

Ford Transit Connect Van

Feel the difference

Obsession is a good thing

Do you mind that your new Ford commercial vehicle is a result of minuscule design improvements to make it more efficient?

Do you mind that we carried out extreme tests of reliability? (Such as 250,000 door slams on the same door.)

Do you mind that we dedicated hundreds of thousands of hours working out how to reduce your cost of ownership?

Do you mind that 300 specialist engineers tested every single component in your vehicle?

We think obsession is a good thing when you build commercial vehicles. If you drive one, you probably agree with us.

Model: Transit Connect SWB Trend Van

Options: metallic paint (no charge option on Trend, Limited)

Professional workmate

Tough design and a no-nonsense attitude. A civilised cabin environment with a host of car-like features. The choice of short or long wheelbase options. And an appetite for hard work. That's the unbeatable Ford Transit Connect Van.

Transit
Connect

Model: Transit Connect LWB Trend Van
Options: Alloy wheels, metallic paint (no charge option on Trend, Limited)

Built to work

The award-winning Ford Transit Connect Van is designed, engineered and constructed to the same uncompromising standards as the larger Ford Transit range. The result is standards of durability, functionality and strength that are unparalleled in Europe's small-van sector.

1.8 Duratorq TDCi
Powerful diesel engine delivers up to 110 PS and 280 Nm of torque.

Short and Long Wheelbase

With short and long wheelbase options, a large functional load box, and up to 4.3 cubic metres of versatile loadspace with the passenger seat folded, the Ford Transit Connect Van will keep your business on the move.

The Ford Transit Connect Van sets the standards in its class, engineered to provide a level of rugged durability never before seen in the compact commercial vehicle market.

Powerful partner

SWB Van

- 2467 mm maximum load length
- 829 kg gross payload (T220), 634 kg (T200)
- 3.40 cu.m loadspace (passenger seat folded)
- Space for two Europallets*
- Room to stow a 2.4 m pipe with the passenger seat folded
- Turning circle 11.0 m (kerb to kerb)

LWB Van

- 2714 mm maximum load length
- 888 kg gross payload (T230)
- 4.3 cu.m loadspace (passenger seat folded)
- Space for 2.4 m x 1.2 m building boards when loaded diagonally
- Room to stow a 3 m pipe diagonally with the passenger seat folded
- Turning circle 11.9 m (kerb to kerb)

SWB Crew Van

- 718 kg gross payload
- Second row folding seats
- 1.4 cu.m loadspace (second row seats upright)
- 909 mm load length (second row seat to rear)

LWB Crew Van

- 755kg gross payload
- Second row folding seats
- 2.1 cu.m loadspace (second row seats upright)
- 1172 mm load length (second row seat to rear)

*Without bulkhead fitted.

SWB Trend van.

LWB Trend van.

SWB Trend crew van.

LWB Trend crew van.

Built and tested to Medium Commercial Vehicle standards, the Ford Transit Connect Van delivers outstanding strength and durability. The extensive use of thick, high-strength steel, a reinforced body shell with partial double-skin sides and twin side cross-members, plus a tough boron steel front cross-member all contribute to its outstanding low cost of ownership and useful vehicle life.

Handling

The independent MacPherson strut front suspension combines with multi-leaf rear springs (single leaf springs on SWB 634 kg models) to endow the Ford Transit Connect Van with superior handling and roadholding, even when fully loaded. Accurate and responsive rack and pinion, power-assisted steering is fitted as standard and gives the SWB model a turning circle of just 11.0 metres kerb to kerb.

Engines

The Ford Transit Connect Van is powered by a range of refined and dependable 1.8-litre Duratorq TDCi common rail diesel engines. Designed and engineered to deliver the optimum blend of efficient power and economy.

Emission Legislation

All Transit Connect engines currently comply with Euro Stage IV emission legislation. From Autumn 2010, when the vehicle is ordered with an optional Diesel Particulate Filter (DPF)***, it will meet the more stringent stage V legislation – which calls for reductions of 28% NO_x and 92% particulates.

**90 PS and 110 PS only. From Autumn 2010, available with optional vDPF (vapouriser Diesel Particulate Filter).

Diesel (FWD)

1.8 Duratorq TDCi available in three power and torque configurations:

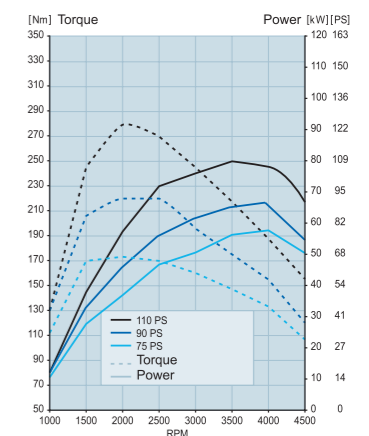

- 75 PS/175 Nm
- 90 PS/220 Nm
- 110 PS/280 Nm

Transmission

- 5-speed manual transmission

Brakes and wheels

All models are fitted with 15-inch, five-stud wheels (with reinforced tyres on selected versions) for greater load-carrying capacity. Large front and rear disc brakes, combined with standard ABS, help to extend service life and deliver outstanding stopping performance. Electronic Stability Program (ESP) with Hill Launch Assist (HLA) is also standard on all vans.

Vehicle shown with accessory roof rack and optional metallic paint, at extra cost.

Built-in fixings
Allow the installation of racking systems without further drilling.

Every day the Ford Transit Connect Van proves it has what it takes to get the job done. With a generous load box and outstanding access, thanks to its wide-opening rear doors and available twin sliding side load doors, the Ford Transit Connect Van will handle almost any task you throw its way.

Functional space

Whether you are carrying goods, work materials or tools, the Ford Transit Connect Van provides all the loadspace you will need.

Upright body sides help to make the most efficient use of the loadspace, particularly when racking is used.

Minimal rear wheel arch intrusion translates into a huge 1226 mm of clear load-floor width – enough to carry two Europallets in the short wheelbase version, or a stack of 2.4 m x 1.2 m building boards* in the LWB version.

*When stored diagonally

Standard features include:

- 1226 mm minimum width between rear wheel arches
- Flat side panels, ideal for signwriting
- Pre-threaded reinforced fixing points allow easy installation of universal racking systems or shelving without the need to drill holes into the vehicle
- Six DIN compliant floor tie-down eyes allow loads to be securely fixed
- Fold-flat front passenger seat provides a level cargo area for longer items, and doubles up as a handy work surface or table
- Full height folding mesh bulkhead
- Load floor liner

Optional features include:

- Range of bulkhead options
- Purpose-designed roof rack
- Roof rack crossbars
- Ladder holder and rollers
- 250° rear cargo doors for wide-open access
- Rear tailgate (SWB only)
- Attitude/ride height pack (high payload vans, not T200 models)

Half-height, full-width steel bulkhead
Option.

Folding DIN compliant mesh bulkhead
Allows longer items to be carried and protects the driver against shifting loads. (Standard)

Sliding side load doors
None, one or two side load doors available. Unglazed, glazed or with privacy glass. (Option)

DIN compliant tie-down eyes
Standard.

Underseat stowage tray
Keeps items out of sight beneath the front passenger's seat. (Option, not available with standard fold flat passenger's seat)

Tailgate
Unglazed or glazed. Privacy glass, heated window and wash/wipe also available. (Option)

Model: Transit Connect LWB Trand Van
Option: Metallic paint (no charge option on Trend and Limited)

Door mirrors
Large door mirrors, with blind-spot eliminators, fold flat to avoid accidental damage when parked.

The Ford Transit Connect Van is engineered to the highest possible levels of strength and durability for your peace of mind.

Safety and security

The Ford Transit Connect Van has been designed to offer outstanding vehicle and occupant safety. Advanced computer modelling led to the development of a body structure that combines energy-absorbing crumple zones with a rigid shell for maximum occupant protection.

High-strength steel beams inside the front doors help to prevent intrusion in a side impact, while behind the front bumper is a boron steel cross-member that is designed to absorb and safely channel crash energy away from the occupants.

Security is paramount in a commercial vehicle. So the Ford Transit Connect Van incorporates a combination of state-of-the-art features to make it highly secure.

Standard safety features include:

- Driver's airbag
- Height-adjustable inertia reel seat belts with grabbers and driver's seat belt pre-tensioner
- Anti-submarining ramps in front seat bases
- Anti-lock brakes with electronic brake-force distribution
- Electronic Stability Program (ESP)
- Hazard Warning Lights: the turn indicators flash under heavy braking as a warning to following drivers
- Height-adjustable head restraints

Optional safety features:

- Passenger's airbag* (includes passenger airbag deactivation switch)
- Side airbags* (not available with fold-flat passenger's seat)

Standard security features:

- Ford's Safeguard Passive Anti-Theft System (PATS) engine immobiliser
- High-security shielded locks with strengthened mountings
- Unique lock-in-latch door lock system eliminates cables and rods between the lock and the latch
- Central/double locking
- Remote keyless entry with rolling codes
- Key-operated bonnet release
- Locking fuel cap
- Visible Vehicle Identification Number (VIN)

Optional security features:

- Perimeter alarm with volume sensing
- Choice of bulkheads

The Ford Transit Connect Van now comes with standard Electronic Stability Programme (ESP).

— Vehicle with ESP.
— Vehicle without ESP.

A Vehicle experiences understeer on approach.

B Vehicle experiences oversteer on exit of bend.

*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

Occupant safety

Single-stage driver's airbag is fitted as standard.

Lockable bonnet

Lockable bonnet can only be released using the vehicle key. The mechanism is fully shrouded to resist tampering. (Standard)

Full-height steel bulkhead

Full-height steel bulkhead provides added security. Also offered with glazed top panel, as shown. (Option)

Hazard Warning Lights

Turn indicators automatically flash under heavy braking as a warning to following drivers. (Standard)

Transit Connect Van

Model shown is finished in Frozen White and features the optional visibility pack

Built on a dedicated commercial vehicle platform, the hard-working and established Ford Transit Connect Van brings you all that is great about the range: robust construction; flexible loadspace; and a comfortable, car-like driving environment.

Exterior features include:

- 6x15" steel wheels with hub covers
- Torque Grey bumpers
- Tinted glass
- Manually-operated mirrors
- Electrically-operated windows
- Remote central locking
- Passenger-side sliding side load door
- Electronic Stability Programme (ESP)
- Hill Launch Assist (HLA)
- Hinged, unglazed rear cargo doors
- Home Safe headlights

Interior features include:

- New facia design
- Model 6000 RDS EON AM/FM stereo radio/CD with steering column-mounted remote audio controls, AUX-in and 'Keycode' anti-theft coding
- Steering column adjustable for rake/reach
- Fold-flat passenger seat
- Folding mesh bulkhead
- Front seat-back storage pockets
- Trip computer
- Centre storage
- 12-volt front power socket
- 6 DIN-compliant floor tie-down eyes

Remote audio controls

Fingertip control of main audio functions. (Standard)

Load floor mat

Protects both your van and its load. (Standard)

Remote central/double locking

Convenient and secure. (Standard)

Home Safe headlights

Remain illuminated for a short while once you're parked to guide you to your door. (Standard)

Unglazed cargo doors

For added security. (Standard)

Electrically-operated windows

(Standard)

Transit Connect Trend Van

Model shown is finished in Avalon metallic paint (option), glazed full height steel bulkhead. (Option)

The Ford Transit Connect Trend Van might be a new driving experience, but as soon as you get in, everything feels familiar. The well-equipped cabin acquires itself impeccably, because the more comfortable you are, the more productive you will be.

Exterior features additional to Transit Connect Van

- Body colour bumpers
- Front fog lights
- 6x15" steel wheels with full Trend wheel covers
- Premium Visibility Pack, including Quickclear heated windscreen, rain sensing wipers, auto headlights, heated washer jets and electrically-operated and heated door mirrors

Interior features additional to Transit Connect Van

- Brilliant Blue seat trim and instrument panel available as an option
- Bluetooth® with Voice Control System with second 12-volt power socket
- 6-way driver's seat with armrest and lumbar support
- Silver finish gearshift knob and radio/CD facia
- Aluminium steering wheel spoke shells
- Overhead full width stowage shelf
- Map reading light

Note The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

Note It is an offence for drivers to use a hand-held mobile phone or similar device while driving.

Bluetooth® wireless technology

Wireless mobile phone connection with voice recognition control for audio, phone and climate control. (Standard)

Interior design

Trend Van features aluminium trim accents. (Standard)

6-way adjustable driver's seat with armrest and lumbar support
Standard.

Trip computer

Displays information including fuel economy, distance travelled, ambient temperature as well as controlling parts of the van's functionality. (Standard)

Front fog lights

Enhanced visibility in poor driving conditions. (Standard)

Heated door mirrors

Part of Premium Visibility Pack. (Standard)

Transit Connect Limited Van

Model shown is finished in Avalon metallic paint (option) and glazed full height steel bulkhead (option).

With outstanding levels of comfort, convenience and functionality, the Ford Transit Connect Limited Van has it all. Great to drive, great to spend time in, it's not only a determined work partner but, with its roomy air conditioned cab, it serves as the ideal mobile office too.

Exterior features additional to Trend Van

- 7 spoke 15" alloy wheels
- 1.8 Duratorq TDCi (110 PS) diesel engine
- Silver front grille
- Body colour door handles
- Rear parking sensors

Interior features additional to Trend Van

- Reading light
- Air conditioning
- Silver gear shift surround
- Leather steering wheel

*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

Alloy wheels

Fabulous 15" 7-spoke alloy wheels with 195/65 tyres. (Standard)

Air conditioning

With air recirculation feature. (Standard)

Side airbags*

Enhanced protection in a side impact. (Option: Not available with fold-flat seat)

Silver front grille

Standard.

Rear parking sensors

Makes parking easier. Switches on automatically when reverse gear is selected. (Standard)

Rain-sensing wipers and automatic headlights

Part of the Premium Visibility Pack. (Standard)

When your vehicle is an integral part of your business, it's important you have the freedom to tailor its specification exactly to your needs. So, every item within our extensive range of options and accessories has been specially developed to help enhance your efficiency and image.

Accessories

Image left shows:

Steel cage roof carrier

Sturdy steel cage roof carrier adds a new dimension to transporting materials and equipment (Accessory).

Base roof carrier

Roof carrier is the base for all roof transportation attachments (Accessory – not illustrated).

18" alloy wheels

5-spoke design alloy wheels and 225/40 R18 tyres (Accessory).

Image below shows:

Dometic cooling fridge

Efficient, tailor-made cooling box uses 12-volt onboard system with integrated gel battery or, when parked, 230-volt mains supply. Maintains constant temperature of around 2°C at ambient temperature of 30°C. Total gross volume approximately 900 litres. Certified by ATP for food transport within Europe (Accessory – requires optional Dual Side Load Doors).

Note The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

A range of exterior styling accessories

Front and rear bumper styling parts*

In contrasting silver. (Accessory)

Bonnet and bumper GT stripes*

Accessory.

Mirror caps

In contrasting silver. (Accessory)

18" alloy wheels

5-spoke design alloy wheels and 225/40 R18 tyres (Accessory).

Loadspace liner

Heavy duty liner with raised sidewalls helps to protect your load floor from accidental damage. (Accessory) Image shows Ford Transit Van. Also available on Ford Transit Connect.

*Supplied by MS Design. Please note that all supplier-branded accessories are provided with a supplier's warranty and are subject to the supplier's warranty terms. Such accessories are, therefore, excluded from the Ford warranty.

Thule Professional roof carrying systems

A complete range of Thule products available to suit your needs. Available from your Ford Dealer. (Accessory)

17" alloy wheels

17" 9x2-spoke classic design alloy wheels and 205/50 R17 tyres. (Accessory)

Mobile navigation

Leave your maps behind with a simple and intuitive mobile GPS navigation system. Please contact your Ford Dealer for details. (Accessory)

Parrot car kits

These Bluetooth® hands-free kits are connected to the original audio system. Example shown is a MKi9200 with 2.4" colour TFT screen. Built-in voice recognition and automatic phonebook synchronisation. It displays your mobile phone information and the caller's photos. (Accessory)

We are all beginning to understand the impact that mobility is having on climate change. While we can't change things overnight, we are working very hard to find solutions.

Making a difference now

Our latest range of engines complies with Euro Stage IV regulations. Duratorq TDCi diesel engines now develop more torque whilst delivering lower emissions. On Transit models, our Duratec 2.3L engine can be converted to run on liquefied petroleum gas (LPG) or compressed natural gas (CNG).

In the Ford car range, our optional Flexifuel engine is achieving emission reductions of around 30% to 80%** compared to conventional petrol engines.

Protecting the future

Using our Product Sustainability Index, a design for sustainability management tool, we are addressing the environmental, social and economic impacts of our vehicles from the earliest stages of their development*.

We are working on a wide range of vehicle technologies from biofuels to hybrids and clean diesels, and in the long term to hydrogen fuel-cell technology with the potential for near zero CO₂ emissions.

Improving our manufacturing facilities

We are constantly working to minimise the impact of our facilities on the environment. This includes pioneering on-site generation of electricity from sun and wind, implementing leading-edge manufacturing processes and full certification to the international standard for Environmental Management Systems; ISO 14001. This has led to improved environmental performance through savings in energy, water, material and waste-handling requirements.

Recycling for good

In the interests of sustainability, many of our components contain recycled and renewable content. All Ford vehicles are at least 85% recyclable and 95% recoverable in accordance with ISO 22628. We offer free take-back for qualifying vehicles at the end of their lives. All our take-back points are fully licensed and must also meet additional Ford quality standards for the professional receipt, treatment and recovery of end-of-life vehicles.

This brochure has been produced on paper based on fibres from sustainable forestry, using a 100% chlorine-free (TCF) bleaching process.

1.8 Duratorq TDCi Diesel 90 PS*	755	2340	1585	1130	1290	906	679	4.06	3140
1.8 Duratorq TDCi Diesel 110 PS**	751	2340	1589	1130	1290	912	677	3.80	3140

Maximum gradeability – 12% at full GTM; 20% at full GVM. ^oGross payload = Gross vehicle mass, less kerb mass. Represents the lightest kerbweight assuming full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted. All kerb masses quoted in this brochure are subject to manufacturing tolerances and are for Base models with minimum equipment. Trend, Limited and Sport models will have greater kerb masses and, therefore, lower payloads due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. *From autumn 2010, when these engines are also fitted with an optional DPF (Diesel Particulate Filter), they will comply with stage V emission legislation.

Engine data

	Engine technical features	Maximum power ^o	Maximum torque ^o	DPF Option
1.8 Duratorq TDCI Diesel 55 kW (75 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; fixed geometry turbocharger with intercooler; electronic throttle	55 kW (75 PS) at 4000 min ⁻¹ (rpm)	175 Nm at 1800 min ⁻¹ (rpm)	No
1.8 Duratorq TDCI* Diesel 66 kW (90 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; fixed geometry turbocharger with intercooler and transient torque overboost function; electronic throttle	66 kW (90 PS) at 4000 min ⁻¹ (rpm)	220/240* Nm at 1750 min ⁻¹ (rpm)	Yes*
1.8 Duratorq TDCI* Diesel 81 kW (110 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; variable nozzle turbocharger with intercooler and transient torque overboost function; electronic throttle	81 kW (110 PS) at 3500 min ⁻¹ (rpm)	250/280* Nm at 1500-3200 min ⁻¹ (rpm)	Yes*

^oTested in accordance with ISO 1585. *With transient overboost. *From autumn 2010, engines will comply with stage V emissions standards when ordered with optional DPF (Diesel Particulate Filter).

Note The images used are to illustrate body colours only and may not reflect the vehicle described. Colours and trims reproduced within this brochure may vary from the actual colours, due to the limitations of the printing processes used.

Ford understands the colour you select may represent your corporate colour choice for years to come. Therefore we recommend you select one of our classic colours or, if you need a unique colour for your fleet, speak to your local dealer about our SVO colours that offer you more than 100 colour options. Contemporary colours reflect the latest trends in vehicle colouring but are subject to deletion at short notice.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular car. The cars themselves have not been tested and there are inevitably differences between individual cars of the same model. In addition, a car may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the car has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
