

Model shown: Civic 3dr 1.6i VTEC Sport

The new Honda Civic has had so many improvements, it may seem like a completely new car. In fact it's had 3351 amendments. The 3-door is now even sportier than ever. Not only has the grill been restyled with brighter projector style headlamps, the 1.6 has been upgraded and now has improved engine response and acceleration. Extensive fine-tuning of the suspension and power steering endow the 2004 Civic with much crisper handling with improved steering response, ride comfort and smoothness. In addition to all these changes, the 5-door is more refined and luxurious with new supportive front seats and trim materials plus luminous instrumentation and steering wheel audio controls. Both the 3 and 5-door are the most spacious in their class and offer a choice of fuel injected VTEC and diesel engines. The Civic 4 door SE Executive IMA, which uses a petrol-electric engine system, comes with an incredibly low BIK tax rate of 12% in 2003/4. What's more, it also qualifies for a £1,000 PowerShift grant and is eligible for a 100% discount of the London Congestion Charge. With such innovation, it's easy to see why the Civic IMA has won numerous awards including Ecofleet Car of the Year at the 2003 Fleet Excellence Awards.

Prices from: £10,000 OTR

Annual Tax Liability from*	BIK % of P11D	22%	40%
2003/4	15%	£325	£592
2004/5	15%	£347	£632

Fuel Economy from*: Combined (mpg) 44.8
