grand marquis

mercury

2000

commanding

Comfort. Security. Confidence. Whether in the city or on the highway, Grand Marquis delivers all — and then some. Built on a full-length frame, moved by a rear-wheel-drive powertrain and offering impressive LUXURY, Grand Marquis is more than just a car — it's a First-Class transportation system. This is traditional value, updated with Mercury's brand of creative engineering. This is classic styling, with attention to detail. This is premium automotive refinement, with a healthy dose of innovation. This is Mercury Grand Marquis for 2000.

brilliant

Grand Marquis helps define the concept of *full-size sedan*. Driver and passengers alike are pampered with generous legroom and hiproom — among the best in this category. With a wheelbase of over nine-and-a-half feet, and its PrecisionTrac™ suspension system featuring Watt's linkage, Grand Marquis absorbs most road bumps without sacrificing good handling characteristics. The 4.6L SOHC V8 provides ample power, especially in its optional Handling Package configuration. And standard four-wheel disc brakes ensure **CONFIDENT** stopping. Grand Marquis earned a double five-star crash test rating for both the driver and front passenger. That's not only the government's highest crash test rating, but Grand Marquis is the only car in its class to attain it.*

*Driver and passenger front crash test. Class is large cars under \$35,000.

power

by a 4.6L V8 engine — a very intelligent **BALANCE** of absolute power and good fuel economy. Coil-on-plug ignition eliminates the need for spark plug wires and provides more positive detonation at each piston cycle.

The security of ABS combined with the confidence provided by Mercury's All-Speed Traction Control — both available as options — are part of what provides the Grand Marquis driver with a feeling of INDEPENDENCE. Road conditions may vary, but Grand Marquis will stay the course.

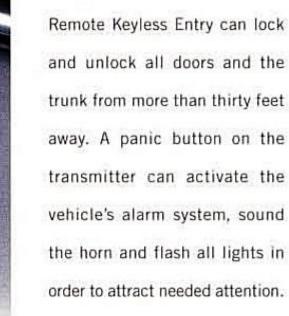

Electrochromic — that's a high-tech term for never having to fiddle with the inside rearview mirror to avoid glare from behind; Grand Marquis does it for you, automatically. The optional mirror even includes a compass to **GUIDE** you to your destination — and home again.

A user-coded keypad on the driver's door helps prevent unauthorized entry. In addition to augmenting overall vehicle security, the optional keypad activates the vehicle's illuminated entry system, locks and unlocks doors, releases trunk and prevents driver lockout.

The Grand Marquis power driver's seat and, as an option, the front passenger seat, are easily adjustable with well-placed and logically shaped power controls. Eight distinctly different positions can be individually modulated — all with fingertip control.

grand

Beautiful, functional and oh, so comfortable, 2000 Grand Marquis is designed to combine useful technology with plush luxury. The driver benefits from having controls within ready reach, making it easy to monitor vehicle gauges. Passengers have sufficient room to remain COMFORTABLE even on longer trips. Seating surfaces are structured and designed to provide ample support; safety belts are optimally positioned not to hinder movement; and with the available electronic automatic temperature control and six-speaker premium sound system, PEACEFUL journeys await the voyager. Mercury was, after all, the Roman god of travel.

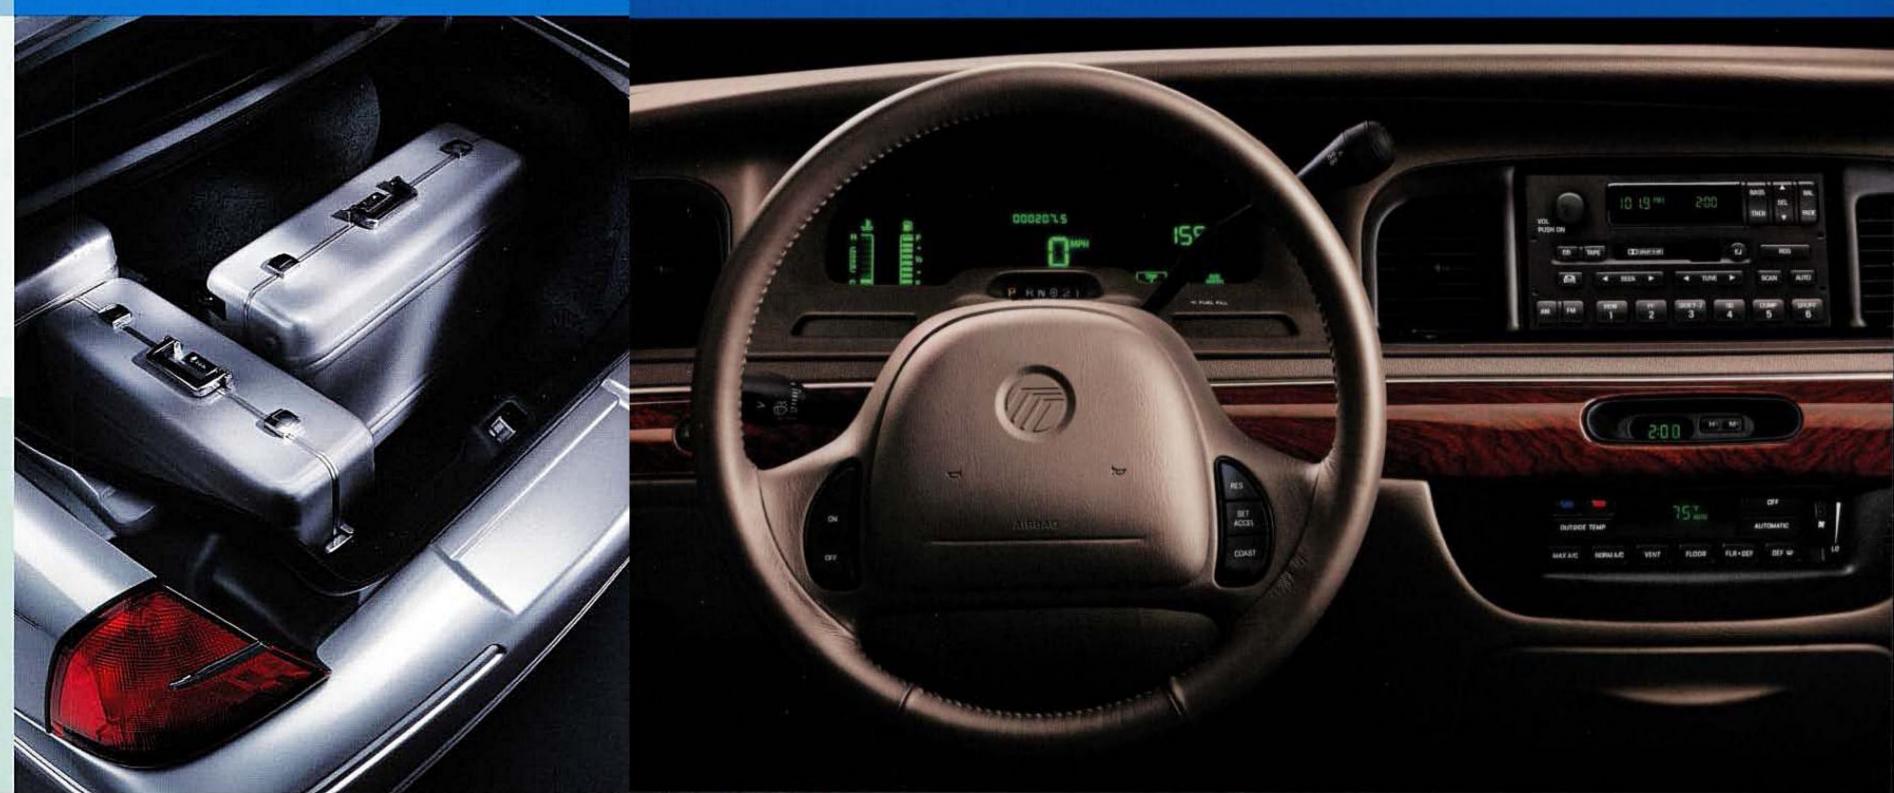

Engineered into the driver's visor, the optional HomeLink® allows three remote devices to be activated from within Grand Marquis.

No separate controls to lose — and a greater feeling of security as you arrive home and open your garage door remotely.

Careful, you may lose things in here. The 2000 Grand Marquis trunk is exceptionally **DEEP**; it will accommodate almost 21 cu ft of luggage and other precious "stuff," including pieces as tall as twenty-five inches. And, when help is available to unload the trunk, an electric release

for the lid is conveniently located in the driver's door panel. Ever mindful of safety and security issues, Mercury engineers have even devised an Emergency Trunk Release. Its fluorescent T-handle will unlatch the rear deck lid from inside the trunk.

optional equipment/packages

LS PREMIUM PACKAGE

- 16-inch teardrop alloy wheels
- Leather-wrapped steering wheel
- · Electronic automatic temperature control
- 8-way power passenger seat with power recliner and power lumbar support
- Electrochromic (auto-dimming) interior rearview mirror with compass

LS ULTIMATE PACKAGE

Includes all of the Premium Package equipment plus the following:

- Anti-lock Brake System (ABS)
- All-Speed Traction Control
- Digital instrumentation with built-in message center
- AM/FM stereo/cassette/ Premium Sound with Radio Data System (RDS)

HANDLING PACKAGE

- Unique tuned suspension (shocks, spring rates, rear stabilizer bar)
- 3.55 axle ratio

- . Dual exhaust with 215 hp engine rating and 285 lb-ft of torque
- · Rear air suspension with unique springs
- 16-inch lacy-spoke cast aluminum wheels with P225/60TR16 black sidewall "Handling" tires

A 16-inch chromed locking wheel cover

- B 16-inch luxury chromed wheel cover
- C 16-inch teardrop alloy
- D 16-inch lacy-spoke aluminum
