

NEW CITROËN C3

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

1934

CITROËN revolutionises the automotive landscape with the Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

2014

CITROËN C4 CACTUS is launched, incorporating the innovative AIRBUMP® protection system.

ConnectedCAM Citroën™*

NOTHING GETS MISSED

The ConnectedCAM Citroën™* camera is an inspiring in-vehicle safety innovation. Constantly filming when you're on the move, it senses if you have to slow down suddenly and automatically triggers a video that records 30 seconds before and 1 minute after the event. If you do have an accident, this saved video can be used as evidence. There's also a free ConnectedCAM Citroën™ app** that transmits your GPS coordinates every time you stop. This means your NEW CITROËN C3 can always be found in an instant.

* Available on selected models. Filming and taking photos with ConnectedCAM Citroën™* must comply with the laws and data protection regulations of the country you're in, and you are responsible for meeting these legal obligations. You will also need to check with your insurance company whether they will accept recordings from the system as legal proof before use.

** Your free app is available on the App Store and Google Play.

ConnectedCAM Citroën™

PERSONAL SAFETY CAMERA

The free ConnectedCAM Citroën™* app is looking out for you in many ways. It has a geolocation function that transmits your GPS coordinates each time you stop, which could prove invaluable in the event of an accident. Additionally, if you're involved in an impact while travelling, ConnectedCAM Citroën™ automatically saves video footage from 30 seconds before and 1 minute afterwards.

**Free app available on App Store and Google Play .*

**Filming and taking photos with the connected camera and using recordings must comply with various laws, depending on the respective country, for example data protection regulations. Please check it with your insurance company before using.*

CONNECTIVITY COMES NATURALLY

Using NEW CITROËN C3's extensive connected technologies is simply second nature. CITROËN Nav* is controlled by voice recognition or through the 7 inch touch screen and brings you a wealth of information, from real time traffic reports to the location and price of fuel, car parks and even weather forecasts. There's also a Danger Zones option which sends you both audible and visual alerts for known accident black spots.** On some models you can enjoy Mirror Screen Technology, which lets you control your smartphone+ applications using the touch screen. This ingenious feature is available via Apple Carplay™, Mirror Link® and Android Auto.
