NEW THINKING

We love to be different. We look at the world in new and exciting ways – and share our excitement about what’s possible. That’s why we’ve become one of the world’s largest and fastest growing car manufacturers.

By looking ahead we give you what you want in ways you wouldn’t expect. The Hyundai i10 is a shining example of this. Small on the outside, it’s agile, packed with features

and big ideas. Like Blue Drive technologies that keep costs to a minimum by reducing fuel consumption and CO₂ emissions to below 100g/km*. The versatile i10 makes smart use of space, seating five and surrounding you with comfort. And that’s not all, it’s covered by our 5 Year Triple Care Package.

The Hyundai i10 – streetwise thinking that’s big news around town.

i10

TALK OF THE TOWN

Street smart styling. Compact size. The i10 is designed for the urban environment.

Its stunning look is guaranteed to turn heads, and the sculpted appearance leaves a lasting impression. Everything is wrapped up in a fluid design that blends individual features into a chic and seamless package.

Good looking and a great character? It's a rare combination but the i10 has it all.

IT ALL COMES TOGETHER BEAUTIFULLY

The i10's fluid lines encompass a wealth of cleverly thought out details.

Front and rear styling create a fresh and characterful look. Smart sophisticated features add the perfect finishing touches to the exceptional design.

Attention to detail is everything in the Hyundai i10. Like any great work, the closer you look the more impressive it becomes.

Headlights

The wrap-around headlights continue the fluid body lines, through the front grille, accentuating the streetwise character of the i10.

Front fog lights (Active & Style)

An integral part of the fluidic design, giving you improved visibility in fog and bad weather.

Front grille

The redesigned hexagonal grille, that is now the signature feature of the Hyundai range, is very much part of the i10's contemporary look.

Tail lights

Back to front no detail is overlooked. Seamlessly integrated into the i10's rear pillars the tail light cluster complements the rear design.

Body coloured mirrors (Active & Style)

Carefully considered as part of the overall design. Engineered to reduce drag and improve fuel efficiency.

Body coloured door handles (Active & Style)

Colour coordinated to complement and enhance the smooth lines of the car.

Alloy wheels (Active & Style)

Contemporary design blends practicality with the lightweight alloy wheels.

Rear design

Designed with purpose in mind, the flush boot handle is discretely concealed by the Hyundai logo.

Fluidic sculptured body-lines

The body lines flow from the rear light cluster, through the door handles, meeting at the front headlights and grille creating the unique i10 look that's like no other car in its class.

i10

BIG ON STYLE

Everything about the i10 has been designed to please. The inside is just as stylish as the outside – cleverly brought together with you in mind. The fresh textures, colours and fabrics create a totally new experience. The ergonomic controls make every driving action feel completely natural.

This is a place to feel good and make the journey ahead feel like a treat. The i10. A small and practical package with an exceptionally expansive style.

Blue dash illumination

The cool blue illumination is not only safer and easier to see, but also easy on the eye and creates a cool and stylish feel.

Alloy effect fascia trim (Style)

Attention to detail is important, the alloy effect fascia enhances the blue illumination adding style and quality to a considered interior.

Chrome effect door handles (Style)

Small touches make all the difference. Complementary finishes make the i10 look and feel like no other car in its class.

Leather steering wheel, gear knob and hand brake (Style)

Smart ergonomics and design combined with a tactile, quality finish. Being behind the wheel is a pleasure.

LCD audio display

This cool blue display set at optimum eye level for safety, shows radio channels or track titles as well as MP3 connectivity information. Another example of the i10's perfect combination of style and function.

USB & Aux

No more glove boxes or door pockets jammed with CD cases. Plug in your MP3 player and sing away.

Hyundai is fully committed to eco-friendly motoring, and working towards a better future. From the materials we source and the production processes used, to low emission ownership and recycling, we are constantly looking for new ways to reduce the impact of motoring on our planet. That's why we developed Blue Drive, our plan to make it happen.

We use a collection of smart technologies to improve fuel consumption and reduce emissions. Technologies are chosen to perfectly fit each car, which combine to make the biggest difference to owning and running a Hyundai, and the environment.

DRIVING COSTS DOWN

Isn't it great when saving money is also good for the environment? We think so. Blue Drive's smart technologies help to make the new i10 highly efficient in a number of ways, saving you fuel – and money.

The revised 1.2 litre engine meets the latest Euro V standards and is more economical than its predecessor

despite being more powerful. With the i10 Blue and its ultra low CO₂ emissions of 99g/km delivering 67.3mpg, you'll also benefit from not paying any road tax, and if you live London, no congestion charge*.

The i10 and i10 Blue help you make some cool savings, yet are still the hottest numbers around town.

Intelligent Stop & Go (ISG) (Blue model only)

Simply sitting at traffic lights or in traffic jams uses a lot of fuel. In these situations Intelligent Stop and Go (ISG), automatically stops the engine and re-starts the second you press down on the clutch. You'll hardly notice it but with up to 15% fuel saved you will notice the difference in your pocket.

Alternator Management System (AMS)

This clever technology controls charge to the battery to help lower fuel consumption. The battery will only be charged during deceleration or when the engine is working less hard, so you can keep going for longer.

Eco drive indicator (manual models only)

A dash display showing you the best time to change gear for more fuel efficient driving.

Electric power assisted steering

Tight parking spaces and slower driving speeds are easy to manoeuvre. The electric power assisted steering system is quieter, lighter and also saves energy and reduces emissions.

Low rolling resistance tyres (Blue model only)

The principle is simple: *Less effort means less energy* so reducing fuel consumption, but without compromising grip or safety.

WHATEVER, HOWEVER, WHENEVER

Life is always changing. Which is why you need a car that copes with whatever you ask of it. The i10 is just that.

This versatile 5 seater enables you to enjoy the ride in complete comfort. Anything you want to take with you fits in comfortably too. Handy cubby-holes hold things like MP3 players and maps, and with the seats neatly

folded you'll find wide open spaces for shopping or luggage for a break away.

Whatever you're carrying, wherever you're taking it, the i10 handles it all.

Regular seating position

All 5 seats up and the whole family travels in comfort, whatever the journey.

One seat folded

Two adults in the front, extra storage for day trip essentials in the back thanks to the 60:40 seat split, and still room for 2 passengers.

Rear seats folded

Rear seats fully down and enough space for even the most enthusiastic shopper.

Under floor storage in boot (Active & Style)

With additional storage below the boot floor, it's easier to pack the i10, whatever the load.

Front passenger under seat storage tray (Classic, Active & Style)

Whether it's your sat nav, phone charger or camera, keep valuable items safely out of sight.

Front seat back pockets (Classic, Active & Style)

Not just for maps. Colouring books, novels, newspapers. Lots of things actually.

Front door pockets

Additional storage, out of sight and within easy reach.

Front cup holders

A cappuccino, a bottle of water? ...or both.

12V Power outlet – front

Instant power for everything from mobile phones to sat navs. Being out shouldn't mean out of touch.

HOME FROM HOME

Whether you're popping down the road to the shops, or across country to visit family, the new i10 allows you to do it all in comfort.

From the music to the air conditioning, you have full control of your surroundings. Change things to be exactly how you want them, with big car features and

class-leading levels of equipment as standard. The five doors provide easy access, and allow all passengers to appreciate the space and generous legroom.

The new i10 is big on the thoughtful touches that make every journey a pleasure.

Air conditioning

This hot little car has standard air conditioning... helping you keep cool during those summer months.

Electric windows

Standard in the front on all i10s and also in the rear on Active and Style models. Bring the outside in, weather permitting!

Driver's seat height adjustment (Active & Style)

Hands comfortably on the wheel, feet perfectly positioned on the pedals with maximum lumbar support.

Height adjustable steering wheel

Fine-tune your driving position with the multi-adjustable steering wheel column.

Heated front seats (Style)

A real luxury and treat for both the driver and the front passenger, taking the chill out of those cold mornings.

Electric door mirrors (Active & Style)

Convenient and easy to operate with the touch of a button, giving you perfect all round vision.

RELAX

YOU'RE WELL LOOKED AFTER

The Hyundai i10 is a delight in so many ways. With its compact shape, eager and economical engines it makes driving a joy.

To back all this up you'll want the highest levels of safety specification for you, your friends and family. This street smart car gives you just that. Thanks to our clever

thinking and smart design, you can set off on your travels leaving your worries at home.

Enjoy all the great things about the Hyundai i10, knowing that the car is always looking after you.

Anti-lock brakes (ABS) with Electronic Brake force Distribution (EBD)

These fully automatic, computer managed technologies help prevent skidding and allow for safer controlled braking.

Front and front side airbags

You can't see them, but quietly and reassuringly, they protect passengers and driver alike.

Front seatbelt pre-tensioners

Seatbelt pre-tensioners use sensors that detect an impact and immediately tighten the seatbelt reducing forward motion of the occupant.

ISOfix child seat anchorage

Ensuring a child's safety in a car seat. Easy-to-use seat fixing points situated on the outer rear seats.

Seatbelt reminder

Just in case you forget, a console warning light indicates an unfixed driver seatbelt position.

Central locking

Safe, secure and convenient. Key operated or remote on the Active and Style.

BUYING HYUNDAI

LOOK FORWARD TO THE i10

The Hyundai i10 is for drivers who want the perfect accompaniment to their busy lifestyle. It's been created to give you the best experience, like everything we do. From designing exceptional cars, our unique Triple Care Package, to financing the car of your dreams and taking care of you and your vehicle throughout your ownership. At Hyundai we're not happy unless you are. You can trust us to get things right first time so you can enjoy spending more time doing exactly what you want. The i10 – enjoy it in comfort and style.

The Motability scheme enables people who receive the Higher Rate Mobility Component of the Disability Living Allowance to acquire a Hyundai car at a preferential price.

In recognition of the needs of Motability customers, many Hyundai models can be ordered on the 3 year Contract Hire Scheme with features such as power assisted steering, automatic gearbox and height adjustable driver's seat as standard. Most of our dealers are Motability Accredited so please contact them for further information. If you wish to find out more about the Motability scheme, visit the Motability website at www.motability.co.uk.

HYUNDAI CAR FINANCE

Many of our customers borrow money from somewhere to enable them to purchase their new Hyundai. At Hyundai Car Finance we believe we have a complete solution with a range of products for all Hyundai customers. We provide Hire Purchase or Personal Loan options. Simply finance any amount over any period between 1 to 5 years. For further details on the finance options available, please contact your dealer.

SEQUENCES

Reduce your monthly payments by deferring part of the cost to the end of the agreement, resulting in an optional final payment and offering you three great choices.

PAYMENT PROTECTION

We offer three levels of Payment Protection cover to cater for a whole range of circumstances.

GUARANTEED ASSET PROTECTION

Did you know that if your vehicle was written off as a result of an accident, fire or theft, your insurance company would only pay the current market value of the vehicle, and not what you actually paid for it? If you wanted to replace your vehicle you would have to find the difference. Gap Insurance can cover you for any shortfall from your insurance company in a total loss situation.
