

**WORK SMART™**

**REFUSE**

# PROGRESS STARTS WITH ONE STEP: THE FREIGHTLINER EconicSD.

The innovative and modern Freightliner EconicSD™ refuse truck combines versatility, ergonomics and superior technology like virtually no other commercial vehicle. Its unique low-entry concept coupled with uncompromising quality provide just what you need: unparalleled safety, uptime and productivity, day in and day out.

## SPECIFICATIONS

### POWERFUL & EFFICIENT

- Equipped with the Detroit™ DD8™ engine, providing the longest scheduled maintenance intervals in its class (350 hp / 1050 lb-ft torque)
- Powerful premium engine brake to reduce mechanical brake wear
- The DD8 engine features Detroit™ Connect Virtual Technician™ remote diagnostic service for maximized uptime and productivity
- Allison 3000 series six-speed automatic transmission with PTO capability

### ERGONOMIC

- The innovative low-entry concept, including a kneeling and lifting function, makes getting in and out of the cab easier than virtually any other commercial vehicle
- Suspended driver's seat features multi-axis adjustment and heating capability for ultimate comfort
- Cab design and low floor height facilitate through-cab access for both drivers and passengers
- Thoughtfully designed cab is spacious and modern, including an intuitive digital instrument cluster

### SAFETY—INSIDE & OUT

- Large panoramic windshield and low seating position for maximum visibility
- Mirror system for expanding field of vision to include work areas and potential blind spots
- Optional, pneumatic bi-fold door with full-length tinted glass located on the passenger's side
- Standard Electronic Stability Control (ESC)
- Equipped with the Detroit Assurance® suite of safety systems, this vehicle comes standard with active brake assist, adaptive cruise control and lane departure warning to reduce the likelihood of accidents
- Optional safety features include side guard assist and a built-in camera system with 360-degree views displayed on a flat-screen dash monitor
- Steel-reinforced aluminum cab

### MANEUVERABLE

- Short wheelbase ensures superior maneuverability
- Wheel cut enables advanced mobility while driving in urban and neighborhood environments

### CONFIGURATIONS

- 6x4
- High cab
- Low cab

The Freightliner EconicSD is equipped with the Detroit DD8 engine, with an industry-leading combination of power and efficiency. The DD8 features variable cam phasing technology for efficient aftertreatment system performance.

The unique low-entry concept includes a kneeling and lifting function which further reduces an already low step-in height by another three inches.

The panoramic view allows for easy navigation through complex urban environments and neighborhood streets.

Steering wheel controls allow drivers to cycle through key information displayed on an intuitive LCD screen on the dash.
