Exterior and Interior

Space, convenience and style

INTERIOR

3 rows, 7 seats, 64 configurations

With seating for 7 people, there's plenty of room for everyone in the Pathfinder (SE and above). The split 2nd and 3rd row seats fold into 64 different configurations, giving you a full flat floor if needed. Even the front passenger seat folds flat to handle cargo up to 2.8m long - such as a ladder or canoe.

Great storage space

There are so many ways to load Pathfinder. You can fold down the seats (without removing them) for a flat load floor. Or you can use a cargo net with 12 trunk hooks. Valuables can be hidden in the 2nd row floor storage. And even with 7 seats in use, the Pathfinder has the largest load-space length behind third row seats in its class – leaving enough space to stow a cool box. So whatever you're carrying, there's always room for it in the Pathfinder.

Dual-Zone Climate Control

All Pathfinder's feature climate-control with individual temperature adjustment for the driver and front seat passenger. Rear seat passengers enjoy separate ventilation controls on SVE and T-Spec models.

EXTERIOR

Auto-Headlamps

The headlamps on SVE and T-Spec models are set to automatically operate when the ambient light falls below a certain level (i.e. at night time or when driving through a tunnel).

Authentic 4x4 styling

With a commanding front grill and imposing flared wheel arches, the Pathfinder looks ready to take on anything and go anywhere.

Tough and contemporary

Built for all terrain, Pathfinder's wide stance and long wheelbase provide the strong foundations for a smooth ride with plenty of space inside. In spite of its chunky design, it has impressive aerodynamics with a drag coefficient of only 0.38.

Tailgate with Independent Glass Hatch

Standard on SE and above, Pathfinder is fitted with an opening glass hatch - for easy access to the load area.

NISSAN PATHFINDER Performance

More power, better handling

ENGINE

2.5-litre common rail diesel engine

With the 174HP dCi engine, Pathfinder can accelerate from 0 to 62mph in just 11.5 seconds (11.6 seconds with automatic transmission). It is also among the most fuel-efficient in its class - achieving up to 31.4 mpg on the combined cycle. And with 403Nm of torque, you can haul 3000Kg of boat, trailer or cargo.

4.0 V6 Petrol Engine

Pathfinder's new 269HP petrol engine is derived from the unit featured in the legendary 350Z. It delivers the ultimate in responsive 4x4 performance and refinement.

HANDLING

Maximum traction with ALL MODE® 4x4 system

Mud, rain or snow - the Pathfinder's ALL MODE 4x4 electronic system offers maximum traction and instant response. Whatever the weather or surface, you have the confidence of knowing that the four-wheel drive will engage automatically when conditions demand it. For really tough terrain, engage low-ratio and enjoy controlled progress.

Dynamic performance

The Pathfinder enables you to go anywhere with confidence, both on and off road. All Pathfinders have ESP+ (Electronic Stability Program+) to keep you in control on slippery roads and during emergency manoeuvres. Its powerful engine has enough torque to handle the worst off-road conditions. And the independent suspension provides an exceptionally smooth ride.

Front and rear independent suspension

With independent suspension for each wheel, Pathfinder's suspension responds to uneven surfaces without transferring the shock to the other wheels. This creates a smoother ride for the passenger.

NISSAN PATHFINDER Performance

	FUEL CONSUMPTION	CO2 Emissions g/km	RELATIVE ENERGY CONSUMPTION
2.5 dCi 174 Automatic (5 door (7 seats))	10.1	267	F
2.5 dCi 174 Manual (5 Door (5 seats))	9.0	238	F

Safety and Security

Protect yourself

PASSIVE SAFETY

Airbags All-Round

In addition to driver and passenger airbags, Pathfinder features front side and curtain airbags providing added protection to all passengers.

Front seat active head restraints

Active headrests limit head movement if you're hit from behind. They move forward, then return to their normal position as the impact subsides. This helps reduce the risk of whiplash injuries for you and your front seat passenger.

Zone Body Construction

The Pathfinder's solid 'zone body' construction provides maximum strength in case of collision. High-strength steel and cross-members reinforce the cabin, and strategically placed front and rear crumple zones help absorb crash energy. The Pathfinder's pipe-style steel side-door guard beams will also reduce injury in side impacts.

ACTIVE SAFETY

ESP+

Standard on every Pathfinder, the Electronic Stability Program+ system enhances stability to help you retain full control in difficult situations. By managing engine output and applying brakes individually at each wheel, ESP+ helps you corner safely on slippery roads. It also helps you maintain stability during rapid direction changes, such as swerving to avoid an obstacle.

Xenon headlamps

Fitted as standard on T-Spec versions, Xenon headlamps are nearly as bright as daylight, so at night or during bad weather, visibility is exceptional. Xenon headlamps also make you more visible to other vehicles.

High-Command Driving Position

Pathfinder's elevated driving position ensures a commanding view of the road ahead - enabling you to anticipate problems before they occur.

ABS + EBD

Braking hard normally increases the load on the front brakes, however, the Pathfinder's Electronic Brake force Distribution (EBD) balances the braking effort between the front and the back. This creates maximum braking efficiency. At the same time, ABS prevents the wheels locking, keeping you in full control of the vehicle.

Security System

Pathfinder features an advanced array of security devices including engine immobiliser,

Safety and Security

Protect yourself

alarm, anti-hijack keyless entry and superlocking system. All combine to ensure that Pathfinder receives a Thatcham category 1 security rating.

Grades & equipment

AVAILABLE GRADES

Grade : S

S is the entry 5 seat grade with standard specification including dual-zone climate control and 17" alloy wheels.

From £24,500

Grade : SE

The SE grade has a third row of seats and provides plenty of room for seven passengers. Extra equipment for the SE includes front fog lamps and roof rails. It also has opening glass on the rear hatch, which allows easy access to the cargo area.

From £26,300

Grade : SVE

The SVE combines style and elegance with practicality and useful technology. Heated and electrically operated leather seats, cruise control, rear air conditioning and an intelligent key are all standard.

From £28,760

Grade : T-SPEC

The Pathfinder T-Spec offers the ultimate in luxury and capability. Special features include a voice activated DVD satellite navigation with TMC traffic avoidance, plus a colour rear view camera to help you squeeze into the tightest of parking spaces.

From £31,160
