PANORAMIC LIFE. THE ELEGANT EXTERIOR OF THE NEW CITROËN C3 IS SLEEK AND CLUTTER-FREE. IT BEGINS WITH THE SCULPTED GRILLE AND UNMISTAKABLE 'BOOMERANG' HEADLIGHTS, THEN THERE'S THE AMAZING PANORAMIC ZENITH WINDSCREEN.

THIS BREATHTAKING SWEEP OF GLASS CURVES UP INTO THE ROOFLINE AND MEASURES A FULL 1,350MM FROM TOP TO BOTTOM. A UNIQUELY STRIKING FEATURE, IT'S STANDARD ON SELECTION AND EXCLUSIVE MODELS OR A DESIRABLE OPTION ON VTR+.

INTERIOR INSPIRATION. YOU'LL SENSE IT THE MOMENT YOU GET INTO A NEW CITROËN C3: INSIDE IT'S INCREDIBLY LIGHT AND SPACIOUS.

ALL ROUND VISIBILITY IS EXCEPTIONAL, AND THE PANORAMIC ZENITH WINDSCREEN LETS IN MAXIMUM LIGHT AND LANDSCAPE. WITH DARK TINTING ON ITS UPPER SECTION AND SLIDING SUNBLIND WITH INTEGRAL VISORS, YOU'RE WELL PROTECTED FROM UNWANTED GLARE TOO. NOW SHAPED FROM EVEN HIGHER QUALITY MATERIALS, THE WHOLE INTERIOR FEELS FANTASTIC, WHILE SUBTLE USE OF CHROME AND LACQUER PLUS FRESH LOWER DASHBOARD COLOURS HEIGHTEN THE SENSE OF REFINED FLAIR.

› FINE-TUNED SUNSHINE

The panoramic Zenith windscreen, optional on VTR+ and standard on Exclusive versions, can bring you maximum sunshine, and to make sure nobody gets dazzled, the upper part is subtly tinted. For maximum protection, there is also a slide out panel with integral visors when you need it.

LIVING, BREATHING INNOVATION.

THE NEW CITROËN C3 IS FULL OF TECHNOLOGY THAT MAKES TRAVELLING TRULY EFFORTLESS. EVERYTHING YOU NEED IS CLEAR, INTUITIVE AND PERFECTLY PLACED.

> EMYWAY – YOUR WAY

On VTR+ and Exclusive versions, the optional eMyWay satellite navigation with 7" colour screen, reversing camera, rear parking sensors, gloss black dashboard and air freshener is subtly integrated into the dashboard and can guide you to any European destination.

> AUTOMATICALLY COOL

Automatic air conditioning, standard on Exclusive versions, maintains a perfect interior environment and is easily adjusted using the two clear, round, multi-function dials that flank a circular back-lit display.

> FORM AND FUNCTION

The stunning dashboard design with its bold curves, chrome rimmed dials and intuitive fingertip controls features a host of technology.

REAL QUALITY GIVES ENDURING PLEASURE.

HIGH QUALITY MATERIALS AND STYLISH FINISHES ARE EVERYWHERE IN THE NEW CITROËN C3, OFFERING MAXIMUM COMFORT FOR EVERYONE ON EACH JOURNEY.

THIS BUILT-IN REFINEMENT CREATES A GREAT SENSORY EXPERIENCE, ESPECIALLY AS IT'S ACCOMPANIED BY EXTRAORDINARY SPACE EFFICIENCY, EFFORTLESS FUNCTIONALITY AND THE LATEST TECHNOLOGY.

> MESSAGE SCENT

The scented air freshener, standard on Exclusive as part of eMyWay, gives you a choice of fragrances to diffuse a range of aromas from the central dashboard air vents.

> MAXIMUM COMFORT

The added comfort of a central armrest, standard on Exclusive versions, features a handy storage compartment.

> MATERIAL WORLD

Your fingertips will tell you a lot about the materials inside the New Citroën C3: tactile, sensuous and built to last.

› MOVING MUSIC

As well as RDS stereo radio and CD, including MP3 format discs, you can connect your MP3 player or USB stick to the USB dock in the centre console of VTR+ and Exclusive versions. In addition to USB connectivity, VTR+ and Exclusive versions also benefit from Bluetooth® handsfree and media streaming.

› SOMEWHERE FOR EVERYTHING

There are stowage spaces all around the interior for valuables and vital items – everything has a home!

› MADE FOR LIFE

With five people sitting comfortably and all seats up, there's 300 litres of boot space. To increase the volume, just pop down the 1/3–2/3 split/folding rear seat for the ideal configuration. With all seats folded flat you're looking at a load length of 1.19 metres. The removable parcel shelf can be neatly stowed at the bottom of the boot. It's called modularity and it's made for living.

NEW GENERATION EFFICIENCY. ADVANCED, AERODYNAMIC AND LIGHT, THE NEW CITROËN C3 USES CITROËN INNOVATIVE THINKING TO MINIMISE ITS ENVIRONMENTAL FOOTPRINT – TAKE THE e-HDi 70 AIRDREAM MANUAL DIESEL ENGINE WHICH PRODUCES JUST 87G/KM CO₂.

THERE ARE SEVERAL ENGINES TO CHOOSE FROM IN THE RANGE. EACH ONE BRINGS A BALANCE OF PUNCHY PERFORMANCE, MAXIMUM ECONOMY AND LOWER EMISSIONS. THE INTRODUCTION OF THE NEW THREE CYLINDER VTi 68 PURETECH PETROL VERSION OFFERS OPTIMISED PERFORMANCE WITH FUEL CONSUMPTION AS LOW AS 65.7MPG COMBINED AND CO₂ EMISSIONS OF JUST 99G/KM.

› RIGHT GEAR, RIGHT TIME

In response to the ever increasing drive for economical and ecological improvements, the New Citroën C3 Euro 5 manual engines feature fuel economy assistance via the Gear Efficiency Indicator. This function enables you to reduce your fuel consumption by letting you know the perfect moment to change to the next gear up.

› PURE TECHNOLOGY

The VTi 68 petrol engine joins the VTi 82 in the PureTech range, offering more power with less weight, better fuel economy and significantly lower CO₂ emissions compared to previous generation petrol engines. With a range of petrol and diesel engines amongst the most efficient in their class, New Citroën C3 considers the environment and your pocket.

360 DEGREES OF SAFETY. ALL-ROUND PROTECTION IS ENGINEERED INTO THE NEW CITROËN C3. ITS IMPACT ABSORBING STRUCTURE IS COMPLEMENTED BY UP TO SIX AIRBAGS AS PART OF AN ADVANCED SAFETY SYSTEM.

TWO FRONT AIRBAGS AND TWO LATERAL FRONT AIRBAGS ARE STANDARD ON EVERY MODEL. TWIN SIDE CURTAIN AIRBAGS ARE ALSO STANDARD ON VTR+ AND EXCLUSIVE VERSIONS. SO RELAX AND ENJOY THE JOURNEY – NEW CITROËN C3 IS A SAFE WAY TO TRAVEL.

➤ ACTIVE ELECTRONICS

A whole range of active safety technology is ready for any crisis. Powerful ABS and Electronic Brakeforce Distribution (EBD), plus Emergency Braking Assistance are standard. If you do have to brake heavily or suddenly change direction, the New Citroën C3 gives a clear visible warning by automatically flashing the hazard warning lights – the message is clear for other road users. A warning light and audible signal will tell you if the driver's seat belt is unfastened. For added safety, Electronic Stability Control is standard on e-HDi 70 Airdream EGS VTR+ and e-HDi 115 Airdream 6-speed manual Exclusive and optional on all other Exclusive versions. Beneath it all you'll feel the New Citroën C3's sure footed and inspiring handling that ensures sharp responses and secure roadholding.

➤ AUTOMATICALLY SAFER

Standard on VTR+ and Exclusive versions, the cruise control with speed limiter ensures that you never exceed your chosen preset speed, so you're always inside the safe and legal limits. On Exclusive versions, you also benefit from automatic lights and windscreen wipers that respond to changes in the weather and light levels instantly and automatically.

➤ FAMILY FIRST

Child safety is as important to us as it is to you. There are Isofix points in the rear and the seats are designed to maximise protection and comfort for children. A handy electronic child lock button also helps to keep children in safe hands. This is family transport with Citroën inspiration added.

➤ SAFE SMOOTH PARKING

Optional rear parking sensors and eMyWay satellite navigation system with colour reversing camera makes light work of even the tightest city parking spaces.

THE POWER OF THREE. THE NEW CITROËN C3 RANGE IS A SENSORY TREAT, WHETHER YOU'RE ADMIRING ITS SCULPTED PROFILE, RELAXING IN STYLISH COMFORT, ENJOYING THE TACTILE QUALITY OR EVEN PERSONALISING THE AIR FRESHENING FRAGRANCES.

THERE ARE THREE UNIQUE VERSIONS, EACH WITH ITS OWN PERSONALITY, SPECIFICATION AND STYLE. THE DIFFERENCES ARE CLEAR AND STRAIGHTFORWARD SO CHOOSING SHOULD BE BEAUTIFULLY SIMPLE.

WITH THE PROVEN CREDENTIALS AND ENVIRONMENTAL PERFORMANCE OF CITROËN HDi DIRECT INJECTION ENGINES AS INSPIRATION, e-HDi ADDS NEW TECHNOLOGY, SUCH AS A SMOOTH, SIMPLE STOP & START SYSTEM AND EGS GEARBOX. STOP & START PUTS THE ENGINE INTO IDLE MODE AS YOU DECELERATE AND STOPS ALTOGETHER AS YOU COME TO A HALT. THE MOMENT YOU TAKE YOUR FOOT OFF THE BRAKE, IT RESTARTS SILENTLY AND WITHOUT VIBRATION. THE RESULTS ARE A DRAMATIC REDUCTION IN BOTH FUEL CONSUMPTION AND CO₂ EMISSIONS, COMBINED WITH RESPONSIVE PERFORMANCE WHEREVER YOU GO.

We've also been equipping more of our vehicles with more environmentally friendly breakthroughs, such as our Electronic Gearbox System (EGS), which boasts impressively greener credentials, with less pollution and up to 5% more economy than a conventional manual gearbox system. In addition, Citroën has expanded the use of the exceptionally efficient, self-regenerating Diesel Particulate Filter System in our models. Cleaner, greener driving without taking away from the drive – that's what you can continue to expect from Citroën.

› PURE TECHNOLOGY

Demonstrating Citroën's commitment to Créative Technologie, PureTech engines provide increased power with lower fuel consumption and emissions by adopting a smaller and lighter three cylinder configuration constructed of pressure-cast aluminium. In conjunction with low friction component coatings, improved air and fuel flow and optimised combustion, this allows engines to offer more power, better fuel economy and significantly lower CO₂ emissions.

› ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt concept combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

› AIRDREAM – A BENCHMARK

Citroën's environmental commitment and advanced efficiency are perfectly illustrated by Airdream. It's a benchmarking scheme that has three demanding criteria which a vehicle must achieve before it can wear the name. Firstly it must emit no more than 140g/km CO₂. Secondly it must be produced at a plant that meets the rigorous ISO 14001 certification and also it must be 95% recoverable. Only e-HDi, electric or Hybrid4 engined Citroëns currently qualify. It's no surprise that Citroën is one of the leaders in Europe for low CO₂ emissions.

All Citroën vehicles are designed to be 85% recyclable.

GLOSSARY

> e-HDi DIESEL ENGINE

The e-HDi 70 Airdream engine is capable of 83.1mpg and CO₂ emissions of just 87g/km combined with the EGS gearbox. It has a reversible starter-alternator that works in tandem with an e-booster to provide a seamless Stop & Start function. Going further than other similar systems, the e-HDi's Stop & Start puts the engine into idle mode while decelerating before coming to a complete standstill. This reduces consumption by 15% in urban driving.

> HIGH-PRESSURE DIRECT INJECTION DIESEL ENGINE

Citroën's HDi diesel engines operate with the fuel under extremely high pressure, enabling microscopically precise injection control. With this level of management it's possible to inject at different times during the same engine stroke allowing total control over the combustion process. This has allowed our engineers to reduce carbon monoxide emissions by 40%, unburned hydrocarbons by 50% and engine particulates by 60%. Fuel consumption is 20% lower than a prechamber diesel engine, resulting in an equivalent reduction in CO₂ emissions and thanks to the torque available at low engine speed it could be argued that driveability is now better than in petrol engine cars.

> ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the car to continue being steered and therefore controlled during this braking incident. The Citroën C3's ABS system is further enhanced with EBA and EBD.

> ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

A conventional ABS system cannot account for any of the four wheels wanting to lock more quickly than the others (for example, two of the wheels may be on snow and two on tarmac). EBD reads the deceleration rate of each wheel individually and applies the ABS principles accordingly.

> EMERGENCY BRAKING ASSISTANCE (EBA)

As drivers we find it difficult to instinctively brake very hard, but this is often what is needed in those rare emergency situations. The EBA system recognises our 'attempt' to brake hard and in combination with the ABS and EBD systems instantly applies the maximum stopping power possible.

> ELECTRONIC STABILITY CONTROL (ESC)

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESC's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

> ON-BOARD TRIP COMPUTER

The Citroën C3's multi-function on-board trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level.

> RADIO DATA SYSTEM (RDS)

Traffic information on FM radio, allowing the station name and other information to be transmitted alongside audio information.

> EMYWAY SATELLITE NAVIGATION SYSTEM

The eMyWay satellite navigation system features a 7" screen and covers UK and Europe. Its in-built memory provides information about speed limits and lets you know which lane to use when reaching complex intersections. The system also lets you adapt your route based on traffic conditions, with data provided by Trafficmaster and ViaMichelin in the UK and France.

> VARIABLE POWER ASSISTED STEERING

A system that provides extra power assistance for a vehicle's steering at low speeds (such as turning a sharp corner) and less assistance during high-speed situations.

> FRONT SEAT BELT PRE-TENSIONERS

In the event of a crash, a pre-tensioner will tighten the seat belt almost instantaneously. This reduces the load on the occupant in a violent crash. Like airbags, pre-tensioners are triggered by sensors in the car's body, and use explosively expanding gas to drive a piston that retracts the belt. Seat belt pre-tensioners also lower the risk of "submarining", which is when a passenger slides forward under a loosely worn seat belt.

> ISOFIX

A standardised and more simple method for installing child seats, each seat is 'clicked' into place via a three point system. On the Citroën C3, Isofix is installed on the outer rear seats.
