HONDA S2000 GT
EDITION 100

Honda S2000 GT Edition 100 | 2.0i VTEC GT | 240PS @ 8300rpm | 208Nm @ 7500rpm | Urban: 20.3mpg | Extra Urban: 36.2mpg | Combined: 28.2mpg | CO₂: 236g/km

The Honda S2000 embodies the commitment and purpose that Honda believes in when it comes to delivering pure driving pleasure. Soichiro Honda said that when it came to building sports cars he "didn't want to build a car like everyone else's". The Honda S2000 has been designed with the same accuracy, detail and dedication Honda employ to deliver high performance race results. The Honda S2000 GT Edition 100 delivers those subtle refinements you'd expect when continuing to celebrate a classic, which is why only 100 are being made available in the UK.

Uniquely finished in Grand Prix white, the Honda S2000 GT Edition 100 also comes with new graphite effect alloy wheels and black badge garnish to compliment the iconic classic design.

And like our original two-seater sports cars, the Honda S2000 GT Edition 100 has been manufactured with great precision, both from a performance and aesthetic perspective. The new aluminum gear knob with red trimmed leather stitching adds to its stylish and refined interior design.

The core of the Honda S2000 remains the multi-award winning 2.0 litre naturally aspirated 4-cylinder DOHC VTEC engine. With an engine output delivering power from low engine speeds all the way up to the 9,000rpm redline, 0-62mph in 6.2 seconds never felt so exhilarating. Finally, to ensure every driver understands they are behind the wheel of something unique, each Honda S2000 GT Edition 100 features a limited edition serial number plaque on the kick-plate. A reminder that each time you step into the car you are celebrating over 50 years of race-bred engineering.

For more information contact your local dealer or the Honda Contact Centre on 0845 200 8000.
