rear-facing systems, i.e. the seat must be fitted so the child is facing backwards. Please note: these baby seats may only be fitted to the front passenger seat if the passenger airbag has been deactivated, or if the car is not fitted with a passenger airbag.

Many injuries can be avoided if children are correctly secured. Yet a recent study showed that only 31% of child safety seats are used correctly. It is also important that children are properly secured for all journeys, regardless of their length. The risk of injury for unsecured children in cars is seven times higher than that for children in appropriate safety seats.

Child Seat Duo Plus ISOFIX

For children between 9-18 kg, 5-point harness system with central belt length adjustment, tested and approved according to ECE R 44/04 norm

1 448 154

Child Seat Kid

For children between 15-36 kg, optimum side impact protection, headrest can be adjusted in 11 different positions, tested and approved according to ECE R 44/04 norm

1 441 487

Ford gives you more to enjoy than just driving – like the wide range of entertainment and information options available, to help you get where you’re going, and have more fun on the way. For example, you can choose from in-car and mobile navigation systems to give you the best route, and loudspeakers to give you the best sound. But whatever you choose, it will be state-of-the-art, user-friendly technology.

Garmin* Mobile Navigation Systems

Comfort

Are you sitting comfortably? All Fords are designed to make your life as relaxing as possible. From the ergonomically designed driving position, to the tactile controls, to the headrests, we surround you and your passengers with total Ford comfort. Now with our accessories you can enhance your comfort factor even more.

Parking Distance

Xvision* Park Distance Control systems allow you to park with ease within a distance of 30 cm via a variable intermittent beeping signal. Built to original equipment standard with a 3 year warranty, it can be fitted to any vehicle, whether new or used and colour coded to match the vehicle body colour.

New to Xvision*'s range is a visual LED display system. Contained in a discrete display module, it can be fitted in the front or rear of the vehicle, providing LED signals as well as the audible beeps for additional guidance whilst parking and manoeuvring.
