

# FORD TRANSIT CUSTOM

## Quality

Quality and durability are built into your Ford at every step. After many years of service it will feel as good – and drive as beautifully – as it did the day you picked it up.

## Green

Using advanced Ford ECOnetic Technology, we're committed to creating vehicles with improved fuel economy, reduced CO<sub>2</sub> emissions and a lower overall cost of ownership.

## Safe

Ford's safety technologies are constantly evolving and improving. We build the latest safety measures into our vehicles to help you feel protected and secure.

## Smart

The clever use of loadspace, windscreen wipers that know when it's raining, headlights that know when it's dark – just some of the many smart solutions from Ford that make life a little easier.

Go Further

10.9 m turning circle

With its excellent 10.9 m kerb-to-kerb turning circle, the short wheelbase (SWB) Transit Custom is the ideal choice for demanding city work.

Good looks that reflect success

Wherever work takes you, the new Transit Custom makes an instant impression. Eye-catching design combines with supreme functionality, reliability and a low cost of ownership.

Auto-Start-Stop

Automatically switches off the engine when you come to a halt and restarts smoothly when you want to move off, and so reduces fuel consumption and CO<sub>2</sub> emissions.

Proven Duratorq TDCi engines

These advanced, highly fuel-efficient engines are designed for durability and offered with an impressive choice of power and torque outputs.

Intelligent loadspace

Load three europallets or six cubic metres\* of cargo. Standard 8' x 4' boards fit lying down or standing. Some 3-metre long industry standard items (pipes, wood), can even be carried in the short wheelbase version, thanks to the flexibility of the standard load-through bulkhead.

\*Loadspace shown as SAE measurement.

SYNC

The next generation of driver interface, SYNC lets you control a Bluetooth®-enabled phone, all at the sound of your voice. It can even read out texts and give you diary reminders. (Option)

Ford kinetic Design

Bold, dynamic lines and full surfaces that give the impression of energy in motion, even when the Transit Custom is standing still – this is Ford kinetic Design.

Quality designed around you

It is immediately evident when you climb into the cab that the new Ford Transit Custom sets a benchmark for attention to detail. Great to drive, great to sit in, the new Transit Custom boasts premium finishes and high-quality materials, without compromising everyday practicality. The built-in two-litre bottle holders and large pockets in the doors are just two of its many thoughtful features, and there is even a handy compartment cleverly concealed on top of the instrument panel, which provides easy access to a USB port and 12-volt power supply and allows you to stow your personal gadgets safely out of sight.
